CUSTOMS POWER OF ATTORNEY

and

Acknowledgment of Terms and Conditions of Service

C# 11285

Social Security numb (b) (6)
Date of birth

Know all men by these presents: That, Robert L. Hixson, JR
(Full legal name of individual)

residing at (b) (6) Dallas, TX 75225
(Residential or physical mailing address, P.O. Box is not accepted)

hereby constitutes and appoints: **HUNTER INTERNATIONAL BROKERAGE SERVICES, INC., its officers, authorized employees and duly appointed sub-agents** to act for and on its behalf as a true and lawful agent and attorney of the grantor named above for and in the name, place, and stead of said grantor from this date and in all Customs Districts, and in no other name to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, carnet or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandise shipped or consigned by or to said grantor, to perform any act or condition which may be required by law or regulation in connection with such merchandise to receive any merchandise deliverable to said grantor:

To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make sign, declare, or swear to any statement, supplemental statement, schedule, supplemental schedule, certificate of delivery, certificate of manufacture, certificate of manufacture and delivery, abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filing in any customs district:

To sign, seal and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise;

To sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor;

To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantor's name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor;

To waive the requirement of other Customs Brokers transmitting a copy of the customs entry CF7501 and the Customs Broker's bill of services directly to the undersigned grantor in accordance with CF 111.36(a) & (b). Such entry summary and bill will be transmitted through Hunter International Brokerage Services, Inc. It is also understood that the agreement between Hunter International Brokerage Services, Inc. and other Customs Brokers does not forbid or prevent the Customs Broker from having direct contact with the grantor in accordance with CFR 111.36(c)(3).

To generally to transact at the customs houses in any district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent and attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents the forgoing power of attorney to remain in full force until notice of revocation in writing is duly given to and received by a District Director of Customs.

The undersigned grantor of this power of attorney hereby agrees to HUNTER INTERNATIONAL BROKERAGE SERVICES, INC. Terms and Conditions of Service, which are attached hereto and incorporated herein by reference.

IN WITNESS WHEREOF, the said (Print full legal name) Robert L. Hixson JR.

has caused these presents to be sealed and signed: (Signature) (b) (6)

(Capacity) _____ (Date) 6/7/17

Important note: If you are the importer of record, payment to the broker will not relieve you of liability for Customs charges (duties, taxes or other debts owed Customs) in the event the charges are not paid by the broker. Therefore, if you pay by check, Customs charges may be paid with a separate check payable to the "U.S. Customs Service" which shall be delivered to Customs by the broker. Importers who wish to utilize this procedure must contact our office in advance to arrange timely receipt of duty checks.

(Mandatory requirement to validate this POA is to provide a CLEAR copy of your passport or driver's license or have this document notarized and mail to our office at Hunter Int'l., 5674 Stoneridge Drive, Ste 209, Pleasanton, CA 94588, tel (925) 417-5270, fax (925) 417-0170)

Attached is your new driver license/identification card.

Please check your new attached card very carefully. If you find any errors, email DriverLicenseErrors@dps.texas.gov or call the Contact Center at (512) 424-2600. If there are no errors it is very important that you destroy your previous driver license or identification card. It is a violation of Texas State Law to have more than one driver license or identification card in your possession.

Thank You and Please Drive Safe!

Did you know you can....
- Get your driver record immediately online at www.texas.gov
- Pay Driver Responsibility Program surcharges at www.txsurchargeonline.com
- Pay Driver License reinstatement fees at www.texas.gov/driver

Did you know you have....
- 30 days to change your address when you move
- An option to record an emergency contact phone number, directive to physician and allergic reactions to drugs on the reverse side of your card

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Cleveland	William	Frances	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b)(6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Hickory	Mississippi	39332	Newton	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and nd belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Expires 08/31/2020

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

(b)(6) [redacted]

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Billy Cleveland (b)(6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   Loxodonta Africana (Tusk & skull) Bones, leather Male furniture

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   N/a.

   b. Date wildlife is to be hunted:

   N/a

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   N/a

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

   Mopani, Hoedspruit, South Africa Mpumulanga Province.

   b. Date wildlife was hunted:
   July 5, 2017

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:
Outfitter - John Luyt / Professional Hunter - John Luyt
Duke Safaris.

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:
Safari Taxidermy, 47 Gaud Street, Laboria
Polokwane, Limpopo South Africa.

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). - As send

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].
Name: Mrs. Charlene du Toit
Business Name: Zingela forwarders.
Address: Unit 13, Brentwood Business Park, No 37 Rd 3, Brentwood P
City: Benoni
State/Province: Johannesburg
Country, Postal Code: 1501

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

OMB Control No. 1018-0093
Expires 08/31/2020

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more

Applicant's signa (b) (6) Date: 9/5/18

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

N/A

2. Who should we contact
Rut Miro
Conservation Force, 504-83 (b) (6)

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   ELEFANT

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:
   CHILANGA / RYAMPALA ZAMBIA
   MUNYAMADZI game management area

   b. Date wildlife was hunted: [illegible] - 01-10-2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Adam Bushe / Baobab Safaris
↓ ↓
Professional Hunter outfitter

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

LUSAKA, ZAMBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Baobab Safaris
Business Name:
Address: FREEDOM WAY CENTRE PLOT 133
City: LUSAKA 34272
State/Province:
Country, Postal Code: ZAMBIA 10101

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

NO

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

NO

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

NO

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1 a. Last Name	1 b. First Name	1 c. Middle Name/Initial	1 d. Suffix
COLLIER	WILLIAM	C	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3 a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/Initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1 a. Physical address (Street address, Apartment #, Suite # or Room #; no P O Boxes)				
(b) (6)				
1 b. City	1 c. State	1 d. Zip code/Postal code	1 e. County/Province	1 f. Country
Virginia Beach	VA	23462		USA
2 a. Mailing address (include if different than physical address, include name of contact person if applicable)				
[As above]				
2 b. City	2 c. State	2 d. Zip code/Postal code	2 e. County/Province	2 f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies and those acting on behalf of such agencies, are exempt from the processing fee—attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].

2. Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b) (6) (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

05/01/2018

Please continue to next page

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Loxodonta africana

b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

Zimbabwe, Rocky Glen, Lot 3 Wedza Block – Boulder Creek, Matabeleland South.

Bubiana Conservancy, hunter's assessment. The following information was assembled through pre-hunt investigation and interviews with the property owner during the hunt.

Bubiana Conservancy is a wildlife and game conservancy consisting of approximately 55,000 acres owned by Drummond Ranching. In the late twentieth century, in cooperation with neighboring families, the Drummond family repurposed the property from commercial farming to wildlife management, restoring all but 500 acres to its natural state and laying infrastructure for drought-tolerant artificial watering holes. They reintroduced (at their own expense) all native species except Lion. The remaining 500 acres are reserved for commercial farming, producing large quantities of fresh produce for Bulawayo. The farm area is protected by high fence and gates. The remaining property is low-fenced and free-range, maintaining in cooperation with neighboring land-owners a large free-range wildlife management zone spanning multiple properties.

Bubiana specifically hosts—and this hunter personally observed or observed sign of—the full gamut of southern African plains game (from klipsringer to eland), leopard, elephant, and hyena (both spotted and the endangered brown hyena), plus a herd of cape buffalo, a small herd of hippo, multiple lakes and rivers with native fish and aquatic fauna including crocodile, and a wide assortment of bird species, including migratory birds such as doves and Egyptian geese and many species of raptors. This hunter was not pursuing leopard, but observed leopard sign daily, and observed one leopard mid-day day and heard leopard calls mid-day as well as nocturnally. This hunter also observed prolific elephant spore and elephant-browsed trees (these are unmistakable) daily, and we encountered mature young bull elephant on two separate occasions while scouting for plains game.

The elephant taken was an old bull, estimated four to five decades in age, and was the only elephant harvest authorized by the land owner, Mr. Drummond, on his property that year. All trophy fees (including $12000 USD for the elephant) were paid directly to Drummond Ranching. With the exception of national taxes, all such proceeds go to the business, which maintains the extensive watering hole system, full-time private anti-poaching patrols, full-time private game scouts, a permanent national police detachment for anti-poaching enforcement, and hospitality facilities, including lodge, staff, and guides for wildlife viewing/photography and other non-hunting activities. The Bubiana trophy management project also synergizes with the Drummonds' commercial farm. The farm employs several hundred local persons, including a large contingent who reside on the farm permanently or seasonally (specifically, safe employment and residence for a large number of local women). The farm operates on a principle of maximum self-sufficiency, harvesting as much of its material as possible from within the Drummond property for construction, maintenance, and sustainment. Portions of game animals not claimed by the client are rendered into rations and resources for the farm or are sold as material to the local artisan/curio market in Bulawayo. Our elephant provided a measured 1250 kg of edible meat to be rendered into biltong for the farm workforce. All parts of the elephant were harvested as described above, with the exception of the ribs, and entrails, and two choice long bones, which the property owner selected to leave behind to support carrion-eating species—especially spotted and brown hyena. (This was a particular surprise to the hunter, but it is not a joke. Mr. Drummond came down personally and selected the carcass parts which would be left behind for his hyena population.) All ivory has been claimed by the hunter for personal use as a family heirloom, and is awaiting export.

An appeal from this hunter: The overall profitability of any private wildlife operation also helps to placate government investors, winning patronage and staving off government land confiscation. In Zimbabwe, lands confiscated by the government are used for unethical hunting and ivory harvest or are razed and converted to agriculture which is then catastrophically mismanaged, consistently rendering the land barren within a few years. The Drummonds have already seen over 20,000 acres of their original holdings confiscated and destroyed in this manner, as have a number of their neighbors. It is worth noting that the collective of neighboring farms which allied to create the broad wildlife sanctuary described previously did so at their own expense without government directive, and now maintain it as best they can against government pressure. They are permitted to exist as long as they remain sufficiently profitable. Private operations like Drummond Ranch are the beleaguered last bastion of both wildlife conservation and efficient agriculture in Zimbabwe, until such time as significant regime change brings improved government policy. If the private game preserves fail, the wildlife will be exterminated and the people of Zimbabwe will starve.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   same

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   John K. Lott (b) (6) [redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

XXXX XXXX Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   Loxodonta Africana African elephant

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   NA

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

   country NAMIBIA, place Dzoti Conservancy, Zambezi Region(Conservancy Office GIS coord.:S18 16'48.97"/E23 47'42.93")
   nearest city Katima Mulilo GIS coord.: S 18 19'33.45" / E 23 43'14.05"

   b. Date wildlife was hunted:

   September 10, 2017

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

outfitter : Ondjou Safaris cc
Professional Hunter : Barend Hendrik van Heerden

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Postal Address: P.O. Box 21068 Windhoek, NAMIBIA
Residential address: Kappsfarm,Plot # 16, Khomas Region, NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). see attachments

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Barend Hendrick van Heerden
Business Name: Ondjou Safaris cc
Address: P.O. Box 30208 Pionierspark,Windhoek, NAMIBIA / residential(office) Farm Augeigas # 34 Portion of Plot 17
City: Windhoek
State/Province: Khomas Region
Country, Postal Code: NAMIBIA

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted? yes
regional game counts taken twice yearly. For Dzoti the first game counts were done in 2010 and ever since two per year.
The game guards have monthly patrols were game encountered are recorded and the population trend is stable. I encountered several different herds of thirty plus elephants.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?
Daily rate total USD 24,000, trophy fee elephant USD 28,000. Yes, a big portion of the funds were used for conservancy,staff,salaries, anti-poaching effort(transport,wages,etc.),drill multiple wells(waterholes) for wildlife as well for the community, supporting local schools, soccer and sports teams, and the funding of the local game guards

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted
yes, they made donations toward carnivore zensus in the region, constant support and donation towards ongoing research in the region and enviormental awareness campaigns at the local schools (see pictures)

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: NA Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) Date: 3-14-2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

following certificate must be completed immediately after each animal that has been hunted (please print)

Dear Mr. Lott,

The following is in response to your request regarding the status of your application.

As background, on March 1, 2018, in response to a recent D.C. Circuit Court opinion, the U.S. Fish and Wildlife Service (Service) informed the public that it is revising its procedure for assessing applications to import certain sport-hunted species like the African elephant. We have withdrawn our countrywide enhancement findings for a range of species across several countries, including elephants and lions. In their place, we intend to make findings for trophy imports on an application-by-application basis.

The Service is continuing to monitor the status and management of these species in their range countries. We review each application received for the import of sport-hunted African elephant and evaluate the information provided in the application as well as other information available to us regarding the status and management of the species to ensure that the hunting program is promoting the conservation of the species. Each application must also meet all other applicable permitting requirements before it may be authorized. Therefore, your application is pending at this time.

Sincerely,

Anna Barry

Re: Application for a permit to import a sport-hunted elephant trophy
BY FEDERAL EXPRESS

Dear Acting Chief:

Enclosed please find one application for a permit to import the trophy of an African elephant to be hunted in the N#a Jagna Conservancy in Namibia. Please see the enclosed information about this conservancy, as well as information in the DMA's files from the Namibian Association of CBNRM Support Organizations (NACSO), Namibia's Ministry of Environment and Tourism, Conservation Force, and others. This information demonstrates that elephant hunting in Namibia is well-managed, sustainable, and beneficial for the rural communities that rely on the revenue from elephant hunting most of all to maintain the >180,000 km^2 of habitat set aside in conservancies. Please consider this information in making an enhancement finding for this applicant.

Thank you for your courtesy and attention to this application.

Sincerely,

Conservation Force

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III and Regina Lennox of the non-profit firm Conservation Force as my attorneys and legal representatives for all matters concerning my applications for a permit to import a lawfully hunted Elephant trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

I also request that these attorneys, through the address for Conservation Force below, be copied with all correspondence, acknowledgements, notices and decisions concerning my application to import my trophy at the following address:

Type of Activity:

IMPORT OF SPORT-HUNTED TROPHIES
(Appendix I of CITES and/or ESA)

RCVD APR 16 2018

RCVD APR 16 2018

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
BENTZ	Lester	Earl	

(b) (6) [redacted]

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)		
2. Tax identification no.	3. Description of business, agency, Tribe, or institution		
4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes) (If Broker or Taxidermist is applying on behalf of a foreign national, pro(b) (6) [redacted] provide their U.S. address)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Palm City	FLA	34990	Martin	USA

2.a. Mail(b) (6) [redacted] include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country
Nashville	Tenn	37215	Davidson	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accu(b) (6) [redacted] d belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applic(b) (6) [redacted] ocopied or stamped signatures) — Date of signature (mm/dd/yyyy): 3/30/18

se continue to next page

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:
(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

---

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?
(b) (6) [redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the

application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

No X Yes ____

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   LOXODONTA AFRICANA – AFRICAN ELEPHANT

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   NAMIBIA, N#A JAGNA CONSERVANCY
   BUSHMANLAND CLOSEST TOWN: TSUMKWE

   b. Date wildlife is to be hunted: AUGUST 1-18, 2018

   b. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   THORMAHLEN & COCHRAN SAFARIS, PH & PETER THORMAHLEN

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:
   N/A

   b. Date wildlife was hunted:

   b. Name of hunting outfitter, safari company, or professional hunter you hunted with:

   c. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
   NOT YET AVAILABLE

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	AFRICAN SHIPPING SERVICES CC
Business Name:	RAINER SENTEFOL
Address:	46 TV MOOLE STREET
City:	SOUTHERN INDUSTRIAL,
State/Province:	WINDHOEK, NAMIBIA
Country, Postal Code:	

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

   a. Do you have any information regarding the population status or trend data on the species hunted?

   SEE REPORT FROM OPERATOR

   b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

   N/

   c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted?

   N/

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies and two elephant trophies within the same calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

    Taxidermist/Broker's signature: _____ Date: _____

11. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies and two elephant trophies within the same calendar year. In addition, I understand that raw i[redacted] States, cannot be re-exported.

    Applicant's signature: _____ Date: 3-30-18

    Be aware that there may be a[redacted]uirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

All international shipment(s) must be imported through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

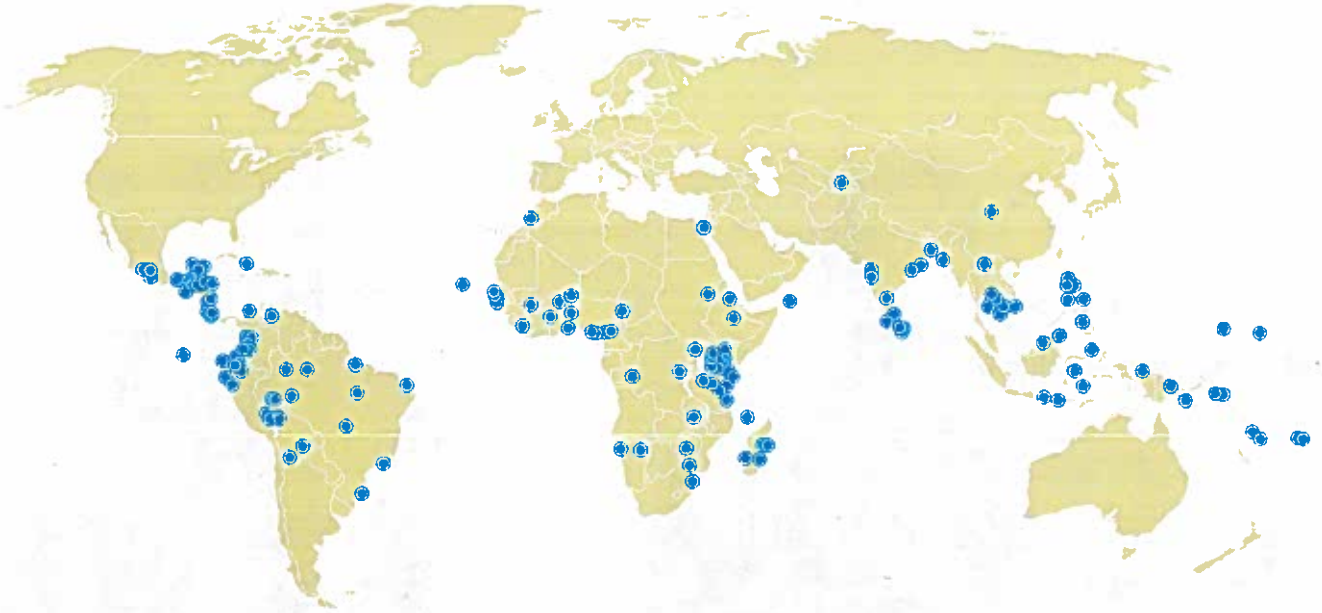
Local sustainable development solutions for people, nature, and resilient communities

UNDP EQUATOR INITIATIVE CASE STUDY SERIES

Local and indigenous communities across the world are advancing innovative sustainable development solutions that work for people and for nature. Few publications or case studies tell the full story of how such initiatives evolve, the breadth of their impacts, or how they change over time. Fewer still have undertaken to tell these stories with community practitioners themselves guiding the narrative.

To mark its 10-year anniversary, the Equator Initiative aims to fill this gap. The following case study is one in a growing series that details the work of Equator Prize winners – vetted and peer-reviewed best practices in community-based environmental conservation and sustainable livelihoods. These cases are intended to inspire the policy dialogue needed to take local success to scale, to improve the global knowledge base on local environment and development solutions, and to serve as models for replication. Case studies are best viewed and understood with reference to '*The Power of Local Action: Lessons from 10 Years of the Equator Prize*', a compendium of lessons learned and policy guidance that draws from the case material.



Click on the map to visit the Equator Initiative's searchable case study database.

N≠A JAQNA CONSERVANCY
Namibia

PROJECT SUMMARY

With 912,000 ha of communal land, N≠a Jaqna Conservancy combines the sustainable management of endemic wildlife and natural resources with the empowerment of Namibia's !Kung San people. (Symbols '≠' and '!' represent distinct click sounds unique to Khoisan languages.) Established as a conservancy in 2003, the organization trains local !Kung San as wildlife managers, committee members and game guards. Objectives include ret-establishing game populations and sustainable forest management through sound planning, management and monitoring.

The governance structure for the conservancy, is prescribed by Namibian law as part of its successful Community Based Natural Resource Management Programme. In addition, the N≠a Jaqna Conservancy has evolved a highly consultative governance model that matches the unique leadership system of the !Kung San people.

KEY FACTS

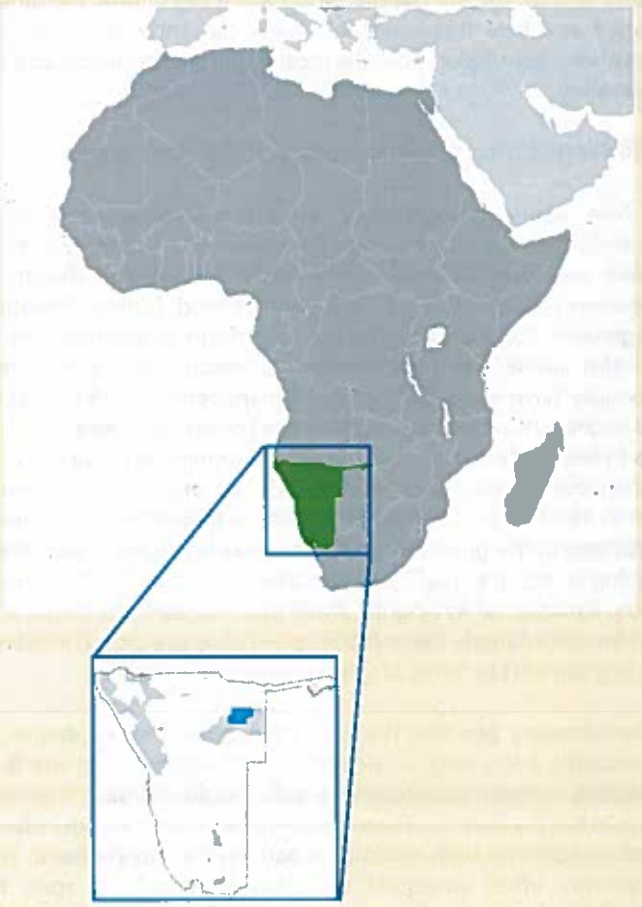
EQUATOR PRIZE WINNER: 2008

FOUNDED: 2003

LOCATION: Otjozondjup, northeastern Namibia

BENEFICIARIES: Over 2,650 community members

BIODIVERSITY: 9,120 sq. km. community conservancy



Background and Context

Namibian land policy allows for the creation of conservancies within existing communal areas in which traditional leaders enter into collaborative land management agreements with the state. The conservancy management structure gives members of the conservancy shared rights to that land, while the government holds the land in trust for the people, who have a say in how the land is managed and how it is used. No others can enter or occupy the land without permission from the local traditional authority and the conservancy.

CBNRM legislation and the history of the N≠a Jaqna

The N≠a Jaqna Conservancy in the north-east region of Otjozondjupa, one of only two San-governed Conservancies in Namibia, was gazetted in December of 2003 under the Ministry of Environment and Tourism's Community-based Natural Resource Management (CBNRM) Programme as a result of peoples' lack of land rights and fear of lack of ownership. Because of this, the !Kung San people have since been granted management and utilization rights to the natural resources within the Conservancy and exclusive rights to benefit from the development of tourism in the area. While the conservancy was gazetted in 2003, the process began much earlier in 1998 when 1,850 members of the largely San community first applied to the government for conservancy rights. Many of the San living in the area had been relocated during the conflict in the country, some as far as Angola. While this increased the number of San in the area (largely those of the same language group) it did not bring any benefits in terms of land security or investment.

The Conservancy provides the !Kung San people with a degree of land security; it is a way for people to earn income from the land by utilizing natural resources in a sustainable manner. They can engage in trophy hunting if game is plentiful, small-scale agriculture, and other activities with minimal impact on the environment. This arrangement offers an equitable option for people to apply for formal rights to the land – a process not often available to local communities.

Creating a community management plan

Though the Conservancy is a government program, all decisions – from measuring and designating boundaries to the allocation of responsibility within the Conservancy – require the support of the entire community (estimates range from 2,000 to 5,000 people) many of whom are illiterate or minimally educated. The founding of the conservancy required the vast majority of the people to be in favor of the management plan, and though it took nearly five years, the necessary support was eventually procured.

N≠a Jaqna is currently the largest registered conservancy in Namibia to date, with an area of more than 9,120km2. Kalahari sands cover a flat landscape of broadleaf and acacia woodland which receives a paltry 400-450mm of rainfall in an average year. The vast majority of Conservancy inhabitants rely on the land and resources of this environment for bush foods, medicines, grass and wood for building, fuel in the form of firewood, as well as grazing and cropping. The Conservancy is host to a vast amount of biodiversity as well as high-value game species and commercially viable plants utilized for their medicinal value. The large size of the area provides ample areas well suited to wildlife habitat. The large size also means that many villages are isolated and the costs of operating the Conservancy are higher than in other conservancies due to the scattered nature of settlement and resources.

For the purposes of management, the Conservancy has been divided into four districts. A comprehensive participatory planning exercise in all the settlements of the Conservancy has resulted in a resource-zoning scheme that has been agreed to by the Conservancy membership, the local !Kung Traditional Authority, as well as governmental and non-governmental stakeholders. This zoning plan is reflected in the Constitution of the Conservancy and the official Management and Utilization Plan. Business and tourism development strategies are now in place and are being implemented in concert with these guiding community-based management plans.

Key Activities and Innovations

The management and utilization plan of the conservancy, agreed to by the inhabitants of the area, provide for the following central objectives: to re-establish optimum game populations in the Conservancy through sound management and careful, responsible planning; to ensure that the benefits derived by membership through the utilization of wildlife are sustainable and that these benefits are delivered to all members of the Conservancy; to prevent conflict between segments of the Conservancy membership and between the Conservancy membership and wildlife; and to improve the livelihoods of all members of the Conservancy through the distribution of benefits from viable tourism operations in the Conservancy.

Due to poaching and the over-harvesting of local flora within the surrounding areas, plant and wildlife populations had declined in the years leading up to the conservancy's creation. Concerned by the decline in biodiversity, the conservancy, with the help of donors, has been able to reverse this trend to some degree, through the mixed use of careful conservation and sustainable tourism practices. One of the main activities has been the introduction of more wildlife into the area through partner support.

Over 2,650 community members currently belong to the conservancy and hold decision-making power on how their land is developed and managed. Tourism, gaming contracts and the sustainable collection of indigenous plant species (such as the Devil's Claw, or *Harpagophytum procumbens*) are sources of income for the otherwise economically marginalized !Kung San people. Conservation is bolstered by indigenous knowledge and traditional land management practices. In addition to a Community Forest Programme, the group is engaged in tour guide and game guard training, has supported two successful community-run tourism initiatives, and actively pursues partnerships with commercial tour companies and private hunting contractors.

Sustainable wildlife management

Once game animals were brought to the area, the conservancy was able to form an anti-poaching unit—game guards—who run patrols under the employ of the Conservancy. Working not only to secure the safety of the animals, but also to help enhance the health of the ecosystem, the game guards engage in practices such as digging out water holes to increase the volume of water available to both the animals and the human inhabitants.

The increased abundance of game animals has given rise to a very successful tourism practice as well. The N≠a Jaqna Conservancy has a contract with a trophy hunting agency that in turn imports game animals each year. The acceptable quota for trophy hunters is quite specific in order to only take what can be easily recovered within the population of animals in the area, and the rules governing the quota are strict: for instance, during breeding periods it is forbidden to shoot near water holes, while pregnant animals may not be killed. Tourists pay high prices to hunt in the area and a good portion of that money goes back into the conservancy, enabling it to sustain

itself in terms of managing the water supply and future generations of game animals. When trophy hunters make a kill, they are not allowed to take the whole animal; the hunter is allowed to remove the head or another small part of the animal (designated by law), but the main part of the animal goes to the conservancy as meat. The people receive not only money, but food from this arrangement as well, and it is also a way of reducing poaching. The !Kung San lack a great deal of food security, so the provision of a regular meat source – one that also provides monetary income – helps to stigmatize and thus reduce instances of poaching.

Use of indigenous plants and traditional knowledge

Another important activity to monitor is plant use. Historically, the conservancy enjoys a substantial income from harvesting Devil's Claw, a plant used for treating arthritis and rheumatism. When the market for Devil's Claw first emerged, there was a drive to harvest as much of the plant as possible and sell it at the highest possible price, potentially limiting or even eliminating a resource necessary to the economy of the area. Devil's Claw takes approximately 2-4 years to grow to maturity, and so the conservancy was motivated to become extremely proactive in the management of harvesting. The harvesting of Devil's Claw is now carefully monitored: the number of harvesters certified by the Ministry of Environment and Tourism is limited and the season available for people to harvest has been reduced substantially. Additionally, the Conservancy's crop of Devil's Claw has been certified organic on a South African regional level, and the area is regularly surveyed to ensure appropriate re-growth and abundance. If the levels of Devil's Claw are insufficient, the organic certification can be revoked. Having the organic certification also raises the price of the produce, giving the people of the conservancy about 15% more in profits than they would otherwise receive.

Impacts

BIODIVERSITY IMPACTS

Through the contract with the trophy hunting agency, around 250 new game animals are introduced into the conservancy each year. In addition, there is evidence that the animals currently living within the conservancy are reproducing in good numbers, based on reports from the game guards. This demonstrates the Conservancy's clear net gain in terms of wildlife population.

Increases in key wildlife species

The conservancy has seen resurgences in elephant, giraffe, wild dog and roan antelope populations. Commonly spotted species include eland, caracal, blackback, jackal, kudu, duiker, steenbok, warthog, porcupine, shrub hare, bat-eared fox, brown hyena (listed as vulnerable) and spotted hyena.

Due to the remote location and lack of infrastructure, few large scale reviews have been done. However, the number of game introduced between 2006 and 2009 totaled 399 animals, including blue wildebeest, eland, giraffe, oryx and kudu, as well as a few ostrich.

There have also been camera trap placements at one water hole which shows a very active population, including leopards, wild dogs (listed as endangered), brown hyena and elephants.

N≠a Jaqna recently had their community game guards, who carry out anti-poaching patrols over the Conservancy's vast area, rated as one of the best such groups in Namibia by the Ministry of Environment and Tourism (who rewarded them with horses to increase the guards' ranges). Alongside this approach is a focus on reducing human-wildlife conflict – for instance by investigating and promoting rangeland management techniques which allow cattle-grazing and wildlife to co-exist.

Sustainable harvesting of Devil's Claw

As for the Devil's Claw harvest, much has been done to manage and sustain this critical component of the area's indigenous genetic diversity. Conservancy leaders go to each village and train individuals within the conservancy on how to harvest the Devil's Claw. After training, a limited number of certified harvesters are registered for the four-month harvest period. During the harvest, the registered individuals continue to be monitored. If conservancy leaders find that they are not practising sustainable harvesting techniques, their permit is cancelled and they are no longer able to harvest. This practice is supported by the Ministry of Environment and Tourism, which issues the permit.

Throughout Namibia, there is a clear set of best practices for the Devil's Claw harvest, and N≠a Jaqna conservancy has adapted those best practices to fit the practices of individual and family-based harvesting groups. For example, there are specific measurements in terms of the size of the plants and tubers that people are taking, and as long as harvesters keep the main taproot intact, the plant will regenerate on its own. By adhering to these guidelines, it is clear which plants are damaged and which ones will regenerate, and the conservancy, by controlling the purchase and shipment of Devil's Claw within and outside of the area, has been able to greatly increase the amount of economic and social benefits that the harvesters receive as well.

Participatory land use planning and monitoring

In terms of human interaction with biodiversity, the conservancy engaged in a scheme of participatory resource zoning in each of the 19 villages in the conservancy. The villages were surveyed in order to learn which areas have higher concentrations of various foods (both flora and fauna) and medicines that people are utilizing –the end goal being to protect those areas where biodiversity exists and where it could potentially flourish. The conservancy has set apart areas for human settlement, for mixed farming, cropping, cattle keeping, and

small stock rearing, as well as for undisturbed wildlife. In this way, the !Kung San have made efforts to keep these at times conflicting land uses separate so that the biowealth of the conservancy may continue to exist and expand.

The Conservancy's policies have limited destruction of the fragile ecosystem of N≠a Jaqna, much of which is still untouched wilderness. Specific risks which the Conservancy deals with include overgrazing by the few farmers within the area (and a much bigger risk of farmers from the surrounding area), associated bush clearance, illegal deforestation (especially the cutting and selling of protected hard wood trees), over harvesting and illegal trade in Devils Claw, and poaching. The projects and policies of the Conservancy, and the monitoring provided by community game guards counteract these risks.

Certain plant and animal species are monitored by the Ministry of Environment and Tourism, and community game guards keep "event books" which log sightings and activities. Over time it will be possible to build up an assessment of impacts from these records, but in the nine years the Conservancy has been operating this has not yet been collated.

Instead, impacts are measured from feedback by community game guards and the local population. Whilst this might be presumed to be unscientific, the vast experience of most Conservancy members in bush and wildlife knowledge – most of them having lived their lives in wildlife rich areas with very close interactions with the surrounding environment, not to mention the traditional knowledge passed down in San culture – has ensured the collation of a rich body of knowledge on ecosystem management.

SOCIOECONOMIC IMPACTS

The target beneficiaries are the residents of N≠a Jaqna Conservancy, the majority of whom (~85%) are indigenous San people, and nearly all of whom are poor rural dwellers with low education, surviving on subsistence farming, wild food collection and drought relief supplies.

Economic benefits from sustainable harvesting

After 2007, when the monitored Devil's Claw harvest began in N≠a Jaqna under the auspices of the conservancy, the membership of the conservancy received approximately N$1.2 million in direct economic benefit from the harvest. Devils Claw harvest generated over N$200,000 in revenue for the community in 2007, with this amount increasing to N$950,000 in 2009. This increase was due not only to a larger harvest, but also from increased prices from organic certification, increased quality and improved negotiations with the supplier.

The conservancy as an institution is also generating some income for people who are members but are not directly involved with the harvesting, thanks to an additional premium from the buyer to the conservancy on each kilo of Devil's Claw harvested. The conservancy is a major worldwide player in the Devil's Claw market, particularly

in the organically certified market; in 2008, N≠a Jaqna was the single largest Namibian producer of organically certified Devil's Claw. The money generated from the Devil's Claw harvest is substantial, and according to the Conservancy's benefit distribution plan, the first priority for its investment is pre-schools.

Improved incomes, food security, and gender equality

There are other sources of jobs and income from the tourism arrangement with the trophy hunting organization, and the resulting meat brings additional food security. In addition, there are further job opportunities in terms of game guards, conservancy staff, and people involved in various projects that the conservancy runs.

Though there is not much in the way of infrastructure in the conservancy area, there have been economic indicators that the jobs and additional income are having a positive effect; for example, there is an increase in cattle ownership – which requires considerable investment on the part of the individual. Trophy hunting partners provide between 20 and 30 carcasses per year from their farm as meat distributed to the community, which is an important addition in an area with low food security.

Though there continues to be an educational disparity between men and women in the conservancy, many of the projects in N≠a Jaqna focus especially on gender inclusion. Women are in charge of the Devil's Claw harvest and the training of new harvesters. Each village has a female team leader for the harvest who is responsible for making sure that the harvest is conducted in a sustainable manner, maintaining a position of authority over all harvesters.

Overall, the role of women in the conservancy is very strong; N≠a Jaqna's constitution guarantees 50/50 representation in the Conservancy's village leadership committee structure—generally a man and a woman from each village. In some cases, there may be two women from one village and two men from another, but the leadership structure is held equal overall. In the management committee, which is comprised of 4 people, there are two women and two men.

Enterprise development, education, and health

Very few people had access to cash income or employment before the Conservancy was established. The Conservancy now employs 12 local people full time, and members enjoy cash incomes from the sale of Devil's Claw, various wood products, craft and increased tourism revenue. A number of conservancy-run projects also provide livelihood opportunities including: chicken and melon growing projects in two villages; vegetable gardens in nine villages; two tourism sites; and a pilot ostrich farm to provide egg shell to craft makers (San jewelry is traditionally made from ostrich eggshell).

The Annual General Meeting decided in 2010 to invest a portion of profits into education, specifically early childhood development in the region. The increased frequency of transport due to the Conservancy activities means that their vehicle frequently serves as an ambulance in the area, providing much needed access to the only operational health clinic.

POLICY IMPACTS

There are now quite a few wildlife conservancies in Namibia, but N≠a Jaqna is one of the most well-known and well-respected, particularly with the Ministry of Environment and Tourism. After winning the Equator Prize in 2008, N≠a Jaqna's success lent credibility to the entire conservancy scheme, and promoted environmental awareness within Namibia as a whole. It has also served to strengthen community-based natural resource management; in terms of land security and in terms of the conservancy, members of the !Kung San have earned income, causing both policymakers and the general public to see them as more productive members of Namibian society, which in turn makes it very difficult for them to challenge the legitimacy of the conservancy both in terms of its land area and as a legal body.

Historically, the !Kung San are a very non-combative people, and have generally moved from the area when challenged. Because of this lack of confidence in their land rights, over the last 1,000 years, they have ended up with occupying some of the worst areas of land in Southern Africa. Owning a project and managing the land in which this project operates – and wanting to continue to operate that project – is part of the process of interacting with the state, which requires a confidence and a political voice that had traditionally escaped the !Kung San.

Highly democratic governance processes

The people of N≠a Jaqna are also extremely engaged in the management of their conservancy. Though the area is still fairly lean in terms of infrastructure, conservancy leaders actually drive from village to village to have the management plans discussed with and endorsed by the entire membership of several thousand. In this way, there is a true democracy of management.

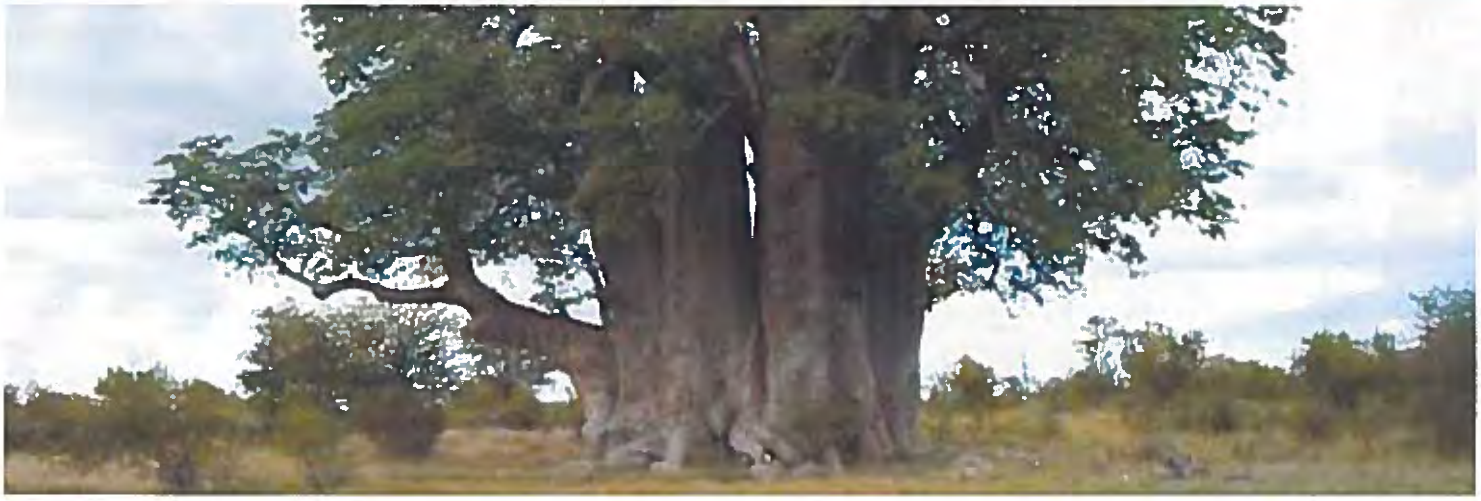
> *"Conservancy leaders literally travel village by village to gain the endorsement of the conservancy's membership. They either round everybody up into one place, or work with three or four villages in a day: having one meeting, driving three or four hours, having another meeting. They just carry on - sleeping in the villages and going through the conservancy until they're done with the full consultation."*
>
> ***Ben Begbie-Clench, Namibia Support Unit Manager at the Working Group of Indigenous Minorities in Southern Africa (WIMSA)***

Because the !Kung San do not have a hierarchically-structured leadership system, their leaders are really more akin to chairmen who oversee debate between the villagers. Each member over the age of 18 is given his or her voice in making conservancy decisions.

Strengthening local rights to land

In some areas of practice, N≠a Jaqna has become a role model for other conservancies, and exchange visits have resulted. However in terms of national policy there has been much less influence, and some of this should be put down the San's marginalized social status within the country and region, which inhibits state interaction. An exception is the defense of land rights in N≠a Jaqna where planned small scale farms which would dispossess the San of land and destroy environmentally sensitive areas have been opposed through N≠a Jaqna Conservancy by the community. Whilst this is not policy change, it has promoted adherence to national law and a respect for democratic processes which was not previously the case. This action vastly strengthened the community's knowledge of their rights and ability to interact with the state.

Sustainability and Replication



SUSTAINABILITY

The sustainability of the N≠a Jaqna Conservancy depends on the people seeing the benefits of the project and wanting to be a part of it, and the highly democratic nature of its governance is a huge factor in its desirability. This degree of participation is perhaps not the most cost-effective (so much travel requires fuel and vehicle upkeep), but in the end, sacrificing the high level of democracy would prove a greater barrier to sustainability than the increased monetary costs. In addition, the Conservancy's management has worked hard to build lasting relationships with their partners. As an example, the Conservancy does not increase their contract price annually or open a yearly bid for partnership with other trophy hunting companies; though in the short run, this may result in less of a profit for the !Kung San, the mutually beneficial agreement will, over the next ten years, provide a greater and more reliable profit in the long run.

There are certainly challenges to the Conservancy's sustainability, however. Though N≠a Jaqna is becoming more financially independent through its trophy hunting contract and the sale of Devil's Claw, true independence from current donors would bring a level of financial responsibility as yet unseen. The !Kung San, however, are in a unique position for success, owing to the desirability of the pristine quality of their beautiful and remote area as a destination for eco-tourism.

Threats to sustainability will only increase as time goes on; the need for farmland and grazing area only increases with Namibia's growing population, and changes in behavior and migration routes of game animals could occur under the influence of global climate change – a major threat in such an arid region. Luckily, the !Kung San of N≠a Jaqna are strongly committed to success, for they understand the consequences of damaging their fragile ecosystem; they understand that there will likely be no second chance. Community participation and private partnerships have been the key components to N≠a Jaqna's ongoing success, combining a democratic approach with economic benefits. Another contributing factor is the knowledge of the land and environment held by the participants, which has been adapted to new ends.

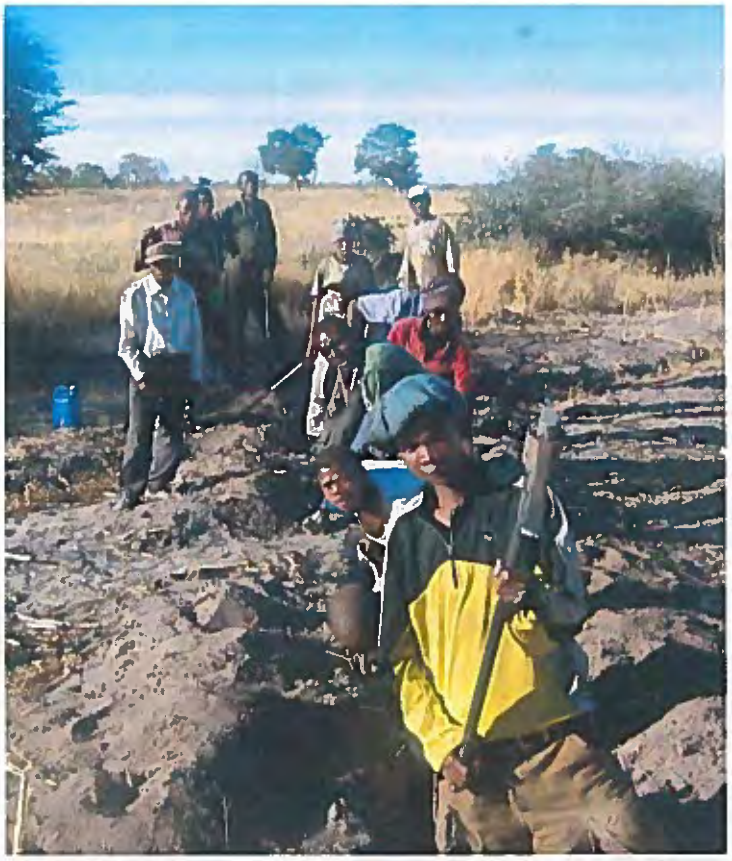
REPLICATION

There has already been replication and knowledge exchange between N≠a Jaqna and other communities and conservancies throughout Namibia, sharing best practices in tourism activities and land management techniques. N≠a Jaqna is one of the most successful and well-known conservancies in Namibia, lending weight to the conservancy approach. Additionally, there is a great deal of knowledge exchange with not only other communities, but with Namibian society as a whole. Learning about and understanding the needs of tourists and visitors to the Conservancy has enabled the !Kung San of N≠a Jaqna to adapt their methods in ways that are both beneficial to their community and appealing to visitors – further encouraging the sustainability of the project. In exchange, when tourists and non-community members visit the conservancy, they are exposed to an often unseen land of largely undisturbed ecosystem filled with native plants and animal species, rather than cattle or larger-scale agriculture. This exposure further underlines the importance and effectiveness of community land management, encouraging the growth and acceptance of the conservancy scheme on a wider level.

There have been a number of exchange partners, including mutual exchanges with Nyae Nyae Conservancy, other Namibian Conservancies and a San group from Botswana. N≠a Jaqna staff have visited a number of Conservancies in northern Namibia, and even San groups in Angola.

There are barriers to knowledge exchange, primarily in the realm of educational level and the steep learning curve associated with successful conservancy management. However, the !Kung San community members who have a greater degree of education

have been indispensible in the process of adapting and training the community as a whole. They have become essential leaders who possess a cultural and traditional knowledge base lacking in outsiders and the know-how to instruct and manage the Conservancy successfully.



PARTNERS

The N≠a Jaqna Conservancy is a unique partnership between the Namibian government, the World Bank, international NGOs, and private business. This diverse partnership arrangement is critical for the continued success of the project, bringing stakeholders together from many different sectors around the world. In this way, global expertise melds with local on-the-ground knowledge to create a sustainable and replicable initiative.

Most critical in this partnership is the support of the Namibian government, the UNDP GEF-Small Grants Program, international NGOs, and Eden Trophy Hunting (a privately-owned business). Other partners include:

- Working Group of Indigenous Minorities in Southern Africa (WIMSA)
- Ministry of Environment and Tourism
- World Wildlife Fund
- DED (German Development Service; now GIZ)
- Namibian Association of Norway (NAMAS)

Re: Application for a permit to import a sport-hunted elephant trophy
BY FEDERAL EXPRESS

Dear Acting Chief:

Enclosed please find one application for a permit to import the trophy of an African elephant to be hunted in the N#a Jagna Conservancy in Namibia. Please see the enclosed information about this conservancy, as well as information in the DMA's files from the Namibian Association of CBNRM Support Organizations (NACSO), Namibia's Ministry of Environment and Tourism, Conservation Force, and others. This information demonstrates that elephant hunting in Namibia is well-managed, sustainable, and beneficial for the rural communities that rely on the revenue from elephant hunting most of all to maintain the >180,000 km^2 of habitat set aside in conservancies. Please consider this information in making an enhancement finding for this applicant.

Thank you for your courtesy and attention to this application.

Sincerely,

Conservation Force

N#a-Jaqna Conservancy

Region: Otjozondjupa
Population: 3 698
Area km2: 9 120
Date registered: July, 2003
Address: N#a-Jaqna Conservancy, P.O Box 1049, Grootfontein
Telephone: 067-245047
Geographical features:
Average annual rainfall of 400-450 mm. Kalahari sands cover flat landscape of broadleaf and acacia woodland.

Unusual or important features: Traditional culture of San people.

Major wildlife resources:
Elephant, leopard, eland, duiker, steenbok, gemsbok, kudu, giraffe, black-backed jackal, cheetah, warthog, spotted hyaena.

Management:
Management Committee of eight men and four women; additional members from traditional authority; no

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III and Regina Lennox of the non-profit firm Conservation Force as my attorneys and legal representatives for all matters concerning my applications for a permit to import a lawfully hunted Elephant trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

I also request that these attorneys, through the address for Conservation Force below, be copied with all correspondence, acknowledgements, notices and decisions concerning my application to import my trophy at the following address:

Type of Activity:

IMPORT OF SPORT-HUNTED TROPHIES
(Appendix I of CITES and/or ESA)

RCVD APR 16 2018

RCVD APR 16 2018

LO

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
BENTZ	Lester	Earl	

(b) (6) [redacted]

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)		
2. Tax identification no.	3. Description of business, agency, Tribe, or institution		
4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes) (If Broker or Taxidermist is applying on behalf of a foreign national, prov[redacted] provide their U.S. address)

(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Palm City	FLA	34990	Martin	USA

2.a. Mailing Address (Include if different than physical address; include name of contact person if applicable)

(b) (6) [redacted]

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country
Nashville	Tenn	37215	Davidson	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accu[redacted]elief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b) (6) [redacted]

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:
(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

---

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

[redacted] (b) (6)

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the

application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

No X Yes ____

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   LOXODONTA AFRICANA – AFRICAN ELEPHANT

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   NAMIBIA, N#A JAGNA CONSERVANCY
   BUSHMANLAND CLOSEST TOWN: TSUMKWE

   b. Date wildlife is to be hunted: AUGUST 1-18, 2018

   b. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   THORMAHLEN & COCHRAN SAFARIS, PH & PETER THORMAHLEN

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:
   N/A

   b. Date wildlife was hunted:

   b. Name of hunting outfitter, safari company, or professional hunter you hunted with:

   c. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
   NOT YET AVAILABLE

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	AFRICAN SHIPPING SERVICES CC
Business Name:	RAINER SENTEFOL
Address:	46 TV MOOLE STREET
City:	SOUTHERN INDUSTRIAL,
State/Province:	WINDHOEK, NAMIBIA
Country, Postal Code:	

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

   a. Do you have any information regarding the population status or trend data on the species hunted?

   SEE REPORT FROM OPERATOR

   b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

   N/

   c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted?

   N/

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies and two elephant trophies within the same calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

    Taxidermist/Broker's signature: _____ Date: _____

11. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies and two elephant trophies within the same calendar year. In addition, I understand that raw i[redacted] States, cannot be re-exported.

    Applicant's signature: _____ Date: 3-30-18

    Be aware that there may be a[redacted]uirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

All international shipment(s) must be imported through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

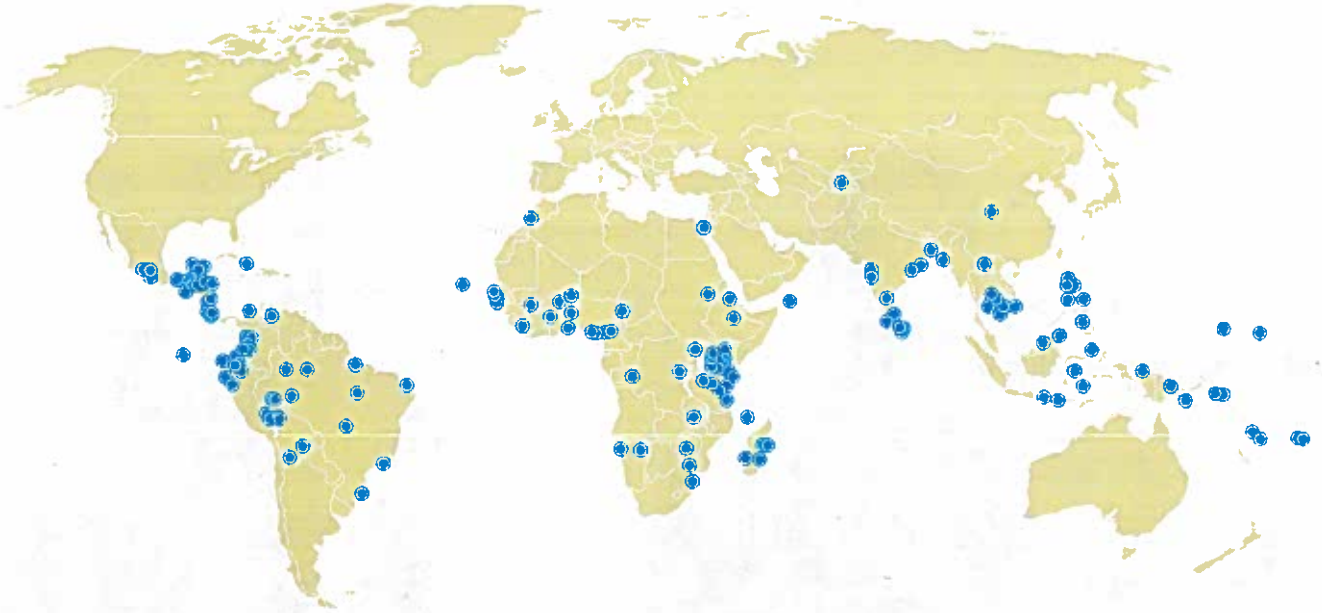
Equator Initiative Case Studies
Local sustainable development solutions for people, nature, and resilient communities

UNDP EQUATOR INITIATIVE CASE STUDY SERIES

Local and indigenous communities across the world are advancing innovative sustainable development solutions that work for people and for nature. Few publications or case studies tell the full story of how such initiatives evolve, the breadth of their impacts, or how they change over time. Fewer still have undertaken to tell these stories with community practitioners themselves guiding the narrative.

To mark its 10-year anniversary, the Equator Initiative aims to fill this gap. The following case study is one in a growing series that details the work of Equator Prize winners – vetted and peer-reviewed best practices in community-based environmental conservation and sustainable livelihoods. These cases are intended to inspire the policy dialogue needed to take local success to scale, to improve the global knowledge base on local environment and development solutions, and to serve as models for replication. Case studies are best viewed and understood with reference to '*The Power of Local Action: Lessons from 10 Years of the Equator Prize*', a compendium of lessons learned and policy guidance that draws from the case material.



Click on the map to visit the Equator Initiative's searchable case study database.

N≠A JAQNA CONSERVANCY
Namibia

PROJECT SUMMARY

With 912,000 ha of communal land, N≠a Jaqna Conservancy combines the sustainable management of endemic wildlife and natural resources with the empowerment of Namibia's !Kung San people. (Symbols '≠' and '!' represent distinct click sounds unique to Khoisan languages.) Established as a conservancy in 2003, the organization trains local !Kung San as wildlife managers, committee members and game guards. Objectives include ret-establishing game populations and sustainable forest management through sound planning, management and monitoring.

The governance structure for the conservancy, is prescribed by Namibian law as part of its successful Community Based Natural Resource Management Programme. In addition, the N≠a Jaqna Conservancy has evolved a highly consultative governance model that matches the unique leadership system of the !Kung San people.

KEY FACTS

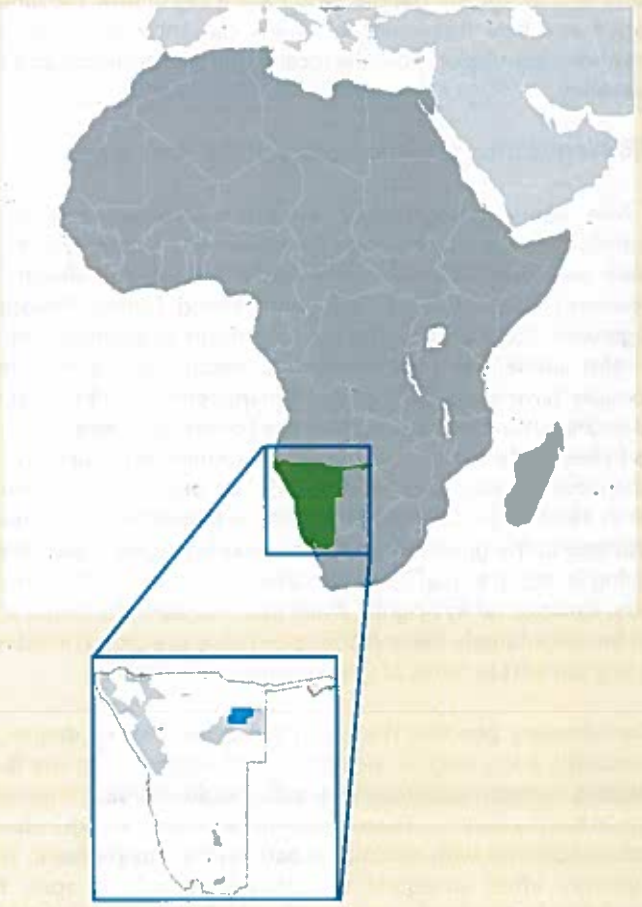
EQUATOR PRIZE WINNER: 2008

FOUNDED: 2003

LOCATION: Otjozondjup, northeastern Namibia

BENEFICIARIES: Over 2,650 community members

BIODIVERSITY: 9,120 sq. km. community conservancy



Background and Context

Namibian land policy allows for the creation of conservancies within existing communal areas in which traditional leaders enter into collaborative land management agreements with the state. The conservancy management structure gives members of the conservancy shared rights to that land, while the government holds the land in trust for the people, who have a say in how the land is managed and how it is used. No others can enter or occupy the land without permission from the local traditional authority and the conservancy.

CBNRM legislation and the history of the N≠a Jaqna

The N≠a Jaqna Conservancy in the north-east region of Otjozondjupa, one of only two San-governed Conservancies in Namibia, was gazetted in December of 2003 under the Ministry of Environment and Tourism's Community-based Natural Resource Management (CBNRM) Programme as a result of peoples' lack of land rights and fear of lack of ownership. Because of this, the !Kung San people have since been granted management and utilization rights to the natural resources within the Conservancy and exclusive rights to benefit from the development of tourism in the area. While the conservancy was gazetted in 2003, the process began much earlier in 1998 when 1,850 members of the largely San community first applied to the government for conservancy rights. Many of the San living in the area had been relocated during the conflict in the country, some as far as Angola. While this increased the number of San in the area (largely those of the same language group) it did not bring any benefits in terms of land security or investment.

The Conservancy provides the !Kung San people with a degree of land security; it is a way for people to earn income from the land by utilizing natural resources in a sustainable manner. They can engage in trophy hunting if game is plentiful, small-scale agriculture, and other activities with minimal impact on the environment. This arrangement offers an equitable option for people to apply for formal rights to the land – a process not often available to local communities.

Creating a community management plan

Though the Conservancy is a government program, all decisions – from measuring and designating boundaries to the allocation of responsibility within the Conservancy – require the support of the entire community (estimates range from 2,000 to 5,000 people) many of whom are illiterate or minimally educated. The founding of the conservancy required the vast majority of the people to be in favor of the management plan, and though it took nearly five years, the necessary support was eventually procured.

N≠a Jaqna is currently the largest registered conservancy in Namibia to date, with an area of more than 9,120km2. Kalahari sands cover a flat landscape of broadleaf and acacia woodland which receives a paltry 400-450mm of rainfall in an average year. The vast majority of Conservancy inhabitants rely on the land and resources of this environment for bush foods, medicines, grass and wood for building, fuel in the form of firewood, as well as grazing and cropping. The Conservancy is host to a vast amount of biodiversity as well as high-value game species and commercially viable plants utilized for their medicinal value. The large size of the area provides ample areas well suited to wildlife habitat. The large size also means that many villages are isolated and the costs of operating the Conservancy are higher than in other conservancies due to the scattered nature of settlement and resources.

For the purposes of management, the Conservancy has been divided into four districts. A comprehensive participatory planning exercise in all the settlements of the Conservancy has resulted in a resource-zoning scheme that has been agreed to by the Conservancy membership, the local !Kung Traditional Authority, as well as governmental and non-governmental stakeholders. This zoning plan is reflected in the Constitution of the Conservancy and the official Management and Utilization Plan. Business and tourism development strategies are now in place and are being implemented in concert with these guiding community-based management plans.

Key Activities and Innovations

The management and utilization plan of the conservancy, agreed to by the inhabitants of the area, provide for the following central objectives: to re-establish optimum game populations in the Conservancy through sound management and careful, responsible planning; to ensure that the benefits derived by membership through the utilization of wildlife are sustainable and that these benefits are delivered to all members of the Conservancy; to prevent conflict between segments of the Conservancy membership and between the Conservancy membership and wildlife; and to improve the livelihoods of all members of the Conservancy through the distribution of benefits from viable tourism operations in the Conservancy.

Due to poaching and the over-harvesting of local flora within the surrounding areas, plant and wildlife populations had declined in the years leading up to the conservancy's creation. Concerned by the decline in biodiversity, the conservancy, with the help of donors, has been able to reverse this trend to some degree, through the mixed use of careful conservation and sustainable tourism practices. One of the main activities has been the introduction of more wildlife into the area through partner support.

Over 2,650 community members currently belong to the conservancy and hold decision-making power on how their land is developed and managed. Tourism, gaming contracts and the sustainable collection of indigenous plant species (such as the Devil's Claw, or *Harpagophytum procumbens*) are sources of income for the otherwise economically marginalized !Kung San people. Conservation is bolstered by indigenous knowledge and traditional land management practices. In addition to a Community Forest Programme, the group is engaged in tour guide and game guard training, has supported two successful community-run tourism initiatives, and actively pursues partnerships with commercial tour companies and private hunting contractors.

Sustainable wildlife management

Once game animals were brought to the area, the conservancy was able to form an anti-poaching unit—game guards—who run patrols under the employ of the Conservancy. Working not only to secure the safety of the animals, but also to help enhance the health of the ecosystem, the game guards engage in practices such as digging out water holes to increase the volume of water available to both the animals and the human inhabitants.

The increased abundance of game animals has given rise to a very successful tourism practice as well. The N≠a Jaqna Conservancy has a contract with a trophy hunting agency that in turn imports game animals each year. The acceptable quota for trophy hunters is quite specific in order to only take what can be easily recovered within the population of animals in the area, and the rules governing the quota are strict: for instance, during breeding periods it is forbidden to shoot near water holes, while pregnant animals may not be killed. Tourists pay high prices to hunt in the area and a good portion of that money goes back into the conservancy, enabling it to sustain

itself in terms of managing the water supply and future generations of game animals. When trophy hunters make a kill, they are not allowed to take the whole animal; the hunter is allowed to remove the head or another small part of the animal (designated by law), but the main part of the animal goes to the conservancy as meat. The people receive not only money, but food from this arrangement as well, and it is also a way of reducing poaching. The !Kung San lack a great deal of food security, so the provision of a regular meat source – one that also provides monetary income – helps to stigmatize and thus reduce instances of poaching.

Use of indigenous plants and traditional knowledge

Another important activity to monitor is plant use. Historically, the conservancy enjoys a substantial income from harvesting Devil's Claw, a plant used for treating arthritis and rheumatism. When the market for Devil's Claw first emerged, there was a drive to harvest as much of the plant as possible and sell it at the highest possible price, potentially limiting or even eliminating a resource necessary to the economy of the area. Devil's Claw takes approximately 2-4 years to grow to maturity, and so the conservancy was motivated to become extremely proactive in the management of harvesting. The harvesting of Devil's Claw is now carefully monitored: the number of harvesters certified by the Ministry of Environment and Tourism is limited and the season available for people to harvest has been reduced substantially. Additionally, the Conservancy's crop of Devil's Claw has been certified organic on a South African regional level, and the area is regularly surveyed to ensure appropriate re-growth and abundance. If the levels of Devil's Claw are insufficient, the organic certification can be revoked. Having the organic certification also raises the price of the produce, giving the people of the conservancy about 15% more in profits than they would otherwise receive.

Impacts

BIODIVERSITY IMPACTS

Through the contract with the trophy hunting agency, around 250 new game animals are introduced into the conservancy each year. In addition, there is evidence that the animals currently living within the conservancy are reproducing in good numbers, based on reports from the game guards. This demonstrates the Conservancy's clear net gain in terms of wildlife population.

Increases in key wildlife species

The conservancy has seen resurgences in elephant, giraffe, wild dog and roan antelope populations. Commonly spotted species include eland, caracal, blackback, jackal, kudu, duiker, steenbok, warthog, porcupine, shrub hare, bat-eared fox, brown hyena (listed as vulnerable) and spotted hyena.

Due to the remote location and lack of infrastructure, few large scale reviews have been done. However, the number of game introduced between 2006 and 2009 totaled 399 animals, including blue wildebeest, eland, giraffe, oryx and kudu, as well as a few ostrich.

There have also been camera trap placements at one water hole which shows a very active population, including leopards, wild dogs (listed as endangered), brown hyena and elephants.

N≠a Jaqna recently had their community game guards, who carry out anti-poaching patrols over the Conservancy's vast area, rated as one of the best such groups in Namibia by the Ministry of Environment and Tourism (who rewarded them with horses to increase the guards' ranges). Alongside this approach is a focus on reducing human-wildlife conflict – for instance by investigating and promoting rangeland management techniques which allow cattle-grazing and wildlife to co-exist.

Sustainable harvesting of Devil's Claw

As for the Devil's Claw harvest, much has been done to manage and sustain this critical component of the area's indigenous genetic diversity. Conservancy leaders go to each village and train individuals within the conservancy on how to harvest the Devil's Claw. After training, a limited number of certified harvesters are registered for the four-month harvest period. During the harvest, the registered individuals continue to be monitored. If conservancy leaders find that they are not practising sustainable harvesting techniques, their permit is cancelled and they are no longer able to harvest. This practice is supported by the Ministry of Environment and Tourism, which issues the permit.

Throughout Namibia, there is a clear set of best practices for the Devil's Claw harvest, and N≠a Jaqna conservancy has adapted those best practices to fit the practices of individual and family-based harvesting groups. For example, there are specific measurements in terms of the size of the plants and tubers that people are taking, and as long as harvesters keep the main taproot intact, the plant will regenerate on its own. By adhering to these guidelines, it is clear which plants are damaged and which ones will regenerate, and the conservancy, by controlling the purchase and shipment of Devil's Claw within and outside of the area, has been able to greatly increase the amount of economic and social benefits that the harvesters receive as well.

Participatory land use planning and monitoring

In terms of human interaction with biodiversity, the conservancy engaged in a scheme of participatory resource zoning in each of the 19 villages in the conservancy. The villages were surveyed in order to learn which areas have higher concentrations of various foods (both flora and fauna) and medicines that people are utilizing –the end goal being to protect those areas where biodiversity exists and where it could potentially flourish. The conservancy has set apart areas for human settlement, for mixed farming, cropping, cattle keeping, and

small stock rearing, as well as for undisturbed wildlife. In this way, the !Kung San have made efforts to keep these at times conflicting land uses separate so that the biowealth of the conservancy may continue to exist and expand.

The Conservancy's policies have limited destruction of the fragile ecosystem of N≠a Jaqna, much of which is still untouched wilderness. Specific risks which the Conservancy deals with include overgrazing by the few farmers within the area (and a much bigger risk of farmers from the surrounding area), associated bush clearance, illegal deforestation (especially the cutting and selling of protected hard wood trees), over harvesting and illegal trade in Devils Claw, and poaching. The projects and policies of the Conservancy, and the monitoring provided by community game guards counteract these risks.

Certain plant and animal species are monitored by the Ministry of Environment and Tourism, and community game guards keep "event books" which log sightings and activities. Over time it will be possible to build up an assessment of impacts from these records, but in the nine years the Conservancy has been operating this has not yet been collated.

Instead, impacts are measured from feedback by community game guards and the local population. Whilst this might be presumed to be unscientific, the vast experience of most Conservancy members in bush and wildlife knowledge – most of them having lived their lives in wildlife rich areas with very close interactions with the surrounding environment, not to mention the traditional knowledge passed down in San culture – has ensured the collation of a rich body of knowledge on ecosystem management.

SOCIOECONOMIC IMPACTS

The target beneficiaries are the residents of N≠a Jaqna Conservancy, the majority of whom (~85%) are indigenous San people, and nearly all of whom are poor rural dwellers with low education, surviving on subsistence farming, wild food collection and drought relief supplies.

Economic benefits from sustainable harvesting

After 2007, when the monitored Devil's Claw harvest began in N≠a Jaqna under the auspices of the conservancy, the membership of the conservancy received approximately N$1.2 million in direct economic benefit from the harvest. Devils Claw harvest generated over N$200,000 in revenue for the community in 2007, with this amount increasing to N$950,000 in 2009. This increase was due not only to a larger harvest, but also from increased prices from organic certification, increased quality and improved negotiations with the supplier.

The conservancy as an institution is also generating some income for people who are members but are not directly involved with the harvesting, thanks to an additional premium from the buyer to the conservancy on each kilo of Devil's Claw harvested. The conservancy is a major worldwide player in the Devil's Claw market, particularly

in the organically certified market; in 2008, N≠a Jaqna was the single largest Namibian producer of organically certified Devil's Claw. The money generated from the Devil's Claw harvest is substantial, and according to the Conservancy's benefit distribution plan, the first priority for its investment is pre-schools.

Improved incomes, food security, and gender equality

There are other sources of jobs and income from the tourism arrangement with the trophy hunting organization, and the resulting meat brings additional food security. In addition, there are further job opportunities in terms of game guards, conservancy staff, and people involved in various projects that the conservancy runs.

Though there is not much in the way of infrastructure in the conservancy area, there have been economic indicators that the jobs and additional income are having a positive effect; for example, there is an increase in cattle ownership – which requires considerable investment on the part of the individual. Trophy hunting partners provide between 20 and 30 carcasses per year from their farm as meat distributed to the community, which is an important addition in an area with low food security.

Though there continues to be an educational disparity between men and women in the conservancy, many of the projects in N≠a Jaqna focus especially on gender inclusion. Women are in charge of the Devil's Claw harvest and the training of new harvesters. Each village has a female team leader for the harvest who is responsible for making sure that the harvest is conducted in a sustainable manner, maintaining a position of authority over all harvesters.

Overall, the role of women in the conservancy is very strong; N≠a Jaqna's constitution guarantees 50/50 representation in the Conservancy's village leadership committee structure—generally a man and a woman from each village. In some cases, there may be two women from one village and two men from another, but the leadership structure is held equal overall. In the management committee, which is comprised of 4 people, there are two women and two men.

Enterprise development, education, and health

Very few people had access to cash income or employment before the Conservancy was established. The Conservancy now employs 12 local people full time, and members enjoy cash incomes from the sale of Devil's Claw, various wood products, craft and increased tourism revenue. A number of conservancy-run projects also provide livelihood opportunities including: chicken and melon growing projects in two villages; vegetable gardens in nine villages; two tourism sites; and a pilot ostrich farm to provide egg shell to craft makers (San jewelry is traditionally made from ostrich eggshell).

The Annual General Meeting decided in 2010 to invest a portion of profits into education, specifically early childhood development in the region. The increased frequency of transport due to the Conservancy activities means that their vehicle frequently serves as an ambulance in the area, providing much needed access to the only operational health clinic.

POLICY IMPACTS

There are now quite a few wildlife conservancies in Namibia, but N≠a Jaqna is one of the most well-known and well-respected, particularly with the Ministry of Environment and Tourism. After winning the Equator Prize in 2008, N≠a Jaqna's success lent credibility to the entire conservancy scheme, and promoted environmental awareness within Namibia as a whole. It has also served to strengthen community-based natural resource management; in terms of land security and in terms of the conservancy, members of the !Kung San have earned income, causing both policymakers and the general public to see them as more productive members of Namibian society, which in turn makes it very difficult for them to challenge the legitimacy of the conservancy both in terms of its land area and as a legal body.

Historically, the !Kung San are a very non-combative people, and have generally moved from the area when challenged. Because of this lack of confidence in their land rights, over the last 1,000 years, they have ended up with occupying some of the worst areas of land in Southern Africa. Owning a project and managing the land in which this project operates – and wanting to continue to operate that project – is part of the process of interacting with the state, which requires a confidence and a political voice that had traditionally escaped the !Kung San.

Highly democratic governance processes

The people of N≠a Jaqna are also extremely engaged in the management of their conservancy. Though the area is still fairly lean in terms of infrastructure, conservancy leaders actually drive from village to village to have the management plans discussed with and endorsed by the entire membership of several thousand. In this way, there is a true democracy of management.

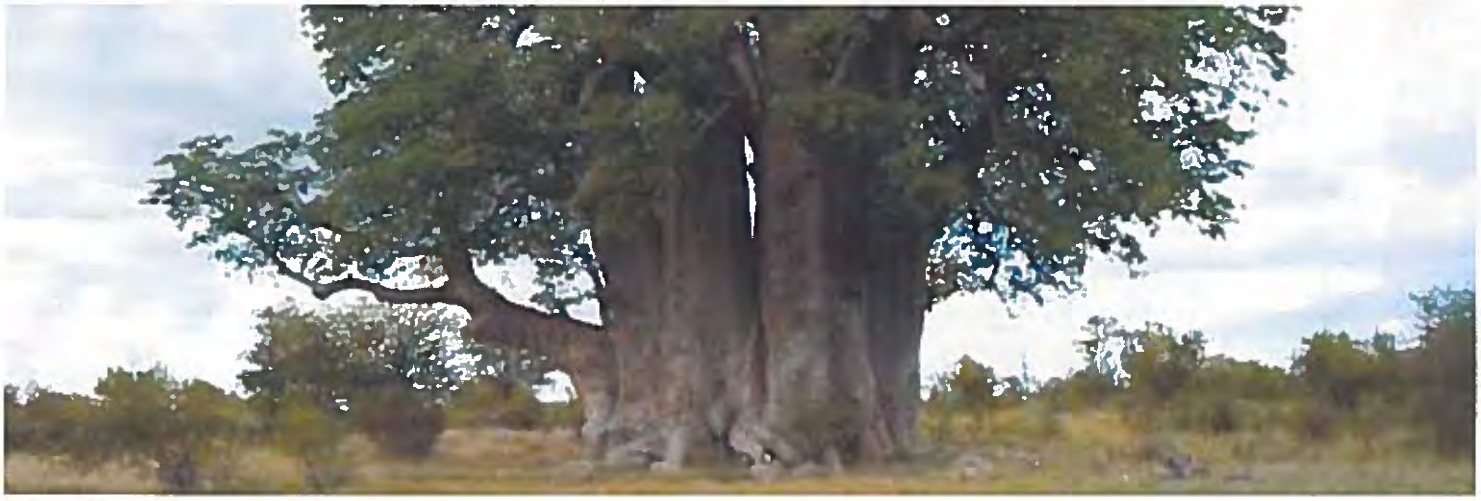
> *"Conservancy leaders literally travel village by village to gain the endorsement of the conservancy's membership. They either round everybody up into one place, or work with three or four villages in a day: having one meeting, driving three or four hours, having another meeting. They just carry on - sleeping in the villages and going through the conservancy until they're done with the full consultation."*
>
> ***Ben Begbie-Clench, Namibia Support Unit Manager at the Working Group of Indigenous Minorities in Southern Africa (WIMSA)***

Because the !Kung San do not have a hierarchically-structured leadership system, their leaders are really more akin to chairmen who oversee debate between the villagers. Each member over the age of 18 is given his or her voice in making conservancy decisions.

Strengthening local rights to land

In some areas of practice, N≠a Jaqna has become a role model for other conservancies, and exchange visits have resulted. However in terms of national policy there has been much less influence, and some of this should be put down the San's marginalized social status within the country and region, which inhibits state interaction. An exception is the defense of land rights in N≠a Jaqna where planned small scale farms which would dispossess the San of land and destroy environmentally sensitive areas have been opposed through N≠a Jaqna Conservancy by the community. Whilst this is not policy change, it has promoted adherence to national law and a respect for democratic processes which was not previously the case. This action vastly strengthened the community's knowledge of their rights and ability to interact with the state.

Sustainability and Replication



SUSTAINABILITY

The sustainability of the N≠a Jaqna Conservancy depends on the people seeing the benefits of the project and wanting to be a part of it, and the highly democratic nature of its governance is a huge factor in its desirability. This degree of participation is perhaps not the most cost-effective (so much travel requires fuel and vehicle upkeep), but in the end, sacrificing the high level of democracy would prove a greater barrier to sustainability than the increased monetary costs. In addition, the Conservancy's management has worked hard to build lasting relationships with their partners. As an example, the Conservancy does not increase their contract price annually or open a yearly bid for partnership with other trophy hunting companies; though in the short run, this may result in less of a profit for the !Kung San, the mutually beneficial agreement will, over the next ten years, provide a greater and more reliable profit in the long run.

There are certainly challenges to the Conservancy's sustainability, however. Though N≠a Jaqna is becoming more financially independent through its trophy hunting contract and the sale of Devil's Claw, true independence from current donors would bring a level of financial responsibility as yet unseen. The !Kung San, however, are in a unique position for success, owing to the desirability of the pristine quality of their beautiful and remote area as a destination for eco-tourism.

Threats to sustainability will only increase as time goes on; the need for farmland and grazing area only increases with Namibia's growing population, and changes in behavior and migration routes of game animals could occur under the influence of global climate change – a major threat in such an arid region. Luckily, the !Kung San of N≠a Jaqna are strongly committed to success, for they understand the consequences of damaging their fragile ecosystem; they understand that there will likely be no second chance. Community participation and private partnerships have been the key components to N≠a Jaqna's ongoing success, combining a democratic approach with economic benefits. Another contributing factor is the knowledge of the land and environment held by the participants, which has been adapted to new ends.

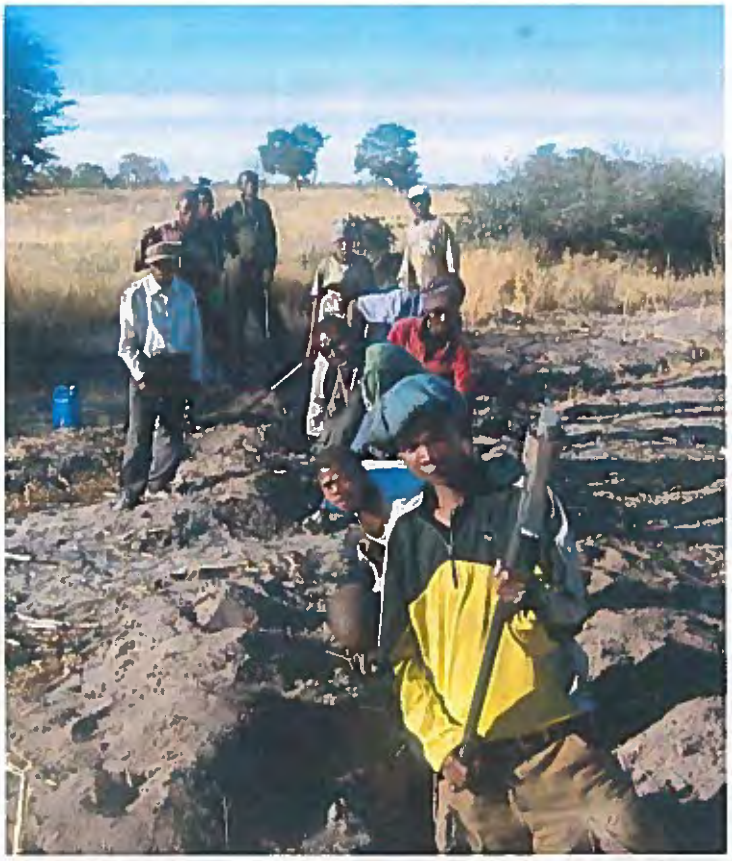
REPLICATION

There has already been replication and knowledge exchange between N≠a Jaqna and other communities and conservancies throughout Namibia, sharing best practices in tourism activities and land management techniques. N≠a Jaqna is one of the most successful and well-known conservancies in Namibia, lending weight to the conservancy approach. Additionally, there is a great deal of knowledge exchange with not only other communities, but with Namibian society as a whole. Learning about and understanding the needs of tourists and visitors to the Conservancy has enabled the !Kung San of N≠a Jaqna to adapt their methods in ways that are both beneficial to their community and appealing to visitors – further encouraging the sustainability of the project. In exchange, when tourists and non-community members visit the conservancy, they are exposed to an often unseen land of largely undisturbed ecosystem filled with native plants and animal species, rather than cattle or larger-scale agriculture. This exposure further underlines the importance and effectiveness of community land management, encouraging the growth and acceptance of the conservancy scheme on a wider level.

There have been a number of exchange partners, including mutual exchanges with Nyae Nyae Conservancy, other Namibian Conservancies and a San group from Botswana. N≠a Jaqna staff have visited a number of Conservancies in northern Namibia, and even San groups in Angola.

There are barriers to knowledge exchange, primarily in the realm of educational level and the steep learning curve associated with successful conservancy management. However, the !Kung San community members who have a greater degree of education

have been indispensible in the process of adapting and training the community as a whole. They have become essential leaders who possess a cultural and traditional knowledge base lacking in outsiders and the know-how to instruct and manage the Conservancy successfully.



PARTNERS

The N≠a Jaqna Conservancy is a unique partnership between the Namibian government, the World Bank, international NGOs, and private business. This diverse partnership arrangement is critical for the continued success of the project, bringing stakeholders together from many different sectors around the world. In this way, global expertise melds with local on-the-ground knowledge to create a sustainable and replicable initiative.

Most critical in this partnership is the support of the Namibian government, the UNDP GEF-Small Grants Program, international NGOs, and Eden Trophy Hunting (a privately-owned business). Other partners include:

- Working Group of Indigenous Minorities in Southern Africa (WIMSA)
- Ministry of Environment and Tourism
- World Wildlife Fund
- DED (German Development Service; now GIZ)
- Namibian Association of Norway (NAMAS)

Hi Earl,

Thank you for returning my call. I was calling to get your email address to ask the question below. I'm trying to sort through all of the elephant trophy applications, to determine what permit applications are needed by the hunter, and what hunts were unsuccessful.

On **04/16/2018** an applicaon f or the importaon of an Afric an Elephant, sport hunted trophy was received by this office **Prt # 85830C**. At the me of the applic aon' s submission the hunt was to be held at a future date.

Please confirm at this me if y ou successfully hunted the elephant. If **yes**, please state so, and provide the date and locaon the elephan t was taken.

If **no**, do wish to withdraw your applicaon a t this me?

Please confirm the current status.

****Please note the permit that was applied for was for a specific locaon, and dat e. Permit applicaons and f ees are not transferable to another hunt, and so if you have scheduled a different hunt, you must submit a new applicaon.*

Thank you,

Tim Mac Donald

Dear Earl,

Hope you folks are well Sir.

I looked at the photos and we took your bull on 3 August, 2018.

It was hunted in the Ondjou Conservancy block of Bushmanland.
Closest Towns is Gam and Tsumkwe.
GPS Coordinates:
S 20* 02' 34.7"
E 020* 38' 01.1"

PERMIT TO HUNT FOR TROPHIES

Permission is hereby granted in terms of the Nature Conservation Ordinance 1975 (Ord. 4 of 1975)

Name of Trophy Hunter: L.E Bentz

Residential Address:

Country: U.S.A

To hunt the specified number of game for the sake of trophies:

SPECIES: COMMON NAME	NUMBER	SPECIES: COMMON NAME	NUMBER	SPECIES: COMMON NAME	NUMBER	SPECIES: COMMON NAME	NUMBER
Blesbok		Impala Common		Springbok		Other	
Buffalo		Klipspringer		Steenbok		Jackal	2x
Crocodile		Kudu	1x	Warthog	1x	Caracal	1x
Dik-Dik		Lechwe		Waterbuck		*Report within 48hrs of hunt.	
Eland		Oryx (Gemsbok)	2x	Wildebeest, Black			
*Elephant	1x	Ostrich	1x	Wildebeest, Blue			
Giraffe		Reedbuck		Zebra Burchell's			
Grey Duiker		Rhinoceros, Black		Zebra Hartmann's			
Hartebeest		Rhinoceros, White		Cheetah			
Hippopotamus		Roan		Leopard			
Impala Black-Faced		Sable		Lion			

~~Elephant must be in~~ case of Res ~~inh~~ no 3 of Nature Con Ord 4 of 1975 discounted

On the following farms / hunting concessions / safari / guestfarm: Ondjou Conservancy

Guided by (name of guides): P. Thambabiko, A.M Albeds & T. Hihuikepa (SG)

Official MET date stamp

IMPORTANT: This permit is not valid if altered in any way and is not transferable.

Prime press 042018

The following certificate must be completed immediately after each animal that has been hunted (please print)

Date	Species	LH*	RH*	LB*	RB*	Total	RW*	Age	Male/ Female	Farm		Signatures		
										Name	No	Farm owner	Hunter	Professional hunter Master hunting guide Hunting guide
03/08/18	Elephant								Male	Ondjou Conservancy		K. [redacted]	(b) (6)	[redacted]

*L= Left, R=Right, H=Horn, B=Base, RW=Rowland Ward

No trophy hunter may hunt unless accompanied by a professional hunter, master hunting guide or hunting guide.

This permit must be kept on the person of the permit holder at all times while hunting.

Only guide(s) as specified on the permit may conduct the hunt.

Subject: Supplement to Permit # 85830C, Earl Bentz

Ms. Brisendine,

Attached you will find the operator enhancement report for the Conservancy where the elephant was actually taken on the hunt for this applicant.

The Ondjou Conservancy block of Busmanland was where the animal was taken as opposed to the N#A Jagna Conservancy that had been listed in the import permit application supplied before the hunt.

Please include this with our clients import permit application and let me know if you have any questions regarding this matter.

www.conservationforce.org

1. Name of area operator:
   Friederich Peter Johann Thormahlen,
   Name Used-Peter

a. Years in business: 18

b. Name of company conducting hunt: Thormahlen & Cochran Safaris

2. Name of concession: Ondjou Conservancy Size in km^2: 8729

a. Land tenure: __ Government lease __ Community x_ Private ranch __ Private conservancy

b. Length of concession agreement: 2 years Can it be renewed? _x_ Yes __ No

c. Length of renewal, if applicable: 9 years

d. Estimated total amount received in trophy fees last year, if applicable: $33,590

e. Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain:
   ANSWER:
   Yes, there are special obligations under the concession agreement:

- ANNUAL REPORTING -The Trophy Hunting Operator must submit an Annual Report Yearly within 30 days after the hunting season ends, which is 30 November. These Annual Reports are handed in at the Ministry of Environment & Tourism, as well as a copy at the Conservancy office, and the WWF office. Failure to submit the report timeously is punishable with a fine of N$5,000.

- COMMUNITY INVESTMENT – We donate school stationary supplies for the local school through the SCI Blue Bag system in the amount of N$54,000 per annum, buy uniforms for community game scouts and community camp staff to the value of N$84,500.
  We donate the trophy hunting camp which was built at a cost of N$750,000 after a three-year period, back to the community and lease it from them so they can generate a monthly income from the trophy hunting camp. All maintenance is done by the Trophy Hunting Operator. The trophy hunting camp consist of 4 x client tents, dining area, kitchen tent, and 5 staff tents to the community.

  Drilling and maintaining of the boreholes in the concession to establish Permanent Wildlife Water Points is a crucial part of the concession development as water allows the elephants to become resident in the concession compared to the previous yearly migration into the concession when the natural pans fill up with water during the rainy season. After which the elephants move back into Khadoum National Park and Nyae Nyae Conservancy where there is Permanent Wildlife Water Points.

Installation of solar pump for water supply to the community members is also a crucial part of the community development program. Community members feel they are rewarded by the Conservation Developments when they receive fresh clean drinking water at their villages. This results in Wildlife Water Points being left alone and not damaged or settled around them, which chases the game away.

- COMMUNITY EMPLOYMENT - We permanently employ 5 Community Members as Camp Staff, and 12 community members as Casual labor in the concession. The Casual Workers are employed 10 months per year to open roads in the concession, open the concession boundaries (Cutlines), and to skin elephants when hunted. The Permanent Staff gets a basic salary of N$2,000 per month. The Casual workers get a monthly salary of N$1,750 per month. On average N$210,000 salary is paid per annum to Casual Workers who are community members, which is a great inflow of funds in the poor community.

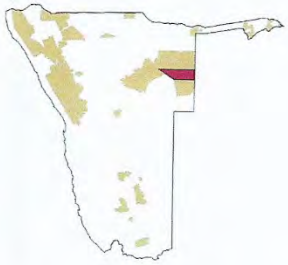
- MEAT DISTRIBUTION – All hunted Trophy, as well as Non-Trophy game meat is distributed to villages in the concession within 24 hours after being hunted. As a company Policy we do not leave any remains of elephant where it was hunted - no bones, skin, meat etc. After 2 days diesel is poured onto the stomach gcontent and blood at the slaughtering site, wood stacked on top and burned. This is done to cause as little as possible stress on the elephants as there is no smell left of the hunted elephant or its remains. Elephant gets stressed seriously when bones and skin is left at the site!

- ANTI POACHING PROGRAM – Establishment of Wildlife Water Points is the first and most crucial development in the concession so that existing game becomes resident in the concession! After Permanent Wildlife Water Points (PWWP's) are established we start our Anti-Poaching program to protect the PWWP Equipment as well as the existing game. Currently all personnel are utilized as anti-poaching staff when no safaris take place. Community Game Scouts are on permanent anti-poaching patrols. Equipment and funding remain the biggest challenges as equipment is expensive.

f. Please provide the concession location and nearest city. Please attach a map or maps with the boundaries marked and showing the nearest city:

Nearest town is Gam.

Nearest City is Windhoek -650 km away.

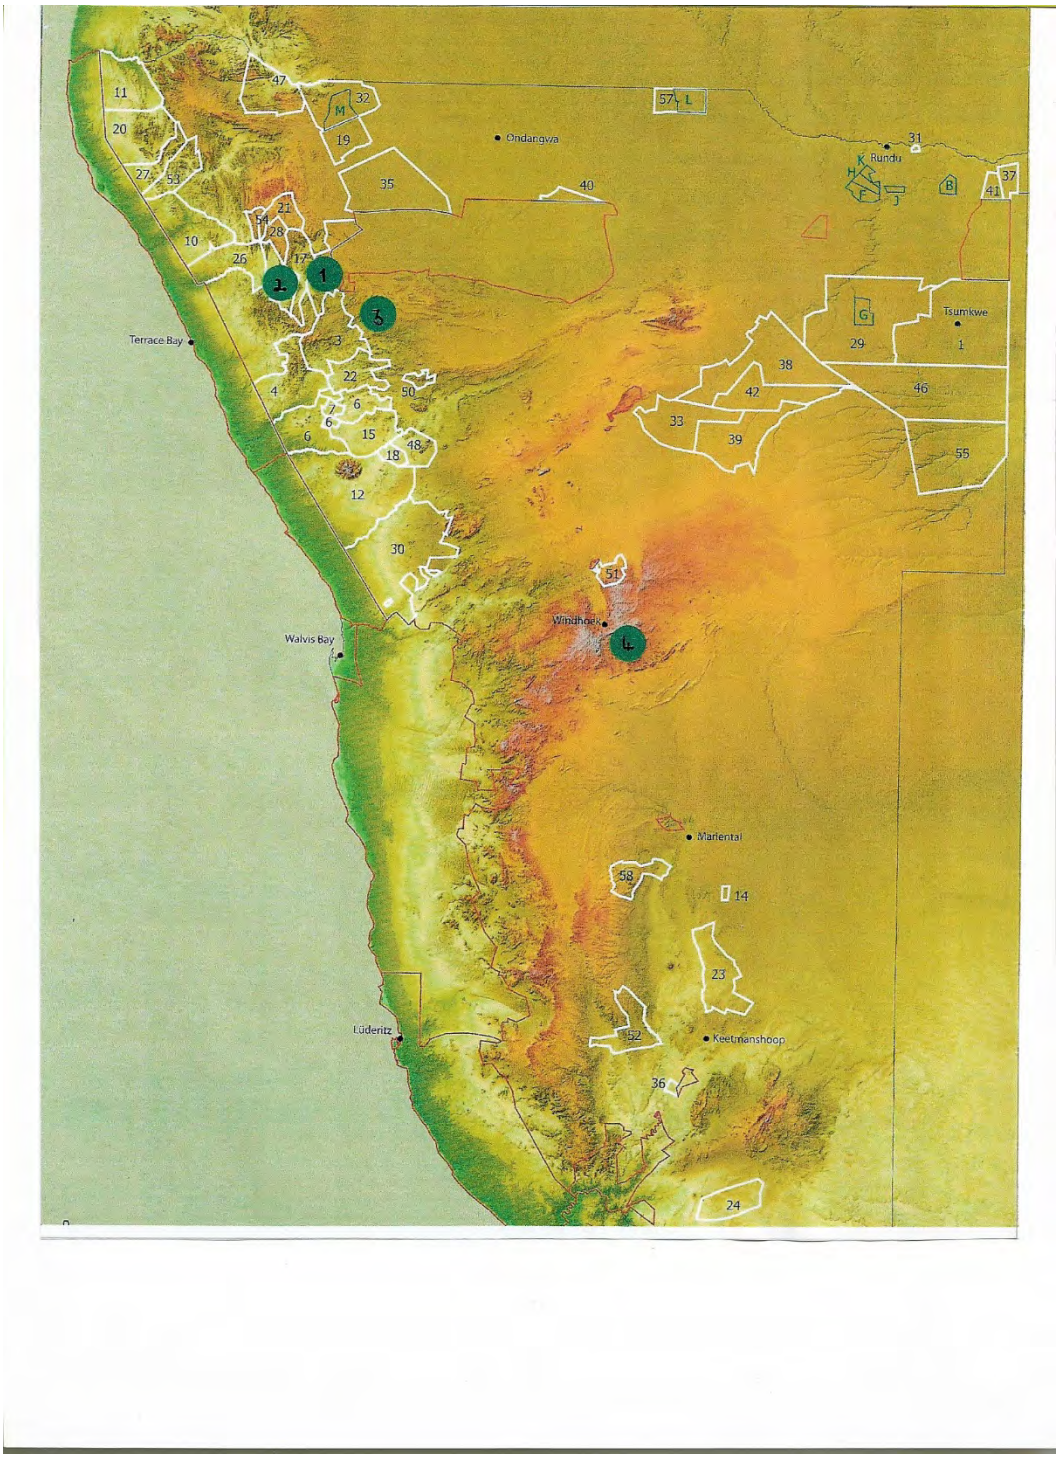


ONDJOU

(named after the Otjiherero word for 'elephant')

Registered	October 2006
Address	Ondjou Conservancy Private Bag 2008, Grootfontein
Telephone	067 245509
Approximate population	2,000
Main home languages	Otjiherero, San
Area	8,729 square kilometres
Region	Otjozondjupa
Geographical features	Characterised by undulating landscape and diverse vegetation including woodlands, grassland and well-defined drainage lines. Rock outcrops may have archaeological significance.
Unusual or important features	Traditional culture of Herero people.
Major wildlife resources	Elephant, lion, leopard, giraffe, kudu, steenbok, gemsbok, wild dog, spotted hyaena, cheetah, black-backed jackal.
Management	Management Committee of six women and ten men; one staff; no wildlife monitoring at present.
Enterprises	Trophy hunting; devil's claw harvesting.
Support Agencies	MET, MAWF, NCDC, LAC, NNF

Map attached, Ondjou Conservancy is no 46 on the map



g. If the concession borders a national park, please provide the park name:
_____N/A_____

h. Description of general and distinctive habitat features and any water features:

Ondjou is named after the Otjiherero word for elephant.

Geographical features:

Characterised by undulating landscape and diverse vegetation including woodlands, grassland and well-defined drainage lines. Rock outcrops may have archaeological significance.

Unusual or important features:
Traditional culture of Herero people.

Major wildlife resources:
Elephant, lion, leopard, giraffe, kudu, steenbok, gemsbok, wild dog, spotted hyaena, cheetah, black-backed jackal.

3. Are there any communities living in the concession? x Yes __ No

   a. If so, estimated number of people or villages in the concession? 2969 people

4. Are there communities bordering this concession? x__ Yes __ No

   a. If so, estimated number of people or villages around the concession?

   Na# Jaqna Conservancy on the northern boundary with Bushman (San) communities, Nyae Nyae Conservancy on the northern boundary with Bushman (San) communities, and Eiseb Conservancy on the southern boundary with Damara communities. See Conservancy map. Not densily populated. Bushman tribes and Damara in the neighboring concessions.

5. Relevant game populations in the concession:[1]

Species name	Relative Abundance (dense/avg./sparse)	Est. population	3-Year trend (up/ down/ stable)	How monitored?
Elephant	abundance	450 – 550	upwards	Count Surveys by Community Game Guards, #MET & *NACSO
Leopard	abundance	400	stable	Count Surveys by Community Game Guards, #MET & *NACSO
Cheetah	sparse	20	stable	Count Surveys by Community Game

[1] The new FWS import permit application form asks the applicant: "9. a. Do you have any information regarding the population status or trend on the species hunted?"

				Guards, #MET & *NACSO
Wild dog	average	35	stable	Count Surveys by Community Game Guards, #MET & *NACSO
Hyena-Spotted	average	35	Stable	Count Surveys by Community Game Guards, #MET & *NACSO
Hyena - Brown	abundant	150	upwards	Count Surveys by Community Game Guards, #MET & *NACSO

6. Total employment number: __5__

   a. Please identify the number and type of all employees:

Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters	6	2
Trackers	4	1
Anti-poaching scouts/rangers	9	9
Other anti-poaching		
Cooks/housekeepers	2	2
Community coordinators	1	1
Managers	2	1
Biologists		
Others: _____		

7. Number of staff employed in the off-season:

   5 x Camp Staff, 9 x anti-poaching Game Guards.

a. Please identify the number and type of staff that are engaged when the season is not open:

5 x Camp Staff, 9 x anti-poaching Game Guards

Type	Total number of this type	Number of locals/from nearby communities	When employed?
Anti-poaching staff	9	9	2018 to date
Managers	1	1	2018 to date
Maintenance	1	1	2018 to date
Road opening/construction			
Community relations personnel			
Others: Camp Staff_____	5	5	2018 to date

8. Anti-poaching efforts:[2]

a. Number of anti-poaching staff: __9__

b. Are anti-poaching patrols conducted during the hunting season, off-season, or both? both

c. Months during which anti-poaching patrols are conducted: every month of the year

d. Number of anti-poaching patrols per month: Project staff carried out foot, vehicle, donkey patrols - for inaccessible areas

e. Description of anti-poaching equipment, vehicles, etc.: Patrol 4x4 cars and on foot, and donkey.

f. Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution? Namibian Police and Game Department

g. Do you offer rewards to poaching informants leading to arrest? _x_ Yes __ No

h. Do you offer rewards to poaching informants upon conviction? _x_ Yes __ No

[2] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

i. Please describe the company's anti-poaching expenditures below. What currency are the expenditures given in?

Type of expense	Spending 2018-N$	Spending 2019 -N$	Spending 2020 – N$	Remarks
Salaries for anti-poaching scouts	N$91,800 - N$850 per month x 9 scouts	N$91,800 - N$850 per month x 9 scouts	N$91,800 - N$850 per month x 9 scouts	
Equipment	N$20,000	N$20,000	N$50,000	
Vehicles	N$500,000 – Landcruiser pick-up	N$500,000 – Landcruiser pick-up	N$500,000 – Landcruiser pick-up	
Diesel	N$50,000	N$50,000	N$50,000	
Rewards paid				
Other: _____				
Other: _____				
TOTALS	N$661,800	661,800	691,800	

9. Anti-poaching results:

Category	2018	2019		Remarks
Poaching incidents discovered	7	0		Eland, Gemsbuck, Steenbuck, and spotted hyena poisoned
Elephant carcasses observed	0	0		No Elephant poached
Lion carcasses observed	N/A	N/A		No Lions
Leopard carcasses observed	0	0		None killed
Ivory poachers arrested	0	0		No Elephant poaching yet
Meat poachers arrested	1	0		Killed Eland cow
Other poachers arrested	2	0		Stole solar panels at PWWP
Poachers convicted	2	0		Prison sentence
Snares/gin traps collected	0	0		Poaching with dogs & horses. No snares used due to cattle in concession
Firearms confiscated	0	0		Dogs & Horses used

10. Community investment:[3]

a. Does the company contribute money or goods/services to local communities? X__ Yes __ No

b. If so, what percentage or amount is shared, how often, and why (e.g., required by law, required by contract, voluntary contribution)? _

Communities gets 100% of money contributed by Hunters for non-exportable game (Own Use Quota). The Donation for a Non-Exportable elephant is US$15,000 of which US$3,500 goes to the community, and the rest is used to establish PWWP's in the concession as wildlife water points is our primary development goal. Without water the concession is just a "Green Desert" because all surface water seeps into the sandy soil. Two non-exportable elephant is on quota yearly. The Communal fee is a contractual fee.

Our clientele is primarily USA citizens who donate SCI Blue Bags with school stationary supplies. Each hunter hunting in the conservancy donates between one and two SCI Blue bags with school stationary at a value of US$200 each bag. Hence a minimum of 5-10 SCI Blue Bags is donated at a value of N$13,500 to N$27,000. The SCI Blue Bag donations is a Voluntary fee.

c. Does the company provide game meat to nearby communities? X_ Yes __ No

d. If so, please estimate the amount and/or value of meat contributed in prior year and describe the meat contribution program:

All the game animals hunted by us per the allocated quotas of the Minister of Environment and Tourism, go to the local community of Ondjou.

Elephant x 4 on quota x 4,500 kg meat x N$22 per kg = N$396,000 worth of meat is distributed to the Ondjou Communities.

A list of all villages that need to receive meat is handed to the hunting operator by the Management Committee, and meat must be distributed within 24 hours after an animal is hunted. If not distributed within 24 hours after the hunt the contractual penalty fee is N$22 per kilogram meat. With elephant that is a fine of N$99,000 per elephant or US$7,300.

e. If the company performs problem animal activities for surrounding communities (e.g., patrolling fields during the harvest, chasing away problem animals, conducting PAC hunts or PAC killings), please describe.

[3] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers community investment a "conservation benefit."

The Ondjou Concession block is not a horticulture area, and very little crops are raised. Mainly cattle, goats, donkey, and horses are raised by community members.

When an elephant damages any property, problem elephant situations are raised by the local community and it is addressed with the Chairman of the Community. The chairman then reached out to the Minister of Environmental and Tourism, who investigates the Wildlife Human conflict, and approves the problem animal permit in writing when enough evidence is collected by the Ministry. The Chairman then reached out to the Hunting Operator to provide a client. If a suitable client is found, there is a certain time limit to hunt the animal and the permit will be issued with the client's details.

The Operator must pay the community a predetermined contractual fee for the problem animal, and the meat has to be distributed to villages on the meat delivery list as per contract

f. Please describe any consolation payments made to residents damaged by game species. What currency are the expenditures reported in?

There is a Government Fund that is supposed to refund the community for damages, however it is depleted. Thormahlen & Cochran Safaris pays the community members compensation agreed upon by the community, the hunting operator and the Minister of Environment and Tourism, when damage was done to keep the community from killing the animals.

Species	Damage caused	Consolation paid 2018	Consolation paid 2019	Consolation paid 2020
Elephant	Very little damage caused	N$0		
Lion	N/A – No Lion in Concession	N/A	N/A	N/A
Leopard	Goats, Calves, Donkey caught	N$0		
Wild Dogs	Calves & Goats caught	N0$		
Spotted Hyena	Cattle calves caught	N$0 due to hyenas being poisoned. Perpetrator arrested by MET		
Porcupine	Destroy the little crops there is.	N$0		
Caracal	Goats killed	N$0		
TOTAL DAMAGED CAUSED	**N$140,000**	N$0		

According to a report done by NACSO, there is human wildlife conflict, whereby hyena and wild dogs are the most troublesome and are responsible for the most incidents, followed by porcupine, leopard and caracal.

The cost of estimated human wildlife conflict cost on average, **is N$140 000 per year**.

The estimated poaching of high value species was none.

Natural resource benefits outweighed the conflict costs.

g. Please describe any community projects paid for by the company. What currency are the expenditures reported in? _____**Namibian$**_____

Type of project	Spending 2018	Spending 2019	Spending 2020	Remarks
Education e.g. School Stationary supplies	N$55,000	N$55,000	N$	20 blue bags @ $200 per bag = $4000, or N$55000. Clients donate $200, we fill-up the bag to the total of $200 with the necessary school or educational supplies, identified by the local schools.
Education (e.g., school fees, supplies)				
Health (e.g., clinics, offices)				
Health (e.g., medical salaries, equipment)

TOTALS	**N$2,091,045**	**M$**		

* PWWP's -Permanent Wildlife Water Points

INVESTMENT SUMMARY - 2018

UTILIZATION & DEVELOPMENT OF THE ONDJOU COMMUNITY

TOTAL SALARIES & TRAINING COST- 2016

Thormahlen & Cochran Safaris spent the following amounts on training and labour in 2018:

- **Training of Camp Staff-N$75,000**
- **Camp Staff Salaries – N$47,250**
- **Casual Labour Salaries – N$280,000**
- **Staff & Casual Workers Workwear Uniforms – N$33,500**

TOTAL COST – N$435,750

NOTE:

- Training Camp Staff – 3 staff x N$3,125 pm x 8 months
- Camp Staff Salaries – 3 staff x 9 months x N$1,750 ea
- Casual Labour – 20 casuals x 8 months @ N$1,750 ea
- Staff Uniforms – 3 x N$4,500 ea
- Casual Workers Equipment – N$1,000 ea

Casual Workers cleared the Trophy Hunting Campsite at Ondjou Conservancy where we built a Permanent Trophy hunting camp. The first trophy hunting Camp ever at Ondjou Conservancy.
Casual workers cleared a strip of bush and dug the trench for the water pipeline to the trophy hunting camp from Post 2, a distance of 3,5 kilometres.
The casual workers also cleared the Ondjou Airstrip which was overgrown for 28 years since the Namibian Bush War with South Africa. The airstrip is operational after 28 years and the first clients flied into Gam for their elephant hunt.

TOTAL WATER DEVELOPMENT COST - 2018

Thormahlen & Cochran Safaris donated diesel to Mooiplaas Post, Mangetti Post, and Otjijere Post so that the village members can pump water for the elephants. An average of 25 litre diesel was donated every week, hence 200 litre per village per month for 8 months.

We also donated a new Lister Pump to the community at Post 2 where the trophy hunting camps water is coming from.
A plastic Pipeline was laid from Post 2, to the trophy Hunting Camp. A total distance of 3,5 kilometres.
A 10,000 litre plastic tank on a 6 meter steel stand was erected at Post 2 to store the trophy hunting camp's water.
At the Trophy Hunting Camp two plastic Tanks (5,000 & 2,500 litre) was erected on steel stands.

TOTAL WATER DEVELOPMENT COST

- **Diesel to pump water for elephants – N$76,000**
- **Lister Pump Cost – N$16,000**
- **Plastic Pipe Cost – N$35,000**
- **Water tank 10,000 -N$9,700**
- **Water Tank 5,000 litre – N$4,700**
- **Water tank 2,500 litre – N$2,700**
- **Steel Tank stand 10,000 litre tank – N$37,000**
- **Steel Tank Stand 5,000 & 2,500 litres tanks – N$23,000**

TOTAL COST – N$204,000

NOTES:

- Diesel 200 litre x 3 villages x 8 months x N$16 per litre
- Plastic pipeline of 40 mm class 6 @ N$10 per meter x 3,500 meters

TOTAL CAMP DEVELOPMENT COST - 2016

- **Camp Material –N$650,000**
- **Camp Building Cost –N$240,000**
- **Tents & Equipment – N$284,495**

TOTAL COST – N$1,174,495

GAM AIRSTRIP REHABILITATION COST-2018

- Vehicle Cost -N$40,000
- Big Game PH Salary Cost – N$50,000
- Steel Wire to fence off Airstrip for Airplane Safety – N$33,000
- Anchor Poles – N$12,000
- Dropper Poles – N$21,700
- Trailer Rental -N$8,500
- Steel Gate – N$1,000
- Windsock -N$3,500
- Windsock steel post -N$1,000
- Cement -N$2,000
- Molopo Tree Poison – N$3,600

TOTAL AIRSTRIP COST – N$176,300

SCHOOL STATIONARY DONATIONS

TOTAL SCHOOL STATIONARY DONATED – N$55,000

TOTAL DEVELOPMENT / INVESTMENT – 2018:

A TOTAL OF N$2,091,045 was invested in Ondjou Conservancy

11. How many U.S. clients did the company have in the past three years, what percentage of the company's clients were from the U.S., and what fees did they pay?

We operate in South Africa and Namibia, and the figures below, is for the whole operation. In Ondjou we only hunt what is allocated on quota, and it is fixed by the

Government. The Namibian Government, specifically the Minister of Environment and Tourism, set strict quotas at the beginning of every three years, revising it at the end of each year when the Hunting operator must submit a Hunting Report on that specific year. So, before the client arrives, the hunting operator must take out a hunting permit – and this is only available if it falls within the quota that was pre-approved.

Current Ondjou Trophy quota: 2 x trophy elephant, 2 x own use elephant, 4 x Steenbuck, 2 x caracal, 5 x jackal, 3 x kudu, 1 x leopard, 3 x ostrich, 4 x Oryx, 3 x warthog. 1 x duiker.

The table below is for the total of Thormahlen & Cochran's concessions:

	Hunting elephant	Hunting lion	Hunting leopard	Hunting all other species
Number of U.S. clients	2015: 4 clients 2016: 9 2017: 5 2018: 4	2015: 2016: 2017: 2018: 1	2015: 2 clients 2016: 9 2017: 9 2018: 10	2015: 126 clients 2016: 110 2017: 141 2018: 83
Percentage of U.S. clients	2015: 99 % 2016: 98 % 2017: 100 % 2018: 98 %	2015: 2016: 2017: 2018: 100 %	2015: 100 % 2016: 98 % 2017: 99 % 2018: 100 %	2015: 95 % 2016: 96 % 2017: 97 % 2018: 95 %
Trophy fees paid by U.S. clients – US$	2015: $220,000 2016: $495,000 2017: $275,000 2018: $260,000	2015: 2016: 2017: 2018: $75,000	2015: $42,000 2016: $225,000 2017: $256,000 2018: $265,000	2015: $303,715 2016: $1,075,000 2017: $997,375 2018: $410,110

12. Approximate dollar amount and/or percentage of the company's revenue from U.S. clients:

    95%

13. Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concession improvements (e.g., digging and maintaining boreholes, restocking), management activities, research, etc.

    Thormahlen & Cochran Safaris policy in our hunting blocks is:

    - to only hunt Leopard males of six years and older;
    - to only hunt Trophy elephant bulls of 47 years and older;
    - to only hunt elephant bulls in excess of 55 lbs tusks.

    This way we enhance the genetic trophy quality by hunting post-productive animals only.

Thormahlen & Cochran operates on other conservancies in Namibia, namely:
Na#Jaqna
Ondjou
Ozondundu
Otuzemba
Anabeb
Orupupa (2015-2017)
Otjambangu
Ombuijokanguidi
Okangundumba
Impalila
Kabulabula
We built trophy hunting camps in Na Jaqna, Ondjou, Anabeb, Impalila and Kabulabula.
Thormahlen & Cochran donate all the camps to the Conservancies.
We deliver all the meat that we hunt, to the conservancies, and
Donate to every local school school stationary SCI blue bags.
We are building roads and are responsible for the water and electricity supply for the camps.
We employ the local community as staff and currently employ 5 to 6 conservancy members per camp as staff.
We are also responsible for the training of the staff to be able to serve the overseas clients.
To date we have 32 community members employed in the various camps.
We also have social responsibilities towards the conservancies: we built a school hostel, a community hall, drilling of waterholes, making Cutlines, building roads etc.
Ondjou's camp was built in 2018 for **N$1,174,495**.
We are buying protective clothing to the game guards and uniforms for the personnel on an annual basis.
Two of the most significant benefits for the conservancy, is the cash income derived from the trophy hunting activities to cover its own running cost, and to invest in their social programs, and the yearly employment of its own community members.

14. I declare that the foregoing is true and correct.

OperatorEnhanceOndjouConservancy.pdf;

Ms. Brisendine,

Attached you will find the operator enhancement report for the Conservancy where the elephant was actually taken on the hunt for this applicant.

The Ondjou Conservancy block of Busmanland was where the animal was taken as opposed to the N#A Jagna Conservancy that had been listed in the import permit application supplied before the hunt.

Please include this with our clients import permit application and let me know if you have any questions regarding this matter.

www.conservationforce.org

1. Name of area operator:
   Friederich Peter Johann Thormahlen,
   Name Used-Peter

a. Years in business: 18

b. Name of company conducting hunt: Thormahlen & Cochran Safaris

2. Name of concession: Ondjou Conservancy Size in km^2: 8729

a. Land tenure: __ Government lease __ Community x_ Private ranch __ Private conservancy

b. Length of concession agreement: 2 years Can it be renewed? _x_ Yes __ No

c. Length of renewal, if applicable: 9 years

d. Estimated total amount received in trophy fees last year, if applicable: $33,590

e. Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain:
   ANSWER:
   Yes, there are special obligations under the concession agreement:

- ANNUAL REPORTING -The Trophy Hunting Operator must submit an Annual Report Yearly within 30 days after the hunting season ends, which is 30 November. These Annual Reports are handed in at the Ministry of Environment & Tourism, as well as a copy at the Conservancy office, and the WWF office. Failure to submit the report timeously is punishable with a fine of N$5,000.

- COMMUNITY INVESTMENT – We donate school stationary supplies for the local school through the SCI Blue Bag system in the amount of N$54,000 per annum, buy uniforms for community game scouts and community camp staff to the value of N$84,500.
  We donate the trophy hunting camp which was built at a cost of N$750,000 after a three-year period, back to the community and lease it from them so they can generate a monthly income from the trophy hunting camp. All maintenance is done by the Trophy Hunting Operator. The trophy hunting camp consist of 4 x client tents, dining area, kitchen tent, and 5 staff tents to the community.

  Drilling and maintaining of the boreholes in the concession to establish Permanent Wildlife Water Points is a crucial part of the concession development as water allows the elephants to become resident in the concession compared to the previous yearly migration into the concession when the natural pans fill up with water during the rainy season. After which the elephants move back into Khadoum National Park and Nyae Nyae Conservancy where there is Permanent Wildlife Water Points.

Installation of solar pump for water supply to the community members is also a crucial part of the community development program. Community members feel they are rewarded by the Conservation Developments when they receive fresh clean drinking water at their villages. This results in Wildlife Water Points being left alone and not damaged or settled around them, which chases the game away.

- COMMUNITY EMPLOYMENT - We permanently employ 5 Community Members as Camp Staff, and 12 community members as Casual labor in the concession. The Casual Workers are employed 10 months per year to open roads in the concession, open the concession boundaries (Cutlines), and to skin elephants when hunted. The Permanent Staff gets a basic salary of N$2,000 per month. The Casual workers get a monthly salary of N$1,750 per month. On average N$210,000 salary is paid per annum to Casual Workers who are community members, which is a great inflow of funds in the poor community.

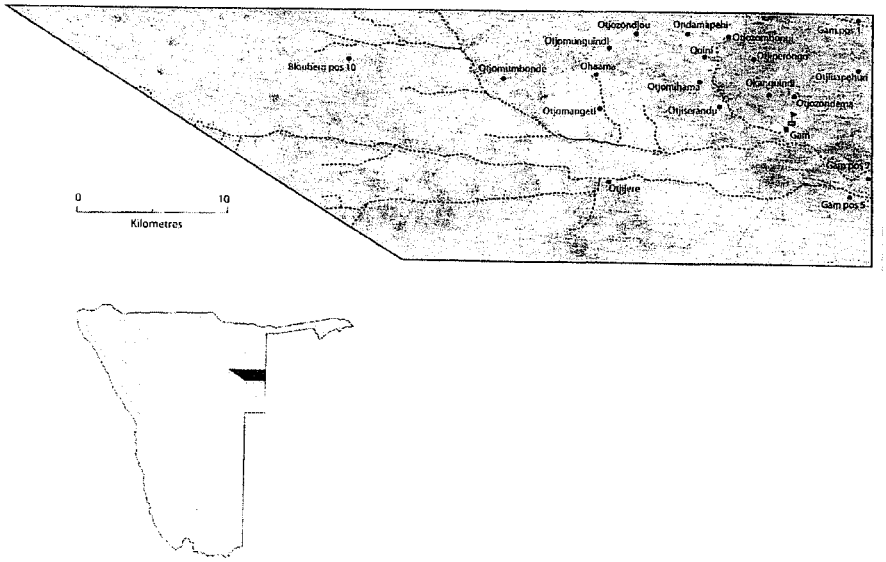
- MEAT DISTRIBUTION – All hunted Trophy, as well as Non-Trophy game meat is distributed to villages in the concession within 24 hours after being hunted. As a company Policy we do not leave any remains of elephant where it was hunted - no bones, skin, meat etc. After 2 days diesel is poured onto the stomach gcontent and blood at the slaughtering site, wood stacked on top and burned. This is done to cause as little as possible stress on the elephants as there is no smell left of the hunted elephant or its remains. Elephant gets stressed seriously when bones and skin is left at the site!

- ANTI POACHING PROGRAM – Establishment of Wildlife Water Points is the first and most crucial development in the concession so that existing game becomes resident in the concession! After Permanent Wildlife Water Points (PWWP's) are established we start our Anti-Poaching program to protect the PWWP Equipment as well as the existing game. Currently all personnel are utilized as anti-poaching staff when no safaris take place. Community Game Scouts are on permanent anti-poaching patrols. Equipment and funding remain the biggest challenges as equipment is expensive.

f. Please provide the concession location and nearest city. Please attach a map or maps with the boundaries marked and showing the nearest city:

Nearest town is Gam.

Nearest City is Windhoek -650 km away.



ONDJOU

(named after the Otjiherero word for 'elephant')

Registered	October 2006
Address	Ondjou Conservancy Private Bag 2008, Grootfontein
Telephone	067 245509
Approximate population	2,000
Main home languages	Otjiherero, San
Area	8,729 square kilometres
Region	Otjozondjupa
Geographical features	Characterised by undulating landscape and diverse vegetation including woodlands, grassland and well-defined drainage lines. Rock outcrops may have archaeological significance.
Unusual or important features	Traditional culture of Herero people.
Major wildlife resources	Elephant, lion, leopard, giraffe, kudu, steenbok, gemsbok, wild dog, spotted hyaena, cheetah, black-backed jackal.
Management	Management Committee of six women and ten men; one staff; no wildlife monitoring at present.
Enterprises	Trophy hunting; devil's claw harvesting.
Support Agencies	MET, MAWF, NCDC, LAC, NNF

Map attached, Ondjou Conservancy is no 46 on the map

g. If the concession borders a national park, please provide the park name:
_____N/A_____

h. Description of general and distinctive habitat features and any water features:

Ondjou is named after the Otjiherero word for elephant.

Geographical features:

Characterised by undulating landscape and diverse vegetation including woodlands, grassland and well-defined drainage lines. Rock outcrops may have archaeological significance.

Unusual or important features:
Traditional culture of Herero people.

Major wildlife resources:
Elephant, lion, leopard, giraffe, kudu, steenbok, gemsbok, wild dog, spotted hyaena, cheetah, black-backed jackal.

3. Are there any communities living in the concession? x Yes __ No

   a. If so, estimated number of people or villages in the concession? 2969 people

4. Are there communities bordering this concession? x__ Yes __ No

   a. If so, estimated number of people or villages around the concession?

   Na# Jaqna Conservancy on the northern boundary with Bushman (San) communities, Nyae Nyae Conservancy on the northern boundary with Bushman (San) communities, and Eiseb Conservancy on the southern boundary with Damara communities. See Conservancy map. Not densily populated. Bushman tribes and Damara in the neighboring concessions.

5. Relevant game populations in the concession:[1]

Species name	Relative Abundance (dense/avg./sparse)	Est. population	3-Year trend (up/ down/ stable)	How monitored?

6. Total employment number: __5__

   a. Please identify the number and type of all employees:

Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters	6	2
Trackers	4	1
Anti-poaching scouts/rangers	9	9
Other anti-poaching		
Cooks/housekeepers	2	2
Community coordinators	1	1
Managers	2	1
Biologists		
Others: _____		

7. Number of staff employed in the off-season:

   5 x Camp Staff, 9 x anti-poaching Game Guards.

a. Please identify the number and type of staff that are engaged when the season is not open:

5 x Camp Staff, 9 x anti-poaching Game Guards

Type	Total number of this type	Number of locals/from nearby communities	When employed?
Anti-poaching staff	9	9	2018 to date
Managers	1	1	2018 to date
Maintenance	1	1	2018 to date
Road opening/construction			
Community relations personnel			
Others: Camp Staff	5	5	2018 to date

8. Anti-poaching efforts:[2]

a. Number of anti-poaching staff: __9__

b. Are anti-poaching patrols conducted during the hunting season, off-season, or both? both

c. Months during which anti-poaching patrols are conducted: every month of the year

d. Number of anti-poaching patrols per month: Project staff carried out foot, vehicle, donkey patrols - for inaccessible areas

e. Description of anti-poaching equipment, vehicles, etc.: Patrol 4x4 cars and on foot, and donkey.

f. Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution? Namibian Police and Game Department

g. Do you offer rewards to poaching informants leading to arrest? _x_ Yes __ No

h. Do you offer rewards to poaching informants upon conviction? _x_ Yes __ No

[2] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

i. Please describe the company's anti-poaching expenditures below. What currency are the expenditures given in?

Type of expense	Spending 2018-N$	Spending 2019 -N$	Spending 2020 – N$	Remarks
Salaries for anti-poaching scouts	N$91,800 - N$850 per month x 9 scouts	N$91,800 - N$850 per month x 9 scouts	N$91,800 - N$850 per month x 9 scouts	
Equipment	N$20,000	N$20,000	N$50,000

10. Community investment:[3]

a. Does the company contribute money or goods/services to local communities? X__ Yes __ No

b. If so, what percentage or amount is shared, how often, and why (e.g., required by law, required by contract, voluntary contribution)? _

Communities gets 100% of money contributed by Hunters for non-exportable game (Own Use Quota). The Donation for a Non-Exportable elephant is US$15,000 of which US$3,500 goes to the community, and the rest is used to establish PWWP's in the concession as wildlife water points is our primary development goal. Without water the concession is just a "Green Desert" because all surface water seeps into the sandy soil. Two non-exportable elephant is on quota yearly. The Communal fee is a contractual fee.

Our clientele is primarily USA citizens who donate SCI Blue Bags with school stationary supplies. Each hunter hunting in the conservancy donates between one and two SCI Blue bags with school stationary at a value of US$200 each bag. Hence a minimum of 5-10 SCI Blue Bags is donated at a value of N$13,500 to N$27,000. The SCI Blue Bag donations is a Voluntary fee.

c. Does the company provide game meat to nearby communities? X_ Yes __ No

d. If so, please estimate the amount and/or value of meat contributed in prior year and describe the meat contribution program:

All the game animals hunted by us per the allocated quotas of the Minister of Environment and Tourism, go to the local community of Ondjou.

Elephant x 4 on quota x 4,500 kg meat x N$22 per kg = N$396,000 worth of meat is distributed to the Ondjou Communities.

A list of all villages that need to receive meat is handed to the hunting operator by the Management Committee, and meat must be distributed within 24 hours after an animal is hunted. If not distributed within 24 hours after the hunt the contractual penalty fee is N$22 per kilogram meat. With elephant that is a fine of N$99,000 per elephant or US$7,300.

e. If the company performs problem animal activities for surrounding communities (e.g., patrolling fields during the harvest, chasing away problem animals, conducting PAC hunts or PAC killings), please describe.

[3] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers community investment a "conservation benefit."

The Ondjou Concession block is not a horticulture area, and very little crops are raised. Mainly cattle, goats, donkey, and horses are raised by community members.

When an elephant damages any property, problem elephant situations are raised by the local community and it is addressed with the Chairman of the Community. The chairman then reached out to the Minister of Environmental and Tourism, who investigates the Wildlife Human conflict, and approves the problem animal permit in writing when enough evidence is collected by the Ministry. The Chairman then reached out to the Hunting Operator to provide a client. If a suitable client is found, there is a certain time limit to hunt the animal and the permit will be issued with the client's details.

The Operator must pay the community a predetermined contractual fee for the problem animal, and the meat has to be distributed to villages on the meat delivery list as per contract

f. Please describe any consolation payments made to residents damaged by game species. What currency are the expenditures reported in?

There is a Government Fund that is supposed to refund the community for damages, however it is depleted. Thormahlen & Cochran Safaris pays the community members compensation agreed upon by the community, the hunting operator and the Minister of Environment and Tourism, when damage was done to keep the community from killing the animals.

Species	Damage caused	Consolation paid 2018	Consolation paid 2019	Consolation paid 2020
Elephant	Very little damage caused	N$0		
Lion	N/A – No Lion in Concession	N/A	N/A	N/A
Leopard	Goats, Calves, Donkey caught	N$0		
Wild Dogs	Calves & Goats caught	N0$		
Spotted Hyena	Cattle calves caught	N$0 due to hyenas being poisoned. Perpetrator arrested by MET		
Porcupine	Destroy the little crops there is.	N$0		
Caracal	Goats killed	N$0		
TOTAL DAMAGED CAUSED	**N$140,000**	N$0		

According to a report done by NACSO, there is human wildlife conflict, whereby hyena and wild dogs are the most troublesome and are responsible for the most incidents, followed by porcupine, leopard and caracal.

The cost of estimated human wildlife conflict cost on average, **is N$140 000 per year**.

The estimated poaching of high value species was none.

Natural resource benefits outweighed the conflict costs.

g. Please describe any community projects paid for by the company. What currency are the expenditures reported in? _____**Namibian$**_____

Type of project	Spending 2018	Spending 2019	Spending 2020	Remarks
Education e.g. School Stationary supplies	N$55,000	N$55,000	N$	20 blue bags @ $200 per bag = $4000, or N$55000. Clients donate $200, we fill-up the bag to the total of $200 with the necessary school or educational supplies, identified by the local schools.
Education (e.g., school fees, supplies)				
Health (e.g., clinics, offices)				
Health (e.g., medical salaries, equipment)				
Community scout salaries				
Community scout Uniforms	N$40,500	N$		
Camp Staff Uniforms	N$33,500	N$		
Other community - Training of Camp Staff	N$75,000	N$		
Local government activities				
Water infrastructure improvements	N$204,000	N$		Maintain the borehole and insert solar pumps to establish * PWWP's.

Sports teams funded	N$5,000	N$5,000		
Trophy Hunting Camp material donated	N$1,174,495	N$		Full tented safari camp with en-suite bathrooms
Other: Airstrip Cleared	N$176,300	N$		Military airstrip cleared to charter clients into hunting area.
Other: Camp Staff Salaries	N$47,250	N$

TOTALS	**N$2,091,045**	**M$**		

* PWWP's -Permanent Wildlife Water Points

INVESTMENT SUMMARY - 2018

UTILIZATION & DEVELOPMENT OF THE ONDJOU COMMUNITY

TOTAL SALARIES & TRAINING COST- 2016

Thormahlen & Cochran Safaris spent the following amounts on training and labour in 2018:

- **Training of Camp Staff-N$75,000**
- **Camp Staff Salaries – N$47,250**
- **Casual Labour Salaries – N$280,000**
- **Staff & Casual Workers Workwear Uniforms – N$33,500**

TOTAL COST – N$435,750

NOTE:

- Training Camp Staff – 3 staff x N$3,125 pm x 8 months
- Camp Staff Salaries – 3 staff x 9 months x N$1,750 ea
- Casual Labour – 20 casuals x 8 months @ N$1,750 ea
- Staff Uniforms – 3 x N$4,500 ea
- Casual Workers Equipment – N$1,000 ea

Casual Workers cleared the Trophy Hunting Campsite at Ondjou Conservancy where we built a Permanent Trophy hunting camp. The first trophy hunting Camp ever at Ondjou Conservancy.
Casual workers cleared a strip of bush and dug the trench for the water pipeline to the trophy hunting camp from Post 2, a distance of 3,5 kilometres.
The casual workers also cleared the Ondjou Airstrip which was overgrown for 28 years since the Namibian Bush War with South Africa. The airstrip is operational after 28 years and the first clients flied into Gam for their elephant hunt.

TOTAL WATER DEVELOPMENT COST - 2018

Thormahlen & Cochran Safaris donated diesel to Mooiplaas Post, Mangetti Post, and Otjijere Post so that the village members can pump water for the elephants. An average of 25 litre diesel was donated every week, hence 200 litre per village per month for 8 months.

We also donated a new Lister Pump to the community at Post 2 where the trophy hunting camps water is coming from.
A plastic Pipeline was laid from Post 2, to the trophy Hunting Camp. A total distance of 3,5 kilometres.
A 10,000 litre plastic tank on a 6 meter steel stand was erected at Post 2 to store the trophy hunting camp's water.
At the Trophy Hunting Camp two plastic Tanks (5,000 & 2,500 litre) was erected on steel stands.

TOTAL WATER DEVELOPMENT COST

- **Diesel to pump water for elephants – N$76,000**
- **Lister Pump Cost – N$16,000**
- **Plastic Pipe Cost – N$35,000**
- **Water tank 10,000 -N$9,700**
- **Water Tank 5,000 litre – N$4,700**
- **Water tank 2,500 litre – N$2,700**
- **Steel Tank stand 10,000 litre tank – N$37,000**
- **Steel Tank Stand 5,000 & 2,500 litres tanks – N$23,000**

TOTAL COST – N$204,000

NOTES:

- Diesel 200 litre x 3 villages x 8 months x N$16 per litre
- Plastic pipeline of 40 mm class 6 @ N$10 per meter x 3,500 meters

TOTAL CAMP DEVELOPMENT COST - 2016

- **Camp Material –N$650,000**
- **Camp Building Cost –N$240,000**
- **Tents & Equipment – N$284,495**

TOTAL COST – N$1,174,495

GAM AIRSTRIP REHABILITATION COST-2018

- Vehicle Cost -N$40,000
- Big Game PH Salary Cost – N$50,000
- Steel Wire to fence off Airstrip for Airplane Safety – N$33,000
- Anchor Poles – N$12,000
- Dropper Poles – N$21,700
- Trailer Rental -N$8,500
- Steel Gate – N$1,000
- Windsock -N$3,500
- Windsock steel post -N$1,000
- Cement -N$2,000
- Molopo Tree Poison – N$3,600

TOTAL AIRSTRIP COST – N$176,300

SCHOOL STATIONARY DONATIONS

TOTAL SCHOOL STATIONARY DONATED – N$55,000

TOTAL DEVELOPMENT / INVESTMENT – 2018:

A TOTAL OF N$2,091,045 was invested in Ondjou Conservancy

11. How many U.S. clients did the company have in the past three years, what percentage of the company's clients were from the U.S., and what fees did they pay?

We operate in South Africa and Namibia, and the figures below, is for the whole operation. In Ondjou we only hunt what is allocated on quota, and it is fixed by the

Government. The Namibian Government, specifically the Minister of Environment and Tourism, set strict quotas at the beginning of every three years, revising it at the end of each year when the Hunting operator must submit a Hunting Report on that specific year. So, before the client arrives, the hunting operator must take out a hunting permit – and this is only available if it falls within the quota that was pre-approved.

Current Ondjou Trophy quota: 2 x trophy elephant, 2 x own use elephant, 4 x Steenbuck, 2 x caracal, 5 x jackal, 3 x kudu, 1 x leopard, 3 x ostrich, 4 x Oryx, 3 x warthog. 1 x duiker.

The table below is for the total of Thormahlen & Cochran's concessions:

	Hunting elephant	Hunting lion	Hunting leopard	Hunting all other species
Number of U.S. clients	2015: 4 clients 2016: 9 2017: 5 2018: 4	2015: 2016: 2017: 2018: 1	2015: 2 clients 2016: 9 2017: 9 2018: 10	2015: 126 clients 2016: 110 2017: 141 2018: 83
Percentage of U.S. clients	2015: 99 % 2016: 98 % 2017: 100 % 2018: 98 %	2015: 2016: 2017: 2018: 100 %	2015: 100 % 2016: 98 % 2017: 99 % 2018: 100 %	2015: 95 % 2016: 96 % 2017: 97 % 2018: 95 %
Trophy fees paid by U.S. clients – US$	2015: $220,000 2016: $495,000 2017: $275,000 2018: $260,000	2015: 2016: 2017: 2018: $75,000	2015: $42,000 2016: $225,000 2017: $256,000 2018: $265,000	2015: $303,715 2016: $1,075,000 2017: $997,375 2018: $410,110

12. Approximate dollar amount and/or percentage of the company's revenue from U.S. clients:

    95%

13. Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concession improvements (e.g., digging and maintaining boreholes, restocking), management activities, research, etc.

    Thormahlen & Cochran Safaris policy in our hunting blocks is:

    - to only hunt Leopard males of six years and older;
    - to only hunt Trophy elephant bulls of 47 years and older;
    - to only hunt elephant bulls in excess of 55 lbs tusks.

    This way we enhance the genetic trophy quality by hunting post-productive animals only.

Thormahlen & Cochran operates on other conservancies in Namibia, namely:
Na#Jaqna
Ondjou
Ozondundu
Otuzemba
Anabeb
Orupupa (2015-2017)
Otjambangu
Ombuijokanguidi
Okangundumba
Impalila
Kabulabula
We built trophy hunting camps in Na Jaqna, Ondjou, Anabeb, Impalila and Kabulabula.
Thormahlen & Cochran donate all the camps to the Conservancies.
We deliver all the meat that we hunt, to the conservancies, and
Donate to every local school school stationary SCI blue bags.
We are building roads and are responsible for the water and electricity supply for the camps.
We employ the local community as staff and currently employ 5 to 6 conservancy members per camp as staff.
We are also responsible for the training of the staff to be able to serve the overseas clients.
To date we have 32 community members employed in the various camps.
We also have social responsibilities towards the conservancies: we built a school hostel, a community hall, drilling of waterholes, making Cutlines, building roads etc.
Ondjou's camp was built in 2018 for **N$1,174,495**.
We are buying protective clothing to the game guards and uniforms for the personnel on an annual basis.
Two of the most significant benefits for the conservancy, is the cash income derived from the trophy hunting activities to cover its own running cost, and to invest in their social programs, and the yearly employment of its own community members.

14. I declare that the foregoing is true and correct.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity:_____(Import is limited to two per hunter per calendar year)

African elephant (*Loxodonta africana*) Quantity:__1__(Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity:_____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild:

   b. Date wildlife was hunted: Zimbabwe, South-East, Masvingo Province, 21,29'53 S"/30,47'02 E", Nuanetsi Ranch, Masvingo
   July 03, 2014
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

      2 Tusks, 2 Panels, 2 Feet, 1 Tail, 2 Ears

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

      733 Iona Close, Harare, Borrowdale, BW957, Zimbabwe

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business	Safari Air Services
Name: Address:	
Address:	733 Iona Close
City:	Harare
State/Province:	Borrowdale
Country, Postal Code:	BW957 Zimbabwe

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature:_____ Date: _____

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signatu (b) (6) Date: 1-9-18

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Jeff Campagna (b) (6)

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Federal Fish and Wildlife Permit Application Form

Dear Sir or Madam:

In August of 2013 I participated in a hunting safari in Namibia. Specifically, the safari took place in the Kwando Concession in the Bwabwata National Park in the Caprivi Strip of northeaster Namibia. I hunted with Allan Cilliers Hunting Safaris, a reputable and renowned company run by Allan, a long time figure in the anti-poaching and wildlife conservation efforts in Namibia. His son, Wayne Cilliers, was my professional hunter for the trip.

During this hunt I successfully obtained a bull elephant. At the time I was living in Paris, France on assignment for my company, and arranged for shipment of the tusks to my residence in Paris. The tusks were successfully exported from Namibia and imported to France (related CITES documents included in this application). Shortly thereafter I moved again, this time to Brussels, Belgium. In July of 2017, my assignment in Europe ended and I repatriated back to the US and am now living in Princeton, NJ.

This application is related to obtaining authorization from the US Fish and Wildlife Department to import the tusks. They currently are stored in a warehouse in Machelen, Belgium with Compas International Movers. I have received CITES re-export permits (included in this application) from Belgium.

Thank you for your attention to this application. If you should have any questions, please do not hesitate to contact me.

Kind regards,

(b) (6) [redacted]

Kenneth Shives

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES (Appendix I of CITES and/or ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
You may find instructions on how to make your application complete and help avoid unnecessary delays at the following link: .

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Shives	Kenneth	Stuart	-

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room # - no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Princeton	NJ	08540	Mercer	USA

2.a. Mailing address (include if different than physical address, include name of contact person if applicable)
same as above

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the amount identified on page 2, nonrefundable processing fee. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions.* [50 CFR 13.11(d)]

2. Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Same as on Page 1
   (b) (6) [redacted]
   Princeton, NJ 08540 USA

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Kenneth Shives (b) (6) [redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit. N/A

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   Loxodonta Africana - African Elephant
   b. Sex (if known).
   Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information: N/A

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   N/A

   b. Date wildlife is to be hunted:
   N/A

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   N/A

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:
   Namibia, Caprivi Strip, Kwando River Concession Bwabwata National Park, Bwabwata East Concession

   b. Date wildlife was hunted:
   August 2013

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:
Allan Cilliers Hunting Safaris
Wayne Cilliers - Professional Hunter

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
Compas International Movers
Emmanuellan 7
Machelen BELGIUM

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See attached

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].
Name: Kenneth Shives
Compas International Movers
Business Name:
Address: Emmanuellan 7
City: Machelen
State/Province:
Country, Postal Code: BELGIUM B-1830

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?
Reports in significant increase in elephant populations by Namibian government (7,500 in 1995 to 20,000 in 2016). Some areas over populated - using spot hunting to manage and generate revenue.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?
Daily rates of $35,000 and thophy fee of $26,000. Trophy fees paid to Namibian government for conservation. Significant portion of daily rates go to community of villages and anti-poaching measures.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted
Significant conservation efforts by outfitter, mostly related to government concession fees and employing/supporting anti-poaching activities/individuals. We came across anti-poaching teams in the field.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ (b) (6) _____ Date: 4/16/2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Dear Mr. Shives,

As background, on March 1, 2018, in response to a recent D.C. Circuit Court opinion, the U.S. Fish and Wildlife Service (Service) informed the public that it is revising its procedure for assessing applications to import certain sport-hunted species. We have withdrawn our countrywide enhancement findings for a range of species across several countries, including elephants and lions. In their place, we intend to make findings for trophy imports on an application-by application basis.

The Service is continuing to monitor the status and management of these species in their range countries. We will review each application received for import of sport-hunted trophies and evaluate the information provided in the application as well as other information available to us regarding the status and management of the species to ensure that the hunting program is promoting the conservation of the species. Each application must also meet all other applicable permitting requirements before it may be authorized. Therefore, your application is currently reviewed.

Sincerely,

Anna Barry

Your application, 86313C, that was received on 4/19/18, is currently under review. Please be aware that we have a significant number of applications pending, and we process applications in the order they are received in the office. The staff member working on your application has been notified of your inquiry. If there is a need for additional information or clarification on information provided in your application, the staff member will contact you directly.

Thank you,
U.S. Management Authority, Branch of Permits.

We appreciate your time and consideration.

Thank you for submitting an application to the U.S. Fish and Wildlife Service. The application was received by the Division of Management Authority on 04/19/2018; check number 274 accompanied the application for AFRICAN ELEPHANT. Your application has been assigned the following PRT identification number: MA86313C-0While processing time may be less, you should anticipate a minimum of 30 days to process your request, with many requests averaging between 60 to 90 days due to some requests which need to be published in the Federal Register and/or be reviewed by other Service offices. While we are aware that you may want to inquire about the status of your application, we request that you allow our office at least three weeks after the receipt of this notification to make any inquiries. Should you have additional information that you need to provide to our office pertaining to the current request, we ask that you call our office first at 800-358-2104 or email managementauthority@fws.gov to obtain further instructions.

Mr. Shives,

Your application is still under review and we cannot provide you a time frame. Rest assured that your application is still with us and is being reviewed in accordance with the parameters set forth in the Circuit Court opinion of March 1 of which you have been informed in a previous email. We appreciate your patience in this matter.

Dear Mr. Shives,

We apologize for the delay in finalizing your application but because each application now requires an individual finding under the Endangered Species Act, all application (new and ones submitted for renewal) cannot be finalized until this review process has been finalized.

I will contact you when the application is submitted to my supervisor for final review and signature.

Sincerely,

Anna Barry

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

✓ **Note 1:** If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: N/A (Import is limited to two per hunter per calendar year)

African elephant (*Loxodonta africana*) Quantity: One (1) (Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   Sentinel Limpopo Safaris, Wape Ranch, Mwenezi, Masvingo Province, Zimbabwe
   21°59'13.25"S, 30°53'37.13"E

   b. Date wildlife is to be hunted:

   September 14, 2018-September 28, 2018

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

Tusks, Hide, Ears, Skull

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild:
   b. Date wildlife was hunted: N/A
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

      N/A

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

      N/A

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business	Collett's Wildlife Artistry
Name: Address:	15 Josiah Chinamano Road
Address:	
City:	Bulawayo
State/Province:	Belmont
Country, Postal Code:	Zimbabwe

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature:_____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) Date: FEB 13 2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

Louis J. Wickas (b) (6) Gallipolis, Ohio 45631
(b) (6)

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Louis J. Wickas, (b) (6) Gallipolis, Ohio 45631
(b) (6)

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Mr Lou Wickas
(b) (6)
Gallipolis, OHIO, 45631 USA

Date: 20 January 2018

Dear Lou

RE: INVITATION TO HUNT

This letter serves to confirm that you have booked to stay with Sentinel Limpopo Safaris on Wape Ranch, Mwenezi, in September 2018 to hunt Elephant (M), Leopard (M), and Buffalo (M) and other Plainsgame species.

We confirm your itinerary as follows:

- You will be met in Bulawayo (BUQ) on 13 September 2018 and travel by road to Wape Ranch, Mwenezi.
- Your hunt (14 days) will take place from 14-27 September 2018.
- We will return you to Bulawayo on 28 September 2018 from where you will start your return journey to the United States.

With reference to the CITES listed species you will be hunting (Elephant and Leopard) please rest assured that

a) A quota for each of these species has been applied for and approved by the Zimbabwe National Parks and Wildlife Management Authority, specific to Wape Ranch, and that your hunt is within the confines of said quota, and
b) Your daily rate and trophy fees for your hunt go directly towards the maintenance and conservation of the animals and the natural habitat of the 6,000Ha property on which you will be hunting. These funds are used to maintain electric fences (designed to meet Veterinary-specifications to contain FMD Buffalo), to maintain and operate a number of waterpoints and to equip and provide for a 5-man anti-poaching team year round. Elephants numbers in particular must be controlled/ reduced, as at present numbers, they exceed the carrying capacity of the ranch, and do a great deal of damage to infrastructure (waterpoints, pumps and external fences) and have a visible negative impact on large indigenous tree species (Albizia breviflora, Acacia senegal, Commiphora merkeri, Combretum imberbe, Commiphora tenuipetiolata, Acacia xanthophloea, Hyphaene petersiana, Sclerocarya

birrea, Kirkia acuminata, Ficus sycamorous and Colophospermum mopane, to name a few). Without creating a value through hunting, these animals would more than likely have to be culled.

We thank you for booking your hunt with Sentinel Limpopo Safaris, and look forward to sharing the campfire with you once again.

Kind regards

VANESSA B BRISTOW
DIRECTOR - SENTINEL LIMPOPO SAFARIS (Reg. No. HOP0101)

Hello Tim,

Thank you for your letter.

Yes, I successfully hunted an African Elephant. I believe the harvest occurrerd Sept 24, 2018 at Sentinel Limpopo Safaris, Wape Ranch, Mwenezi, Masvingo Province, Zimbabwe.
The tusks have been certified by the Zimbabwe Government as a legal harvest with a Zimbabwe Game agent in attendance. The trophy is currently in Lock up at Collett's Wildlife Artistry Taxidermist at the address indicated on my application.
If I can provide any further information, please do not hesitate to contact.

Sincerely,

Lou Wickas

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES (Appendix I of CITES and/or ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
You may find instructions on how to make your application complete and help avoid unnecessary delays at the following link: .

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Howard	Gary	W	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b)(6) [redacted]			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Middleton	Idaho	83644	Canyon	USA

2.a. Mailing address (include if different than physical address, include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 2, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions*. [50 CFR 13.11(d)]

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and acc(b) (6) [redacted] nd that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service. N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?
GARY HOWARD
(b)(6) [redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit. N/A

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name. ELEPHANT

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild: NAMIBIA
   KUNENE REGION OPUWO TOWN
   CONSESSION - OZUNDUNDU CONSERVANCY

   b. Date wildlife was hunted:
   HARVESTED 11/12/2016

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:
THORNHILL AND COCKRAN SAFARIS

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
YELLOW SHARK HOLDINGS (PTY) LTD P.O. BOX 81413, WINDMILL PARK. UNIT 7, DANTE STREET, PROSPERITA, WINDHOAK, REPUBLIC OF NAMIBIA.

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). N/A

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: CAROL ALBERS / MR ANTON MUNHARDT ALBERTS
Business Name: THORNHILL AND COCKRAN SAFARIS
Address: P.O. BOX 90911 KLEIN HOOK 4000
City: WINDHOAK
State/Province: NAMIBIA
Country, Postal Code:

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?
NO

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?
18,500 DOLLARS OF WHICH THE COMMUNITY GETS 12,500 DOLLARS.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted
NO

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard

(b) (6)

Applicant's signature: _____ Date: 3-15-18

Be aware that there may be addit[redacted]by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Gary Howard Elephant Hunt Conservation information

I have nothing formal to provide except that the Hunt cost $18,500.00 Of that the Community receives $12,500.00

In conversations from the hunt with Concession managers, Community Game Scouts and Professional Hunters I came to the following conclusions which may or may not be correct as communications with broken English make it hard at times to understand;

The government and communities only allow harvest of elephants if the population is healthy and sustainable for the concession.

The government of Namibia in coordination with Communities (this would be local and regional indigenous people) created the Concessions and Conservancies within.

The Community along with its leaders elects representatives from their areas within concessions to represent themselves in regards to wildlife and wildlife protection. The Community also elects game scouts who must accompany and be with all hunters when they harvest any animal and fill out appropriated information in regards to the harvest. This information is submitted to the communities and governments responsible parties.

Poaching is taken very seriously, while I was there two poachers were arrested when caught by a professional hunter and game scout. Government officials were contacted and the poachers were arrested and taken to jail to await trail for shooting a Kudu without a permit. Locals are only allowed to harvest an animal if they have a permit to do so.

The money that goes to the community helps to pay for game scouts and management of the concession and the animals within the concession. Much like hunting licenses and tags support wildlife in the United States.

Dear Mr. Howard,

In response to a recent D.C. Circuit Court opinion, the U.S. Fish and Wildlife Service is revising its procedure for assessing applications to import certain hunted species like African elephants. We are withdrawing our countrywide enhancement findings for a range of species across several countries. In their place, the Service intends to make findings for trophy imports on an application- by-application basis. Please be aware that we continue to seek additional information directly from the relevant foreign Government Authorities to support our permit findings, therefore, applications are still under review.

Sincerely

Anna Barry

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1: ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: _____ (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory cannot be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: _____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild: Zimbabwe, Matabeleland South, Bubye Valley Conservancy, Beit Bridge(nearest town)

   b. Date wildlife is to be hunted:
   May 20, 2018 thru June 4, 2018

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).
   skull, Tusks and skin

3. **IF THE ANIMAL IS DEAD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: N/A

   b. Date wildlife was hunted:

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

N/A

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Mazunga Safaris
Business Name:
Address: 8 Norfolk Road Hillside
Address:
City: Bulawayo
State/Province: Zimbabwe
Country, Postal Code: Africa

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: N/A Date: _____

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United Stat

Applicant's signat (b) (6) Date: 3/14/2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).
Port - Chicago, IL USA
Contact Mike Lewis @ Coppersmith Inc. 760 Bonnie Lane
Elk Grove Village, IL 60007 Phone: 847-437-1500 Ext 220

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):
Michael N. Benben cell: (b) (6)
email: [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Good morning Kara,
Thank you for calling me back the other day. I've enclosed the first page of a letter from my elephant hunt in Zimbabwe (more documentation to aquire CITIES).
The second page will be in a second Email as I can't figure out how to get both attachments in one Email.
Please let me know that you've received both Emails.
Thank you,
Michael N. Benben

Good morning Kara
File #830 88C
I'm just following up on the status of my Elephant CITIES permit. Hopefully the 2 page letter from The BUBYE VALLEY CONSERVANCY helped my case.
I'm currently holding up my Africa shipment waiting on the Elephant CITIES.
Sitting on pins and needles!

Thanks so much,
Michael N. Benben

To Whom it May Concern.

Benefits of Elephant Hunting : Bubye Valley Conservancy , Zimbabwe

The Bubye Valley Conservancy (BVC) is one of the most amazing conservation successes of recent times. Up until the 1990s this former cattle ranching area had systematically eradicated wildlife for competing with, transmitting disease to, and preying on the livestock. However, BVC is now dedicated to conservation; and since its formation only 23 years ago, currently boasts one of the world's largest black rhino populations, Zimbabwe's largest lion population, and a flourishing elephant population of an estimated 700 +.

The 3,440 km2 conservancy is situated in the lowveld region of southern Zimbabwe. Although the annual rainfall is low, BVC represents a high nutrient ecosystem that supports large numbers of medium sized herbivores, and as a result, high densities of predators can potentially be sustained. Although the entire conservancy is surrounded by an electrified game fence, to prevent human / wildlife conflict, there is still an annual influx of elephant from the surrounding Communal Lands as the electrics are only on the inner side of the fence – i.e. designed to control animals that are inside the conservancy. The elephant that ' break-in ' are predominantly young bulls that have been harassed by dogs and villagers that live around the conservancy boundaries. This continual influx of elephant bulls over the years has resulted in a sex skew in the BVC elephant population, with bias towards young bulls.

To help address this we apply for a small quota of N/T elephant bulls annually – animals with less than 25 lbs aside. The BVC policy insists that only lone bulls are hunted to negate any disturbance.

Unfortunately the high concentration of rhino and elephant has made BVC a magnet for poaching, with the international illegal market for ivory, rhino horn and pangolin scales at an all time high. Counter-poaching is a high risk, dangerous and demanding endeavor that requires excellent law enforcement tactics and techniques as well as the critical requirement to stay ahead of poachers, and this funded from the conservancies hunt earnings.

Tim MacDonald
I am responding to your email request for more information on CITIES PERMIT #830-88C.
I DID successfully harvest an African elephant bull on May 29, 2018.
The elephant was harvested on the BUBYE VALLEY CONSERVANCY ((BVC) in Zimbabwe, Africa.
Previously I have submitted to Kara Dziwulski (ie. a letter from the BVC stating their wildlife goals, money usage and meat utilization).
If you need any more info please feel free to reach out to me.
Thank you,

OMB No. 1018-0093
Expires 05/31/2017

Department of the Interior
U.S. Fish and Wildlife Service

Federal Fish and Wildlife Permit Application Form

RCVD APR 23 2018 LB

Return to: U.S. Fish and Wildlife Service
Division of Management Authority (DMA)
Branch of Permits, MS: IA
5275 Leesburg Pike
Falls Church, VA 22041-3803
1-800-358-2104 or 703-358-2104

Type of Activity:
IMPORT OF SPORT-HUNTED TROPHIES
(Appendix I of CITES and/or ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Williams	Ronald	Edward	

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6) [redacted]			

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6) [redacted]			

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
N/A	N/A

2. Tax identification no.	3. Description of business, agency, Tribe, or institution
N/A	N/A

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix
N/A	N/A	N/A	

5. Principal officer title	6. Primary contact name
N/A	N/A

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address
N/A	N/A	N/A	N/A

C. All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #, no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Midland	TX	79707	Midland	USA

2.a. Mailing Address (include if different than physical address, include name of contact person if applicable)
N/A

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country
N/A	N/A	N/A	N/A	N/A

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☐ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: _____ No ☑

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other [illegible] that the information submitted in this application for a permit is complete and accurate to the [illegible] herein may subject me to the criminal penalties of 18 U.S.C. 1001.
(b) (6) [redacted]
4-18-2018
Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

Please continue to next page

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES* and/or *ESA)*

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but are unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 3: USFWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 4: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-5 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. For each trophy to be imported, provide:
   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

   Loxodanta - African Elephant

   b. Sex (if known).

   Male

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   N/A

   b. Date wildlife is to be hunted: N/A

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks). N/A

3. **IF THE ANIMAL IS DEAD,** please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible): Nakobolelwa Conservancy
   Katima Mulilo

   b. Date wildlife was hunted:

   September 20, 2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

Skull, Tusks, Skin, feet, Tail, EARS

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export documents]:

Omujeve Safaris, Ongombo West Section 2 Number 56, Windhoek Namibia

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will also appear on your Namibian export permit and must match the U.S. import permit].

Name: C.G. Kruger
Business Name: Omujeve Safaris
Address: Ongombo West Section 2
Address: Number 56
City: Windhoek, Namibia
State/Province:
Country, Postal Code:

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., population status or trend data; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: N/A Date: N/A

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if [redacted] raw ivory, once imported into the United States, cannot be re-exported

(b) (6)

Applicant's signature: [redacted] Date: 4-18-2018

Be aware that there may be additional permitting or approval requirements by your local or state government, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist you, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish permit mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

N/A

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Ronnie E Williams (b) (6) [redacted]

(b) (6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   LOXODONTA AFRICANA

   b. Sex (if known).
   MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   ZIMBABWE, NGAMO/SIKUMI FOREST, VICTORIA FALLS

   b. Date wildlife is to be hunted:
   23 SEPTEMBER — 07 OCTOBER, 2018

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   MARTIN PIETERS SAFARIS

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

   b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). I DO NOT CURRENTLY HAVE PERMITS IN HAND. BEING APPLIED FOR BY MARTIN PIETERS SAFARIS
8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name:
   Business Name:
   Address:
   City:
   State/Province:
   Country, Postal Code:

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

   a. Do you have any information regarding the population status or trend data on the species hunted?
   REFER TO LETTER FROM HON. E.D. MNANGAGWA, PRES ZIMBABWE TO PRESIDENT TRUMP DATED 6 DECEMBER 2017

   b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?
   SEE ENCLOSED CONTRACT FOR PIETERS WITH THIS INFORMATION

   c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted
   PART OF THE FEES PAID ARE USED:
   1. FOR FUNDING TO ASSIST ANIMAL CONSERVATION
   2. FOR ANTI POACHING EFFORTS
   3. COMMUNITY IMPROVEMENT
   4. MOST OF THE ANIMAL WILL BE DISTRIBUTED TO LOCAL FOLK FOR FOOD

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature [redacted] Date: MARCH 22, 2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

President

Zimbabwe

6 December 2017

His Excellency, Mr Donald Trump
President of the United States of America
1600 Pennsylvania Ave.
Washington, D.C. 20 006

RE: CONSERVATION OF ZIMBABWE'S ELEPHANT

On behalf of the people and Government of Zimbabwe, and indeed on my own behalf, I write to express profound appreciation for the US Fish and Wildlife Service determination that Zimbabwe's elephant conservation programme warrants the issuance of import permits in the United States of America after nearly three years. The conservation of elephant and other wildlife species in Zimbabwe is based on sustainable use and approach, much like the user-pay system in North America or the North American Model of Conservation. It is imperative that American safari hunters be permitted to bring their trophies home for the success of our conservation programme

Your Excellency, Zimbabwe has the second largest elephant population in Africa and the most up-to-date national elephant action plan which includes four regional plans. We need the participation of American hunters for revenues needed for management and to better control poaching. Importantly, our rural communities working with our Communal Areas Management Programme for Indigenous Resources (CAMPFIRE) programme need the support and incentives as well. Elephants will only survive in the long term if they are more valuable to people than their damage to alternative forms of land use, such as subsistence farming.

Furthermore, without a way of benefitting from the elephants, they are regarded as a liability and economic cost to poor rural communities, who suffer crop losses, other damages and loss of human life. Consequently, the

most effective strategy to prevent this displacement is to integrate elephants into rural economies as assets and to demonstrate that elephants contribute to the welfare and development of people. The involvement and empowerment of rural people in natural resources management, in combination with economic and financial incentives through sustainable use, capacity building and skills development, have been driving forces behind changes in attitudes towards wildlife on communally owned land in Zimbabwe.

Your Excellency, I wish to assure you that under my Presidency, the successful elephant programme will continue, including the implementation of the National Elephant Action Plan. Our country is politically stable, and we had a smooth transition from the previous administration, following my inauguration and swearing in as President and Commander-in-Chief of the Zimbabwe Defence Forces on 24 November 2017. All noble conservation initiatives being championed by Zimbabwe will not be reversed but enhanced. The Minister, Permanent Secretary and Director General are confirmed to remain in place.

Going forward, I do hope to improve communications and cooperation between your great country and Zimbabwe, in general, and particularly with the U.S. Fish and Wildlife Service, with the aim of strengthening our partnership in wildlife conservation, rural development and related spheres for an improved quality of life for our people.

Please accept, Your Excellency, the assurances of my highest consideration.

Hon. E.D. Mnangagwa
President of the Republic of Zimbabwe

cc e-mail to Secretary Ryan Zinke and Greg Sheehan - USFWS

MARTIN PIETERS SAFARIS

AGREEMENT

Agreement Between Martin Pieters Safaris and

Client Name: BOB OLIVER
Client Address: (b) (6) [redacted] Terrebonne, OR 97760 USA
Location of Hunt: NGAMO/SIKUMI FOREST, ZIMBABWE
Date of Arrival: 22 EPTEMBER 2018 Travel Day to Camp
Date of Departure: 08 October 2018 Travel Day to Vic Falls
Location hunt starts: VICTORIA FALLS 23 September 2018
Location hunt ends: VICTORIA FALLS 07 October 2018
Number of hunting clients per Professional Hunter: 1
Number of non-hunting clients: N/A

Martin Pieters safaris will provide the following services & assumes responsibility for:

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  (i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  (ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  (iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 0 (Import is limited to two per hunter per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: REPUBLIC OF SOUTH AFRICA, ALLDAYS, LIMPOPO PROVINCE GPS COORDINATES: S22 15.205; E029 06.509
   b. Date wildlife was hunted: Elephant was harvested on Sept. 11, 2017
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks): 2 elephant tusks from one elephant

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]: Karoo Taxidermy 15 Van der Bijl Street, Graaff-Reinet, East Cape Province, Republic of South Africa, 6280

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: Business Karoo Taxidermy
   Name: Address: 15 Van der Bijl Street
   Address:
   City: Graaff-Reinet
   State/Province: Eastern Cape Province
   Country, Postal Code: Republic of South Africa 6280

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature: N.A. Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw i[redacted]orted.

Applicant's signatur[redacted] Date: 02/21/2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):
mail to my home address

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 for question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):
Bruce Tatarchuk [redacted] (home), [redacted] (cell),
[redacted]

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

HUNTING SPECIAL CONDITIONS

PERMIT NO: 13818

PERMIT HOLDER: Mr.B.J Tatarchuk

1. This permit does not absolve the holder thereof in obtaining any other permit, licence, certificate or document as may be required by any other relevant legislation from any province or country.
2. This permit must be signed by the permit holder and must be in his/her possession for the duration of the hunt.
3. This permit does not allow the hunting with a bow and arrow or any other prohibited method unless specified on the permit.
4. This permit does not authorise the hunting during the night, unless specified on the permit
5. This permit does not allow the hunting of listed species which is under the influence of a tranquilising, narcotic, immobilising or similar agent,
6. If a wounded animal crosses into a neighbouring country, province or property the Department as well as the country where the animal entered into must be notified within 24 hours
7. No driving of listed species for the purpose of hunting is authorised.
8. The Department reserves the right to nominate an official to be present during any or all hunts conducted in accordance with this permit.
9. The outcome of the hunt in the case of TOPS threatened species must be reported within two working days after the listed species was hunted, the hunt terminated or in the case where the hunt was not successful. This office reserves the right to inspect the hunting sight or any relevant product of such hunt.
10. In the case where trophies will not be exported from RSA the permit holder must immediately apply for a TOPS Possession Permit in the case of TOPS species
11. Elephant tusks must be marked by an Environmental officer
12. A TOPS Ordinary permit is required to convey any part of any TOPS specie hunted to any facility within the country, except a taxidermy
13. The Department may require scientific information or material from the animal hunted.
14. The non-compliance with the permit details as well as these special conditions will result in criminal charges and may influence the granting of similar permits to the permit holder.
15. Issued in terms of the Limpopo Environmental Management Act 2003, Act no. 7 of 2003.
16. An elephant/ crocodile may not be hunted next to the water's edge of an international border
17. In the case of dangerous game the minimum calibre requirement is a 375.
18. This permit does not absolve the applicant from conforming to the norms and standards for hunting
19. No put and take system of hunting is allowed.
20. No animal may be hunted in a controlled environment.
21. The use of dogs may only be used to flush birds or track wounded animals.
22. All clients must be accompanied by a Professional Hunter.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES (Appendix I of CITES and/or ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
You may find instructions on how to make your application complete and help avoid unnecessary delays at the following link: .

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
MARTIN	HENRY	BRADLEY	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title		6. Primary contact name	
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address: (b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
SAN ANTONIO	TEXAS	78209	BEXAR	U.S.A.

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 2, nonrefundable processing fee.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions.* [50 CFR 13.11(d)]

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Please continue to next page

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

H. (b) (6) MARTIN

OMB Control No. 1018-0093
Expires 08/31/2020

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   LOXODONTA AFRICANUS
   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   ZIMBABWE MASINGO HUMANI
   SAVE VALLEY LATITUDE 20° 28' 40.1 (20.4778°) SO
   CHIBUWE LONGITUDE 32° 14' 55.2 (32.2487)° EAS

   b. Date wildlife is to be hunted:
   SEPTEMBER 15, 2018

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   ROGER WHITTAL SAFARIS
   BUTCH COATON

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

   b. Date wildlife was hunted:

OMB Control No. 1018-0093
Expires 08/31/2020

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). NOT HUNTED YET.

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name:
   Business Name:
   Address:
   City:
   State/Province:
   Country, Postal Code:

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

   a. Do you have any information regarding the population status or trend data on the species hunted?
   NO

   b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?
   N/A

   c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted
   NO

OMB Control No. 1018-0093
Expires 08/31/2020

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature (b) (6) _____ Date: MARCH 24, 2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   GENUS LOGISTICS 161-15 ROCKAWAY BLVD STE 205 JAMAICA NY 11434 ATTN : MATT
   SASE FEDEX INCLUDED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   MATT MAYERS 718 790 0216 / MATT@GENUSLOGISTICS.COM

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

NA

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

LOXODONTA AFRICANA , AFRICAN ELEPHANT

b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

KALKFELD AREA, NAMIBIA

b. Date wildlife was hunted:

AUGUST 3, 2017

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

OCKERT BAMM
OMUJEVE SAFARIS

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

OMUJEVE SAFARIS
ONGOMBO WEST SECTION 2
NUMBER56 WINDHOEK, NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	OCKERT BAMM
Business Name:	OMUJEVE SAFARIS
Address:	ONGOMBO WEST SECTION 2
City:	NUMBER 56
State/Province:	WINDHOEK, NAMIBIA
Country, Postal Code:	

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

BELOW IS A POWER OF ATTORNEY FORM WHICH IS REQUIRED BY U.S. CUSTOMS, TO ALLOW US TO TRANSACT U.S. CUSTOMS CLEARANCE ON YOUR BEHALF.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;

(2) Was legally obtained by the hunter through hunting for his or her personal use;

(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and

(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:

(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;

(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and

(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

---

1. Name and address where you wish the permit to be mailed, if **different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   504-837-1233 cf@conservationforce.org

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the

application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

No X Yes ____

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   Loxodonta Africana, African Elephant

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   b. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:
   Namibia – Otjambangu/Ombujokanguindi Conservancy
   Nearest City – Kamanjab

   b. Date wildlife was hunted: 10/9/2017

   b. Name of hunting outfitter, safari company, or professional hunter you hunted with:
   Thormahlen & Cochran Safaris

   c. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   Windhoek, Namibia – The Yellow Shark Holdings Pty Ltd
   Windmill Park Unit 7
   Dante Street, Prosperita, Windhoek

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: The Yellow Shark Holdings (Pty) Ltd.
Business Name:
Address: PO Box 81413, Olympia
City: Windhoek
State/Province:
Country, Postal Code: Republic of Namibia

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

   a. Do you have any information regarding the population status or trend data on the species hunted? We saw well over 100 elephants during the hunt. The population in this area is very strong.

   b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?
   Total hunt package cost was $23,000.
   The funds were used to hire locals, maintain critical water holes and maintain open habitat for the elephants.

   c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted?
   By employing many of the local people to support the camp of the hunt, it places a value on the animals. This results in the local people and authorities leaving the elephants alone and allowing vast areas of open space for the elephants to roam.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies and two elephant trophies within the same calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

    Taxidermist/Broker's signature: _____ Date: _____

11. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies and two elephant trophies within the same calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

    Applicant's signature: (b) (6) _____ Date: 4/22/18

    Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

All international shipment(s) must be imported through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III and Regina Lennox of the non-profit firm Conservation Force as my attorneys and legal representatives for all matters concerning my applications for a permit to import a lawfully hunted Elephant trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

I also request that these attorneys, through the address for Conservation Force below, be copied with all correspondence, acknowledgements, notices and decisions concerning my application to import my trophy at the following address:

Ms. Brisendine,

Please include the attachments provided as supplement to Mr. Robinson import permit application #MA93323C.

Inluded:

-Operator Enhancement Report for Otjambangu-Ombijokanguidi Conservancy

-Hunting permits for Mark Robinson

-Cover page for the Namibia National Elephant Plan. We have previously submitted this document to the U.S.FWS and ask that it be included for consideration on making a positive enhancement finding for this application. (Let me know if you should need the entire report submitted again).

Please let me know that you have received this e-mail and if you have any questions.

Kindest Regards,

Aimee Korver

PERMIT TO HUNT FOR TROPHIES

Permission is hereby granted in terms of the Nature Conservation Ordinance 1975 (Ord. 4 of 1975)

Name of Trophy Hunter: Mark David Robinson

Residential Address: USA

Country:

To hunt the specified number of game for the sake of trophies

Indicates species listed on CITES Appendix I or II

	SPECIES: COMMON NAME	Number
	Buffalo	
I	Crocodile	
	Dik-dik	
	Eland	
II	Elephant	1 x *
	Giraffe	
	Grey Duiker	
II	Hippopotamus	
	Impala, Black-faced	
	Impala, common	
	Klipspringer	
	Kudu	
II	Lechwe	
	Oryx (Gemsbok)	
	Ostrich	
	Red hartebeest	
	Reedbuck	
I	Rhinoceros, black	
I	Rhinoceros, white	
	Roan	
	Sable	
	Springbok	

	SPECIES: COMMON NAME	Number
	Steenbok	
	Warthog	
	Waterbuck	
	Wildebeest, blue	
	Zebra, Burchell's	
II	Zebra, Hartman's mountain	
	Blesbok	
	Wildebeest, black	
I	Cheetah	
I	Leopard	
II	Lion	
	Other	
*	Please report back after 48 hours after the hunt.	

The following farms / hunting concessions: Omatjenne/Otjohorongwati Conservancy
Otjombanga Conservancy

Hunted by (name of guides): A. Hihuilepo (snr) B Grobler
AM Alberts

MINISTRY OF ENVIRONMENT & TOURISM
ISSUING OFFICER (NAME & SIGNATURE)
UNDER THE AUTHORITY OF THE MINISTER POWERS GIVEN IN TERMS OF SECTION 78 (1) OF THE NATURE CONSERVATION ORDINANCE, 1975 (ORDINANCE NO. 4 OF 1975) AS AMENDED

Official MET date stamp
2017 -09- 29

IMPORTANT: This permit is not valid if altered in anyway

The following certificate must be completed immediately after each animal that has been hunted (please print)

Date	Species	LH*	RH*	LB*	RB*	Total	RW*	Age	Male/ Female	Farm		Signatures		
										Name	No	Farm owner	Hunter	Professional hunter / Master hunting guide / Hunting guide
07-10-13	Olifant							50	♂	Ombuja Jakgeld Kingsway Place			(6) (a)	

* *L= Left, R=Right, Horn, B=Base, RW=Rowland Ward

No trophy hunter may hunt unless accompanied by a professional hunter, master hunting guide or hunting guide

This permit must be kept on the person of the permit holder at all times while hunting.

This permit may only be used by the person specified on the permit may conduct the hunt.

Conservation Force v.5/8/18
Operator Enhancement Questionnaire

1. Name of area operator: Peter Thormahlen

   a. Years in business: 18

   b. Name of company conducting hunt: Thormahlen & Cochran Safaris

   2. Name of concession: **Otjambangu-Ombuijokanguidi Conservancy** **Size in km²: 150,000 ha**

   a. Land tenure: __ Government lease __ Community X_ Private ranch __ Private conservancy

   b. Length of concession agreement: 3 years Can it be renewed? _x_ Yes __ No

   c. Length of renewal, if applicable: 3 years

   d. Estimated total amount received in trophy fees last year, if applicable: $4,500

   e. Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain: We donate clothes and school supplies for the local school, buy uniforms for game scouts. Also responsible for generating power and drilling and maintaining of the borehole and solar pump for water supply to the community.

      It is the second term that **Otjambangu-Ombuijokanguidi** renewed with Thormahlen & Cochran Safaris and they voluntarily chose us as the preferred outfitter.

   f. Please provide the concession location and nearest city. Please attach a map or maps with the boundaries marked and showing the nearest city: Nearest town is Kamanjab. Map, attachment 1, **Otjambangu-Ombuijokanguidi** is no 54 & 70 on the map, and shares the elephant quota between these two areas.

   g. If the concession borders a national park, please provide the park name: _____N/A_____

h. Description of general and distinctive habitat features and any water features: The conservancy **Otjambangu-Ombuijokanguidi** is in Kunene Region in the north west of Namibia, and nestles between Palmwag and Sesfontein. There are 1,500 people in the conservancy. The landscape is a mix of hills, plains and wooded river valleys. Wildlife includes elephant, leopard, cheetah, mountain zebra, gemsbok, springbok, ostrich, steenbok, kudu, klipspringer, black backed jackal, black faced impala, lion and caracal. There is natural water in the rainy season but also drilled waterholes – some drilled by the Government of Namibia for the livestock.

3. Are there any communities living in the concession? x Yes __ No

   a. If so, estimated number of people or villages in the concession? 1500 people

4. Are there communities bordering this concession? x__ Yes __ No

   a. If so, estimated number of people or villages around the concession? **Anabeb,** Palmwag, Sesfontein, Omantendeka and Ehirovipuka. See Conservancy map. Not densily populated. Herero and Damara tribes.

5. Relevant game populations in the concession:[1]

Species name	Relative Abundance (dense/avg./sparse)	Est. population	3-Year trend (up/ down/ stable)	How monitored?
Elephant	abundance	100-150	stable	North West Game Count Surveys
Lion	average	50	stable	North West Game count surveys
Leopard	abundance	25	upwards	North West game count Surveys
Prey species	Abundance: Springbuck zebra, giraffe, baboon, gemsbuck	7000+	upwards	North West Game Count Surveys

Wildlife monitoring in the Kunene Region of Namibia is primarily accomplished through a region-wide annual game count each June jointly conducted by MET, Conservancies and the World Wildlife Fund (WWF). The annual North-West Game Count is the largest road-based game-count in the world covering approximately 6.6 million hectares and over 7,000 km of survey routes. For the last ten years, Conservancy, MET and WWF staffs have jointly carried out these game counts in the Conservancies and Concessions of the Kunene region, as well as in Skeleton Coast National Park.

6. Total employment number: __5_____

   a. Please identify the number and type of all employees:

Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters		
Trackers		
Anti-poaching scouts/rangers	9	9
Other anti-poaching	Namibia Game Department - MET	20-30
Cooks/housekeepers		
Community coordinators		
Managers		
Biologists		
Others: _____		

7. Number of staff employed in the off-season: 5

   a. Please identify the number and type of staff that are engaged when the season is not open:

[1] The new FWS import permit application form asks the applicant: "9. a. Do you have any information regarding the population status or trend on the species hunted?"

Same number of staff maintained.

Type	Total number of this type	Number of locals/from nearby communities	When employed?
Anti-poaching staff	9	9	2011 to date
Managers			2011 to date
Maintenance			2011 to date
Road opening/construction			
Community relations personnel			
Others: _____			

8. Anti-poaching efforts:[2]

   a. **Number of anti-poaching staff:** 9 Community Game Scouts, plus due to the high number of Black Rhino in this area the Game Department -MET -has a big presence of anti-poaching members in the area of up to 30 members.

   b. **Are anti-poaching patrols conducted during the hunting season, off-season, or both?** both

   c. **Months during which anti-poaching patrols are conducted:** every month

   d. **Number of anti-poaching patrols per month:** Because there are also black rhino in the Kunene Region where **Otjambangu-Ombuijokanguidi** and its neighbor conservancies are, the Save the Rhino International (SRI) and Save the Rhino Trust Namibia (SRT) use SOS - Save Our Species support to monitor and patrol the Kunene, as well as the Ministry of Environment & Tourism (MET). Constant field presence and foot patrols are an effective means to deter poaching and SRT has been employing, training, equipping and deploying teams of local trackers (rhino scouts) in the region for nearly three decades. Project staff carried out foot, vehicle, donkey patrols - for inaccessible areas - and air surveillance.

   e. **Description of anti-poaching equipment, vehicles, etc.:** Patrol 4x4 cars and on foot, and donkey.

   f. **Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution?** Namibian Government, SRI and SRT, WWF.

   g. **Do you offer rewards to poaching informants leading to arrest?** _X_ Yes __ No

   h. **Do you offer rewards to poaching informants upon conviction?** _X_ Yes __ No

   i. **Please describe the company's anti-poaching expenditures below. What currency are the expenditures given in?** The anti-poaching campaign is linked to the Save the Rhino campaign and the saving of elephants. It is internationally driven by the organizations mentioned. These organizations employ between 20-30 personnel who monitors the areas by foot patrols, 4x4

[2] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

safari vehicles, and even helicopter patrols. We are unaware of the budgets spent here, but it should e a substantial amount per year with all the personnel and equipment used.

Type of expense	Spending 2015	Spending 2016	Spending 2017	Remarks
Salaries for anti-poaching scouts				
Equipment				
Vehicles				
Petrol				
Rewards paid				
Other: _____				
Other: _____				
TOTALS				

9. Anti-poaching results:

Category	2015	2016	2017	Remarks
Poaching incidents discovered				
Elephant carcasses observed				
Lion carcasses observed				
Leopard carcasses observed				
Ivory poachers arrested				
Meat poachers arrested				
Other poachers arrested				
Poachers convicted				
Snares/gin traps collected				
Firearms confiscated				
Vehicles confiscated				
Bicycles confiscated				
Boats/nets confiscated				
Tusks recovered				
Other: _____				

The black rhino poaching is a sensitive issue and therefore no information in this regard is available to us to complete the above table. However, because of all the black rhino anti-poaching programs run in the area, poaching of antelope is zero, or so little that we don't know of any incidents.

10. Community investment:[3]

a. Does the company contribute money or goods/services to local communities? x__ Yes __ No

[3] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers community investment a "conservation benefit."

b. If so, what percentage or amount is shared, how often, and why (e.g., required by law, required by contract, voluntary contribution)? __voluntary and donated by our overseas clients – mostly USA citizens who donates school stationary to schools in the area.

c. Does the company provide game meat to nearby communities? x_ Yes __ No

d. If so, please estimate the amount and/or value of meat contributed in prior year and describe the meat contribution program: All the game meat hunted by us and as per the allocated quotas of the Minister of Environment and Tourism, go to the local community of **Otjambangu-Ombuijokanguidi**.

Yearly the following Game is harvested:
Gemsbuck x 2 @ 100 kg per carcass @N$22 / kg = N$4,400
Hartmann Zebra x 3 @ 150 kg per carcass @N$22 / kg = N$9,900
Springbuck x 2 @ 35 kg per carcass @N$22 / kg = N$1,540
Kudu x 2 @ 120 kg carcass @N$22 / kg = N$5,280
TOTAL = N$21,120.00

e. If the company performs problem animal activities for surrounding communities (e.g., patrolling fields during the harvest, chasing away problem animals, conducting PAC hunts or PAC killings), please describe.

The elephant hunted was identified as a problem animal after dozens of incidents. The Government of Namibia issues the permit for hunting elephant after years of negotiating with the community.

f. Please describe any consolation payments made to local residents damaged by game species. What currency are the expenditures reported in?

There is a Government Fund that is supposed to refund the community for damages, however it is depleted. Thormahlen & Cochran Safaris paid the community compensation of $15,000 in 2018 in respect of damage caused by the elephant.

Species	Damage caused	Consolation paid 2016	Consolation paid 2017	Consolation paid 2018
Elephant			$15,000	
Lion				
Leopard				
Other				

g. Please describe any community projects paid for by the company. What currency are the expenditures reported in? _____US$_____

Type of project	Spending 2016	Spending 2017	Spending 2018	Remarks
Education (e.g., classrooms, offices)	$1,750	$3,500	$4,000	20 blue bags @ $200 per bag = $4000, or N$55,000. Clients donate $200, we will up the bag to the total of $200 with the necessary school or educational supplies, identified by the local schools.0-
Education (e.g., school fees, supplies)				
Health (e.g., clinics, offices)				
Health (e.g., medical salaries, equipment)				
Community scout salaries	$8,100	$8,100	$8,100	9 Game Scouts @ $75 pm x 12 months
Other community anti-poaching				
Local government activities				
Water infrastructure improvements				
Sports teams funded	$500	$500	$500	
Construction materials donated				
Other: _____	$4,500	$4,500	$4,500	Uniforms for staff and game scouts
Other: _____				
TOTALS	$14,850	$16,600	$17,100	

11. **How many U.S. clients did the company have in the past three years, what percentage of the company's clients were from the U.S., and what fees did they pay?**

Please note: we operate in South Africa and Namibia, and the figures below, is for the whole operation. In **Otjambangu-Ombuijokanguidi** we only hunt what is allocated on quota, and it is fixed by the Government. It is normally 1 leopard, 1 elephant every 3 years and 1 lion in total. The total quota at Anabeb, including the plains game, are on average 88 trophy animals.

	Hunting elephant	Hunting lion	Hunting leopard	Hunting all species
Number of U.S. clients	2015: 4 2016: 9 2017: 5	2015: 2016: 2017:	2015: 2 2016: 9 2017: 9	2015: 126 2016: 110 2017: 141
Percentage of U.S. clients	2015: 99 2016: 98 2017: 100	2015: 2016: 2017:	2015: 100 2016: 98 2017: 99	2015: 95 2016: 96 2017: 97
Trophy fees paid by U.S. clients	2015: 220000 2016: 495000 2017: 275000	2015: 2016: 2017:	2015: 42000 2016: 225000 2017: 256000	2015: 303 715 2016: 1075 000 2017: 997 375

12. **Approximate dollar amount and/or percentage of the company's revenue from U.S. clients:**
_95%

13. **Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concession improvements (e.g., digging and maintaining boreholes, restocking), management activities, research, etc.**

Thormahlen & Cochran operates on other conservancies in Namibia, namely:
Na#Jaqna
Ondjou
Otuzemba
Otjambangu-Ombuijokanguidi
Anabeb
Otjambangu-Ombuijokanguidi (2015-2017)
Otjambangu
Ombuijokanguidi
Okangundumba
Impalila
Kabulabula
We built camps in Na Jaqna, Ondjou, Anabeb, Impalila and Kabulabula. Thormahlen & Cochran donate all the camps to the Conservancies. We deliver all the meat that we hunt, to the conservancies, and donate to every local school the blue bags. We are building roads, and are responsible for the water and electricity supply for the camps. We employ the local community as staff and currently employ 5 to 6 conservancy members as staff . We are also responsible for the training of the staff to be able to serve the overseas clients. To date we have 32 community members employed in the various camps. We also have social responsibilities towards the conservancies: we built a school hostel, a community hall, drilling of waterholes, making cutlines, building roads etc.
Anabeb's camp was built in 2011 for N$1 million and we refurbished the camp in 2015 and 2016 -spending N$500,000. We are buying protective clothing to the game guards and uniforms for the personnel on an annual basis and opened another drilling hole for N$46000.

14. I declare that the foregoing is true and correct.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Kehoe	Kevin	John	
(b) (6) [redacted]			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

(b) (6) [redacted] ment #, Suite #, or Room #; no P.O. Boxes)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Anchorage	AK	99516	Anchorage	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
Same

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee–attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and (b) (6) [redacted] erstand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanyin CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted anima and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Coppersmith Global Logistics Attn: Jennifer House 3100 S. 176th St. Ste 120 SeaTac, WA 98188

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Kevin Kehoe (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owner of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Loxodonta africana - African Elephant

b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

b. Date wildlife is to be hunted:

N/A

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

Namibia, Eden Game Ranch, Farm # 1264, Otjozondjupa Region, west of city of Grootfontein, GIS coordinates of kill site: S 19° 31' 564" E 18° 46' 346"

b. Date wildlife was hunted:

6 June 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Allen Cilliers Hunting Safaris

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country a the country of export/re-export and must match with the foreign export/re-export document]:

Namibia - Kings Taxidermy, 27 Banhof Strasse, Otjiwarongo, Namibia 9000

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Attached

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed o your Namibian hunting permit [this name will appear on the face of the export permit].

Name:
Business Name: Alan Ciliers Alan Cilliers Safaris
Address: PO Box 214
City: Grootfontein, Namibia
State/Province:
Country, Postal Code:

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Servic (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if yc could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

The resident population of 38 elephants on Eden Game Ranch is stable or expanding on the 100,000+ acre ranch according to the ranch manager. See attached sheet for greater details.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

The harvest fee for the problem elephant was $12,500 which went to the Game Trust Fund. This special government fund is used to compensate ranchers for the damage to their fences and wells in addition to anti-poaching efforts and game surveys. See attached sheet..

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

Eden Game Ranch where I hunted and the outfitter's adjoining ranch (Sandveld Game Ranch) have a resident population of almost 34 Black Rhino. Funds from hunting are used to cover the anti poaching activities, water points and surveys for both elephants and rhino as well as the resident plains came on both ranches.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than tw(b) (6) endar year.

Applicant's signature: _____ Date: 1/16/2019

Be aware that there may be addit quirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Additional Information Provided for Section E. 9.

The Eden Game Ranch resident population of approximately 38 elephants is stable or expanding on the 100,000+ acre ranch according to the ranch manager. The only water available in the area for much of the year is provided by wells on the ranch. The well along with the large size of the ranch and the abundant food keeps the elephant population in the area. Elephants from the neighboring Bushmanland, like the problem elephant that I harvested, periodically knock down fences to access the wells or for breeding.

This elephant bull was hunted under a special permit as a "problem elephant." The specific elephant was the leader of a small group of elephants that had been breaking fences and damaging wells on local ranches. The specific identity was verifiable with the unique footprint, much like a fingerprint, of this particular bull. I personally saw the footprint at the site of destroyed fence on Eden and a local cattle ranch manager showed me a picture of the same footprint that he carried on his cell phone.

The harvest fee for the problem elephant was $12,500 which went to the Namibia Game Trust Fund. This special government fund is used to compensate ranchers for the damage to their fences and wells as well for anti-poaching efforts and game surveys. Government officials were notified upon harvest of the animal and arrived the next day to verify the kill and permits. They were present when the trophies were removed and the two dozen or so workers from the affected surrounding ranches harvested the meat.

Eden Game Ranch where I hunted and the outfitter's adjoining ranch (Sandveld Game Ranch) have a resident population of almost 34 Black Rhino. Funds from hunting are used to cover the anti poaching efforts, water points and surveys for elephants and rhino as well as the resident plains came on both ranches. The meat from the harvested elephant was distributed to the workers of six or so ranches (most were cattle ranches) where the elephant had damaged fences and wells. This obviously provides a greater tolerance for the elephants that roam the area.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanyin CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted anim and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Coppersmith Global Logistics Attn: Jennifer House 3100 S. 176th St. Ste 120 SeaTac, WA 98188

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Kevin Kehoe (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owner of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeite collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Loxodonta africana - African Elephant

b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

b. Date wildlife is to be hunted:

N/A

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

Namibia, Eden Game Ranch, Farm # 1264, Otjozondjupa Region, west of city of Grootfontein, GIS coordinates of kill site: S 19° 32' 10" E 18° 43' 06"

b. Date wildlife was hunted:

11 June 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Allen Cilliers Hunting Safaris

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country a the country of export/re-export and must match with the foreign export/re-export document]:

Namibia - Kings Taxidermy, 27 Banhof Strasse, Otjiwarongo, Namibia 9000

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
Attached

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed or your Namibian hunting permit [this name will appear on the face of the export permit].

Name:
Business Name: Alan Cilliers Alan Cilliers Safaris
Address: PO Box 214
City: Grootfontein, Namibia
State/Province:
Country, Postal Code:

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Servic (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if yo could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

The resident population of 38 elephants on Eden Game Ranch is stable or expanding on the 100,000+ acre ranch according to the ranch manager and the outfitter. See attached sheet for greater details.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

The harvest fee for this elephant was $25,000. This included the daily rate and the trophy fee paid to the host ranch. The money was split between the owners of Eden Game Ranch and my outfitter, Alan Cilliers Safaris. See attached sheet for more details.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

Eden Game Ranch where I hunted and the outfitter's adjoining ranch (Sandveld Game Ranch) have a resident population of almost 34 Black Rhino. Funds from hunting are used to cover the anti poaching activities, water points and surveys for both elephants and rhino as well as the resident plains came on both ranches.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two [redacted] ar year.

Applicant's signature: _____ Date: 1/16/2019

Be aware that there may be additio[redacted]rements by your local or state governments, as well as required by other Federal a[redacted] to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Additional Information Provided for Section E. 9.

The Eden Game Ranch resident population of approximately 38 elephants is stable or expanding on the 100,000+ acre ranch according to the ranch manager and my outfitte The only water available in the area for much of the year is provided by wells on the ranches. The well along with the large size of the ranch and the abundant food keeps the elephant population in the area. Elephants from the neighboring Bushmanland periodically knock down fences to access the wells or for breeding necessitating constant repairs.

The harvest fee for this elephant was $25,000 which was all inclusive of the daily rate and the trophy fee paid to the host ranch (Eden Game Ranch). Both the owner of Eder Game Ranch and the outfitter Alan Cilliers who owns the adjoining Sandveld Game Ranch of over 60K acres go to great efforts to combat poaching. They also operate numerous water points that require constant maintenance. They were some of the first ranch owners to allow Black Rhino onto their ranches. The population between the twc ranches numbers almost 34 head. So in addition to protecting the resident elephant herd on Eden the funds generated from this hunt also protected the black rhino herds. There is no direct compensation for maintaining the elephant or rhino herds and of course no authorization to hunt the rhino to generate funds that way.

The meat from the harvested elephant was distributed among the native ranch workers of Eden and neighboring Sandveld Game Ranch and workers from two other cattle ranches. These workers not only staff the anti-poaching teams but act as the eyes and ears of the anti poaching effort. This creates a very symbiotic relationship which benefit both the wildlife and the ranches.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Brown	Beau	Gregory	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b)(6) [redacted]			info@safarispecialtyimporters

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Redwood Valley	CA	95470		USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanyin CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted anim and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers, 758 Sheldon Road Wallkill, NY12589

See attached

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Rosella Quartarone, 845-943-5943, info@safarispecialtyimporters.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

ELEPHANT - Loxodonta

b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

Timbavati Farm, South Africa

b. Date wildlife was hunted:

4/1/18

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Phillip duPlessis/Intrepd Safaris

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country a the country of export/re-export and must match with the export/re-export document]:

Safari Taxidermy
South Africa

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). SEE ATTACHED PH REGISTER

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed o your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	SAFARI AIR CARGO
Address:	Holding 34, 5th Ave
City:	Bredell
State/Province:	South Africa
Country, Postal Code:	

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

OMB Control No. 1018-0093
Expires 08/31/2020

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

    Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

    Applicant's signature: _____ Date: 11-1-18

    Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Authorization to Export/Import

I, BEAU GREGORY BROWN (Print Name Hunter), hereinafter referred to as the "*Client*", hereby authorize *Safari Specialty Importers, Inc.* and its successors, assignees or agents (collectively "SSI") to act on my behalf for the importing and/or exporting of hunted trophies for my personal use. *This includes the authorization to obtain any necessary information, make payment on behalf of, and sign related paperwork needed for the export and import of such trophies.*

I, the *Client*, affirm that the trophies being exported/imported by SSI on my behalf, are my personal trophies which have been legally hunted by me in compliance with all national and local laws and regulations of the country of origin pursuant to the attached Addendum.

I, the *Client*, agree to indemnify, defend, and hold harmless *SSI*, from and against any and all demands, claims, and damages to persons or property, losses and liabilities, including reasonable attorney's fees, arising out of or caused by negligence or willful misconduct by me or any third party.

I, the *Client*, agree to the Payment Terms and Addendums attached hereto and made a part hereof.

This Authorization to Export/Import will remain in effect until cancelled by either party in writing.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers, 758 Sheldon Rd Wallkill, NY 12566

See Attached

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Rosella Quartarone, 845-943-5943, Info@safarispecialtyimporters.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

ELEPHANT - LOXODONTA

b. Sex (if known).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

ANTWERPEN-MOPANI

b. Date wildlife was hunted:

6/28/18

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Crusader Safaris/Andrew Pringle

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

African Wildlife Artistry
Somerset East, South AFrica

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See Attached Permit

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Spherical Freight
Address:	Johannesburgh
City:	South Africa
State/Province:	
Country, Postal Code:	

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: Rosie Quatarm for R.D. Hudson (POA) Date: 11-1-18

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Authorization to Export/Import

I, RICHARD DARIN HUDGINS (Print Name Hunter), hereinafter referred to as the "*Client*", hereby authorize *Safari Specialty Importers, Inc.* and its successors, assignees or agents (collectively "SSI") to act on my behalf for the importing and/or exporting of hunted trophies for my personal use. *This includes the authorization to obtain any necessary information, make payment on behalf of, and sign related paperwork needed for the export and import of such trophies.*

I, the *Client*, affirm that the trophies being exported/imported by SSI on my behalf, are my personal trophies which have been legally hunted by me in compliance with all national and local laws and regulations of the country of origin pursuant to the attached Addendum.

I, the *Client*, agree to indemnify, defend, and hold harmless *SSI*, from and against any and all demands, claims, and damages to persons or property, losses and liabilities, including reasonable attorney's fees, arising out of or caused by negligence or willful misconduct by me or any third party.

I, the *Client*, agree to the Payment Terms and Addendums attached hereto and made a part hereof.

This Authorization to Export/Import will remain in effect until cancelled by either party in writing.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Van Poucke	Stephen	Mark	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			Info@safarispecialtyimporters.

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Marengo	IL	60152		USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)]
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers, 758 Sheldon Rd Wallkill, NY 12566 See Attached

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Rosella Quartarone, 845-943-5943, info@safarispecialtyimporters.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Elephant - Loxodonta

b. Sex (if known).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

NAMIBIA, Bwabwata East

b. Date wildlife was hunted:

8/13/18

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

K.STUMPFE - NDUMO SAFARIS - PO BOX 1667, KATIMA MULILO, NAMIBIA

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

NDUMO SAFARIS
NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
SEE ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	YELLOW SHARK SHIPPING
Address:	PO BOX 81413
City:	WINDHOEK, NAMIBIA
State/Province:	
Country, Postal Code:	

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

SEE ATTACHED 27 PAGES

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: Patricia Zuagain for Date: 1-1-18
Heidi M. VanPatten (POA)

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

No trophy hunter may hunt unless accompanied by a professional hunter, master hunting guide or hunting guide.

This permit must be kept on the person of the permit holder at all times while hunting.

Only guide(s) as specified on the permit may conduct the hunt.

When I booked the elephant hunt with Ndumo Hunting Safaris at the February 2017 SCI Convention, I knew at that time Namibia had a good reputation with USFW Services to allow the importation of an elephant trophy. The Communal Conservancy Program of the Namibian government encourages conservation through the concept of sustainable use. In remote regions where income possibilities are severely limited, but natural resources such as wildlife are abundant, this program offers jobs to local people and significant income to be used for the benefit of local communities, including a significant amount of meat delivered to the villages as trophy animals are harvested throughout the season. The safari company also harvests allotted cull animals for the communities free of charge. A significant amount of the trophy fees also goes for antipoaching support (established antipoaching camps, vehicles, personnel and equipment).

I saw two of the four antipoaching camps operating in our hunting area. We also encountered a ten man antipoaching unit fly camping in the bush in a remote area. We saw antipoaching personnel three different times in the bush, in addition to our visit to two of their established camps.

The hunting areas were "real" Africa with no fences and large areas of relatively roadless access; except by vehicle tracks in the sandy environment, passable by 4 wheel drive vehicles only. Sometimes it would be 6 or more miles between parallel tracks, so there is alot of unseen acerage out there. The people in the communal conservancies of this part of the Caprivi

strip, lived in small villages along the tar asphalt highway. You could see the homes in the villages made of wood posts harvested in the bush, and the spaces in between the posts filled in with dried mud. Actually, the villages looked very good from the road. You could see people going about their lives, ploughing with their cattle and goats. It was the dry fallow season. There were large areas cleared for gardens and field crops such as maize (corn). All the villages had kraals where they kept their livestock safe at night.

The designated areas for their cattle were over grazed and therefore more thorn brush areas were encouraged from all the trampling feet of the cattle. When you get away from the cattle and crop areas, you are into large regions of undisturbed Africa, with much elephant sign and alot of plains game (buffalo, zebra, many species of antelope). We saw lion tracks on several days in different communal areas. We saw a fresh kudu cow, one third eaten by a leopard that morning, with bite wounds in her neck. We saw multiple hyena tracks. We saw cheetah tracks on one day, and saw no sign of wild dogs but the professional hunter said he sees wild dogs once or twice a month. There were traffic signs on the tar road to warn against hitting a wild dog with your car, so I am sure they were in the region. The whole region was "real" Africa and I saw alot of animal life (hippo, crocodile, alot of red Lechwe, zebra, alot of elephant, alot of cape buffalo, blue wildebeest, tsessebe, Steenbok, duiker, reed buck, alot of impala,

alot of eland). As a hunter I saw alot of wildlife and was happy to know from tracks that there were lion, leopard, hyena, and cheetah in the ecosystem. For a photo safari, I would not have been satisfied, not even close. The wild life concentration level would not match your National Park photo opportunities like Chobe National Park in Botswana, which I visited the last 2 days of the safari. The wildlife viewing at Chobe National Park was quite good. I saw many elephant there. One afternoon there were over 500 elephants in view at one time and I went around the corner and there were another 150 elephants. There was a tremendous number of impala, a large herd of buffalo along the river, hippos, crocodiles, and a variety of antelope species. In two days I saw ten adult female lions, a number of their cubs, a full maned male lion, a leopard and 7 wild dogs. It was a wonderful experience. There were also alot of people and many safari vehicles running around the many dusty tracks along the river ecosystem. The vegetation along the river area looked dusty and under severe pressure with alot of dead trees and browse lines on the vegetation. I don't know if the animal concentrations are putting too much long term pressure on the vegetation? (that is a question wildlife biologists need to answer); but I do know that the impressive concentration of wildlife was a photographers delight. The Namibian hunting areas I was in were alot of square miles of Africa, but for the most part the animal sightings were to infrequent to make photo safari people happy. To save iconic species like elephant and lions, you need very large areas of land,

by farming and cattle/goat grazing to limit human interactions with the wildlife. Elephants and lions need large areas of land to meet all their biological needs, especially as the seasons change. Hunting fees help set aside more land for wildlife than just National Park/photo areas can accomplish on their own and can enhance corridors between population concentrations. Ideally, to set aside enough suitable land for wildlife you will get the best results by doing both photo and hunting areas.

My safari with Ndumo Hunting Safaris was in the Caprivi Strip of Namibia and cost 112,000 U.S. dollars, not including airfare and other personal expenses.

Of the $112,000:

$45,000 for elephant trophy fee
$12,500 for cape buffalo trophy fee
$ 5,000 for red Lechwe trophy fee
$ 9,500 for roan trophy fee

the trophy fees added up to $72,000 which went directly to the Namibian people. All the meat from all four animals was utilized by the people of Namibia. The safari camp crew took trucks and a large trailer and butchered the elephant in the bush. They saved all the skin. All the meat was saved including the meat on the skull, plus (liver, spleen, kidneys, diaphragm, stomach and intestines, heart, lungs, tongue, etc). They utilize all of the animal. They cook the bigger bones of all the animals in the embers of fires and then crack the bones open to get the marrow. They cut the meaty trunk of the elephant into blocks and then strips

that they hang out on liners to dry with no salt. They then take the dried trunk meat and pound it into a powder which they mix with their daily staple diet of maize meal (ground corn). Any blood and skin scraps left after the butchering job are consumed in a large bonfire in the butcher area that removes any odors, so the area will not disturb any other elephants.

Two villages split the elephant meat. The two villages were Mooiloom and Katzenze in the Barakwena Community. The Barakwena Community is a San community (original inhabitants of the area). The Barakwena Community land is along the B-1 tar road and is a part of the Bwabwata East National Park

50% of the elephant trophy fee ($22,500) went to the Game Products Trust Fund to be used for anti-poaching, establishing water points, compensation funds for human, crop, and animal loss from elephant and lion depredations, etc. The other 50% of the trophy fee ($22,500) went to the Barakwena Community to be used for the community benefit of schools and other needs.

The red lechwe came off the Mafwe Community land and the meat and the $5000 trophy fee went to the Kwando Conservancy which is part of the Mafwe Community land.

The roan came off the Mafwe Community land and the meat and the $9500 trophy fee went to the Sabbe Conservancy in the Mafwe Community land.

The buffalo came off the Barkwena Community land and the meat went to Mashambo village in the Barakwena Community. 50% of the buffalo trophy fee ($6250) went to the Game Products Trust Fund to be used for antipoaching, etc. and 50% ($6250) went to the Barkwena Community.

Unrelated to this safari, the safari company helps maintain the track roads in the hunting areas. The safari company has drilled four boreholes (350 to 400 feet deep) to get to usable non brackish water for wildlife use in particularly dry areas. The Company monitors and maintains the power sources for the wells (two solar, one windmill and one gas generator. He also gives an extra $50,000 to the communities for local projects which include schools, vehicles, solar, computers and training, and antipoaching and training.

The hunting camp I stayed in for 11 days employed 13 local community members and 4 others from just outside the community but from the same region. Four of the camp staff were women. Also the camp benefitted from $1700 in tips distributed to the camp staff. I gave it to the camp manager and she distributed it to the staff according to their custom. I also per hunting custom gave a tip to the professional hunter who is a Namibian citizen (born and raised in Namibia and he has a family in the Windhoek area of Namibia).

At the conclusion of the hunting part of the safari, I moved on to spend two relaxing days at the Sikunga Conservancy [illegible]

the entrance, I saw a community office building under construction. The outfitter owner of the Ndumo Hunting safaris was supplying all the materials and local labor to complete the building for the community at No Charge to them. He was also paying extra to reed and thatched roofing materials could be used on the building (keeping in spirit of decor for the conservation area).

In my safari area, all the houses and kraals for the animals looked in good shape and well maintained as we drove down the main tar road. The villages along the tar road had water tanks that are connected via piping from the river and pumps are used as needed to fill the above ground tanks. Therefore people have access to a reliable water source and don't have to carry it for miles. The headquarter buildings for the National Park looked clean and in good shape.

The safari company owner works with the local chiefs, community leaders and committees to try to make things go smoothly and have a working relationship for the present and the future. His lease for the hunting blocks only goes for a limited number of years and if he is not doing a good job they will not renew his lease (when the lease is up it also involves a bidding process against competitors for the hunting blocks.

The safari hunting business offers jobs to the local people. The trackers are hard working people and know their job. They are talented in the bush environment. If you stop hunting, meat will no longer be delivered to the villages on a regular basis and there will not be enough money for successful antipoaching. You do

not want these people to turn their considerable bush skills to a local bush meat trade with indiscriminate use of snares and gin traps, and for elephant ivory poaching. The safari companies presence in these hunting areas, driving the roads and constantly looking for tracks, is a definite deterrent for poachers to be using the area. The safari company can radio antipoaching personnel if they see any signs of intrusion along the border roads, inner track roads, or around waterholes. I do not believe they have had problems in their area, but obviously if they heard rifle shots or saw a large concentration of vultures, they would check it out.

We saw approximately 40-50 elephant cow/calf numbers per day of hunting and there were many tracks crossing the sandy roads. There were also bull elephant tracks from individual up to 8 in a group. The bush was thick enough in most places that within 50 to 75 yards the elephants would completely disappear in the bush. There was definitely enough elephant presence in the area based on fresh tracks crossing the road. My professional hunter believes the elephant population in the area is somewhat high and therefore long term damage to the vegetation is happening in the safari area, but it is slow and no where near the destruction caused by expanding elephant herds in Botswana.

This is a beautiful big game area with all the needed African species. There is adequate plains game to keep the predator population sustained but

also large areas for elephants to roam undisturbed as they utilize the bush for their needs as they change throughout the yearly cycle; (crossing park boundaries, photo area boundaries and international borders). This region is definitely worthy of support to help the Namibian people with their conservation objectives. To me it seemed the people lived along the tar road with their villages and livestock and garden/crop areas, and they stayed out of there vast tracks of their communal land and let the areas be true African wilderness.

You need to manage this land properly for the people and the wildlife. With mismanagement you could turn this sandy patch of Africa with many trees into a sandy semi desert which would no longer support the proper vegetation and then no longer support the biomass of animals as it presently does; not only in number of animals, but you would lose species diversity.

Personally, I think the disturbance I caused on the elephant hunt was minimal as I harvested a good old bull that was traveling by himself, so we did not disturb any other elephants. We picked up the elephant's tracks at a water hole early on the third morning of the hunt and with great tracking by the staff, we harvested the bull in early afternoon on the same day. The elephant tracks were those of an old bull, and his body and teeth showed old bull. The professional hunter said the

stool material was coarse and not chewed up well, a sign of an older animal on their last set of teeth His left tusk was 55 pounds and his right tusk was a broken off tusk, but still a respectable 44 pounds. That being said, if he dies as an old animal in the bush, he becomes a big mass of carrion and is mostly going to be consumed by hyenas, vultures and maggots.

With the hunting option, you have harvested an older male and his meat is a valuable resource for the local people and gives a return and value to their land. The local people are happy with the meat and they don't have to use as much of their land for crops and livestock. The local people's investment in wildlife land has returned a profit in meat and significant money to be used by the local community.

You don't see much wildlife near the people/crop/cattle/goat areas because there isn't as much grass, and they don't like the commotion and noise of all the cattle/herders.

The anti-poaching funds give equipment and jobs to the Namibians. They help insure the elephant, plains game, and predators in Namibia will be protected for future generations of Namibia and the world.

For one hunt, a total of $72,000 in trophy fees is a lot of money to help with these conservation projects, the people living in these areas, and the wildlife.

Certainly, hunting generated dollars are a way of giving value to these vast tracks of African wilderness which are still present. These well run projects will help to preserve the land as is, for the benefit of all the wildlife (including vegetation, birdlife, reptiles, insect diversity, etc) and get more protected land into the future. Future generations will have more to work with and can decide what needs to be done to carry it even further into the future. You need to give the land to the next generations in decent shape and not in severely depleted condition. Doing things wisely with good conservation principles, as the Namibian people seem to be doing, seems to me will be a good role model for others to follow. This gives value to the land and the wildlife, and therefore value to the Namibian people who are the owners of the land. Hopefully, the current land use can be given enough value to encourage the people to keep it as is, to protect the wildlife for future generations

Authorization to Export/Import

I, Stephen Van Poucke (Print Name Hunter), hereinafter referred to as the "*Client*", hereby authorize *Safari Specialty Importers, Inc.* and its successors, assignees or agents (collectively "SSI") to act on my behalf for the importing and/or exporting of hunted trophies for my personal use. *This includes the authorization to obtain any necessary information, make payment on behalf of, and sign related paperwork needed for the export and import of such trophies.*

I, the *Client*, affirm that the trophies being exported/imported by SSI on my behalf, are my personal trophies which have been legally hunted by me in compliance with all national and local laws and regulations of the country of origin pursuant to the attached Addendum.

I, the *Client*, agree to indemnify, defend, and hold harmless *SSI*, from and against any and all demands, claims, and damages to persons or property, losses and liabilities, including reasonable attorney's fees, arising out of or caused by negligence or willful misconduct by me or any third party.

I, the *Client*, agree to the Payment Terms and Addendums attached hereto and made a part hereof.

This Authorization to Export/Import will remain in effect until cancelled by either party in writing.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Samuelson	Douglas	Dee	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)	845-943-5943		info@safarispecialtyimporters.c

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title		6. Primary contact name	
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Cheyenne	WY	82009		USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee–attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)]

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Pamela Guerlain for D. D. Samuelson (POA) 11-1-18

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers SEE ATTACHED PREPAID LABEL

See attached

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

ROSELLA QUARTARONE/Safari Specialty Importers, Inc. 845-943-5943

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Elephant - Loxodonta

b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

Mbire (Guruve) East Area 3&4

b. Date wildlife was hunted:

April 3, 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Charlton McCallum Safaris
Harare, Zimbabwe

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Afropride Freight Express
1303 Picnic Park, Harare Zimbabwe

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

See Attached

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Afropride Freight Express
Address:	1303 Picnic Park, Harare Zimbabwe
City:	
State/Province:	
Country, Postal Code:	

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

SEE ATTACHED

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: _____ Date: 11-1-18

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Authorization to Import

I, Doug Samuelson (Print Client Name), hereinafter referred to as the "Client", hereby authorize *Safari Specialty Importers, Inc.* and its successors, assignees or agents to act on my behalf for the importing and/or exporting of hunted trophies for my personal use. This includes the authorization to obtain any necessary information, make payment on behalf of, and sign related paperwork needed for the importation of such trophies.

I, the *Client*, agree to indemnify, defend, and hold harmless, *Safari Specialty Importers, Inc.* together with its successors, assignees or agents, from and against any and all demands, claims, and damages to persons or property, losses and liabilities, including reasonable attorney's fees, arising out of or caused by negligence or willful misconduct of any third party.

I, the *Client*, agree to the payment terms attached hereto and made a part hereof.

This authorization will remain in effect unless cancelled in writing by the undersigned.

Zimbabwe Elephant Hunt Import Request
By Doug Samuelson

In April 2018 I headed to the Dande North Concession in Zimbabwe to hunt elephant but also learn about the anti-poaching programs in that area that I had visited 10 years previously. As we traveled through the concession we immediately were contacted by the villagers that an elephant was destroying their crops. We then went to the farms and saw most of the watermelons smashed and eaten by an elephant as well as the entire corn crop was gone. Not one ear of corn was left in the rows that I was walking through. Now I don't know if there were elephants destroying the crop earlier but at this time the culprit was a particular old bull that was easily identified by a unique track on a back foot. We had no luck at all finding the elephant but he did return every night to eat the crops and sadly I think he smashed and wasted as much as he ate. I was amazed at all the tricks the people used to fight for their crops and scare the elephant away that included fires, tall wires with plastic sacks attached, and people surrounding their fields banging on pots. The villagers were very scared and furious that they had no more crops to sell and wanted the bull killed. We would later discover non-damaging bullet holes in the face and neck of the bull elephant that our game scouts said probably were from poachers in Mozambique using AK-47s. That could have been one of the reasons he was acting so gnarly and scaring the people as he came so close to their homes each night.

On April 6 at breakfast we heard that Chief Daster Chisunga of Guruve of Mashonoland Central had been killed in a car accident and of course it was huge and sad news for the communities he served. I asked our game scouts and my PH many questions and learned some very interesting things about him that I further read about on the internet that night. Like myself Chief Chisunga was very interested in the conservation of wildlife so that it benefits the communities without them having to poach. The Chief was also chosen to represent Zimbabwe at CITES meetings in Chile and the USA. He opened the communal lands to hunting thus changing the culture from poaching to sustainable controlled hunting based on science and I think it has greatly helped the wildlife be valued by the villagers. Chief Chisunga was also supportive of the anti-poaching programs started up in the area that have been very successful. Many of the poachers that had been crossing the border from Zambia now thought is was too dangerous in Zimbabwe and began operating in Botswana because they are less likely to be caught according to the local game scouts.

The bull elephant was still raiding crops and on the 7th of April we finally found the elephant and harvested him. After listening to other hunters in years past describe what it is like to watch a village of people receive a whole elephant to share I couldn't wait to deliver the animal the next day and watch the dancing and singing while they celebrated the end of the crop raiding and the meat they would receive.

While we were going to recover the elephant a game scout approached me and asked if I would be willing to give my elephant to the community as the food for the Chiefs funeral. I don't understand the cultures in Africa as well as I would like but I did get the idea that elephant meat was almost essential for a giant celebration of their chief. Nobody could tell me how many people would be there but I got the idea it could be well over a thousand and dignitaries from all over would be at the funeral. Of course, some of the leaders of the villages that fought with the bull elephant would attend too. I had very mixed thoughts because I was so excited to watch the villagers dance but since this was the only elephant license in the area at that time I knew if they wanted legally harvested elephant it had to come from me. Also my PH assured me that he would make sure to take another elephant later in the year to that village.

The Campfire program seems very successful in Zimbabwe and the villagers benefit greatly from the share of the trophy fees and employment in the hunting camps. After weighing the options, I had to honor the request for supplying the funeral meat and I still think that was the right move. I don't know

of anyone who has ever been able to do that so I felt quite privileged. I also knew that there was going to be elephant meat at the funeral and it most likely would not be one that was from a sound biological harvest quota or an old bull that was past his prime like the crop raider was.

I had to leave before the funeral took place and I surely would have gone if my plane was a couple of days later because many people wanted to thank me for the gift and I would have liked to meet them. The elephant took on a much different meaning for me after the turn of events with this bull elephant. While the tusks are what people think of most from elephant trophies they aren't what this elephant was about. My bull was about the celebration of a life for a man that believed in giving value to wildlife and helping people have a better life.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Bowen	Daniel	Webster	III
2. Date of Birth (mm/dd/yyyy) (b)(6)	3. Telephone Number (b)(6)	3.a. Alternate Telephone Number	4. E-mail address info@safarispecialtyimporters.c

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last Name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

(b)(6) Apartment #, Suite #, or Room #; no P.O. Boxes)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Grosse Point Farms	MI	48236		USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee–attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Safari Specialty Importers, 758 Sheldon Road Wallkill, NY 12566 See Attached

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Rosella Quartarone, 845-943-5943, info@safarispecialtyimporters.com

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

ELEPHANT - Loxodonta

b. Sex (if known).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

Namibia, BWABWATA West

b. Date wildlife was hunted:

11-8-17

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Jacobus H. Pienaar
Farm Hester 397, Gobabis, Nambia

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Pronto Global Air
NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

SEE ATTACHED COPY OF HUNTING PERMIT

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Jacobus H. Pienaar
Address:	Farm Hester 397, Gobabis,
City:	Nambia
State/Province:	
Country, Postal Code:	

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: Lorelle Juan Tan Lee David W Bowen III Date: 11-1-18

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

OPERATOR ENHANCEMENT QUESTIONNAIRE

1. **OPERATOR INFORMATION**
   a. Name of Area Operator: HUNTAFRICA NAMIBIA
   b. Years in business: 32 years
   c. Name of Company conductinghunt: HUNTAFRICA NAMIBIA
   d. City where hunt will take place:
   e. Country where hunt will take place: NAMIBIA

2. **CONCESSION**
   a. Name of Concession: Bwabwata west National park
   b. Area in Km^2: 3800
   c. Land tenure: Government lease

Government Lease	Community	Private Ranch	Private Conservancy
x			

   d. Length of Concession Agreement: 5 years
   e. Can it be renewed? x Yes ____ No
   f. Length of Renewal, if applicable: 5 years
   g. Estimated total amount received in trophy fees last year, if applicable:
   h. Are there any special obligations under the Concession Agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain below:
   Yes, annual reporting: detailed report to the Ministry of Environment & Tourism, of each client and every animal that was hunted.
   i. Please provide the Concession location and nearest City: S 18 09°C 162 E 021 42°C 495, Rundu (bigger town) Divundu (very small town)
   j. Please attach a map or maps with the boundaries marked and showing the nearest City attached
   k. If the Concession borders a National Park, please provide Park name: Inside the Bwabwata National park
   l. Description of general and distinctive habitat features and any water features:
   Bushveld
   The Okavango river forms the western border

3. **COMMUNITIES IN THE CONCESSION**
   a. Are there any communities living in the Concession? x Yes ____ No
   b. If so, estimated number of people or villages in the Concession? 1 Village – Omega – 1000 people
   c. Are there communities bordering this Concession? x Yes ____ No
   d. If so, estimated number of people or Villages around the Concession?
   Muchiko area – 500 people

4. **RELEVANT GAME POPULATIONS IN THE CONCESSION:**[1]

[1] The new Fish and Wildlife Services (FWS) Import Permit Application form asks the applicant: "9. a. Do you have any information regarding the population status or trend on the species hunted?"

Species name	Relative Abundance			Estimated Population	3-Year trend			How is it monitored?
	Dense	Avg.	Sparse		Up	Down	Stable	
Elephant	x			2500			x	By counts
Lion			x		x			
Leopard	x						x	
Prey species								

5. Local Community Participation
   a. Total employment number: 40
   b. Please identify the number and type of all employees:

Employee Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters	2	
Trackers	11	11
Anti-Poaching Scouts/Rangers	20	20
Other Anti-Poaching	NDF	
Cooks/Housekeepers	4	4
Community Coordinators	2	2
Managers	1	
Biologists	1	
Others:		

6. Number of staff employed in the off-season: 11

   a. Please identify the number and type of staff that are engaged when the season is not open:

Employee Type	Total number of this type	Number of locals /from nearby Communities	When employed?
Anti-Poaching staff	Full staff		
Managers	1		
Maintenance	0		
Road Opening /Construction	30		
Community Relations Personnel	1		
Others:			

7. Anti-Poaching Efforts:[2]
   a. Number of Anti-Poaching staff:
   b. Are Anti-Poaching Patrols conducted during the hunting season, off-season, or both?
      x
      Hunting season: _____ Off-season: _____ Both seasons: x

[2] The new FWS Import Permit Application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

c. Months during which Anti-Poaching Patrols are conducted: All year round

d. Number of Anti-Poaching Patrols per month: _____

e. Description of Anti-Poaching equipment, vehicles, etc.:

_____

f. Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution?

Ministry of Environment & Tourism

7. **ANTI-POACHING EFFORTS *[CONTINUATION]***

g. Do you offer rewards to poaching informants leading to arrest? x Yes ____ No

h. Do you offer rewards to poaching informants upon conviction? ____ Yes x No

i. Please describe the company's anti-poaching expenditures below:

TYPE OF EXPENSE	SPENDING 2016	SPENDING 2017	SPENDING 2018	REMARKS
SALARIES FOR ANTI-POACHING SCOUTS	N$ 31200	N$ 31200	N$ 31200	
EQUIPMENT				
VEHICLES	4x4 vehicle	4x4 vehicle	4x4 vehicle	
PETROL	As needed	As needed	As needed	
REWARDS PAID				
OTHER: _____				Each person arrested, the informer get N$ 5000 per case
OTHER: _____				
TOTALS				

j. What currency are the expenditures given in? Namibian Dollar

8. **ANTI-POACHING RESULTS:**

CATEGORY	2016	2017	2018	REMARKS
POACHING INCIDENTS DISCOVERED				
ELEPHANT CARCASSES OBSERVED				
LION CARCASSES OBSERVED				
LEOPARD CARCASSES OBSERVED				
IVORY POACHERS ARRESTED

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
MAHAFFEY	WILLIAM		

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)	(b) (6)		MATT@GENUSLOGISTICS.C

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
WINTER PARK	FL	32792		US

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   GENUS LOGISTICS 161-15 ROCKAWAY BLVD SUITE 205 JAMAICA NY 11434

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   MATT MAYERS 718 790 0216 / MATT@GENUSLOGISTICS.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owner of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeite collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

LOXODONTA AFRICANA, ELEPHANT

b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

Kabulabula & Lusese Conservancy

b. Date wildlife was hunted:

Sept 2nd 2016

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Phillip Steyn

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

PRONTO GLOBAL
B1 Highway North, Plot #48,
Brakwater, Windhoek, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Phillip Steyn
Business Name:	
Address:	Ongombo West Section 2
City:	Number 56
State/Province:	Windhoek, Namibia
Country, Postal Code:	

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

OMB Control No. 1018-0093
Expires 08/31/2020

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: 12/12/18

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

BELOW IS A POWER OF ATTORNEY FORM WHICH IS REQUIRED BY U.S. CUSTOMS, TO ALLOW US TO TRANSACT U.S. CUSTOMS CLEARANCE ON YOUR BEHALF.

residing at (b)(6) [redacted] Winter Park FL 32792 having an office and place of business at ___ hereby constitutes and appoints each of the following persons ___ Genus Logistics Inc. ___
may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by thr Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from Genus Logistics Inc., who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay Genus Logistics Inc., for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

IN WITNESS WHERE OF, the said (Print name) William Mahaffey,
as caused these presents to be executed

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Kernosky	Stephen	Keith	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Caledonia	Michigan	49316-7643	Kent	United States

2.a. Mailing address (include if different than physical address, include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].

2. Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other applicable parts in subchapter B of Chapter I of Title 50, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   As given in Section A and C

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Stephen Keith Kernosky
   (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Loxodonta Africana African Bush Elephant

b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Country: South Africa Region: Limpopo Province
Conservancy: Balule Nature Reserve (BNR) Nearest City: Hoedspruit

b. Date wildlife is to be hunted:

May 24 - May 31, 2019

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Andrew Pringle
Crusader Safaris

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
hunt has not yet been conducted

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	African Wildlife Artistry
Address:	1 Industrial Rd.
City:	Somerset East
State/Province:	Eastern Cape
Country, Postal Code:	South Africa 5850

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

Please see attached documents describing elephant population, status, management plan, and control.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

Cost of hunt is $36,000.00 USD. Please see attached regarding specific use of funds by the reserve and its management.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

Anti-poaching and environmental management. Please see attached for documented use of the funds for these purposes.
Benefits include the meat is distributed to the local population and to the Mohololo Wildlife Rehab Ctr.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

    Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than [redacted].

    Applicant's signature: [redacted] Date: DEC. 16 2018

    Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Falls Church, VA 22041-3803

To whom this concerns:

Re: question 9a Form 3-200-20

In support of the request to show this legal hunt will benefit this species please refer to the enclosed document "Appendix M: Elephant Management Plan – Associated Private Nature Reserves." This plan was initiated in 2009 and is being exercised today as shown by the letter from E. T. Meong accepting the management plan.

While the management plan covers a variety of topics and details, Sections 2.6 and 3 contain material supporting this application. Key highlights are presented for each section.

From Section 2.6 Preferred management density of elephants:

- The BNR has extended the range of the African Elephant and elephants are key to the savanna ecosystem.
- Since elephants dominate the biomass, it is important to maintain a balance for the benefit of elephants as well as all the other species.
- BNR is using controlled hunting to enact this plan and it is noted that extra care has been exercised determining the need for hunting.

From Section 3 Reserve Mission and Objectives

- Using sustainable principles, the APNR is managed as a whole for a wide variety of indigenous species and their habitats.
- Elephants receive special emphasis for the monitoring/assessment activities.
- Stocking rate has increased since the 1990's and elephant populations have historically been above the guideline levels.
- Elephants contribute very highly to the stocking rate thus necessitating a management plan.
- The elephant management plan (especially for the Balule Nature Reserve) includes herd reduction (hunting).

Regards,

(b) (6) [redacted]

15 December 2015

APPROVAL OF ELEPHANT MANAGEMENT PLAN –ASSOCIATED PRIVATE NATURE RESERVES

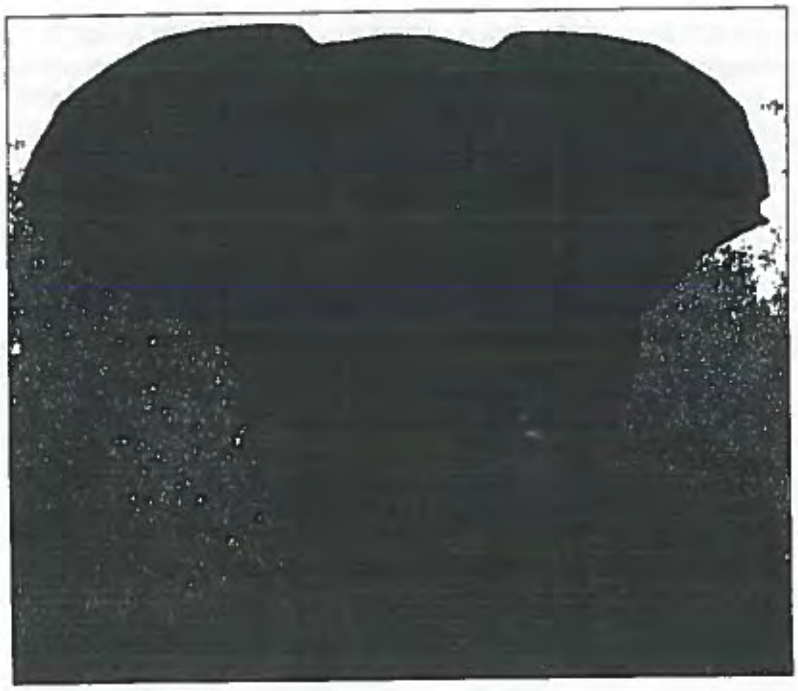
1. Your document "Elephant Management Plan – Associated Private Nature Reserves has reference.
2. Please be advised that the Member of the Executive Council Mr. S.C. Sekoati has approved the Elephant Management Plan for Associated Private Nature Reserves on the 11th of December 2015.
3. This plan is approved in terms of the requirements of the 'National Norms and Standards for the Management of Elephants in South Africa (2008).
4. All future permit applications related to elephant management for this reserve will be evaluated according to the content of this approved management plan.

Kind regards,

E.T. Moeng: Senior Manager: Biodiversity Management

APPENDIX M: ELEPHANT MANAGEMENT PLAN - ASSOCIATED PRIVATE NATURE RESERVES

September 2009



Service providers:

Dr. Mike Peel (Agricultural Research Council, P.O. Box 7063, Nelspruit, 1200)

Dr. Marc Stalmans and Dr. Jeremy Anderson (International Conservation Services, P.O. Box 19139, Nelspruit, 1200)

Ecological surveys have been carried out as part of the Savanna Ecosystems Dynamics Project led by Dr. Mike Peel and his colleagues over the past 20 years on properties making up the APNR (for details see reference list).

1.4 Details: ARC-ICS consultants

Dr. Mike Peel (mikep@arc.agric.za); Dr. Marc Stalmans (stalmans@ics.co.za); Dr Jeremy Anderson (anderson@ics.co.za)

1.5 Neighbouring property land uses

Neighbouring private landowners generally exercise the same type of land use, namely conservation, game farming, ecotourism and hunting. Refer to section 4.4 and 4.5 of the management plan (Peel, Stalmans and Anderson, March 2009 - "Management Plan: Associated Private Nature Reserves" pp. 18-19).

In the south of the TPNR, the farm Birmingham borders the Andover Nature Reserve as its southern neighbour but separated by the Orpen tarred road. The nearest community is some 5km away and can only be accessed by crossing this tarred road.

1.6 Description of and electrification of perimeter fence

Where elephant occur naturally the fence is to be electrified on both sides. The APNR fence consists of three electrified strands set at 0.3m, 1.5m and 2m carrying a minimum voltage of 6 000 V. These strands are carried on a 2.1m high, 21 strand fence.

1.7 Potential for enlarging the property

There is potential to expand the boundaries of the APNR to the west and south of the TPNR, to the west of the KPNR and to north of the BNR. The constitution of the various reserves making up the APNR does allow for expansion subject to certain criteria being met by the applicant/s.

B. Ecological information

2.1 Climate

Refer to section 7.6.1 and 7.6.2 of the management plan (Peel, Stalmans and Anderson, March 2009 - "Management Plan: Associated Private Nature Reserves" pp. 32-33).

The general trend with elephant is an upward one and the proportion of mixed feeders in the APNR is very high. Given concerns relating to the perceived/real impact of elephant, an in-depth analysis of tree density and cover for the entire study area has been initiated. When we examine the 2007 and 2008 elephant trends we note two things:

- The overall density of elephant has increased from 0.68 elephants km^{-2} to 0.84 elephants km^{-2} in the APNR; and
- The elephant population is mobile within the APNR (and surrounding areas): KPNR (0.68 to 1.31 elephant km^{-2}), UPNR (0.27 to 0.47 elephant km^{-2}), TPNR (0.62 to 0.84 elephant km^{-2}) and BNR (1.03 to 0.38 elephant km^{-2}).

As with the tree density and canopy data, a clearer understanding of elephant impact is emerging as the monitoring programme continues

The Kruger National Park (KNP), while differing greatly in size to APNR, provides some valuable pointers to elephant management. After Whyte, Biggs, Gaylard and Braack (1999) these include:

- **A management policy where the elephant population is be managed according to measured impacts on some ecological parameter** rather than on absolute numbers of elephants;
- **Continuing with an elephant management policy until there is clear evidence that the prevailing density of elephants is having a negative impact on one or more** important **defined ecological parameters;**
- The above can be referred to as a "Threshold of Potential Concern" which is basically those upper and lower levels along a continuum of change in a selected environmental indicator which, when reached, prompts an assessment of the causes which led to such an extent of change, and results in either:
    - **Management action to moderate such cause(s);**
    - **Re-calibration of the threshold to a more realistic or meaningful level.**

TPC's should initially be established at somewhat arbitrary levels on "best-available-knowledge-and-experience". It is absolutely necessary when deciding to use such TPC's that it must be accompanied by monitoring at appropriate intervals, and that there must be considerable understanding of the factors causing change in the parameter being monitored. These need to be identified specifically for APNR. TPC's have the advantage that management has definite proactive objectives or parameters within which to manage a system, in contrast to previous practices where reactively managed events or processes to minimize or avoid crises. Nevertheless, TPC's should be challenged as to their appropriateness or validity, and adaptively modified with increasing knowledge and experience;

Any one TPC reached should act as a significant warning sign on its own, and although evaluated in overall context with the rest, must be taken seriously in its own right (APNR has shown a willingness to address the elephant population issues).

Once a Threshold/s of Potential Concern has been reached, it will necessary to implement some management action. As this issue is highly emotive, the utmost care must be taken when considering methods of reducing the population.

Refer to Chapter 6 pp. 24-26 of the management plan (Peel, Stalmans and Anderson, March 2009 - "Management Plan: Associated Private Nature Reserves").

3.1 Vision statement

For completeness the proposed Vision Statement for the APNR is presented below:

- The consolidation and enhancement of conservation interests of the APNR to gain recognition as an integral and essential part of the conservation priorities and regional interests of the Lowveld (as stated in the old master plan);
- To consolidate, expand and manage the APNR as part of a world-class Trans Frontier Conservation Area.

3.2 Mission statement

For completeness the proposed Mission Statement for the APNR is presented below:

- The APNR is committed to the conservation of biodiversity for the sake of posterity, and to manage its assets as a sustainable resource to serve the ecological, social and economic interests of the central Lowveld (old master plan);
- The APNR landscape will be developed to maintain the faunal and floral assemblages, ecological processes, cultural resources and landscape characteristics representative of the area, to foster international co-operation for the development of the Greater Limpopo Transfrontier Conservation Area (GLTFCA), and offer long-term benefit to the people of the area;
- To conserve a wide diversity of indigenous species and their associated habitats using sustainable utilisation principles (Leibnitz, Peel, de Villiers, Venter, 1993).
- The consolidation and enhancement of conservation interests of the APNR to gain recognition as an integral and essential part of the conservation priorities and regional interests of the Lowveld (as stated in the old master plan);
- To consolidate, expand and manage the APNR as part of a world-class Trans Frontier Conservation Area.

3.3 Ecological Monitoring and Research

The ecological research and monitoring programme is well developed on APNR having been initiated by the author in 1989. The programme encompasses an environmental, vegetation and animal component. Lists of reports relating to this programme are available on request. The approach to monitoring and research is as follows:

3.3.1 Monitoring

acceptable (e.g. all small trees or all large trees present and nothing in between);

- When one looks at favoured species *Sclerocarya birrea* and *Acacia nigrescens* we note increases in utilisation in particular in KPNR and to a lesser extent the TPNR and for *A. nigrescens* in the BNR. The KPNR and TPNR had the highest elephant densities and the relations between elephant density and impact on favoured trees requires investigation. The increase in impact in the BNR may indicate that even at low elephant densities *A. nigrescens* is a target species. It appears that *Combretum apiculatum* and *Colophospermum mopane* play similar roles in that relatively similar proportions of these species are selected for where they dominate. Where *Commiphora mollis* is relatively common it is a targeted species. Results for 2007 and 2008 respectively illustrate this: GORC 23% and 42%; Grietjie 9% and 27%; OWGR 16% and 15%; York 22% and 25%; and ONGRS 19% and 24%;
- *Combretum apiculatum*, *Grewia spp.* and *Colophospermum mopane* again dominated in terms of the species most targeted in the APNR. There was a notable increase in the relative proportion of *Acacia nigrescens* that were impacted on. *Colophospermum mopane* and *Grewia* spp. continue to comprise a large proportion of the impact particularly in the drier north and east while in the central, south and west the impact shifts more to *Combretum apiculatum* and *Acacia nigrescens*. The data support the observation that there is an increased impact on the 1-2m height class with the impact on *Grewia* spp.; and
- As with the tree density and canopy data, a clearer understanding of elephant impact is emerging as the monitoring programme continues.

Likely management interventions relating to elephant include (with input from J. Brits Warden Timbavati):

- Spatially and temporally altering the distribution of key resources (*e.g.* water distribution);
- Spatially and temporally altering the scale of resource availability (*e.g.* removing fences); and
- Spatially and temporarily altering the access to resources (*e.g.* excluding elephants).

When elephant numbers modulate the intensity with which elephants use a landscape, APNR will consider:

- Non-lethal induction of spatial and temporal variation in elephant numbers (*e.g.* contraception and translocation); and
- Lethal induction of spatial and temporal variation in elephant numbers (*e.g.* culling).

APNR use adaptive management approaches to evaluate and learn about the mechanisms of impact as well as whether a management action leads to change in impact and/or conflict within the context of APNR-specific objectives.

Monitoring thus focuses on aspects of elephants such as the distribution of groups, home range overlaps, demography and population estimates; modulators of elephant impact and conflict such as water distribution and fencing.

hand (e.g. wildebeest declining) and mixed feeders (elephant and impala increasing) on the other hand in the APNR. It is recommended that preliminary TPCs for herbivores on APNR are set on the basis of measurable criteria such as population size, estimated rates of increase and survival as well as an element of predator impact, calving percentage and survival and calving interval. Should a population move outside the numerical limits of the TPC, the situation must be investigated and remedial action taken where necessary.

Table 1 presents the results of the annual APNR offtake (2008) meeting to determine animal removal proposals on an annual basis. This meeting has input from representatives of the various reserves, Limpopo, Mpumalanga Tourism and Parks Authority, SANPARKS, Agricultural Research Council (the author of this document) and other specialists in the field. This shows the commitment of the APNR to responsible management.

Table 1 Proposed offtakes included in the calculation (from 2008 APNR animal offtake meeting – ticks indicate agreement):

Reserve	Species	Total	Comment
KPNR	Buffalo	10	Bulls (up to 37") for commercial/trophy hunting – C
		6	Bulls (≤ 39") for commercial/trophy hunting - C
		5	Bulls (≥ 40") for commercial/trophy hunting – C = 0.9% of the population - √
		10	Non-trophy hunting bulls (up to 37") – L*
		5	Non-trophy sub-adult bulls – L = 0.7% of the population - √
		20	Non-trophy adult cows - L
		20	Non-trophy sub-adult cows – L = 1.8% of the population - √
	Impala	2000	Non-selective by land owners – L = 21% of the population - √
UPNR	Buffalo	4	C/L? unspecified = 14.8% of the population which exceeds the guideline but given that the buffalo population within the APNR as a whole is healthy- √
	Impala	72 +10	Non-selective by land owners – L C/L? unspecified = 6% of the population - √ I think provision should be made for more removals for ecological reasons if necessary (e.g. prolonged drought). I support the removal of 10 impala for veterinary purposes
	Lion	1	No predator data available so no comment
TPNR	Buffalo	5	Bulls trophy – C = 0.19% of the population - √
		16	Bulls non-trophy – C/L?
		5	Bulls 5 'dagga boys' non-trophy – C/L?
		17	Buffalo cows – C/L? = 1.5% of the population - √
	White rhino	1	Bull for commercial/trophy hunting – C = 0.9% of the population - √
		6	To sell – C = 5.5% of the population - √
	Impala	2000	= 24.5% of the population – consider 1 700
	Hippo	2	C/L? unspecified = 3.5% of the population - √
	Lion	1	C/L? unspecified - No predator data available so no comment
	Leopard	1	C/L? unspecified - No predator data available so no comment
BNR	Buffalo	1	Bull (40") for commercial/trophy hunting – C = 0.3% of the population - √
		10	Bulls (<40") for commercial/trophy hunting – C = 2.6% of the population – consider 8 - √
		12	Landowner/management (suggest include females) =

The animals are not insured as they form part of a larger system. There is liability insurance against claims related to elephant/human conflict (input from J. Brits Warden Timbavati and J. Llewellyn Umbabat).

4.4 Contingency plans to deal with elephant problems

It is considered that no formal contingency plan is needed for the APNR as it is part of a larger system. Each of the reserves functions on a central budget with each reserve employing a management team to protect the integrity of the area. The approach to elephant management in this regard is hands off which is different to that used on smaller fenced reserves (input from J. Brits Warden Timbavati and J. Llewellyn Umbabat).

For a list of the people responsible for contingency plans within the reserves refer to section 1.2 of this plan.

4.5 Contingency plans to deal with conflict between people and elephant

Any elephant escaping from the APNR will do so along the northern, southern or western fences. The APNR reserve management teams are not the management authorities and any animal escaping from the reserve is then the responsibility of the provincial authority (LEDET or MTPA).

The boundary fence of the APNR is patrolled on a daily basis and any break in the fence is immediately reported to management. The reserve manager then contacts the relevant provincial authority which then advises reserve management as to the action they must take (in accordance with paragraph 25 of the Elephant Norms and Standards Protocols).

4.6 APNR elephant behaviour management protocol

The APNR unpublished protocol in this regard refers.

- Under extreme or life threatening circumstances all elephants shall be managed equally, whether it is a marked (collared or tagged) animal or not;
- Where an elephant's behaviour changes and it becomes a damage causing animal, steps must be taken to identify the animal with certainty and to record its movements;
- If the animal is subject to ongoing research, the researchers must be notified immediately through the Warden of the reserve;
- The Warden of the reserve must notify the reserve exco and the APNR exco;
- The responsible researchers must be proactive in their liaison with the Warden/s and indicate what practical non-lethal methods may be appropriate to resolve the problem. The reserve is under no obligation to accept the researcher's recommendations;
- Should the proposed non-lethal methods prove unsuccessful a report may be lodged with MTPA and/or LEDET;
- Land owners or reserve/lodge managers should notify the reserve Warden (committee) of any elephant that regularly causes damage to infrastructure etc. ;

In support of questions 9b and 9c, application of license and trophy fees, please consider the following which was recently supplied by the reserve Chairman:

The Balule centre gets 30% for its overall perimeter security and community activities. Balance is spent in the areas allocated to the hunt for environmental management (alien species road etc) and field rangers focused on anti poaching activities.
For example Colin and his dog Annie and mervyn this week tracked 3 would be poachers 43.5 kms over 13 hours before the 3 were arrested inside Balule. Colin and Mervyn did the internal tracking. Balule and farm watch did the tar road and fence to keep intruders inside and blocked off all their escape routes
Aided by fixed wing and helicopters once sun rise occurred.
Fantastic effort with gun recovered etc.
final arrest by Rian and mervyn with Colin in the helicopter at the very end of the track
this is a good example of centre and regional involvement

Cost of this is equivalent to income from almost one elephant hunt.

This can happen at least 5 times per year

Please also see Section 4.2 Security plan and threat analysis (including poaching) of the document submitted in support of Question 9a.

Respectfully submitted in support of my CITES application.

RE: Import Application of Zambia Elephant Trophy for Brett Smith

Dear Chief Cogliano:

Enclosed please find the permit application to import an elephant trophy from Zambia for Brett Smith. Please refer to the hundreds of pages of enhancement information Conservation Force previously submitted to the U.S. Fish and Wildlife Service, as well as information submitted by Zambia authorities, outfitters, and others, in making an enhancement finding for Elephant trophy imports.

Please do not hesitate to contact us if you have questions about this permit application.

Sincerely,

John J. Jackson III

encl:

- Brett Smith's Elephant Permit Application, 100.00 Check and Notice of Representation

3240 S I-10 Service Road W, Suite 200, Metairie, Louisiana 70001, USA

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III of the non-profit firm Conservation Force as my attorney and legal representative for all matters concerning my application for a permit to import a lawfully hunted Elephant trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

In the case of a permit an ESA endangered listed species this is also a request for Ten Days Notice before the permit is issued so I and my attorney can know of approval as soon as those that may have opposed the issuance of the permit.

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Smith	Brett	D	Mr.

2. (b) (6) [redacted]

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

[redacted]

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
North Bend	Washington	98045	King	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
(b) (6) [redacted]

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country
North Bend	Washington	98045	King	USA

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee–attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Date of signature (mm/dd/yyyy): 01/28/2019

OMB Control No. 1018-0093
Expires 08/31/2020

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

Brett Smith
(b) (6) [redacted]
North Bend, WA 98045

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Conservation Force, (504) 837-1233
cf@conservationforce.org

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☑ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
   Loxodonta Africana (elephant)

   b. Sex (if known). male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:
   Zambia - Nyampala Hunting Block
   GIS: S 1216963
   E 03173351

   b. Date wildlife was hunted:
   October 14th - 30th 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Outfitter: Baobab Safaris LTD

Professional Hunter: Adam Buskie

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

Plot 133 Freedom WAY
LUSAKA, Zambia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). See Attached.

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Baobab Safaris Limited
Business Name: Baobab Safaris Limited
Address: Plot 133 Freedom WAY
City: LUSAKA
State/Province: LUSAKA
Country, Postal Code: Zambia, 10101

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

Distribution of the Trophy Fees:
45% - GOVERNMENT
45% - Community
5% - Chief of Area
5% Administrative Fee's.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

OMB Control No. 1018-0093
Expires 08/31/2020

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more tha

Applicant's signature [redacted] Date: 1/28/19

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
HURST	WAYNE	ALAN	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]			cindi.rulon@procargousa.com

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
GEORGETOWN	TEXAS	78628	WILLIAMSON	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Please continue to next page

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   PRO CARGO USA 15619 MORALES ROAD HOUSTON, TEXAS 77032 SELF ADDRESSED ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   CINDI RULON CINDI.RULON@PROCAROGUSA.COM 281-220-3176

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

LOXODANTA AFRICANA AFRICAN ELEPHANT SKIN, FEET, EARS AND TRUNK
LOXODONTA AFRICANA AFRICAN ELEPHANT SKULL, 4 SKIN PANELS 2 TUSKS, 4 FEET, 2 EARS, TAIL AND

b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

TIMBAVATI PRIVATE NATURE RESERVE 24.190TO 24.198S AND BETWEEN 31.227 AND 31.278 EAST. MPUMALANGA DISTRICT NEAR HOEDSPRIT

b. Date wildlife was hunted:

October 8, 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Professional hunter HP DU PLESIS
Safari Company INTREPID SAFARIS

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

SAFARI TAXIDERMY
47 GOUD STREET
LABORIA. POLOKWANE RSA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:
Business Name: SAFARI TAXIDERMY
Address: 47 GOUD STREET
City: LABORIA, POLOKWANE RSA
State/Province:
Country, Postal Code:

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

ATTACHED IS THE AREAL ANNUAL CENSUS REPORT FOR 2018 SHOWING A SUBSTANTIAL INCREASE IN ELEPHANT POPULATION

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

MY HUNTING FEE WAS 55,000 US DOLLARS A PORTION OF THESE FUNDS ARE USED TO FUND THE ANTI- POACHING EFFORTS OF THE PRESERVE. 70% OF THE TIMBAVATI PRIVATE NATURE RESERVE IS FUNDED BY MONIES COLLECTED FROMT THE HUNTING COMMUNITY.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

. ALL MEAT FROM THE HUNT IS DONATED TO THE MOHOLOHOLO REHABILITATION CENTER IN SOUTH AFRICA. INFORMATIONAL LETTER ATTACHED. IN ADDITION, PROCEEDS FROM THE HUNT PROVIDE EMPLOYMENT FOR GUIDES, SKINNERS, TRACKERS AND WORKERS AT THE CAMP

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or ~~taxidermist~~ applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ atty in fact Date: 02/01/2019

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

KNOW ALL MEN BY THESE PRESENTS: That x Wayne A. Hurst (Full Name of Person), residing at x (b) (6) [redacted] West Columbia, TX 77486 hereby constitutes and appoints each of the following persons - John Rulon CHB may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1

INTRODUCTION

1.1 PREAMBLE

The Timbavati Private Nature Reserve forms part of the Greater Kruger Park, and is a member of the Associated Private Nature Reserves otherwise known as the APNR. The Timbavati Private Nature Reserve, herein further referred to as the TPNR, describes its vision for the overall long-term goal for the operation, protection and development of TPNR as follows: *To provide for ecologically and aesthetically sustainable (non-consumptive and consumptive) use of the area for its owners, based on wildlife focused recreation, tourism and hunting.*

The purpose of an organisation is the foundation on which all future action is based and must be in line with the overall management philosophy of the association. The purpose of the TPNR is thus defined as follows: *To conserve and maintain important aquatic and terrestrial habitat for wildlife conservation, ecosystem services and geological features whilst providing opportunities and benefits for sustainable nature based tourism and hunting whilst ensuring continued community support and beneficiation.*

Responsible wildlife management practices necessitated the monitoring of wildlife populations, the TPNR thus participates in active population monitoring of all mammalian species including carnivores. The scope of this report is to summarise the results for the annual aerial census conducted during September 2018. Please note that this report only provides information on the annual aerial census and that reports on other species and census techniques are published separately.

1.2 SURVEY AREA

The Timbavati Private Nature Reserve encompasses a total area of 530.2 km^2, and is situated between: -24.190 and -24.198 S and 31.227 and 31.278 E. The reserve forms part of the Greater Kruger Park and is situated directly west of the Houtboschrand and Kingfisherspruit sections. The TPNR furthermore forms part of the Associated Private Nature Reserves, with the Umbabat and Klaserie Private Nature Reserves bordering towards the north and north-west respectively.

The TPNR falls within the Lowveld Bushveld climatic region of South Africa (Kruger 2004). Average rainfall for the area ranges from 500-700mm per annum (Kruger 2004), with the long

term average for the Timbavati Headquarters station in the region of 573 mm per annum. The peak rainfall season for the reserve is between the months of November and March, with the highest temperatures recorded during the months of January and February, this is further characterised by high humidity.

Geomorphology of the TPNR is characterised by an undulating landscape with small crests and long mid-slopes often not abrupt towards a foot slope or drainage line. High points within the landscape are confined towards the east of the TPNR, with the highest point located within the farm of Johnniesdale (520m m.s.l), followed by the Ceylon farm (420m m.s.l). Both of these properties can be located on the eastern boundary of the TPNR. Dolerite pipe erosion surfaces are prominent within the northern section of the TPNR and result in abrupt pedalogical differences.

Hydrology and drainage of the area consists of the Klaserie River, the only perennial river within the area, and eight other non-perennial rivers. Water for game is mainly in the form of earth dams build within drainage lines and pumped water in troughs, usually in the vicinity of infrastructure such as lodges and camps. The TPNR falls within the savanna biome with a further classification by Mucina and Rutherford (2006) at a vegetation unit scale, as part of the following vegetation units; Granite Lowveld (35018 ha), Phalaborwa-Timbavati Mopaneveld (18192 ha) and the Gabbro Grassy Bushveld (709 ha).

The main structural vegetation units within the TPNR can be described as:

- *Colophospermum mopane* veld within the north,
- Open *Senegalia nigrescens/ Sclerocarya birrea* veld with in the central sections, and
- Open *Combretum/ Terminalia* veld within the south.

A well-defined phyto-mass gradient is evident on the TPNR and this can be attributed to the rainfall gradient present, from the dry northern sections to the more mesic southern sections.

A wide verity of ungulates and the full spectrum of the large carnivores occur within the TPNR. Species dominating the landscape include, but are not restricted to: Impala (*Aepyceros melampus melampus*), African Elephant (*Loxodonta africana*), Cape buffalo (*Syncerus caffer*), Giraffe (*Giraffa camelopardalis*), Zebra (*Equus quagga*) and Blue wildebeest (*Connochaetes taurinus*). Primate species include: Chacma baboon (*Papio hamadryas ursinus*) and the Vervet Monkey (*Cercopithecus aethiops*)

Iconic carnivore species include; Lion (*Panthera leo*), Leopard (*Panthera pardus*), Cheetah (*Acinonyx jubatus*), Spotted Hyena (*Crocuta crocuta*) and both Black-backed jackal (*Canis mesomelas*) and Side-stripped jackal (*Canis adustus*). Furthermore, less frequent species within the Greater Kruger region, which might occasionally venture into the TPNR include: Eland (*Tragelaphus oryx*), Roan (*Hippotragus equinus*), Tsessebe (*Damaliscus lunatus*) and Sable (*Hippotragus niger*).

1.3 SURVEY METHOD

The Total Area Count (TAC) survey conducted between 8-10 September 2018 was based on the standard total count method (Norton-Griffiths, 1978). This technique, with a standardised helicopter and flight paths, has been used in conjunction with the Agricultural Research Council (ARC)[1] since 1991. Standardisation is vital for comparison of data over time, with special emphasis on open systems, with trends rather than actual numbers being analysed.

The total of 530.2 km^2 was surveyed, using a bell 206 B Jet Ranger helicopter, with count marker bars fitted to each side of the aircraft. Each marker bar represents a 200m transect on each side of the aircraft when the target height of between 70-90m is reached (Annexure 1). Fight paths are spaced 500m apart, resulting in a total survey strip length of 1566.5 km. Count session duration was limited to the fuel capacity of the aircraft and the sessions per survey day are depicted in (Annexure 1). The survey crew consisted of the pilot, Front Seat Observer (FSO) and two Rear Seat Observers (RSO). Navigation and data collection during the survey was done by means of the "Capture[2]" software program, a multi-disciplinary geo-referencing and data capture program.

All mammalian species encountered during the census were counted, these included all ungulates and carnivores. Other non-mammalian species counted during the survey included:

- Raptors nests,
- Saddle billed Storks,
- Southern-Ground Hornbill, and
- Vulture nests.

[1] Agricultural Research Council, Dr Mike Peel. Range and Forage Institute, Nelspruit.
[2] Capture software, Mike Pingo/ Sunrise Aviation, South Africa.

Weather conditions for the majority of the census period were favourable, with the exception of the last 15 minutes of the first session on 8 September 2018 when sporadic rainfall was experienced and due to the poor visibility, the helicopter was forced to land 15 minutes early, while the weather cleared. Specifics related to climatic conditions are depicted in (Annexure 1).

1.3.1 FIXED-WING-BUFFALO COUNTS.

Individual Cape buffalo and small bachelor herds were counted using the method described above, however in the case of a large herd, a fixed-wing aircraft was used to take high resolution photographs of the herd once encountered. This practise lends itself to more accurate counts and a realistic estimation of natality within these herds.

1.3.2 RHINOCEROS DEMOGRAPHICS

Photographs were taken of each rhinoceros, both black and white, encountered during the survey out of the helicopter. A photograph time and data record time was correlated to ensure all individuals on the photographs were accounted for. Ageing was done by utilizing the rhinoceros ageing guide of Adcock and Emslie (IUCN Publication)[3]. Due to the sensitive nature of this data set, rhinoceros demographics will only be used for specialist reports and not be distributed.

[3] Adcock and Emslie, African Rhino Monitoring Guide/ IUCN, Rhino Specialist Group

RESULTS

2.1 COUNT TOTALS

Results for species of importance are given in (Table 1). Impala (8233), Cape buffalo (1619), Burchell's zebra (856) African elephant (768) and blue wildebeest (635) were the most numerous species counted during the survey. Nyala (24) and bushbuck (2) numbers are low due to habitat selection of these cryptic species (riverine vegetation), and as a result these numbers cannot be seen as a true reflection.

A single Sable antelope bull was also recorded; this animal was seen at the pan close to Mopani camp on the farm Ceylon. Other species seen during the survey are depicted in (Table 2) with the following species counted within the Ngala concession area, warthog (2), impala (33), African elephant (3) and steenbok (1).

Table 1 Important species results (2018 TPNR aerial census).

Species	Count
Blue Wildebeest	635
Cape Buffalo	1619
Duiker	31
African Elephant	768
Giraffe	309
Hippopotamus	103
Impala	8322
Kudu	448
Nyala	24
Black Rhinoceros	** Not disclosed for security reasons*
White Rhinoceros	** Not disclosed for security reasons*
Steenbok	47
Vulture Nest	72
Warthog	196
Waterbuck	282
Burchell's Zebra	856

Table 2 Other species counted during the census.

Species	Count
Black-backed Jackal	3
Cheetah	1
Honey Badger	5
Leopard	2
Lion	16
Ostrich	1
Raptors nest	7
Southern Ground-Hornbill	38
Spotted Hyena	26
Vulture nest	72

2.2 IMPORTANT SPECIES DENSITY AND DISTRIBUTION

The overall animal density of all species counted during the survey was 28.3 animals/km^2. Densities of all important species as depicted in (Table 1) are at 26.2 animals/km^2. Density figures for individually important species are depicted in (Table 3). Important distribution notes are the increase of both Vulture nests and Impala within the north of the TPNR as well as the occurrence of African elephant and Kudu in close proximity to drainage lines. The distribution maps of all significant species within the TPNR are depicted in (Annexures 2 to12).

Table 3 Densities of important species counted during the 2018 Aerial census

Species	Density (no/km^2)
Blue wildebeest	1.20
Cape Buffalo	3.05
Duiker	0.06
African Elephant	1.45
Giraffe	0.58
Hippopotamus	0.19
Impala	15.70
Kudu	0.85
Nyala	0.05
Steenbok	0.09
Vulture Nest	0.14
Warthog	0.37
Waterbuck	0.53
Burchell's Zebra	1.62

2.3 BIOMASS

Total animal biomass for important species over the total survey area was 6381 kg/km^2 (Table 4), using biomass conversions according to Meissner *et.al.*,(1983). African elephant was the single highest contributor to animal biomass with 39% of the biomass assigned to this species followed by Cape buffalo at 27.5%. Other species with high contributions to total animal biomass were impala (9.9%), white rhinoceros (7.7%), giraffe (6.9%) and Burchell's zebra (5.1%).

Table 4 Biomass of important species during the 2018 Aerial census

Species	Biomass kg/km^2	% of Total biomass
Blue Wildebeest	147.37	2.33
Cape Buffalo	1374.62	21.75
Duiker	0.58	0.01
African Elephant	2499.62	39.56
Giraffe	437.26	6.92
Hippopotamus	194.34	3.08
Impala	628.08	9.94
Kudu	114.96	1.82
Nyala	3.31	0.05
Black Rhinoceros	6.16	0.10
White Rhinoceros	486.79	7.70
Steenbok	0.80	0.01
Vulture Nest	0.00	0.00
Warthog	16.64	0.26
Waterbuck	85.13	1.35
Burchell's Zebra	323.02	5.11

Biomass interpretation can be done by grouping the important species into the following broad classes representing feeding habits; Pachyderms, including buffalo, Grazers, Browsers and Intermediate feeders. It is important to note that these broad feeding classes and respective biomass will directly indicate the competition for herbaceous and woody resources on the TPNR.

A comparison between the 2017 and 2018 aerial census results is made in terms of average biomass/ broad feeding class (Figure 1). It is important to note both Cape buffalo and African elephant numbers are higher in the 2018 census. Densities and biomass of species grouped into these broad feeding classes are depicted in (Figures 2 to 4), based on the 2018 census results. Figures 5 to 8 further refer to the trends in herbivore feeding classes, i.e. feeding class 1 to feeding class 4.

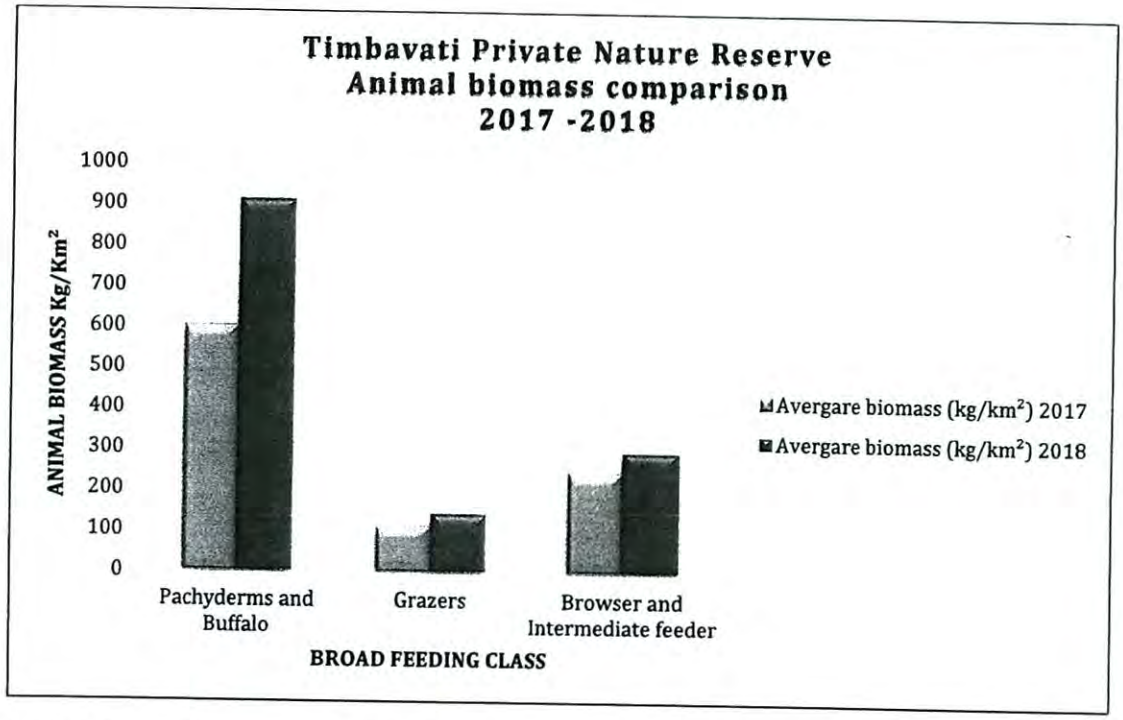

Figure 1 Biomass comparison between 2017 and 2018 for respective broad feeding classes, September 2018.

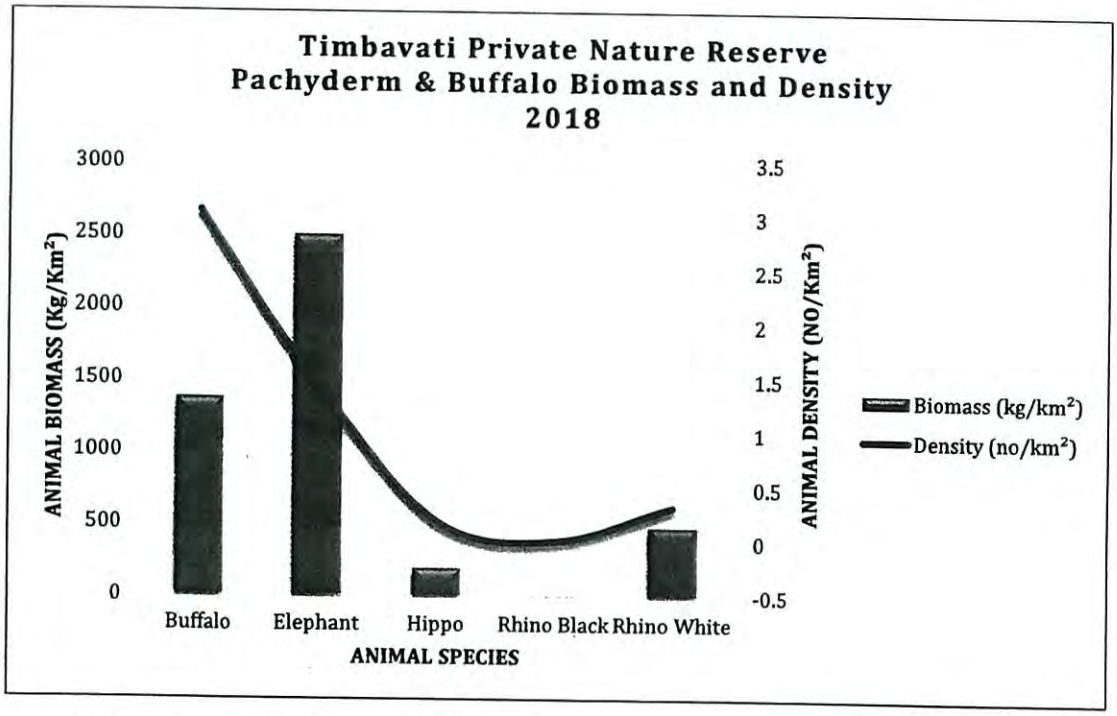

Figure 2 Biomass and density for Pachyderms and buffalo as a broad feeding class, September 2018.

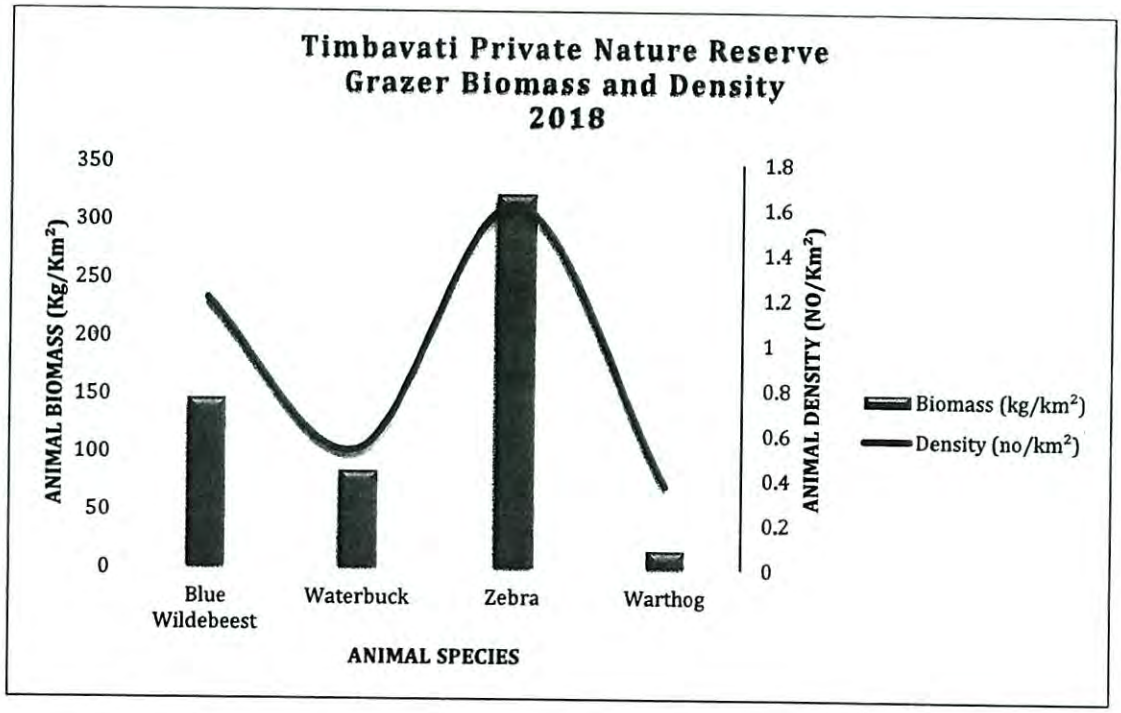

Figure 3 Biomass and density for grazers, September 2018.

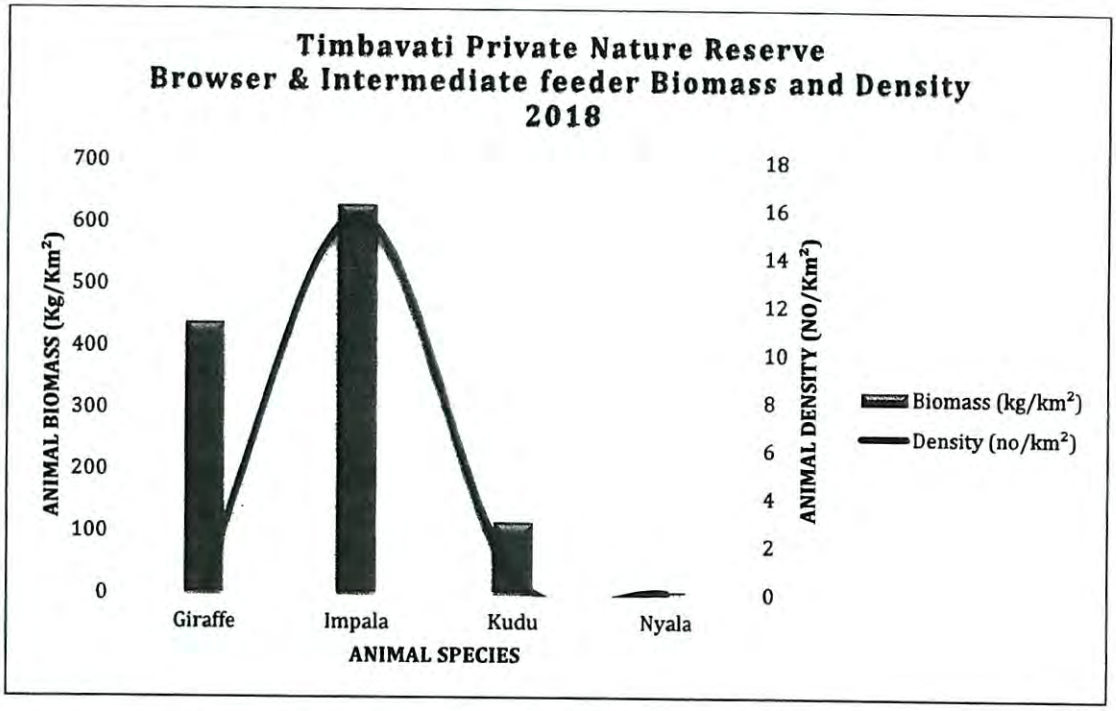

Figure 4 Biomass and density for browser and intermediate feeders, September 2018.

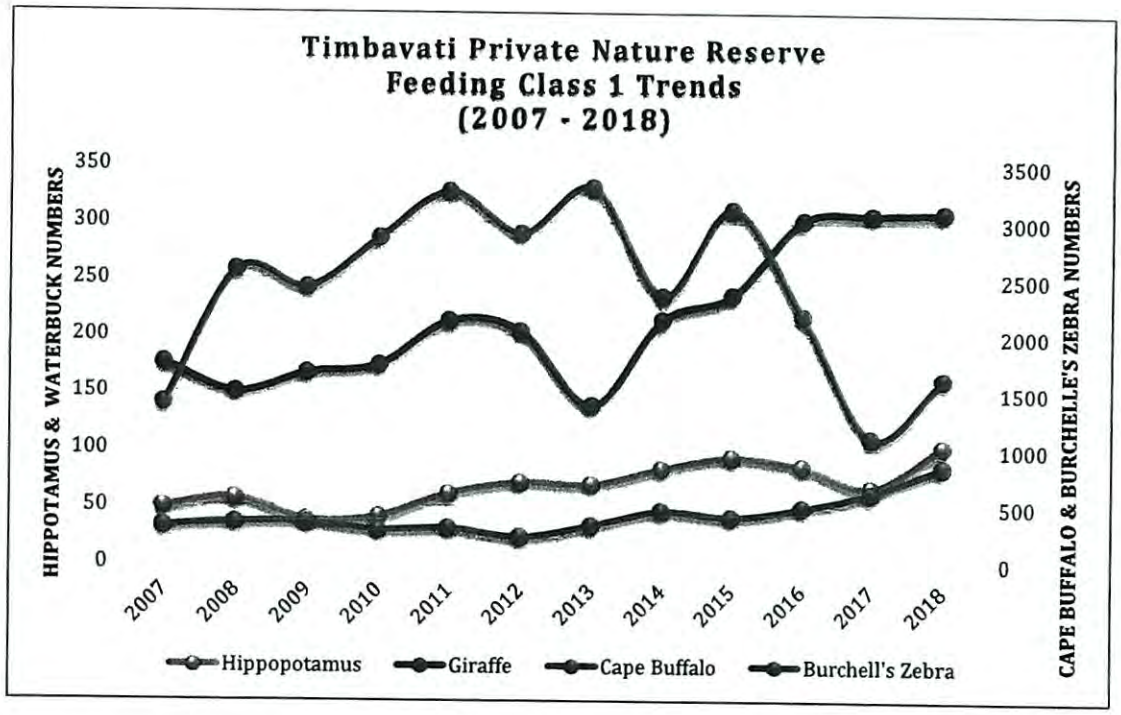

Figure 5 Graph illustrating the feeding class 1 species trends within the Timbavati Private Nature Reserve, 2007 – 2018.

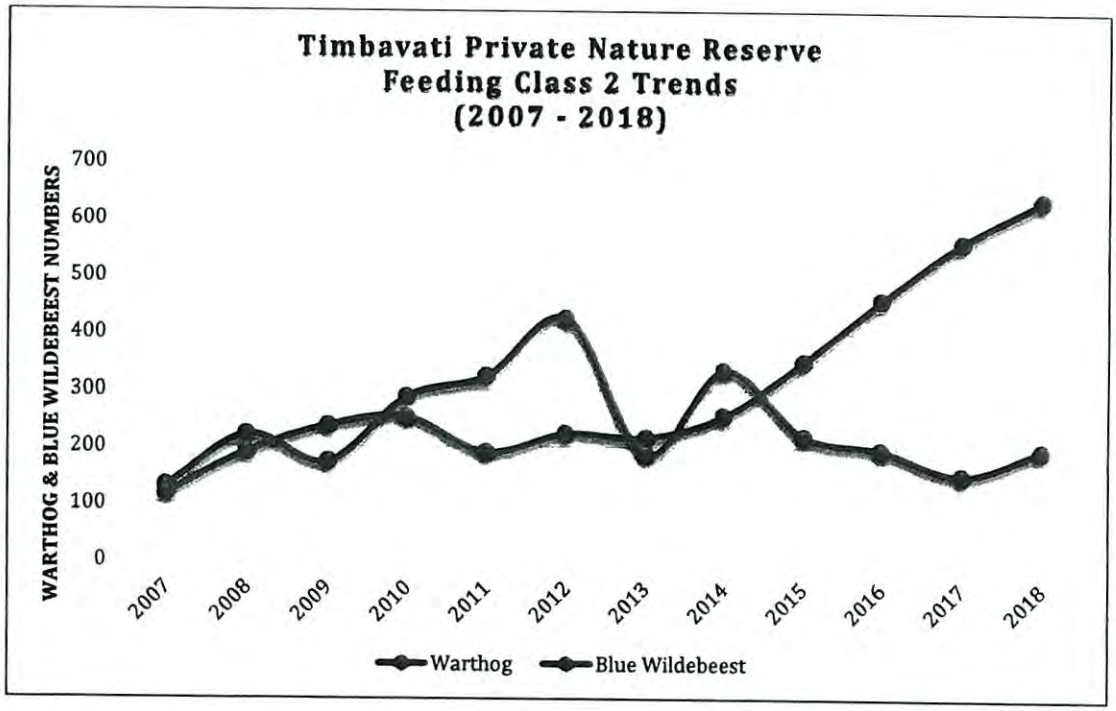

Figure 6 Graph illustrating the feeding class 2 species trends within the Timbavati Private Nature Reserve, 2007 – 2018.

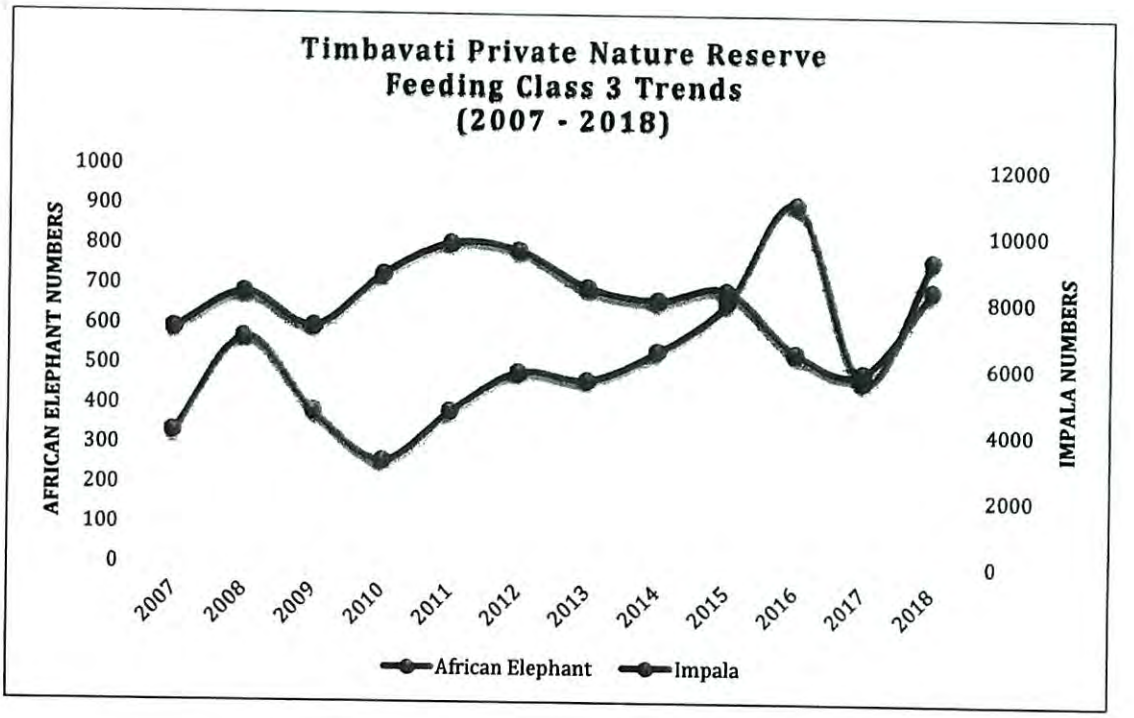

Figure 7 Graph illustrating the feeding class 3 species trends within the Timbavati Private Nature Reserve, 2007 – 2018.

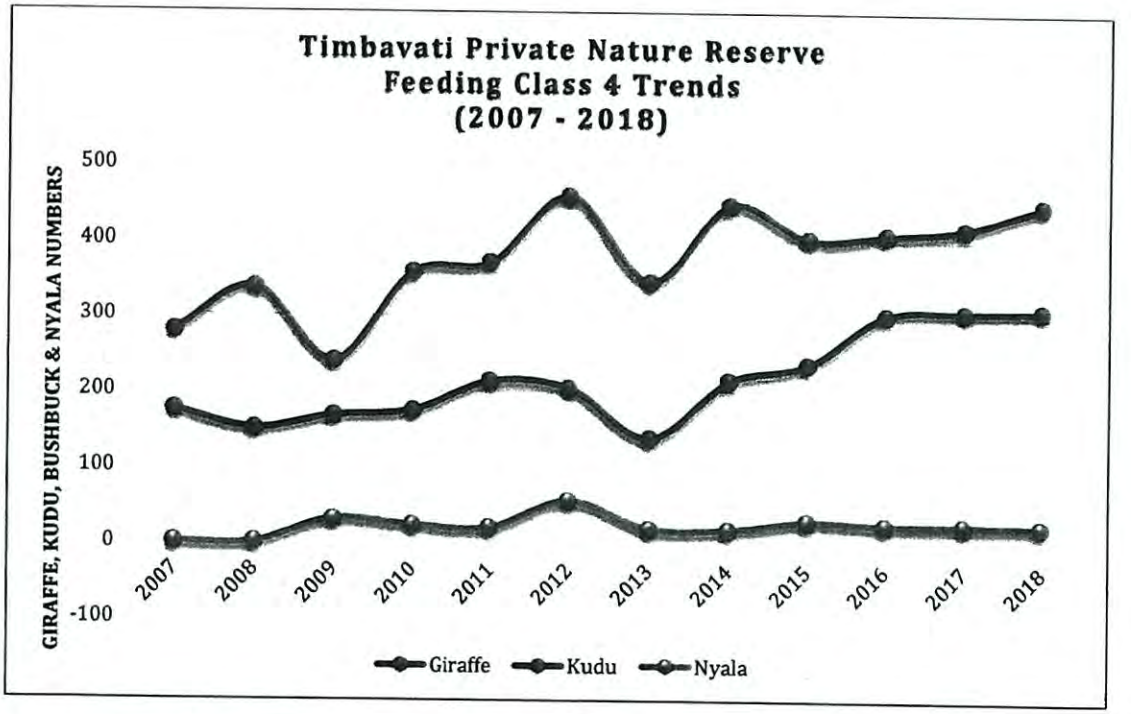

Figure 8 Graph illustrating the feeding class 4 species trends within the Timbavati Private Nature Reserve, 2007 – 2018.

METHOD OF ASSESSMENT

Population numbers as recorded during the 2018 census in general is satisfying if compared to the long term data set (Bosch, 2009). Climatic conditions prevailing from 2015-2017 have negatively influenced population numbers to a varying extend. Populations have shown positive growth according to the 2018 results.

Antelope species such as Nyala, Duiker and Steenbok are difficult to count during aerial surveys due to their cryptic colouration, habitat, size and behaviour if disturbed. These species numbers are given for reference purposes only.

3.1 POPULATION GROWTH

3.1.1 BLACK RHINOCEROS

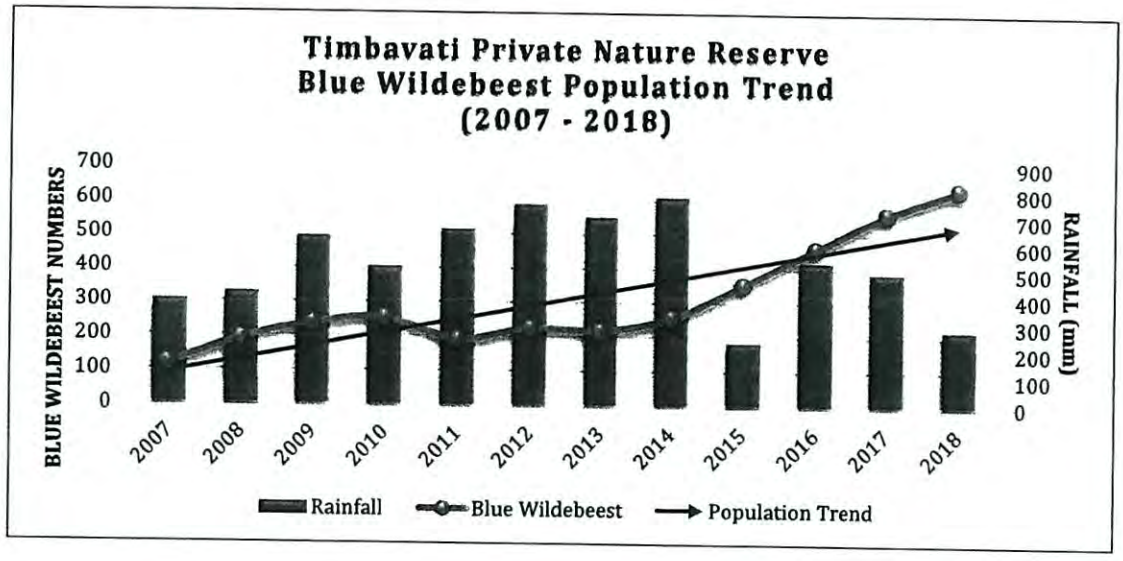
This species have shown a decrease of 20% during the 2018 census. The species is known to have an erratic growth figure within the TPNR. This is mainly due to the movement of only a few individuals within 15% of the TPNR. This species is highly selective in terms of habitat and are also known to be explorative. With the incorporation of Thorny Bush Game Reserve (TBGR) as part of the APNR, new habitat for exploration was opened; movement between the TPNR, Kruger Park and TBGR is inevitable.

3.1.2 WHITE RHINOCEROS

White Rhinoceros have shown an increase of 14% during the 2018 census. Numbers for this species are stable in relation to the long term dataset. A total of 31 calves (0-1,5years of age) were counted during the 2018 census.

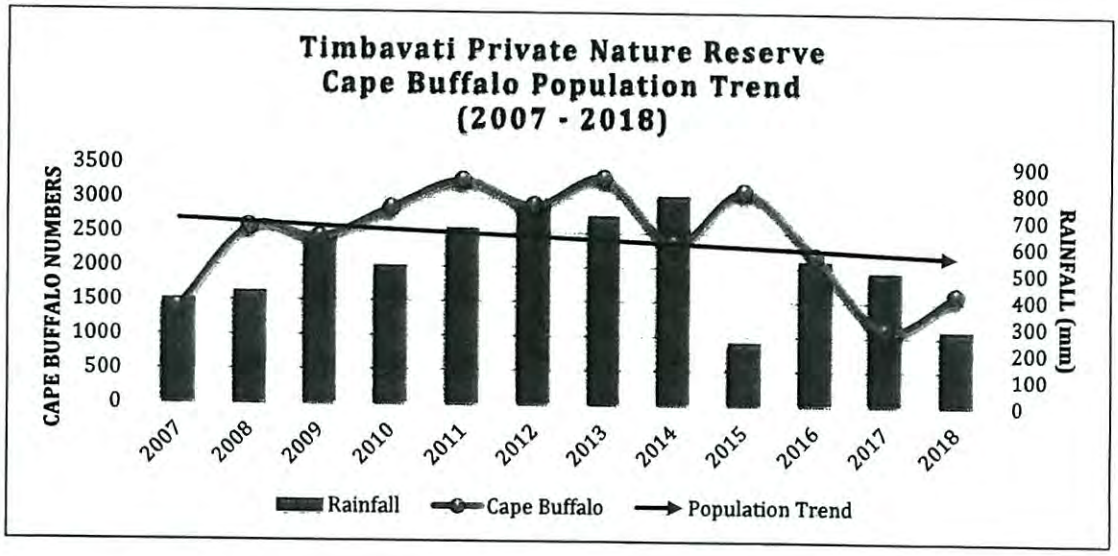
3.1.3 BLUE WILDEBEEST

This ungulate species have shown a 13% increase during the 2018 census. Blue wildebeest have also shown a drastic increase in numbers from 2010 (252) to 2018 (635), incorporation and water policies can be ascribed to this increase in numbers over years.



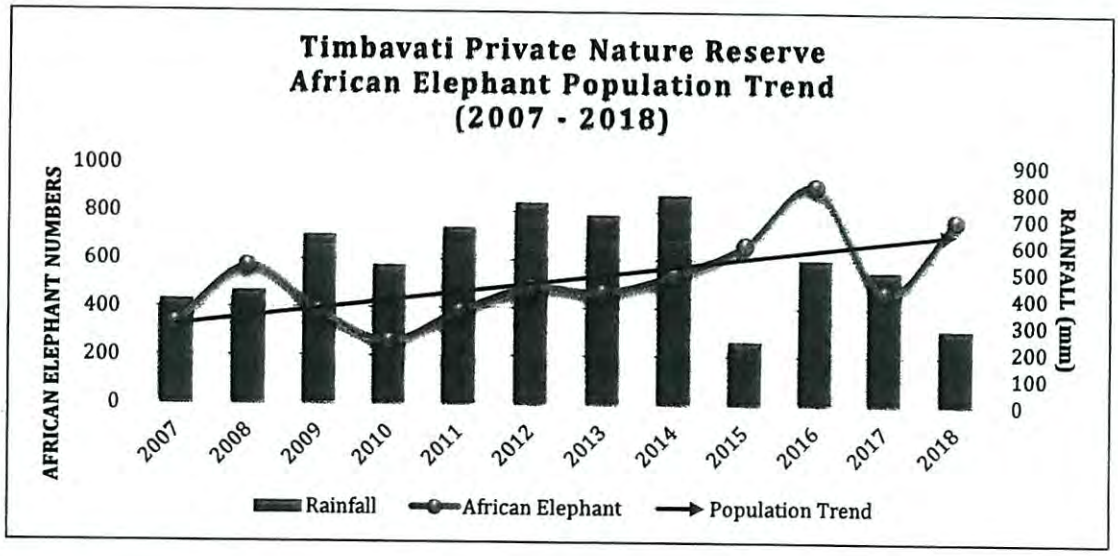
3.1.4 CAPE BUFFALO

Cape buffalo numbers are increasing slowly after the drought period with a 46% increase during the 2018 census. Buffalo herds are becoming larger and more frequently seen on the reserve. The count of 1619 is still low in relation of the long term dataset average of 2400-2500 individuals for the TPNR management area.



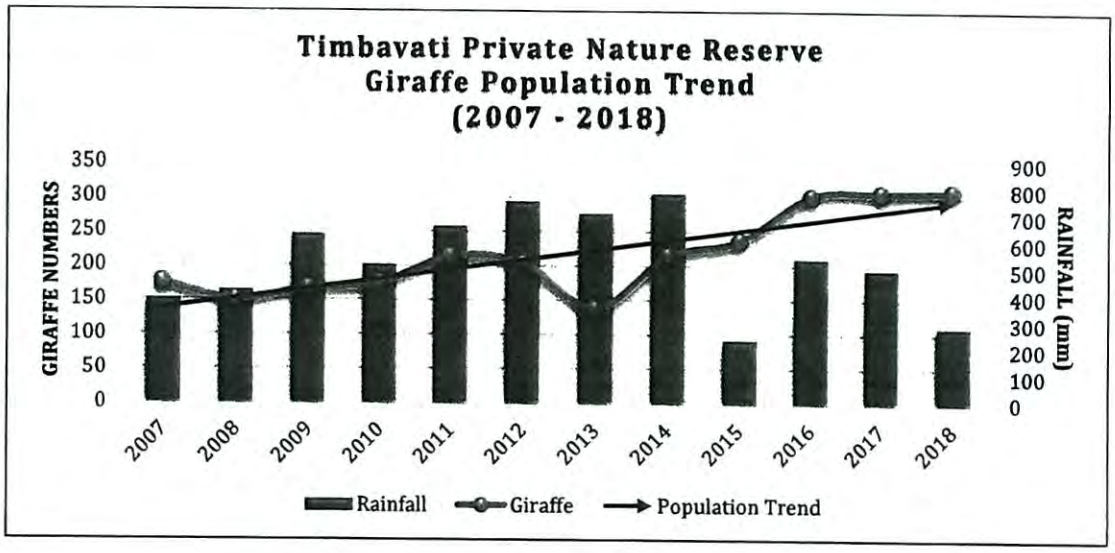
3.1.5 AFRICAN ELEPHANT

This species showed a 65% increase during the 2018 census. Elephant is the species with the highest percentage increase during the 2018 census. This species contributes the most (39%) to overall animal biomass on the TPNR, the constant increase of this species can be ascribed to water policies.



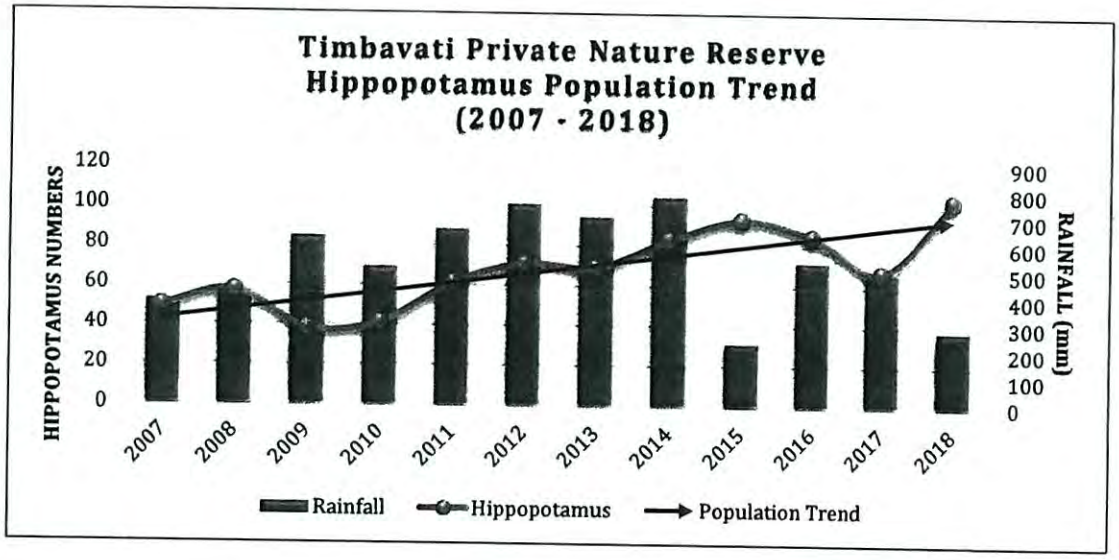
3.1.6 GIRAFFE

This species have shown a 0.7% increase during the 2018 census. The population is stable with little variation as from the 2016 census.



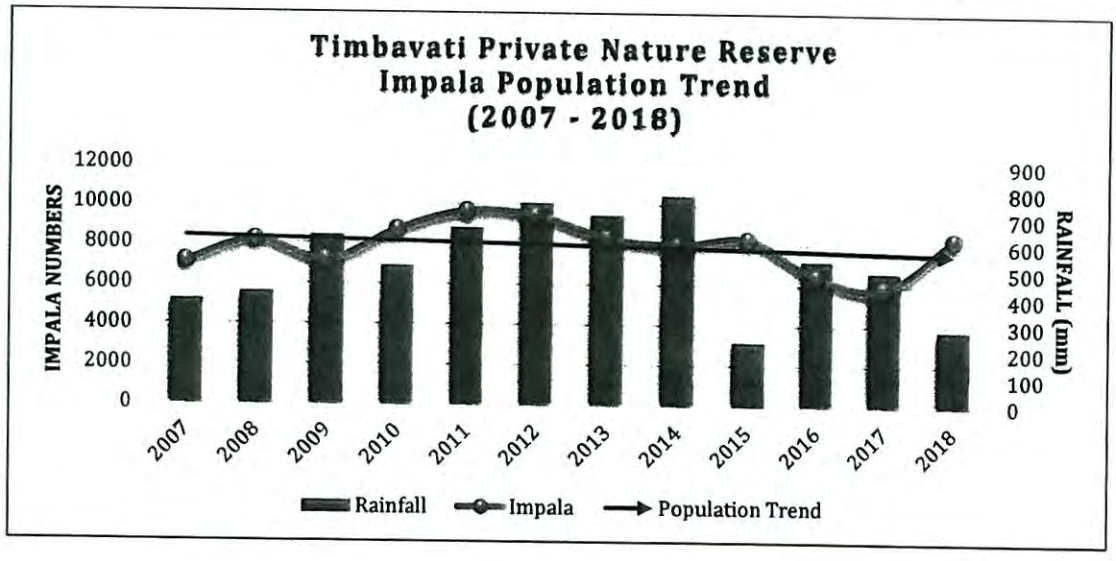
3.1.7 HIPPOPOTAMUS

This species have increased by 54% from the 2017 census. The TPNR hippopotamus population has always been stable with the exception of the 2015 count when habitat conditions during the drought influenced the population negatively.



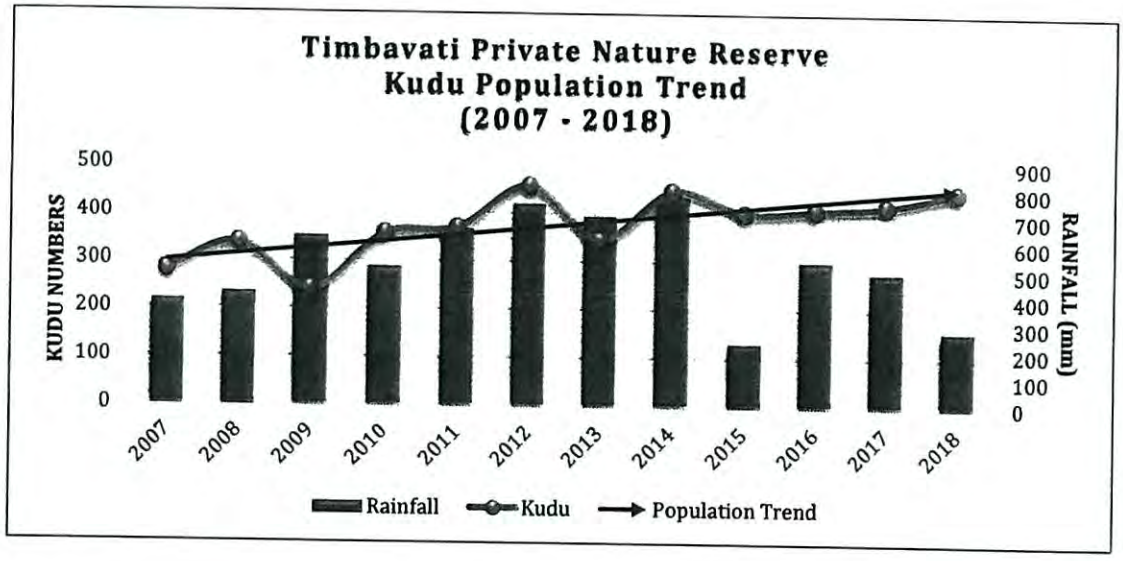
3.1.8 IMPALA

Impala, second to elephant, have the highest percentage increase (42%) during the 2018 census. This species count has always been the highest of all ungulates on the TPNR with fluctuations between years. The increase of this species in particular can be ascribed to water policies.



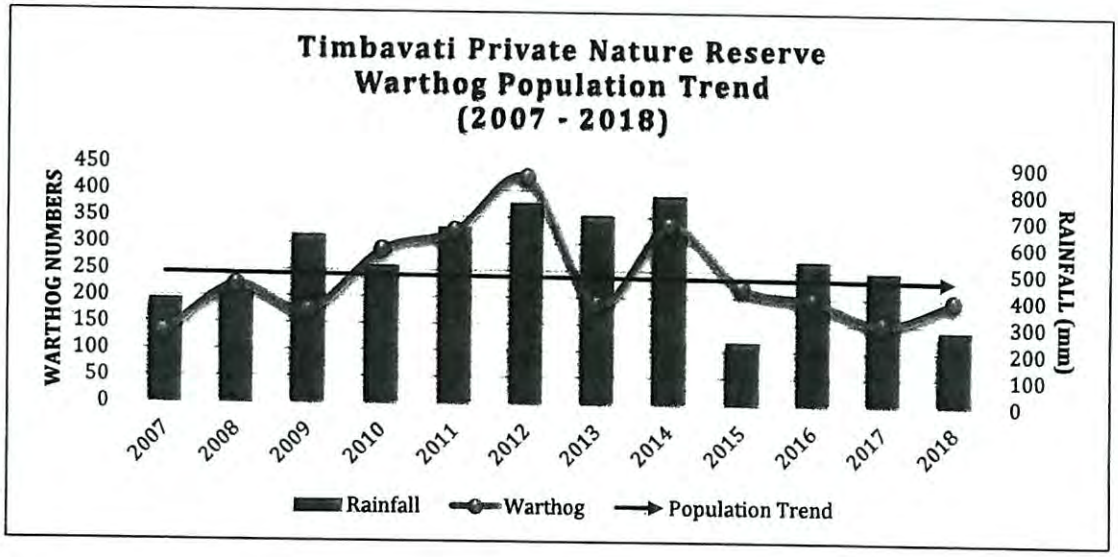
3.1.9 KUDU

Kudu numbers have increased with 7%. This is a welcoming increase as the population showed a decline of 10% during the 2015 census, with a recovery of 1.4% and 2.2% during 2016 and 2017 respectively. The population remains stable.



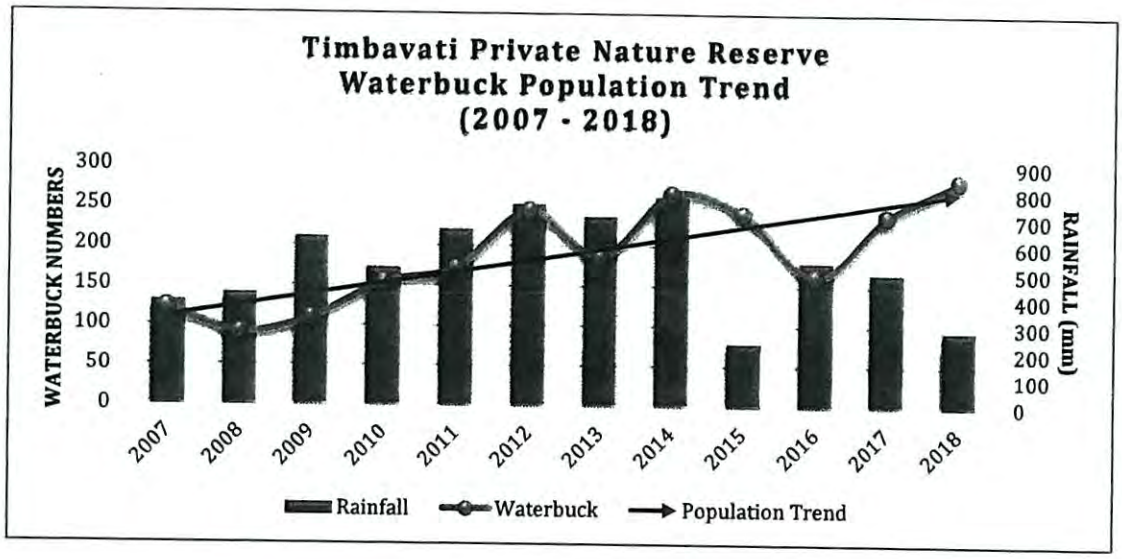
3.1.10 WARTHOG

Warthog numbers have increased by 29% during the 2018 census, the second highest increase after the 2010 increase of 66%. This increase might be short term as this species is known to increase drastically when conditions are favourable after a drought. The population is expected to stabilise when we enter a normal rainfall cycle.



3.1.11 WATERBUCK

This species increased by 19% during the 2018 census. This increase is welcoming as the species have shown a combined 41% decrease for the years 2015-2016. The waterbuck population is stable with climatic factors influencing the decline over the 2015-2016 periods.



3.1.12 BURCHELL'S ZEBRA

This species increased by 37% during the 2018 census. Zebra numbers have started to increase as from 2013 with the exception of 2015 when results showed an 11.1% decrease. The population is stable and with the incorporation of TBGR to the APNR, structural habitat attributes brought about by fire and Elephant impact can be seen as the main drivers of population increase for this species.

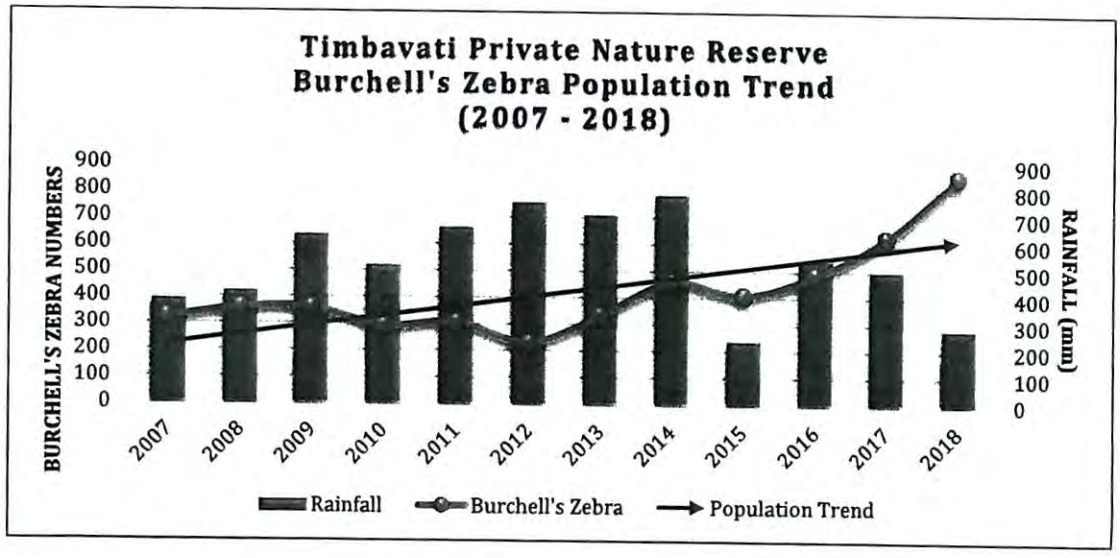


Table 5 Biomass of important species during the 2018 Aerial census

Species	2018	2017	Variance	%Variance
African Elephant	768	465	303	65.2%
Black Rhinoceros	** Removed for security reasons*			-20.0%
Blue Wildebeest	635	561	74	13.2%
Burchell's Zebra	856	626	230	36.7%
Cape Buffalo	1619	1106	513	46.4%
Giraffe	309	307	2	0.7%
Hippopotamus	103	67	36	53.7%
Impala	8322	5844	2478	42.4%
Kudu	448	417	31	7.4%
Warthog	196	152	44	28.9%
Waterbuck	282	237	45	19.0%
White Rhinoceros	** Removed for security reasons*			13.9%

OVERVIEW

Situated in the shadow of the majestic " Mariepskop" which forms part of the mighty Drakensberg mountains, our unique Wildlife Rehabilitation Centre is a home to many of South Africa's abandoned, injured and poisoned wildlife. Moholoholo Wildlife Rehabilitation Centre is extremely proud of its efforts in wildlife education in South Africa. At Moholoholo we are often faced with the difficult decision of what to do with an injured or poisoned animal which will not be able to be released back into the wild. As a result, we have a number of "permanent residents" at the centre and at our own cost we use them as "ambassadors" for their respective species. Members of the public are therefore able to get an up close and personal experience of these incredible creatures and with our hands on approach we have the ability to demonstrate to the public the threats and problems our wildlife is facing today. The Centre has a long standing and successful Serval Breeding Project and more than 160 have successfully been reintroduced to areas where they have become extinct. We are actively involved in research on the movement

RE: Request for Amendment to Cites Permit(s) 15US64716B/9 & 14US25442B/9
Per Attached Application Form

E.2.b. Statement of why I am seeking a reissuance of
CITES Permit # # 15US64716B/9

Dear Madam or Sir:

Per the attached Permit Application Form, I am hereby applying for reissuance of the above referenced CITES Permit(s).

I was issued CITES Permit number 14US25442B/9 (01/13/2014) for my sport hunted elephant trophies taken in Tanzanian in August 2013. In October 2014 the trophy were shipped to Seattle, Washington and upon examination by U.S. Fish and Wildlife Service officials it was found that the identification numbers on the tusks had not been color-coded by Tanzanian government officials. Thus, the shipment was rejected by U.S. Fish and Wildlife Service and returned to Tanzania for color-coding. Permit number 14US25442B/9 expired on 01/12/2015.

After applying and receiving a renewal CITES Permit #15US64716B/9 on 06/01/2015, there were numerous un-explained delays with Tanzanian wildlife officials in obtaining the color-coding of the tusks. After months of delays, the identification numbers on were properly color coded and the tusks released by Tanzanian officials for shipment. At that time, the US Fish and Wildlife had imposed an import ban on ivory hunted after June 2016, and none of the international airlines serving Tanzania was accepting elephant tusks, even though I had a valid CITES permit for tusks hunted in August 2013. At this point the CITES Permit 15US64716B/9 expired on May 31, 2016.

I have been told by my Tanzanian reprehensive that he has found an international airline servicing Tanzania that now understands that the tusks obtained in 2013, can legally be transported to the United States with a valid CITES Permit. The airline has stated they will transport with the proper permits. I am therefore requesting the reissuance of CITES Permit number 15US64716B/9 to import the elephant trophy parts.

For your convenience I am attaching copies of Permit(s) 15US64716B/9 and 14US25442B/9.

Should you have any questions whatsoever, please do not hesitate to contact me at (b) (6)

Very truly,

(b) (6)

Federal Fish and Wildlife Permit Application Form

Return to: U.S. Fish and Wildlife Service
(Enter address from pages 5 and 6 of application)

Type of Activity:
REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Peters	Charles	Bradley	Mr.

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			n/a

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6)			

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
n/a	n/a

2. Tax identification no	3. Description of business, agency, Tribe, or institution
n/a	n/a

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix
n/a	n/a	n/a	n/a

5. Principal officer title	6. Primary contact name
n/a	n/a

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address
n/a	n/a	n/a	n/a

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #, no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Bakersfield	CA	93312	Kern	usa

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
(above)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country
n/a	n/a	n/a	n/a	n/a

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: 15US64716B/9 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) — Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend 15US64716B/9 .

2. Submit the original permit with this application.

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: (b) (6) Date: 5-30-17

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

   ☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

C. Brad Peters (b) (6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

RE: Application for Reissuance of CITES Import Permit # 17US64716B/9

Dear Madam or Sir:

Per the attached Permit Application Form I am applying for a reissuance of the above referenced CITES Import Permit issued on 09/23/17 which expired on 09/27/18. (the original permit is attached to the application)

Permit 17US64716B/9 was my third un-successful attempt to import African Elephant trophies taken in Tanzania on August 12, 2013. The shipment was delayed for months in Arusha, Tanzania awaiting a South African Agriculture, Forestry & Fisheries Import permit (copy attached) so that the items could be transported to Johannesburg, S.A. for air transport to Seattle, WA. There were no cargo airlines servicing Tanzania that would transport elephant trophies to Seattle. South African Airlines in Johannesburg was the closest air cargo service available.

The South African import permit was applied for in March but was not issued until August 28, 2018. The actual permit did not reach the Arusha shipping facilitator until September 7, 2018, which did not leave enough time remaining on the CITES Import Permit #17US64716B/9 for transport to Johannesburg and on to Seattle, WA before the permit expired on September 27, 2018.

Should you have any questions whatsoever, please do not hesitate to contact me at (b) (6)

Very truly,

(b) (6)

Charles Bradley Peters

VETERINARY IMPORT PERMIT / INTRANSIT PERMIT FOR THE IMPORTATION OF TROPHIES INTO SOUTH AFRICA
[Issued in terms of the Animal Diseases Act, 1984 (Act 35 of 1984)]

You are hereby authorised to import the following trophies **SEE THE ATTACHED LIST, SIGNED AND STAMPED BY THE OFFICIAL WHO SIGNED THE PERMIT** from **TANZANIA** (Country) by **AIR** into the Republic of South Africa, subject to compliance with the following conditions:

1. The importer, above, accepts the sole responsibility to ensure that the conditions below, are complied with and understands his/her duty in this regard.

2. The consignment must be accompanied by:
   2.1 This original permit;
   2.2 The original health certificate TROPHIES. HC.COMM.08/05.RB.REV.JR.09/2011 (consisting of 2 pages), completed in English and signed by an official veterinarian, employed by the Veterinary Authority of the country of origin

3. The trophies are consigned in an officially sealed container that is leak proof.

4. Consignments imported by air for immediate re-export from OR Tambo International need not comply with the above mentioned health certificate.

5. The product described above may only be imported through the port of entry of O R TAMBO INTERNATIONAL

6. The arrival of the consignment must timeously be reported at the port of entry to the State Veterinarian, veterinary official or Agricultural Officer at **O R TAMBO INTERNATIONAL** Tel 011 973 2827 Fax: **011 973 2828**, and may not be landed without his/her written permission.

7. The trophies will be then be consigned under red-cross movement permit for further processing to N/A Taxidermy.

8. The State Veterinarian **N/A** Tel. No: **N/A** Fax. No **N/A** must be advised timeously of the date of despatch and intended date of arrival of the consignment at **N/A** (a R.S.A. import approved taxidermy), who will inspect and release the consignment, if found satisfactory.

   OR for intransit consignments the date of dispatch and intended date of arrival of the consignment at O R TAMBO INTERNATIONAL
   is to be reported timeously by the importer to the State Veterinarian or Veterinary Official: KEMPTON PARK Tel: 011 973 2827 Fax:011 973 2828, who will inspect the consignment and documentation before export to USA.

9. After unloading, the consignment must be stored in a lockable quarantine store and processed to the satisfaction of the State veterinarian concerned.

10. Any discarded raw pieces must be boiled for at least ten minutes before further disposal, or be destroyed by burning.

11. The railway trucks, road containers and the site on which the unloading takes place must be washed and disinfected to the satisfaction of the State Veterinarian concerned.

12. This permit is valid for 6 months from date of issue and for ONE CONSIGNMENT ONLY.

13. This permit is subject to amendment or cancellation by the Director Animal Health at any time and without prior notice being given.

NOTE: All relevant CITES regulations and import permit requirements must be complied with.

DIRECTOR: ANIMAL HEALTH

Note:

a) This authorisation does not absolve the importer from obtaining permission for the importation of this product, which might be required by any other South African legislation.
b) Any consignment imported into South Africa packed with either wood packing material or dunnage, will require treatment to remove any pests present (by heat or methyl bromide fumigation). Treatment must be indicated on packing material. [Enquiries: Directorate Inspection Services Fax: 012 309 8701 or www.daff.gov.za]

B. HEALTH ATTESTATION

I, _____, the undersigned veterinarian, authorised thereto by the Veterinary Authority of the country of origin, certify that the product described in section A:

1. All trophies were sourced in the exporting country.
2. Hides and skins of all species have been dry or wet salted with sea salt containing 2% washing soda (sodium carbonate) for a minimum of 28 days prior to dispatch. In the case of warthog trophies, the skins were treated with an appropriate acaracide to ensure that no parasites are present on the trophy.
3. Skulls, bone, hooves, claws, teeth and horns of all species (where applicable) were boiled in water for an appropriate time under official veterinary supervision to ensure that any matter other than bone, horns, hooves, claws, antlers or teeth is removed and were disinfected with a product authorized by the veterinary authority. Where bone is present, that must be disinfected with hydrogen peroxide, or soaked in 4% formalin or 5% washing soda, for 48 hours under official veterinary supervision.
4. The trophies originate from an area in which anthrax is not prevalent.

   OR

   The trophies have been disinfected by fumigation with ethylene oxide 500 mg/m³ at relative humidity 20-40% at 55°C for 30 minutes, or fumigation with formaldehyde 400 mg/m³ at relative humidity 30 %, at 15°C for 4 hours, or gamma irradiation with a dose of 40 kiloGray.
5. The trophies have not been exposed to contamination after treatment.
6. The trophies have been individually wrapped in transparent packaging.
7. Was sealed under official supervision: seal no's: .....
8. Was transported in clean vehicles/containers, with container/vehicle/trailer registration number:.....

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Peters	Charles	Bradley	Mr.

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (DBA)
n/a	n/a

2. Tax identification no.	3. Description of business, agency, Tribe, or institution
n/a	n/a

4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
n/a	n/a	n/a	n/a

5. Principal officer title	6. Primary contact name
n/a	n/a

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address
n/a	n/a	n/a	n/a

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Bakersfield	CA	93312	Kern	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
same as above

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

(b) (6) 2-11-19

Please continue to next page

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

   same as in Section C

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?
   C. Bradley Peters ..(b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

   n/a

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: 17US64716B/9

5. Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification -** Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

      I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

      Permittee's signature: (b) (6) Date: 2-11-19

   b. For **CHANGES** to original application:

      On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

      I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

      Permittee's signature: _____ Date: _____

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

RE: February 6, 2019 Application for Reissuance of CITES Import Permit # 17US64716B/9

Dear Madam or Sir:

On February 6, 2019 I sent in a permit application for the reissue of the above referenced CITES permit. Since that time I have had no communication or issuance of a permit from your office regarding this application.

Would you please contact me with an up-date of the status of this application. The time on my Tanzanian export permits is running.

Should you have any questions whatsoever, please do not hesitate to contact me at (b) (6)

Very truly,

(b) (6)

Charles Bradley Peters

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c Middle Name/Initial	1.d Suffix
WILLIS	RONALD	CRAIG	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #, no P.O. Boxes)

(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
HICO	TEXAS	76457	HAMILTON	U.S.A.

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the **amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee—attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   PRO CARGO USA 15619 MORALES ROAD HOUSTON,TEXAS 77032 CINDI RULON SELF ADDRESSED ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   CINDI RULON CINDI.RULON@PROCARGOUSA 281-220-3176

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

LOXODANTA AFRICANA- AFRICAN ELEPHANT

b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

DUNDE KLIPHEWNEL, BALULE PRIVATE GAME RESERVE, HOEDSPRUIT, 1380 LIMPOPO SOUTH AFRICA

b. Date wildlife was hunted:

AUGUST 13, 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

PROFESSIONAL HUNTER JAPIE HORN

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

TROPHY SOLUTIONS
11 SIXTH AVENUE, INDUSTRIA POLOKWANE 0699, SOUTH AFRICA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	TROPHY SOLUTIONS
Address:	PO BOX 12043
City:	BENDOR PARK
State/Province:	POLOKWANE
Country, Postal Code:	SOUTH AFRICA

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

IT IS OUR UNDERSTANDING THAT WILDLIFE POPULATION STUDIES ARE ALREADY ON FILE WITH THE USFWS OFFICE AND THAT THESE STUDIES SHOW STABILITY AND GROWTH IN ELEPHANT POPULATIONS

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

I PAID 35,000 IN TROPHY FEES FOR THIS HUNT. A PORTION OF THESE FEES GO TOWARD ANTI-POACHING PATROLS IN THE PARK RESERVE WHERE I HUNTED AND TO THE GAME SCOUTS IN THE WILDLIFE DEPARTMENT.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

A MAJORITY OF THE ELEPHANT MEET GOES TO THE LOCAL VILLAGE NEAR WHERE I HUNTED. THE REMAINING PARTS OF THE CARCASS GOES TO THE LION AND LEOPARD REHABILITATION CENTER

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: 02/19/19

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Email address: (b) (6)

x Individual

KNOW ALL MEN BY THESE PRESENTS: That, x Ronald Craig Willis (Full Name of Person), residing at x (b) (6) Hico, TX 76457 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor, from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, answear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandise shipped or consigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandise; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filing in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.96(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB, who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
BOYD	RONALD	A	
2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title		6. Primary contact name	
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
MANSFIELD	TEXAS	76063	TARRANT	U.S.A
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the **amount of $100.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer (for permit (b) (6) photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

(b) (6) 02/22/2019

Please continue to next page

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country): Elephant (Loxodonta Africana) Qty 1

   a. Leopard (*Panthera pardus*) Quantity: ____ (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

   b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signatu (b) (6) Date: 02/22/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

12 If the holder of this permit contravenes or fails to comply with any condition or requirement to which this permit is subject, he or she shall be guilty of an offence.

13 This permit shall be subject to any applicable norms and standards in existence at the time of issuance of this permit.

14 The issuing authority shall determine the species and restricted activities for which this permit will apply.

15 If this permit applies to hunting, the holder of this permit must: a. Have a copy of this permit authorising the hunt, on his or her person during the hunt: b. Within 21 days after the hunt, furnish the issuing authority with a written return on the hunt stating: i) the permit number and date of issuance of the permit ii) the species, sex and number of animals hunted; and iii) the location where the hunt took place.

16 Return the original permit to the issuing authority forthwith after expiry of the permit.

17 The holder of this permit may also allow the holder of a Special Game Licence to hunt the game shown herein during the Closed Season. However if this permit applies to a specimen listed in the Threatened or Protected Regulations the person hunting the animal must also be in possession of a permit issued by Ezemvelo KZN Wildlife to enable the hunting to take place.

18 The holder of this permit may also allow the holder of a relevant Game Licence to hunt the game shown herein. However if this permit applies to a specimen listed in the Threatened or Protected Regulations the person hunting the animal must also be in possession of a permit issued by Ezemvelo KZN Wildlife to enable the hunting to take place.

19 The attached return of the hunting permit must be completed by the holder. The completed permit to be returned to the Chief Executive, E KZN Wildlife, P O Box 13053 Cascades, 3202 or emailed to permits@kznwildlife.com upon expiry. Failure to comply with this condition may jeopardise the issue of future permits.

20 All elephant ivory which is part of a trophy hunted by a client, whether South African or foreign, must be marked in accordance with the CITES requirements PRIOR to the tusks leaving the province. Failure to comply with this requirement might result in the tusks being brought back, at the Hunting Outfitters expense, to have the tusks marked.

Please read the Terms and Conditions under which this Permit is issued

18 February 2019

To whom it may concern

Dear Sir / Madam

9 a) According to our surveys there were 28,168 elephants in South Africa as of December 2015. The status of African elephant, Loxodonta Africana populations in South Africa Yolanda Pretorius, Marion E. Garai and Lucy A.
Bates https://doi.org/10.1017/S0030605317001454 Published online: 15 April 2018.

b) The income generated is utilised for the management of the reserve's elephant population, such as contraception of females due to the high population density in the park. Protecting both elephant and rhino populations in private reserves has become very costly and therefore requires substantial financial investment and income from sustainable use contributes to the protection and maintenance of these populations. In addition to wildlife management, habitat management is also very costly and elephant impact on woody plants must be assessed as part of the overall management to guide decision making and again is hugely costly. Funds from sustainable use are critical part of the financial sustainability of these private reserves and ensure they persist.

c) Kwazulu Private Game Reserve has an approved Elephant Management Plan in place and the elephant population is managed in accordance with this plan.
We have +/- 70 local members of the communities around us in the employment of Kwazulu Private Game Reserve. This has a positive influence on the security of the park, as they assist with the anti-poaching on our property. We supply meat to the primary school neighbouring our farm, to feed +/- 100 pupils. We supply water to the school and to 2 of the communities neighbouring our farm. We assist the communities with ploughing their fields, supplying firewood and river sand on a weekly basis. We make donation\s towards local sports teams as well as functions within the communities. Some of our guests make donations to the local communities (sports teams and school). We are a member of the Black Rhino Range Expansion Project (BRREP) and we work hand in hand with Project Rhino to protect our rhino population.

Yours truly,

p/o .....

Please continue to next page

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

ELEPHANT (LOXODONTA AFRICANA) QUANTITY

a. Leopard (*Panthera pardus*) Quantity: ____ (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: ____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:
   KWAZULU PRIVATE GAME RESERVE, PONGOLA, KWA ZULU N

   e. Date wildlife was hunted: AUGUST 31, 2017

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:
   EUGENE ALBERTS, HIGH FIVE SAFARIS

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   LIFE FORM TAXIDERMY, 7 ALUMINIUM ROAD,
   WHITE RIVER, 1240, MPUMALANGA, SOUTH AFRICA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

18 February 2019

To whom it may concern

Dear Sir / Madam

9 a) According to our surveys there were 28,168 elephants in South Africa as of December 2015. The status of African elephant, Loxodonta Africana populations in South Africa Yolanda Pretorius, Marion E. Garai and Lucy A.
Bates https://doi.org/10.1017/S0030605317001454 Published online: 15 April 2018.

b) The income generated is utilised for the management of the reserve's elephant population, such as contraception of females due to the high population density in the park. Protecting both elephant and rhino populations in private reserves has become very costly and therefore requires substantial financial investment and income from sustainable use contributes to the protection and maintenance of these populations. In addition to wildlife management, habitat management is also very costly and elephant impact on woody plants must be assessed as part of the overall management to guide decision making and again is hugely costly. Funds from sustainable use are critical part of the financial sustainability of these private reserves and ensure they persist.

c) Kwazulu Private Game Reserve has an approved Elephant Management Plan in place and the elephant population is managed in accordance with this plan.
We have +/- 70 local members of the communities around us in the employment of Kwazulu Private Game Reserve. This has a positive influence on the security of the park, as they assist with the anti-poaching on our property. We supply meat to the primary school neighbouring our farm, to feed +/- 100 pupils. We supply water to the school and to 2 of the communities neighbouring our farm. We assist the communities with ploughing their fields, supplying firewood and river sand on a weekly basis. We make donation\s towards local sports teams as well as functions within the communities. Some of our guests make donations to the local communities (sports teams and school). We are a member of the Black Rhino Range Expansion Project (BRREP) and we work hand in hand with Project Rhino to protect our rhino population.

Yours truly,

p/o .....

EZEMVELO KZN WILDLIFE

ORIGINAL

14 If this permit applies to hunting, the holder of this permit must: a. Have a copy of this permit authorising the hunt, on his or her person during the hunt: b. Within 21 days after the hunt, furnish the issuing authority with a written return on the hunt stating: i) the permit number and date of issuance of the permit ii) the species, sex and number of animals hunted; and iii) the location where the hunt took place.

15 Return the original permit to the issuing authority forthwith after expiry of the permit.

16 To be completed by the landowner after completion of the hunt: Name and signature of the landowner... Species, number and sex of the animals hunted

17 The holder of this permit may also allow the holder of a Special Game Licence to hunt the game shown herein during the Closed Season. However if this permit applies to a specimen listed in the Threatened or Protected Regulations the person hunting the animal must also be in possession of a permit issued by Ezemvelo KZN Wildlife to enable the hunting to take place.

18 The holder of this permit may also allow the holder of a relevant Game Licence to hunt the game shown herein. However if this permit applies to a specimen listed in the Threatened or Protected Regulations the person hunting the animal must also be in possession of a permit issued by Ezemvelo KZN Wildlife to enable the hunting to take place.

19 The attached return of the hunting permit must be completed by the holder. The completed permit to be returned to the Chief Executive, E.KZN Wildlife, P O Box 13053 Cascades, 3202 or emailed to permits@kznwildlife.com upon expiry. Failure to comply with this condition may jeopardise the issue of future permits.

20 This permit is issued to the client named above and does not entitle the Professional Hunter and/or the Hunting Outfitter to hunt the species listed herein with another client, either on the property stipulated on the permit, or any other, should the hunt not be successful.

Please read the Terms and Conditions under which this Permit is Issued

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Spaetti	Charles	A.	n/a

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (DBA)
Not applicable	
2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Evansville	Indiana	47711	Vanderburgh	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
same as above

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee–attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the
(b) (6) [redacted]
formation submitted in this application for a permit is complete and
erein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   same as Section A, page 1

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Charles A. Spaetti
   Phone: (b) (6)
   Email: [redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

[X] No [ ] Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      Loxodonta Africana-African Elephant

   b. Sex (if known).

      Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

      n/a

   b. Date wildlife is to be hunted:

      n/a

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

      n/a

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

      Namibia-Kwandu Conservancy.
      The nearest city was Katima Mulilo.

   b. Date wildlife was hunted:

      The elephant was hunted and taken on August 27, 2018.

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Emile Kirchner
Jamy Traut Hunting Safaris CC

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

The Yellow Shark Holdings (Pty.) Ltd
P.O. Box 81413
Olympia-Windhoek
Republic of Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

see attached

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Shipper:

Name: The Yellow Shark Holdings (Pty.) Ltd
Business Name: (same as above)
Address: P.O. Box 81413
City: Olympia/Windhoek
State/Province:
Country, Postal Code: Namibia

Professional Hunter:

Emile Kirchner
Jamy Traut Hunting Safaris CC
P.O. Box 4890
Rehoboth
Namibia, Africa

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

No

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

I paid a $100 license fee, an $850 conservancy fee and a $24,000 elephant trophy fee. It is my understanding that those fees were used by the government. Those fees were in addition to my outfitter's charges.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted See the attached statement on conservation and sustainability from the outfitter's website.

LION	1														1

From ZAMBEZI EAST BIG GAME CC - ZAMBEZI REGION (quarantine facility)

To KINGS TAXIDERMY, 27 BAHNHOFF STREET, OTJIWARONGO (Address of approved tannery)

Subject to the following conditions:

1. The applicant accepts the sole responsibility of ensuring that the conditions below have been complied with, and understands his/her duty in this regard.
2. The hides/ hides skins infectious things must be accompanied by this ORIGINAL PERMIT.
3. The hides and skins/infectious things must be loaded into previously approved airtight containers and SEALED under veterinary supervision.
4. The consignment should be presented to the State Veterinarian KATIMA-MULILO telephone 066-243142 in sealed containers. The state veterinarian KATIMA-MULILO must break the seals and inspect the trophies, hides& skin to verify that the products were quarantined north of the veterinary cordon fence and were subjected to one of the following treatment before granting permission to move south of the veterinary cordon fence.

5. a) Hide and skins:* wet-salted in sea salt with addition of 2% washing soda (Na_2CO_3) for at least 30 days before dispatch OR * sprayed with 5% washing soda (Na_2CO_3) followed by official quarantine for 30 days before dispatch OR *sprayed with 5% formalin followed by official quarantine for 30 days before dispatch.

b) Trophies consisting solely of horns, bones, hooves, claws, antlers and teeth must:

(i) Be immersed in boiling water for an appropriate time so as to ensure that any matter other than horn bone and teeth is removed, followed by official quarantine for 30 days OR

(ii) have been soaked with agitation in a formic acid solution (100 kg salt (NaCl) and 12 kg formic acid per 1000 liters of water) maintained at below pH 3.0 for at least 48 hours followed by official quarantine for at least 30 days OR

(iii) Soaked with agitation in a 4% (w/v) solution of sodium carbonate (washing soda, Na_2Co_3) maintained at pH 11.5 Or above for at least 48 hours followed by official quarantine for at least 30 days

6. The State Veterinarian OTJIWARONGO (South of VCF) must be advised by telephone or fax of the probable arrival time of arrival at the taxidermist/tannery/quarantine facility south of the veterinary cordon fence and the seals may not be broken without permission or veterinary supervision. Trucks must immediately proceed to the approved taxidermist/tannery or quarantine by the most direct route via the main tarred road.
7. After off-loading the containers/vehicles must be disinfected to the satisfaction of the Veterinary official
8. This permit is valid for one consignment only and cannot be used after the expiry date.

Section E, question 9(c)

Conservation and sustainability

Conservation is one of the major cornerstones of the Namibian experience. Jamy Traut Hunting Safaris does not only focus on a unique hunting experience, but also realize the long-term responsibilities towards conservation together with its social responsibility. We have the following social and environmental programs in place:

- Programs that introduced the relocation of White Rhino on private owned land.
- All the meat from all our animals, from the elephant to the steenbok and duiker, are utilized to help sustain the local communities,
- First hand involvement in anti-poaching units across Namibia.
- We are converting to solar power in our camps.
- A strict game management plan is maintained, to ensure that good quality trophies are taken consistently.
- Actively involved in management of human-wildlife conflict with Elephants
- Working with the Africat foundation in the north-west of Namibia to monitor Lion populations
- Make contributions to conservation through education
- Donation programs are run in all areas where safaris are conducted or as needs arise.
- Involved with rural communities in Namibia to build a better future for the youth.
- Jamy Traut Hunting Safaris promotes ethical and sustained wildlife practices.
- Jamy Traut is a proud member of NAPHA (Namibian Professional Hunters Association, Dallas Safari Club and Safari Club International.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanyin CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted anim and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

AS PER CONTACT INFORMATION ABOVE

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owner of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

LOXODONTA AFRICANA

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

COUNTRY:ZIMBABWE GIS:VC141789. GUNUNDWE RANCH "SAVE VALLEY CONSERVANCY"
NEAREST CITY MASVINGO:MASVINGO PROVINCE

   b. Date wildlife was hunted:

09/JULY/2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

OUTFITTER:DESFOUNTAIN & JONES SAFARIS PVT/LTD.
PROFESSIONAL HUNTER:MR.DALE DESFOUNTAIN.LICENCE NUMBER:90.VALID

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country a the country of export/re-export and must match with the foreign export/re-export document]:

DESFOUNTAIN AND JONES SAFARIS,9 DOON ROAD BORROWDALE HARARE ZIMBABWE AFRICA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTATCHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed o your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	LYNN DUNCAN
Address:	LD FORWARDING CO PVT/LTD
City:	106 B CORONATION AVENUE/GREENDALE
State/Province:	HARARE
Country, Postal Code:	ZIMBABWE

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Servic (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if yc could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

A total of 600 elephant were translocated into the save valley conservancy up to January 1998,2019 the population estimate via aerial game consensus puts the population at 4860 individuals.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

$27450.00 was part of the safari value.The payments received by D&J Safaris helps maintain their concession,by active rangers protecting the animals that roam freely.Also the drilling of water holes pumping costs salaries etc.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

Building and support of local schools and clinics bordering the concession as well as community awareness programs educating the populous of the value of the African wildlife NB:NO ELEPHANTS HAVE BEEN POACHED IN THE SVC IN OVER 20 YEARS

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

    Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

    I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more th[redacted]ar.

    Applicant's signatur[redacted] Date: 3/6/2019

    Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
CROELL	CURTIS	K	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			cindi.rulon@procargousa.com

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

[illegible]		[illegible]	
[illegible]		[illegible]	
[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]		
[illegible]	[illegible]	[illegible]	[illegible]

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
LAWLER	IOWA	52154	CHICKASAW	USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

PRO CARGO USA
15619 MORALES ROAD
HOUSTON, TEXAS 77032 ATTN: CINDI RULON

SELF ADDRESSED FED EX ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

CINDI RULON CINDI.RULON@PROCARGOUSA.COM
281-220-3176

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      LOXODANTA AFRICAN- AFRICAN ELEPHANT

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

      BWABATA WEST CONSERVANCY NEAR DIVUNDU NAMIBAI

   b. Date wildlife was hunted:

      SEPTEMBER 7, 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

PROFESSIONAL HUNTER J.H PIENAAR

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

TROPHHAENDIENSTE TQAXIDERMY P.O. BOX 21068 WINDHOEK, NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	J.H. PIENAAR
Business Name:	TROHAENDIENSTE TAXIDERMY
Address:	PO BOX 21068
City:	WINDHOEK
State/Province:	
Country, Postal Code:	NAMIBIA

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

SINCE 1975 THE POPULATION HAS BEEN GROWING AT AN AVERAGE RATE OF 4.5% PER ANNUM WITH MANAGED HUNTING. THE POPULATION WAS 7,500 IN 1975 AND NOW NUMBERS OVER 26,000.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

40% OF THE TROPHY FEES I PAID WENT TO THE GAME PRODUCTS TRUST FUND, A GOVERNMENT ENTITY THAT OVERSEES REPAIRS, MAINTENANCE AND SALARIES FOR GOVERNMENT RANGERS AND THEIR EQUIPMENT USED TO MONITOR AREAS WHERE ELEPHANTS ROAM. 40% GOES TO THE LOCAL COMMUNITY.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

THE OUTFITTER IS ACTIVELY INVOLVED IN ANTI-POACHING EFFORTS AND THE PROFESSONAL HUNTER IS A TRUSTEE ON HUNTERS UNITED AGAINST POACHING (HUAP)

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: [signature] Date: 03/11/2019

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

KNOW ALL MEN BY THESE PRESENTS: That, x Kurtis K. Croell (Full Name of Person), residing at x (b) (6) [redacted] Lowler, Iowa, UnitedStates 52154 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.35(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB, who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
DooLittle	Matthew	Dale	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address: Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Holland	Michigan	49423	Ottawa	USA
2.a. Mailing address (include if different than physical address, include name of contact person if applicable)				
N/A				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE in the amount of $100. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee–attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Matthew Doolittle Phone: (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☉ No ○ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

Scientific name: Loxodonta africana Common Name: African Elephant

   b. Sex (if known). Female

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

N/A

   b. Date wildlife is to be hunted:

N/A

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

N/A

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

Atherstone Nature Reserve is based in the Limpopo province of South Africa near a small town called Dwaalboom. Biggest town is 90KM away called Thabazimbi.

   b. Date wildlife was hunted:

September 22, 2018 through September 25, 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Numzaan Safaris (company conducting the hunt) Stef Swanepoel (Hunting Outfitter)

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

Swift Dip Portion 1 Bethanie Makoppa 0381 Limpopo Province South Africa

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).
See separate attached information

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Safari Air Cargo Systems
Address:	34 5th Ave, Bredell AH,
City:	Kempton Park
State/Province:	1619
Country, Postal Code:	South Africa

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

Please see separate attached information

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

Please see separate attached information

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

Please see separate attached information

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more tha[redacted]

Applicant's signature (b) (6) [redacted] Date: 03/26/2019

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Conservation Force v.5/8/18
Operator Enhancement Questionnaire

1. Name of area operator: Stef Swanepoel

   a. Years in business: 26 Years

   b. Name of company conducting hunt: Numzaan Safaris

   2. Name of concession: Atherstone Nature Reserve Size in km^2: 23 000 hectors or 56 000 acers

   a. Land tenure: __ Government lease __ Community __ Private ranch __ Private conservancy

   b. Length of concession agreement: 1 Year Can it be renewed? X Yes __ No

   c. Length of renewal, if applicable: Year by Year

   d. Estimated total amount received in trophy fees last year, if applicable: $ $ N/A

   e. Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain: Please see attached document

   f. Please provide the concession location and nearest city. Please attach a map or maps with the boundaries marked and showing the nearest city: Atherstone Nature Reserve is based in the Limpopo province of South Africa near a small town called Dwaalboom. Biggest town is 90KM away called Thabazimbi

   g. If the concession borders a national park, please provide the park name: N/A

   h. Description of general and distinctive habitat features and any water features: Atherstone Nature Reserve consist typically bushveld terrain. It is flat with no mountains or rivers. Typical vegetation constist of mainly Acacia Trees and very little Marula trees. Grass plains do exist int he reserve but are limited

3. Are there any communities living in the concession? NO Yes __ No

   a. If so, estimated number of people or villages in the concession? _____

4. Are there communities bordering this concession? __ Yes X No

   a. If so, estimated number of people or villages around the concession? _____

5. Relevant game populations in the concession:[1]

Species name	Relative Abundance (dense/avg./sparse)	Est. population	3-Year trend (up/ down/ stable)	How monitored?
Elephant				
Lion				
Leopard				
Prey species				

6. Total employment number: _____

   a. Please identify the number and type of all employees:

[1] The new FWS import permit application form asks the applicant: "9. a. Do you have any information regarding the population status or trend on the species hunted?"

Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters	26	6
Trackers	28	20
Anti-poaching scouts/rangers	2	2
Other anti-poaching		
Cooks/housekeepers	12	10
Community coordinators		
Managers	6	5
Biologists		
Others: _____		

7. Number of staff employed in the off-season: 74

   a. Please identify the number and type of staff that are engaged when the season is not open:

Type	Total number of this type	Number of locals/from nearby communities	When employed?
Anti-poaching staff	2	2	
Managers	1	1	
Maintenance	2	2	
Road opening/construction			
Community relations personnel			
Others: _____			

8. Anti-poaching efforts:[2]

   a. Number of anti-poaching staff: 2

   b. Are anti-poaching patrols conducted during the hunting season, off-season, or both? Yes

   c. Months during which anti-poaching patrols are conducted: January - December

   d. Number of anti-poaching patrols per month: Daily

   e. Description of anti-poaching equipment, vehicles, etc.: 2 Vehicles, Quad Bike, Kabota side by side. 2 x Binoculars, 2 x Bicycle, 2 x fully equipped anti poaching scouts

   f. Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution? Reserve management in conjunction with private land owners

   g. Do you offer rewards to poaching informants leading to arrest? X Yes __ No

   h. Do you offer rewards to poaching informants upon conviction? X Yes __ No

   i. Please describe the company's anti-poaching expenditures below. What currency are the expenditures given in? _____

[2] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

Type of expense	Spending 2015	Spending 2016	Spending 2017	Remarks
Salaries for anti-poaching scouts	R100 000	R120 000	R 60 000	Cost of scouts is becoming unbearable
Equipment	R10 000	R5 000	R 10 000	
Vehicles	R200 000	R15 000	R 15 000	
Petrol	R20 000	R 20 000	R 20 000	
Rewards paid				
Other: _____				
Other: _____				
TOTALS				

9. Anti-poaching results:

Category	2015	2016	2017	Remarks
Poaching incidents discovered	2	3		Caught 4 P
Elephant carcasses observed				
Lion carcasses observed				
Leopard carcasses observed				
Ivory poachers arrested				
Meat poachers arrested				
Other poachers arrested		4		Rhino Poachers
Poachers convicted		4		
Snares/gin traps collected				
Firearms confiscated		1		
Vehicles confiscated				
Bicycles confiscated				
Boats/nets confiscated				
Tusks recovered				
Other: _____				

10. Community investment:[3]

a. Does the company contribute money or goods/services to local communities? X Yes __ No

b. If so, what percentage or amount is shared, how often, and why (e.g., required by law, required by contract, voluntary contribution)? Government employees are given carcasses from the hunting in Atherstone Reserve. We Further contribute food and drinks to the local police station ono their infomation and sport days.

c. Does the company provide game meat to nearby communities? X Yes __ No

d. If so, please estimate the amount and/or value of meat contributed in prior year and describe the meat contribution program: We provide to the local communities on a weekly basis to the value of $200 per week.

e. If the company performs problem animal activities for surrounding communities (e.g., patrolling fields during the harvest, chasing away problem animals, conducting PAC hunts or PAC killings), please describe. Numzaan Safaris is one of the firste outfitters that Nature conservation contacts if there is an problem animal to be delt within the area.

[3] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers community investment a "conservation benefit."

f. Please describe any consolation payments made to local residents damaged by game species. What currency are the expenditures reported in? Rand

Species	Damage caused	Consolation paid 2015	Consolation paid 2016	Consolation paid 2017
Elephant				
Lion				
Leopard				
Other				

g. Please describe any community projects paid for by the company. What currency are the expenditures reported in? Rand

Type of project	Spending 2015	Spending 2016	Spending 2017	Remarks
Education (e.g., classrooms, offices)				
Education (e.g., school fees, supplies)				
Health (e.g., clinics, offices)				
Health (e.g., medical salaries, equipment)				
Community scout salaries				
Other community anti-poaching		R80 000		
Local government activities				
Water infrastructure improvements	R10 000	R15 000	R 25 000	
Sports teams funded	R5 000	R10 000	R 27 000	
Construction materials donated		R10 000	R10 000	
Other: Meat	R 20 000	R 30 000	R40 000	
Other: Training	R 5 000	R 10 000	R12 000	
TOTALS				

11. How many U.S. clients did the company have in the past three years, what percentage of the company's clients were from the U.S., and what fees did they pay?

	Hunting elephant	Hunting lion	Hunting leopard	Hunting all species
Number of U.S. clients	2015: 2016: 2017:	2015: 2016: 2017:	2015: 2016: 2017:	2015: 400 2016: 500 2017: 600
Percentage of U.S.	2015:	2015:	2015:	2015: 100%

clients	2016: 2017:	2016: 2017:	2016: 2017:	2016: 100% 2017: 100%
Trophy fees paid by U.S. clients	2015: 2016: 2017:	2015: 2016: 2017:	2015: 2016: 2017:	2015: $2'800 000 2016: $3'500 000 2017: $4'200 000

12. Approximate dollar amount and/or percentage of the company's revenue from U.S. clients: 100%

13. Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concession improvements (e.g., digging and maintaining boreholes, restocking), management activities, research, etc. Please see attached document

14. I declare that the foregoing is true and correct.

    Signature: _____

    Name: _____ Title: _____

2.e
Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, ect.? If so please explain

The Private Landowners which own 30% of the land within Atherstone Nature Reserve. Therefore they are also responsible for the general upkeep and wellbeing of the percentage of animals within the reserve. From the yearly game counts the private land owners receive 30% of the game quota that is allocated either for hunting or live game sales.

The Private Land owners have assisted the reserve in equipping boreholes, drilling boreholes, diesel of anti poaching patrols as well as diesel for the pumping of water to dames, we have assisted with equipping the reserve with all new batteries for the 144km of electric fence line as well as the fencing material for the fence posts ect. The Private Landowners have a very healthy relationship with the reserve management and assist whenever they are asked.

The community has a very well run security cluster which the private land owners are members of and has assisted in the past to capture Rhino poachers. This was all run and executed by David Freeburn. All labour is sourced from the local community.

13
Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concessions improvments (e.g., digging and maintaining boreholes, restocking), management activities, research, etc.

The Private Landowners and Atherstone Nature Reserve have very strong working relationship. Atherstone runs the day to day management and the Private Landowners assist when they are needed. To date the private sector has equipped numerous boreholes as well as drilled for new boreholes.

The Private Landowners have equipped much needed pvc pipes to dams and reservoirs. They help with the maintenance of vehicles, heavy machinery as well a quad bikes. The continuous maintenance of the 87KM fence line have been funded by the private land owners. New battries and energizers have been replaced to make sure that the fences are Elephant proof.

The Elephant management plan has been a collaboration with Biodiversity, Atherstone and the private landowners which has now been accepted by the Minister of Tourism, Edna Molewa and has been adopted by Atherstone. It is the intention of Atherstone Nature reserve with the help of the private landowners to implement the Elephant management plan. Within this management plan ages, sexes and herd structures are discussed in detail.

Type of Activity:
Import of Sport-hunted Trophies of Southern African Leopard, African Elephant, and Namibian Southern White Rhinoceros

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Cusick	Todd	(b) (6)	

2. Date of birth (mm/dd/yyyy)	3. Occupation	4. Affiliation/ Doing business as (see ins	
(b) (6)		N/A	

5.a. Telephone number	5.b. Alternate telephone number	5.c. Fax number	5.d. E-mail address
(b) (6)	N/A	N/A	(b) (6)

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)		
2. Tax identification no.	3. Description of business, agency, Tribe, or institution		
4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Provo	UT	84604	Utah	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☐ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue:_____ No ☑

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and b (b) (6) ein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity:_____(Import is limited to two per hunter per calendar year)

1

African elephant (*Loxodonta africana*) Quantity:_____(Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity:_____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:
   Kavango East, Bwabwata West, S18 09" 162 and E021 42" 495 Divundu, Rundu Namibia

   b. Date wildlife is to be hunted:
   5 to 18 September, 2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

skin, skull, tusk, ears, tail hair, and feet

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild:

      N/A

   b. Date wildlife was hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business Name: Address: Address: City: State/Province: Country, Postal Code:	Shipper Dip/Packer: Louw Nel www.trophaendienste.com PO BOx 21068 Windhoek, Namibia +264 61 232 236 Professional Hunter: J.H. Pienaar PO Box 1100, Gobabis Physical address: Farm Hester 407, Gobabis, Namibia Physical Camp Address: Buffalo Camp, Bwabwata West, Divundu, Namibia

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature:_____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) [redacted] Date: 6/7/17

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):
Todd Cusick
(b) (6) [redacted]

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

ELEPHANT IMPORT FROM NAMIBIA

Permit Number: MA41890C-0

Effective: 08/29/2017 Expires: 08/28/2018

CHIEF, BRANCH OF PERMITS, DMA

Permittee:

TODD DENNIS CUSICK
(b) (6) [redacted]
PROVO, UT 84604
U.S.A.

Authority: Statutes and Regulations: 16 USC 1539 (a); 50 CFR 17.40 (e).

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Authorizations and Conditions:

A. Authorized to import the sport-hunted trophy of one African elephant (*Loxodonta africana*), taken in Namibia for the purpose of enhancement of the survival of the species.

B. Specimen may not be sold or transferred for any financial remuneration.

C. U.S. Threatened Species: tusks must be marked as per [50 CFR 17.40(e)]. In accordance with the African Elephant Conservation Act, raw ivory, including sport-hunted trophies that are wholly or partially ivory, may not be re-exported from the U.S.

D. **Trophy must have been taken during the 2017 hunting season.**

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit issued by the Management Authority of Namibia.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Todd Cusick (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: MA41890C-0

5 Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: [redacted] Date: March 25, 2019

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity:_____(Import is limited to two per hunter per calendar year)

1

African elephant (*Loxodonta africana*) Quantity:_____(Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity:_____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:
   Kavango East, Bwabwata West, S18 09" 162 and E021 42" 495 Divundu, Rundu Namibia

   b. Date wildlife is to be hunted:
   5 to 18 September, 2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

skin, skull, tusk, ears, tail hair, and feet

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild:

      N/A

   b. Date wildlife was hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business Name: Address: Address: City: State/Province: Country, Postal Code:	Shipper Dip/Packer: Louw Nel www.trophaendienste.com PO BOx 21068 Windhoek, Namibia +264 61 232 236 Professional Hunter: J.H. Pienaar PO Box 1100, Gobabis Physical address: Farm Hester 407, Gobabis, Namibia Physical Camp Address: Buffalo Camp, Bwabwata West, Divundu, Namibia

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature:_____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) [redacted] Date: 6/7/17

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):
Todd Cusick
(b) (6) [redacted]

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Authority: Statutes and Regulations: 16 USC 1539 (a); 50 CFR 17.40 (e).

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Authorizations and Conditions:

A. Authorized to import the sport-hunted trophy of one African elephant (*Loxodonta africana*), taken in Namibia for the purpose of enhancement of the survival of the species.

B. Specimen may not be sold or transferred for any financial remuneration.

C. U.S. Threatened Species: tusks must be marked as per [50 CFR 17.40(e)]. In accordance with the African Elephant Conservation Act, raw ivory, including sport-hunted trophies that are wholly or partially ivory, may not be re-exported from the U.S.

D. **Trophy must have been taken during the 2017 hunting season.**

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit issued by the Management Authority of Namibia.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1 a. Last Name	1 b. First Name	1.c. Middle Name/Initial	1 d. Suffix
Cusick	Todd	Dennis	

(b) (6)

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1 b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Provo	UT	84604	Utah	USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other *applic* [illegible], and I certify that the information submitted in this application for a permit is complete and accurate to t[illegible]at any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Todd Cusick (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: MA41890C-0

5 Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: [redacted] Date: March 25, 2019

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity:_____(Import is limited to two per hunter per calendar year)

1

African elephant (*Loxodonta africana*) Quantity:_____(Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity:_____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:
   Kavango East, Bwabwata West, S18 09" 162 and E021 42" 495 Divundu, Rundu Namibia

   b. Date wildlife is to be hunted:
   5 to 18 September, 2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

skin, skull, tusk, ears, tail hair, and feet

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild:

      N/A

   b. Date wildlife was hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business Name: Address: Address: City: State/Province: Country, Postal Code:	Shipper Dip/Packer: Louw Nel www.trophaendienste.com PO BOx 21068 Windhoek, Namibia +264 61 232 236 Professional Hunter: J.H. Pienaar PO Box 1100, Gobabis Physical address: Farm Hester 407, Gobabis, Namibia Physical Camp Address: Buffalo Camp, Bwabwata West, Divundu, Namibia

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature:_____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) Date: 6/7/17

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):
Todd Cusick
(b) (6)

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

A. Authorized to import the sport-hunted trophy of one African elephant (*Loxodonta africana*), taken in Namibia for the purpose of enhancement of the survival of the species.

B. Specimen may not be sold or transferred for any financial remuneration.

C. U.S. Threatened Species: tusks must be marked as per [50 CFR 17.40(e)]. In accordance with the African Elephant Conservation Act, raw ivory, including sport-hunted trophies that are wholly or partially ivory, may not be re-exported from the U.S.

D. **Trophy must have been taken during the 2017 hunting season.**

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit issued by the Management Authority of Namibia.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

Good morning Todd,

I am trying to get your permit issued by today. Currently you have me mailing you the permit to your home address. If you would like overnight delivery you will need to provide me with a per-paid shipping label.

I will attempt to mail this by the end of the work day here (east coast), if I do not hear from you before then concerning overnight shipping I will just mail it out.

(If we do not receive the information requested above within 45 days from the date of this letter, your incomplete application will be placed in our inactive files and we will not complete your request for a permit.)

Thank you,

Tim Mac Donald

Thank you for submitting an application to the U.S. Fish and Wildlife Service. The application was received by the Division of Management Authority on 06/27/2017; check number (b) (6) accompanied the application. Your application has been assigned the following PRT identification number: MA41890C-0

While processing time may be less, you should anticipate a minimum of 30 days to process your request, with many requests averaging between 60 to 90 days due to some requests which need to be published in the Federal Register and/or be reviewed by other Service offices.

While we are aware that you may want to inquire about the status of your application, we request that you allow our office at least three weeks after the receipt of this letter to make any inquiries. If you have additional information that needs to be provided, please mail information to DMA, Branch of Permits MS: IA, 5275 Leesburg Pike, Falls Church, VA 22041 by fax 703-358-2281 or call our staff on duty at 800-358-2104.

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
CROELL	CURTIS	K	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			cindi.rulon@procargousa.com

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

[illegible]		[illegible]	
[illegible]		[illegible]	
[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]		
[illegible]	[illegible]	[illegible]	[illegible]

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
LAWLER	IOWA	52154	CHICKASAW	USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

PRO CARGO USA
15619 MORALES ROAD
HOUSTON, TEXAS 77032 ATTN: CINDI RULON

SELF ADDRESSED FED EX ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

CINDI RULON CINDI.RULON@PROCARGOUSA.COM
281-220-3176

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      LOXODANTA AFRICAN- AFRICAN ELEPHANT

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

      BWABATA WEST CONSERVANCY NEAR DIVUNDU NAMIBAI

   b. Date wildlife was hunted:

      SEPTEMBER 7, 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

PROFESSIONAL HUNTER J.H PIENAAR

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

TROPHHAENDIENSTE TQAXIDERMY P.O. BOX 21068 WINDHOEK, NAMIBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	J.H. PIENAAR
Business Name:	TROHAENDIENSTE TAXIDERMY
Address:	PO BOX 21068
City:	WINDHOEK
State/Province:	
Country, Postal Code:	NAMIBIA

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

SINCE 1975 THE POPULATION HAS BEEN GROWING AT AN AVERAGE RATE OF 4.5% PER ANNUM WITH MANAGED HUNTING. THE POPULATION WAS 7,500 IN 1975 AND NOW NUMBERS OVER 26,000.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

40% OF THE TROPHY FEES I PAID WENT TO THE GAME PRODUCTS TRUST FUND, A GOVERNMENT ENTITY THAT OVERSEES REPAIRS, MAINTENANCE AND SALARIES FOR GOVERNMENT RANGERS AND THEIR EQUIPMENT USED TO MONITOR AREAS WHERE ELEPHANTS ROAM. 40% GOES TO THE LOCAL COMMUNITY.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

THE OUTFITTER IS ACTIVELY INVOLVED IN ANTI-POACHING EFFORTS AND THE PROFESSONAL HUNTER IS A TRUSTEE ON HUNTERS UNITED AGAINST POACHING (HUAP)

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: [signature] Date: 03/11/2019

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

KNOW ALL MEN BY THESE PRESENTS: That, x Kurtis K. Croell (Full Name of Person), residing at x (b) (6) [redacted] Lowler, Iowa, UnitedStates 52154 hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or consigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.35(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB, who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Todd Cusick (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: MA41890C-0

5 Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

      I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

      Permittee's signature: (b) (6) [redacted] Date: March 25, 2019

   b. For **CHANGES** to original application:

      On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

      I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

      Permittee's signature: _____ Date: _____

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  (i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  (ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  (iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: N/A (Import is limited to two per hunter per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 ea. (Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild: N/A

   b. Date wildlife is to be hunted: N/A

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

N/A

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: GPS Co-ord Lat. 27°40'48.41" South - City- Pongola, Magudu, South Africa, Long. 31°41'02.48 east - Kwazulu Natal Prov. Dist, elevation 1411 feet
   b. Date wildlife was hunted: 2016, May 7th Elephat shot, Safari Duration May 6-11, 2016
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks): Skin, tusks, Feet, Tail, jaw - lower, ear

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   African San Taxidevmy
   Plaas Wag n' Bietjie
   Modderrivier 8700, South Africa
4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

   Name: Business African San Taxidevmy
   Name: Address: ~~c/o Petro~~ Petro van der Linde, Operational Manager
   Address: Plaas Wag n' Bietjie
   City: Modderrivier
   State/Province: 8700, South Africa, Natal - Kwazulu Province
   Country, Postal Code:

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature:_____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, or [redacted] not be re-exported.

Applicant's signature: (b) (6) Date: 08/09/2016

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Bruce Barany
(b) (6)

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Greetings
USFW.
In discussion with the Owner/Operator of MkuzeFalls Game Reserve of how the hunting and trophy fees are allocated on support,maintenance and sustaining of the indigenous game population of elephant, lion, leopard and numerous plains game on their vast 200,000 hectacter naturalist preserve are as follows: of the approximately $10,000 US funds paid to the South African government for hunting licence and trophy fees, approximately $2500 goes towards the SA support of hunting programs management and maintenance of. The elephant trophy fee of $7.500-8.000 is used towards support of biological studies, habitat enhancement , poaching enforcement and related equipment needed and National Parks funding support.
Additionally, the daily rate fees paid to the 3 concessions involved in this safari helped to support over 100 members of the local Natal Region communities who assisted in support activities such as guides, trackers, skinners, cooks, drivers, guards and anti poaching personnel. Lastly, the local village next to the Mkuze Reserve benefitted and assisted in the butchering of this mature bull and according to the Guide this animal provided weeks of sustenance to the Families living there.

Sincerely,

(b) (6)

3. Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

([signature]) Atty. In Fact for Bruce Barany 01/23/2018
Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend MA10493C-0 .

2. Submit the original permit with this application. ATTACHED

3. **Past activities.** N/A
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.) N/A

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form. N/A

TO: USFW DMA,
BRANCH OF PERMITS, MS: IA

PLEASE MAIL ALL ORIGINAL PERMITS TO:

HUNTER INT'L BROKERAGE SERVICES
5674 Stoneridge Drive, Suite 209
Pleasanton, CA 94588
Tel: (925) 417 5270 Fax: (925) 417 0170

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: Atty. in Fact for Bruce Barany Date: 01/23/2018

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

   Hunter Int'l Brokerage Services, Inc.
   5674 Stoneridge Drive, Suite 209
   Pleasanton, CA 94588

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

   ☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

    Vanessa Tabugan
    Tel# (925) 417 5270 ext 104
    import@b.hunter-international.net

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

    ☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

BRUCE R. BARANY
(b) (6) [redacted]
SPOKANE, WA 99207
U.S.A.

Authority: Statutes and Regulations: 16 USC 1539 (a); 50 CFR 17.40 (e).

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Conditions and Authorizations:

A. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

B. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law. **This permit can be photocopied.**

C. Valid for use by permittee named above.

D. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

E. Authorized to import the sport-hunted trophy of one African elephant (*Loxodonta africana*), taken in South Africa for the purpose of enhancement of the survival of the species.

F. Specimen may not be sold or transferred for any financial remuneration.

G. U.S. Threatened Species: tusks must be marked as per [50 CFR 17.40(e)]. In accordance with the African Elephant Conservation Act, raw ivory, including sport-hunted trophies that are wholly or partially ivory, may not be re-exported from the U.S.

H **Trophy must have been taken during the 2016 hunting season.**

I. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit issued by the Management Authority of South Africa.

CUSTOMS POWER OF ATTORNEY

and

Acknowledgment of Terms and Conditions of Service

Social Security number (b) (6)

Date of birth (b) (6)

Know all men by these presents: That, Bruce Richard Barany
(Full legal name of individual)

residing at (b) (6) Spokane, WA 99207
(Residential or physical mailing address, P.O. Box is not accepted)

hereby constitutes and appoints: **HUNTER INTERNATIONAL BROKERAGE SERVICES, INC., its officers, authorized employees and duly appointed sub-agents** to act for and on its behalf as a true and lawful agent and attorney of the grantor named above for and in the name, place, and stead of said grantor from this date and in all Customs Districts, and in no other name to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, carnet or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandise shipped or consigned by or to said grantor, to perform any act or condition which may be required by law or regulation in connection with such merchandise to receive any merchandise deliverable to said grantor:

To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make sign, declare, or swear to any statement, supplemental statement, schedule, supplemental schedule, certificate of delivery, certificate of manufacture, certificate of manufacture and delivery, abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filing in any customs district:

To sign, seal and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise;

To sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by said grantor;

To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantor's name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor;

To waive the requirement of other Customs Brokers transmitting a copy of the customs entry CF7501 and the Customs Broker's bill of services directly to the undersigned grantor in accordance with CF 111.36(a) & (b). Such entry summary and bill will be transmitted through Hunter International Brokerage Services, Inc. It is also understood that the agreement between Hunter International Brokerage Services, Inc. and other Customs Brokers does not forbid or prevent the Customs Broker from having direct contact with the grantor in accordance with CFR 111.36(c)(3).

To generally to transact at the customs houses in any district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930, in which said grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent and attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents the forgoing power of attorney to remain in full force until notice of revocation in writing is duly given to and received by a District Director of Customs.

The undersigned grantor of this power of attorney hereby agrees to HUNTER INTERNATIONAL BROKERAGE SERVICES, INC. Terms and Conditions of Service, which are attached hereto and incorporated herein by reference.

IN WITNESS WHEREOF, the said (Print full legal name) Bruce Richard Barany

has caused these presents to be sealed and signed: (Signature) (b) (6)

(Capacity) _____ (Date) 10.19.2017

Important note: If you are the importer of record, payment to the broker will not relieve you of liability for Customs charges (duties, taxes or other debts owed Customs) in the event the charges are not paid by the broker. Therefore, if you pay by check, Customs charges may be paid with a separate check payable to the "U.S. Customs Service" which shall be delivered to Customs by the broker. Importers who wish to utilize this procedure must contact our office in advance to arrange timely receipt of duty checks.

> Dear Ms. Felix,
>
> I just tried calling you but was unable to reach you. The application you've referenced is a request to renew a permit to import a trophy of an elephant taken in South Africa. Please be aware that on March 1, 2018, we withdrew our country-wide enhancement findings for elephants, and we now make our enhancement findings on an application-by-application basis. The original permit we issued for this import request was based on the country-wide finding that we later withdrew, and we must now make a separate enhancement finding on this permit renewal request.
>
> The application is currently under review. Due to the government lapse in appropriations in 2018, staff vacancies, and additional CITES and ESA listings, our office has a large back-log of permit applications, and I can't give you a definitive date of when this application will be processed. Feel free to check back with me at the end of March, and I will update you on our progress.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Lloyd	George	Harold	II

2. Date of birth (mm/dd/yyyy)	3. Occupation	4. Affiliation/ Doing business as (see instructions)
(b) (6)		N/A

5.a. Telephone number	5.b. Alternate telephone number	5.c. Fax number	5.d. E-mail address
(b) (6)		N/A	(b) (6)

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
N/A	

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Weimar	Texas	78962	Colorado	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
Same

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☒ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: 09US206803/9 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: N/A (Import is limited to two per hunter per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild: South Africa, Limpopo Province, Maramani Conservancy, closest town is Musina and closest Village Malale

   b. Date wildlife is to be hunted: May-June 2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks). Skin, Skull, Bones, Tusks, and worked, manufactured, or handicraft items.

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: N/A

   b. Date wildlife was hunted: N/A

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks): N/A

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]: N/A

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business SPLITTING IMAGE TAXIDERMY
Name: Address:
Address: The Badger Bldg., 14 Uitenhage Rd., Sydenham
City: Port Elizabeth
State/Province: Eastern Cape
Country, Postal Code: South Africa, 6057

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.
   See attached letter

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature: N/A Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) Date: 3/10/2017

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

will use Houston, Texas port

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

N/A

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

George H. Lloyd (b) (6)

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

George H. Lloyd II

RE: Form 3-200-19 Question Number 5

To Whom It May Concern;

I will be hunting a trophy elephant in the Republic of South Africa Limpopo Province May and June of 2017. Twenty percent of my permit/trophy fee will be paid directly to the government for use in their wildlife management and conservation. In addition 20 local staff are employed in the hunting camp by my other fees paid to the outfitter. Finally all the meat from the hunted elephant go directly to the people of the Malale Village. All of these actions contribute to the sustainable conservation of the elephant population in this area.

Respectfully,

(b) (6)

George H. Lloyd II

ELEPHANT IMPORT FROM SOUTH AFRICA

WEIMAR, TX 78962
U.S.A.

Authority: Statutes and Regulations: 16 USC 1539 (a); 50 CFR 17.40 (e).

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Authorizations and Conditions:

A. Authorized to import the sport-hunted trophy of one African elephant (*Loxodonta africana*), taken in South Africa for the purpose of enhancement of the survival of the species.

B. Specimen may not be sold or transferred for any financial remuneration.

C. U.S. Threatened Species: tusks must be marked as per [50 CFR 17.40(e)]. In accordance with the African Elephant Conservation Act, raw ivory, including sport-hunted trophies that are wholly or partially ivory, may not be re-exported from the U.S.

D. **Trophy must have been taken during the 2017 hunting season.**

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit issued by the Management Authority of South Africa.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law. **This permit can be photocopied.**

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

RE: Permit Number MA26676C-O

Tim Mac Donald
Legal Instrument Examiner
Division of Management Authority
Branch of Permits; MS: IA
US Fish and Wildlife Services
5275 Leesburg Pike
Falls Church, VA 22041-3805

Dear Mr. Mac Donald,

As requested in the email find attached a completed form 3-200-52 and the original issued permit number MA26676C-O. It is my understanding that the correction to my last name will be made and the permit will be reissued ASAP. As a result of the departments misspelling error on the original permit there will be no fee required for the reissue. If anything further is needed please contact me immediately.

Thanks for your assistance in this matter.

Federal Fish and Wildlife Permit Application Form

Return to: U.S. Fish and Wildlife Service
(Enter address from pages 5 and 6 of application)

Type of Activity:
REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Lloyd	George	Harold	II

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			N/A

6.a. Alternate telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6)		N/A	(b) (6)

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
N/A	

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Weimar	Texas	78962	Colorado	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
Same

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: MA266760-0 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50,*** and I certify that the information submitted in this application for a permit is complete and accurate to the best of my [redacted] false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b) (6) 10/2/2017

Signature ([redacted]) for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend MA266760-0

2. Submit the original permit with this application. Attached

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit. N/A
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.
   Correct misspelled last name

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)
   N/A

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.
   N/A

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

a. For **NO CHANGES** to original application: N/A

I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

Permittee's signature: _____ Date: _____

b. For **CHANGES** to original application:

On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request. Correct spelling of last name

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

Permittee's signature: (b) (6) Date: 10/2/2017

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

N/A

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

N/A

11. Who should we contact if we have questions about the application? (Include name, phone number, and email): George H. Lloyd II
(b) (6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

> Mr. MacDonald,
>
> First I want to thank you and the department for your assistance in responding to my request for an import permit on elephant from South Africa which I received just last week. However there is a problem which must be addressed by the department. You will note that the permit issued to me has my last name misspelled (see attached permit # MA26676C-O). As submitted in my application on March 10, 2017 (see attached permit app #26676C) the correct spelling of my last name is LLOYD not LLYOD. This error will present a problem with my export from South Africa and the import to the US. All the required paperwork I have executed to date for the permit and transport must match my passport

identification and other identification that is required for this process. Please correct this error and reissue the import permit immediately.

Thanks for your assistance in this matter.

C. U.S. Threatened Species: tusks must be marked as per [50 CFR 17.40(e)]. In accordance with the African Elephant Conservation Act, raw ivory, including sport-hunted trophies that are wholly or partially ivory, may not be re-exported from the U.S.

D. **Trophy must have been taken during the 2017 hunting season.**

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit issued by the Management Authority of South Africa.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law. **This permit can be photocopied.**

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
Lloyd	George	Harold	II

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number
(b)(6)	(b)(6)	(b)(6)

(b)(6)

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Weimar	Texas	78962	Colorado	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
N/A

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].

2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best [redacted] belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

   N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?
   George H. Lloyd II Phone: (b)(6)
   email: [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

   N/A

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: MA26676C-1

5. Submit the original permit with this application.

   Attached

OMB Control No. 1018-0093
Expires 08/31/2020

Past activities.

a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal. Attached

Annual Report. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.) N/A

Sport-hunted trophies: If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form. N/A

Certification - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

a. For **NO CHANGES** to original application:

I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

Permittee's signature: (b) (6) Date: 12/15/2018

b. For **CHANGES** to original application: N/A

On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

Permittee's signature: _____ Date: _____

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

Falls Church, VA 22041-3803

To Whom It May Concern:

In May of 2017, I legally hunted and successfully harvested a trophy elephant in the Limpopo province of South Africa. After applying to your office for a CITES Import Permit one was issued effective 12/15/2017. That permit is number MA26676C-1 which expired on 12/15/2018 and is attached as requested.

I am requesting a renewal of that permit as a result of numerous delays by the African Outfitter and the South African Government, all of which were beyond my control. Only in December of 2018 did the elephant's remains, which were harvested in 2017, finely reach the control of an authorized Taxidermy/Export Agent. They are being held in a secure area for my further direction and the renewal of the CITES Import Permit.

Your attention to this matter is greatly appreciated.

Regards,

(b) (6)

George H. Lloyd II

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
ELLISON	GARY	EUGENE	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number
(b)(6)	(b)(6)	(b)(6)

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
HOUSTON	TEXAS	77079	HARRIS	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   PRO CARGO USA 15619 MORALES ROAD HOUSTON, TEXAS 77032 SELF ADDRESSED ENVELOPE ENCLOSED

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   CINDI RULON CINDI.RULON@PROCAROGUSA.COM 281-220-3176

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.
      LOXODANTA AFRICANA AFRICAN ELEPHANT SKIN, FEET, EARS AND TRUNK

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:
      WESTERN KAVANGO REGION, MANGETTI CONSERVANCEY OTJIWARONGO NAMIBIA

   b. Date wildlife was hunted:
      SEPTEMBER 2011

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

Professional hunter C. Britz
Safari Company Western Kavango and mangetti

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

Taxidermy Studio
8 Bahnhof street
Otjiwarongo, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:
Business Name: C. Britz
Address: P.O. Box 1179
City: Otjiwarongo, namibia
State/Province:
Country, Postal Code:

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

No additional impact on the specie was or is created from the hunt covered in this application as the tusks and tail were imported under the attached 3177 in 2012 ,Since1975 the elephant population has increased by an average of 4.5% per year.. 1975 population was 7,500 and 2017 population was over 22,700. Therefore population was stable and increasing in 2011.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

MY HUNT PROVIDED FOOD FOR THE LOCAL VILLAGERS. THERE WERE AT LEAST 60 PEOPLE FROM 5 LOCAL VILLAGES THAT CAME AND HELPED CUT UP AND DISTRIBUTE THE MEAT. THE MEAT FROM HUNTS IS LIKELY THE ONLY SOURCE OF PROTEIN THESE VILLAGERS MAY HAVE. MEMBERS OF THE LOCAL COMMUNITY ARE EMPLOYED BY THE HUNTING OPERATORS AS GUIDES, TRACKERS, SKINNERS, COOKS, DRIVERS AND LODGE EMPLOYEES

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

MY HUNT FEES OF APPROXIMAATELY $18,000 WERE USED TO MAINTAIN THE PARK, WHICH INCLUDES MAINTAINING THE BOUNDARIES TO PREVENT POACHING. THIS PROTECTS THE WILDLIFE AND THE WORKERS. THERE WERE AT LEAST 4 PARK OFFICIALS INVOLVED WITH OVERSEEING THIS HUNT AND VARIOUS OTHERS BEING PAID TO PROTECT THE WILDLIFE. TUSKS AND TAIL IMPORTED IN 2012 NO ADDITIONAL IMPACT ON POPULATION CREATED.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: [signature] CAB ATTY IN FACT Date: 10/29/18

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

RE; Elephant Import information—Tusks and tail previously imported in 2012

Dear Permit Office,

I am adding this letter to clarify that I previously imported my hunting trophy elephant tusks and tail in 2012. I am now ready to import the tanned elephant skin, ears, truck and feet. My FWS declaration for the elephant tusks and tail already imported in 2012 is attached to this application.

Please contact me if there are any questions.

In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
CUPPETILLI	MARK	VICTOR	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6) [redacted]			cindi.rulon@procargousa.com

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6) [redacted]				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
NEW BRAUNFELS	TEXAS	78132	COMAL	U.S.A.
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for a trophy that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 4-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   PRO CARGO USA ATTN CINDI RULON SELF ADDRESSED FEDEX ENVELOPE ENCLOSED
   15619 MORALES ROAD HOUSTON, TEXAS 77032

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   CINDI RULON PRO CARGO USA 281-220-3176 CINDI.RULON@PROCARGOUSA.COM

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      LOXODANTA AFRICANA AFRICAN ELEPHANT

   b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE TROPHY HAS ALREADY BEEN TAKEN**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife was removed from the wild:

      MUNYAMADZI GAME MANAGMEMENT AREA IN THE NYAMPALA HUNTING BLOCK
      GPS SOUTH 12.24148 EAST 31.76574

   b. Date wildlife was hunted:

      SEPTEMBER 8, 2018

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

BAOBAB SAFARI PROFESSIONAL HUNTER AHMED PATEL

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the foreign export/re-export document]:

BRIDGE SHIPPING ZAMBIA PLOT 39375/M KABWE HIGHWAY ROAD NEW INDUSTRIAL AREA NDOLA ZAMBIA

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). ATTACHED

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from **Namibia**, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	BRIDGE SHIPPING
Address:	PLOT 39375M KABWE HIGHWAY ROAD
City:	NDOLA
State/Province:	ZAMBIA
Country, Postal Code:	

9. For species listed under the U.S. Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service (Service) must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful for our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

SEE ATTACHED OPERATOR ENHANCEMENT QUESTIONNAIRE

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, local community, or government?

SEE ATTACHED OPERATOR ENHANCEMENT QUESTIONNAIRE

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or landowner that provide a conservation benefit to the species being hunted/species hunted?

IN ADDITION TO THE ATTACHED OPERATOR ENHANCEMENT QUESTIONNAIRE, PLEASE SEE THE PICTURES SHOWING THE MEAT DISTRIBUTION OF THE ELEPANT MORE THAN 200 VILLAGERS RECEIVED MEAT FROM THE HUNT AS WELL AS OUTHER BENEFITS FROM THE HUNTING OPERATION.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or ~~taxidermist~~ applying on behalf of a U.S. hunter or ~~foreign national~~, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of an elephant trophy, I understand that my client may import no more than two elephant trophies in one calendar year.

Taxidermist/Broker's signature: [signature] Date: 04/08/2019

11. If you are the hunter applying to import your own trophy, please read and sign the following statement:

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import an elephant trophy, I understand that I may import no more than two elephant trophies in one calendar year.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign governments to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipments must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Conservation Force
Operator Enhancement Questionnaire

v.5/8/18

1. Name of area operator: **Baobab Safaris Limited**

   a. Years in business: **35 Years**

   b. Name of company conducting hunt: **Baobab Safaris Limited**

2. Name of concession: **Nyampala Hunting block (Munyamadzi G.M.A)** Size in km²: **2185**

   a. Land tenure: **Government and community lease**

   b. Length of concession agreement: **7 Years** Can it be renewed? **Yes**

   c. Length of renewal, if applicable: **Unclear at this time**

   d. Estimated total amount received in trophy fees last year, if applicable: **$200,000.00**

   e. Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain:

Over and above the obligatory concession fees paid to the Government and Local Community, Baobab Safaris Limited spends an additional $60,000.00 Annually for the below mentioned activities:

- **Infrastructure Development pledge annually**
- **Resource Monitoring pledge annually**
- **Community development pledge annually**
- **Law enforcement pledge annually**
- **Fire management pledge annually**
- **Annual Evaluation of compliance by hunting outfitter**

These funds where used for the following activities:

- **Purchase a new Land Cruiser pick up for community use as well as Anti Poaching use.**
- **Two students from the community are currently in college studying Tourism funded directly by the safaris outfitter.**
- **Community is directly paying bursaries for 19 students from these funds.**
- **The construction of 12 brand new Scout houses, 6 at Kalimba and 6 at Mayembe to assist with Law Enforcement in those areas.**
- **Purchase of computer and printing equipment for Kanele wildlife headquarters in the area as while as Community resource board offices.**
- **Purchase of 4 shotguns for Anti poaching patrols.**
- **Funds were also used for delivery of 70% meat to all areas of the blocks.**
- **Repairing the NTUNTA-NABWALYA Road as access to the areas is completely restricted during the rainy season.**

Airstrip cleaning crews	15	15 locals

7. Number of staff employed in the off-season: **37**

   a. Please identify the number and type of staff that are engaged when the season is not open:

Type	Total number of this type	Number of locals/from nearby communities	When employed?
Anti-poaching staff	31	31 locals employed by Community Resource Board	All year
Managers	Nil	-	-
Maintenance	4	4 locals	All year
Road opening/construction	Nil	-	-
Community relations personnel	2	2 locals	All year
Others: _____			

8. Anti-poaching efforts:[2]

   a. Number of anti-poaching staff: **63 community scouts Employed by Community Resource Board, supported by 2 hunting operators that operate the 2 hunting concessions within this Game management Area, also supported by Frankfurt Zoological Society and Department of National Parks and Wildlife.**

   b. Are anti-poaching patrols conducted during the hunting season, off-season, or both? **Both**

   c. Months during which anti-poaching patrols are conducted: **All year round**

   d. Number of anti-poaching patrols per month: **10 long patrols, 6 short patrols and 20 day patrols.**

   e. Description of anti-poaching equipment, vehicles, etc.: **Spotter planes (FZS), Vehicles, Rifles, camping equipment, communication equipment, bicycles, uniforms, boots and rain coats.**

   f. Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution? **The Department of National Parks and Wildlife principle ranger based at Kanele headquarters.**

   g. Do you offer rewards to poaching informants leading to arrest? **Yes**

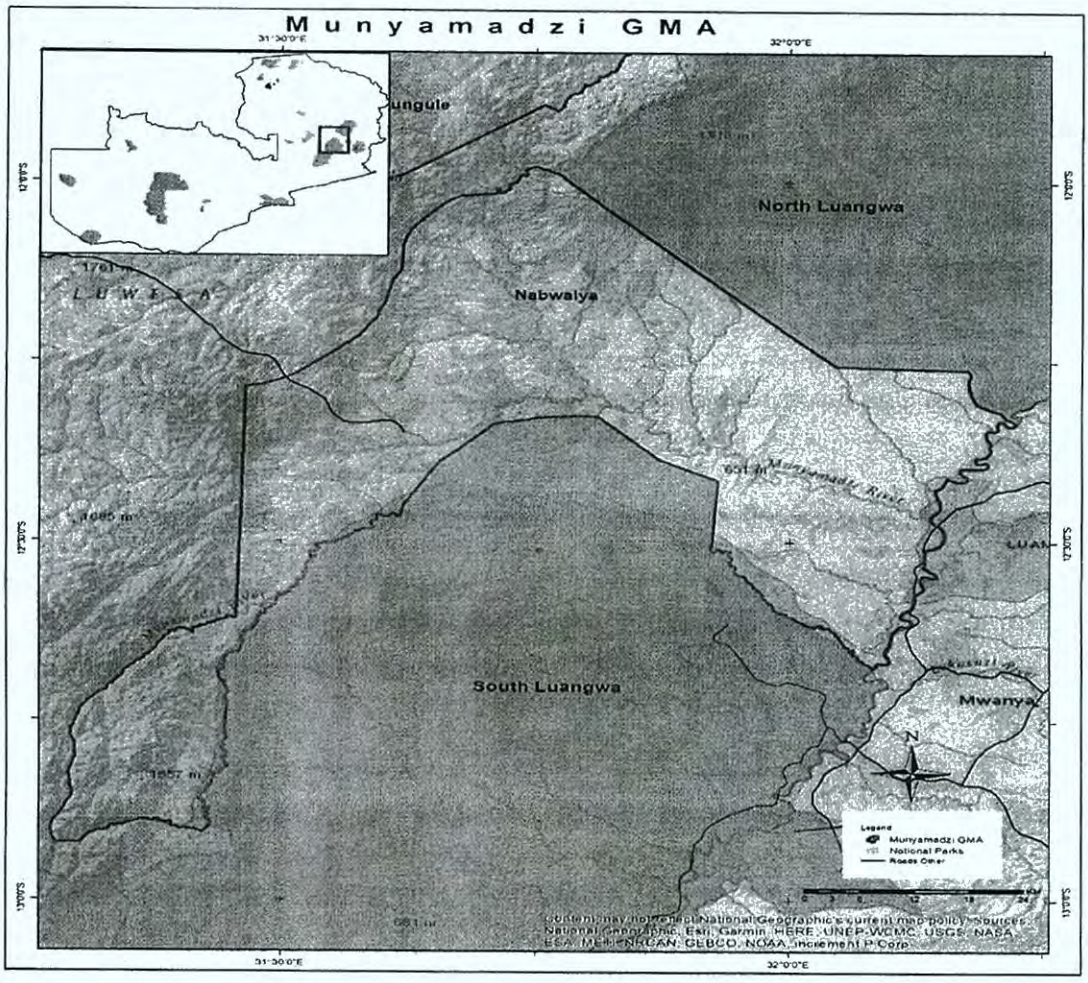
   h. Do you offer rewards to poaching informants upon conviction? **Yes**

   i. Please describe the company's anti-poaching expenditures below. What currency are the expenditures given in? **US$**

[2] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

- **Building and refurbishing of schools, clinics, teachers houses, mothers shelters, a guest house, repairing and drilling of new boreholes.**

f. Please provide the concession location and nearest city. Please attach a map or maps with the boundaries marked and showing the nearest city: **In Between Luambe, South Luangwa and North Luangwa**



g. If the concession borders a national park, please provide the park name: **South Luangwa National Park, Luambe National Park and North Luangwa National Park.**

h. Description of general and distinctive habitat features and any water features:

The water features are: Luangwa River, Munyamadzi River, Mupamandzi River and Mutinondo River.

The Habitat features are: Mopani Woodland, Semi Savanna, Miombo Woodlands and Riverine Bush.

3. Are there any communities living in the concession? **Yes**

   a. If so, estimated number of people or villages in the concession? **14,220 under 105 Headmen and one chief.**

4. Are there communities bordering this concession? **Yes**

   a. If so, estimated number of people or villages around the concession? **The bordering areas are also Game Management areas and they have their own conservation plans in place.**

5. Relevant game populations in the concession:[1]

Species name	Relative Abundance (dense/avg./sparse)	Est. population	3-Year trend (up/ down/ stable)	How monitored?
Elephant	Dense	± 3,000	Up	-Regular aerial patrols by Frankfurt Zoological Society and daily sighting by operator. - Patrol records from scouts
Lion	Dense	± 85	Up	-Camera trap footage; -Shared information with Zambia Carnivore Project, conservation South Luangwa, Frankfurt Zoological Society. -Daily sightings -Data recorded on patrols.
Leopard	Dense	± 120	Up	-Camera trap footage. - Shared information with Zambia Carnivore Project, Conservation South Luangwa,

[1] The new FWS import permit application form asks the applicant: "9. a. Do you have any information regarding the population status or trend on the species hunted?"

				Frankfurt Zoological Society -Daily Sighting -Data recorded on patrols
Prey species				
- Buffalo	Dense	± 2,500	Up	- Regular aerial patrols. - Data collected by scouts - Daily sightings by outfitter.
- Bushbuck	Dense	± 350	Up	
- Bushpig	Average	± 200	Up	
- Crocodile	Dense	± 1,000	Up	
- Duiker C	Average	± 100	Stable	
- Eland	Sparse	± 150	Stable	
- Grysbok	Average	± 80	Stable	
- Hartebeest	Sparse	± 80	Stable	
- Hippopotamus	Dense	± 5,000	Up	
- Hyena	Average	± 250	Up	
- Impala	Dense	± 8,000	Up	
- Klipspringer	Sparse	±50	Stable	
- Kudu	Average	± 250	Stable	
- Puku	Average	± 1,000	Up	
- Reedbuck	Sparse	± 50	Stable	
- Roan Antelope	Sparse	± 150	Stable	
- Warthog	Dense	± 1,000	Up	
- Waterbuck C	Average	± 250	Up	
- Wildebeest C	Dense	± 1,250	Up	
- Zebra	Dense	± 3,000	Up	

6. Total employment number: **82**

   a. Please identify the number and type of all employees:

Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters	3	3 Zambian Citizens
Trackers	6	6 locals
Anti-poaching scouts/rangers	31	31 locals employed by Community Resource Board funded by hunting operations
Other anti-poaching	6	Wildlife Offices under D.N.P.W
Cooks/housekeepers	6	6 locals
Community coordinators	3	3 community
Managers	2	Not local
Biologists	2	Employed by the Department of National Parks and Wildlife
Others: Road cleaning crews	15	15 locals

Type of expense	Spending 2015	Spending 2016	Spending 2017	Remarks
Salaries for anti-poaching scouts	$18,600.00	$18,600.00	$18,600.00	
Equipment	$4,000.00	$3,000.00	$3,000.00

Vehicles confiscated	-	-	-	
Bicycles confiscated	18	12	6	
Boats/nets confiscated	24 nets	15 nets	12 nets	
Tusks recovered	8 pairs	5 pairs	2 Pairs	
Other: _ _____				

10. Community investment:[3]

a. Does the company contribute money or goods/services to local communities? **Yes**

b. If so, what percentage or amount is shared, how often, and why (e.g., required by law, required by contract, voluntary contribution)?

- **As required by law and contract, 20% of concession fees goes directly to the community and 80% goes to the Department of National Parks and Wildlife.**

[3] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers community investment a "conservation benefit."

- **Over and above this, the company pays $60,000.00 to the community/Department of National Parks and Wildlife for infrastructure development for law enforcement, resource protection, fire management and community development.**
- **Trophy fees are shared between the government and local community on a 50/50 share basis. 50% of the money goes direct to the community for community projects annually.**
- **Voluntary donations are also provided such as solar powered street lights to wildlife camps for security purposes.**

c. Does the company provide game meat to nearby communities? **Yes**

d. If so, please estimate the amount and/or value of meat contributed in prior year and describe the meat contribution program: **Over 70% of meat was delivered free of any charges totalling approximately 33,990 kgs calculated at $5 per kg equates to the value of $169,950.00**

e. If the company performs problem animal activities for surrounding communities (e.g., patrolling fields during the harvest, chasing away problem animals, conducting PAC hunts or PAC killings), please describe. **This is mainly done in the off season when crops are in the fields by the Department of National Parks and Wildlife, community scouts using funds provide by the safaris outfitter.**

- **Chilli fences are erected**
- **Chilli bombs**
- **Chilli blocks are made**
- **Beehives are put around the crops.**
- **Fireworks are procured and distributed to all Village Area Groups (VAGs).**
- **PAC hunts are conducted if the outfitter is called upon to assist, but are usually done by D.N.P.W.**

f. Please describe any consolation payments made to local residents damaged by game species. What currency are the expenditures reported in? **Maize is bought and given to the local residents so that they can survive through the difficult dry season.**

Species	Damage caused	Consolation paid 2015	Consolation paid 2016	Consolation paid 2017
Elephant	Maize	450 x 50kg bags of maize grain provided for elephant damage as well as drought relief.	500 x 50kg bags of maize grain is provided for elephant damage as well as drought relief.	500 x 50kg bags of maize grain is provided for elephant damage as well as drought relief.

12. Approximate dollar amount and/or percentage of the company's revenue from U.S. clients:

65% Americans through the 3 year period.

$350,000.00 in trophy fees alone for the 3 year period.

13. Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concession improvements (e.g., digging and maintaining boreholes, restocking), management activities, research, etc.

- **Baobab Safaris Ltd has made it mandatory for all its professional hunters to take available online refresher training courses for aging predators to keep them abreast with international standards on aging Lions and Leopards.**
- **The outfit has also been following an age based off take approach since the re-introduction of Lion and Leopard trophy hunting in Zambia, the company has cited 7 years as the benchmark for the minimum age of cats to be harvested. The company also insists that the professional hunters be very conservative when estimating ages of cats to be hunted, as a result many cats are passed up before the correct speciment that meets the criteria is found.**
- **It is company policy to harvest mature males from different zones of the hunting block rather than from the same parts of the hunting areas.**
- **From 2015 to date, 10 boreholes have been serviced and drilled to provide clean drinking water.**
- **Construction is at the planning stages for another safari camp to be built in the area that is meant to be used for used for consumptive and non-consumptive tourism activities, as a means of Job Creation and Increased Revenue for all Stakeholders.**
- **Sensitising community members particularly at grass root level of the benefits of Safari hunting and conservation.**
- **Every year the community endeavours to select and train between 5 and 10 new wildlife scouts that are employed within the Munyamadzi Corridor and North Luangwa conservation project area that this G.M.A is part of.**
- **Land use plans and general management plans are currently being finalised for the G.M.A, this is to reduce habitant loss, to avoid silting of the rivers, to reduce human - animal conflicts.**
- **Zambia Carnivore programme and Frankfurt Zoological Society have got Lions, Wild dogs and Elephants collared that roam these areas and data sharing of sightings and pictures from camera traps as well as conventional cameras are shared by our professional hunters, this data sharing is proving to be useful to the success of these research projects.**

14. I declare that the foregoing is true and correct.

KNOW ALL MEN BY THESE PRESENTS: That, x MARK VICTOR CUPPETILLI (Full Name of Person), residing at x (b) (6) [redacted] NEW BRAUNFELS, TEXAS hereby constitutes and appoints each of the following persons - John Rulon CHB

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or cosigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize; to receive any merchandize deliverable to said grantor: To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district. To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise: To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor. To authorize other Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States; if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor. And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filling of protests under section 514 of the Tariff Act of 1930. In which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution. Or until revoked. Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from John Rulon CHB , who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder, who will pay John Rulon CHB, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an Importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the Importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the Importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an Importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982

IN WITNESS WHERE OF, the said (Print name) x MARK VICTOR CUPPETILLI **has caused these presents to be sealed and signed:**

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1 a. Last name	1 b. First name	1 c. Middle name or initial	1 d. Suffix
Rondeau	Catherine	Hammond	Mrs

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b)(6)			

6 a. Telephone number	6 b. Alternate telephone number	6 c. Fax number
(b)(6)		

B. Complete if applying on behalf of a business, corporation, public agency or institution

1 a. Name of business, agency, or institution	1 b. Doing business as (dba)

2. Tax identification no.	3. Description of business, agency, or institution

4 a. Principal officer Last name	4 b. Principal officer First name	4 c. Principal officer Middle name/ initial	4 d. Suffix

5. Principal officer title	6. Primary contact

7 a. Business telephone number	7 b. Alternate telephone number	7 c. Business fax number	7 d. Business e-mail address

C. All applicants complete address information

1 a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b)(6)				
1 b. City	**1 c. State**	**1 d. Zip code/Postal code**	**1 e. County/Province**	**1 f. Country**
Leonard	MI	48367	Oakland County	USA

2 a. Mailing Address (include if different than physical address, include name of contact person if applicable)				
(b)(6)				
2 b. City	**2 c. State**	**2 d. Zip code/Postal code**	**2 e. County/Province**	**2 f. Country**
Oakland	MI	48363	Oakland County	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100** Federal, tribal, State, and local government agencies and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits? 10US25986A/9 I had and used
Yes ☒ If yes, list the number of the most current permit you have held ~~or that you are applying to renew/reissue:~~
No ☐ a permit in 2010 for an elephant + another in 2010 for a leopard.

3. Certification I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please return the unused original permit. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form, (3-200-52), [www.fws.gov/forms] and return your original permit with that form. NO NO

I am requesting a new elephant a new leopard permit for

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

nei use

Please provide the following information. Complete all pages of the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory can not be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) Quantity: 0 (Import permit is not required for trophies harvested in South Africa)

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and place (area, region, or ranch AND nearest city) where wildlife is to be taken from the wild: Tanzania's Selous Reserve
   b. Date wildlife is to be hunted: Nov. 2 - 24, 2012
   c. Description of the trophy and/or parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn): Leopard = full body skin with claws, skull, teeth. Elephant = 2 tusks, 2 ears, 4 feet, 1 trunk, tail with ha
3. **IF THE ANIMAL IS DEAD**, please enter the following: full body skin, four teeth
   a. Country and place (area, region, or ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):
   b. Date wildlife was hunted:
   c. Description and size of the trophy and/or parts (e.g., skin, skull, shoulder mount, life size mount, claws, horn):
   d. The current location of the trophy (address and country):
4. **Complete name and address** of overseas person or business shipping the trophy to you (this name will appear on the face of the permit). If you are applying to import a trophy from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit.

Dear Ms. Hammond Rondeau:

On 04/12/2013, you were notified, and requested to provide additional information in regard to your application PRT- 88593A. In that request, you were informed that you needed to respond within 45 days or your application would be abandoned. Since we have not received the requested information, we have abandoned your application, and your application has been administratively closed.

If, in the future, you wish to pursue the activity for which you originally applied, you will need to submit a new application, along with any appropriate fees, to this office. Please be aware that in most cases, we will not "transfer" information from your old application to a new application. All relevant information would need to be supplied at the time a new application is submitted.

If we can be of assistance, you may contact our office at 703-358-2104 or fax 703-358-2281.

Sincerely,

Division of Management Authority

MEMORANDUM

To: Chief, Division of Management Authority

From: Chief, Division of Scientific Authority Rosemarie Gnam

Subject: General Advice on Importation of Sport-hunted Trophies of African Elephants from Tanzania for the Calendar Year 2012

This responds to your request for a finding as required under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) on various applications for the importation of sport-hunted trophies of African elephants (*Loxodonta africana*) from the United Republic of Tanzania (Tanzania) for calendar year 2012.

Please be advised that, with the information currently available, we are able to find that the importation of sport-hunted trophies of African elephants from Tanzania will be for purposes that are not detrimental to the survival of the species. This General Advice applies only to sport-hunted trophies of African elephants that were lawfully taken in Tanzania during calendar year 2012 (i.e., January 1, 2012, through December 31, 2012), provided that they are to be imported by the persons who hunted them for personal use or personal display.

If new information becomes available during 2012 that suggests that this General Advice is no longer valid, it will be suspended and reconsidered by the Division of Scientific Authority. If, after reconsideration, the Division of Scientific Authority believes that the General Advice is no longer valid, we will issue a new General Advice or require that subsequent permit applications be considered on a case-by-case basis.

BASIS FOR ADVICE:

A significant amount of information relevant to this General Advice was made available at the Fifteenth Meeting of the CITES Conference of the Parties (CoP15), including Tanzania's proposal to transfer its population of African elephants from Appendix I to Appendix II (CoP15 Prop. 4 (Rev. 1)), in addition to the Report of the Panel of Experts on Tanzania's proposal (CoP15 Doc. 68, Annex 6a). Much of the information used in making the current finding was derived from these sources, as noted below.

In addition, since CoP15, a significant amount of new information relevant to this issue has become available, including:

TAKE PRIDE IN AMERICA

ADDRESS ONLY THE DIRECTOR
FISH AND WILDLIFE SERVICE

FISH AND WILDLIFE SERVICE
WASHINGTON, D.C. 20240

JUN 10 1982

Memorandum

To: Chief, Federal Wildlife Permit Office

From: Chief, Office of the Scientific Authority

Subject: Importation of Leopard Trophies

The Scientific Authority advises the Management Authority that the importation of sport-hunted leopard (Panthera pardus) trophies taken in the following countries will be for purposes that are not detrimental to the survival of the species involved: Botswana, South Africa (Transvaal only), Tanzania, Zambia, and Zimbabwe. This advice applies to all leopard trophies lawfully taken in these countries on or after July 1, 1975, provided they are to be imported by the persons who hunted them for personal use or display.

Basis for Advice:

1. The factors that were considered in developing advice on leopard trophy imports are set forth in an attachment to our memorandum of March 25, 1982 (copy attached). Advice was developed in accordance with a resolution of the Parties on this subject (Conf. 2.11).

2. Each of the five countries mentioned above: (a) has laws under which the regulated sport-hunting of leopards is allowed, (b) limits the quantity, or spatial or seasonal distribution of the take of leopards, (c) bases these limits on the goal of managing leopards to sustain their populations, (d) maintains a licensing system for persons who take or process leopards (except in South Africa), and (e) implements a permitting system to regulate trade in accordance with CITES.

3. Our advice is based on a comprehensive review of the best available information on the status and management of the leopard in each of the 18 countries where it is classified as a Threatened species under the U.S. Endangered Species Act of 1973. We have information that sport-hunting of leopards is not permitted in 9 of these countries: Angola, Burundi, Gabon, Kenya, Lesotho, Malawi, Rwanda, Swaziland, and Uganda. We do not now have enough information to advise on Namibia. The available information indicates that it would not be appropriate to allow leopard trophy imports from Congo, Mozambique, or Zaire.

4. In the case of those countries not presently allowing the sport-hunting of leopards, we do not find it appropriate to advise in favor of importing specimens that were taken prior to a hunting ban. Circumstances that led to such bans were operating against the conservation of leopards in those countries. A detailed account of such circumstances in Kenya is provided by Patrick Hamilton's 1981 report to the Service on the status of the leopard and cheetah in that country.

5. We will continue to review information on the leopard, and may amend this advice as necessary. Please send us a copy of each permit issued under this advice, so that we can monitor the number of trophies imported from each country.

Memorandum

MAY 6 1997

To: The File

From: Chief, Branch of Permits

Subject: Enhancement Finding for African Elephants Taken as Sport-hunted Trophies in Tanzania

The African elephant (Loxodonta africana) is listed as threatened under the U.S. Endangered Species Act with a special rule at 50 CFR 17.40(e). The special rule sets forth requirements for the import of sport-hunted trophies, including marking requirements for ivory. Under paragraph 17.40(e)(3)(iii)(C), the Service must make a finding that the killing of the elephant whose trophy is intended for import would enhance the survival of the species.

Based on available information, the OMA believes that Tanzania is effectively conserving and managing the elephant population throughout the country and finds that the import of sport-hunted elephant trophies from Tanzania enhances the survival of the species. This finding applies to all African elephant trophies lawfully taken in Tanzania, provided they are imported by the person who hunted them for personal use.

Basis for Enhancement Finding:

Population Status: Aerial surveys of elephant populations have been undertaken by the Tanzania Wildlife Conservation Monitoring (TWCM) unit at two- to three-year intervals to monitor population trends, distribution, and recovery. Ground survey techniques have also been incorporated. They involve scientists and field staff undertaking routine monitoring duties during law enforcement patrols to determine population trends, distribution, and age and sex ratios of key populations.

Tanzania has the largest elephant population of any range state. In the early 1970's, the population was estimated at 365,000 elephants. By 1991, a population survey conducted by TWCM showed the population had dropped to approximately 57,334 elephants. This drop was primarily a result of extensive poaching which occurred during the 1970's and 1980's. A secondary factor was a reduction in habitat due to expanding human populations. The current estimates available indicate the population in Tanzania ranges from a low of 87,842 to a high of about 100,000 elephants.

- Tanzania National Elephant Management Plan 2010-2015 (TAWIRI 2012);
- The Wildlife Conservation Act, 2009 (Government of the United Republic of Tanzania 2009a);
- The Wildlife Conservation Act, 2009 (Act Supplement No. 5; 20th March, 2009; Government of the United Republic of Tanzania 2009b);
- The Wildlife Conservation (Tourist Hunting) Regulations, 2010 (Subsidiary Legislation Supplement No. 25; 2nd July, 2010; Government of the United Republic of Tanzania 2010);
- Third African Elephant Meeting (1-3 November 2010; Gigiri, Kenya; various documents); and
- Documents from the 62nd Meeting of the CITES Standing Committee (Geneva 2012).

Much of the information used in making the current finding was derived from these sources, as noted below, as well as previously cited information (see AOSA106; dated July 23, 2010; [Division of Scientific Authority 2010]).

Conservation and Management

1. African elephants are widely distributed throughout Tanzania, covering 49% of the country's land area. About 37% of the elephant's range in that country is in protected areas (PA). This proportion of protected range is relatively high compared to other African elephant range countries (Blanc *et al.* 2007). These protected areas comprise 26% of the country's land area within six ecosystems throughout the country, including: Tarangire-Manyara, Serengeti, Selous-Mikumi, Ruaha-Rungwa, Katavi-Rukwa, and Moyowosi-Kigosi. The network of PAs includes 15 National Parks (NP) (4% of the country's land surface), Ngorongoro Conservation Area (1%), 28 Game Reserves (GR) (14%), and 33 Game Controlled Areas (GCA) and/or Wildlife Management Areas (WMA) (5%). Some of these areas were designated as recently as 2005 (CoP15 Doc. 68, Annex 6a [page 1]).

2. In Tanzania, the only consumptive use of African elephants is sport hunting [CoP15 Prop. 4 (Rev. 1)], which is covered by The Wildlife Conservation (Tourist Hunting) Regulations, 2010 (Government of the United Republic of Tanzania 2010). These regulations control hunting by concession area, season, minimum trophy sizes (18 kg and 160 cm per tusk), annual quotas, post-hunt reporting, trophy registration, marking, and export requirements [CoP15 Doc. 68 Annex 6a [page 11]; Part V, Regulation 24.-(5)(b)].

3. The trophy quota for African elephants is distributed among approximately 150 hunting concessions/blocks [Ministry of Natural Resources and Tourism (United Republic of Tanzania), in litt., 2008] with the number of trophy permits allotted to each concession determined by elephant survey information (Ministry of Natural Resources and Tourism, in litt., 2005).

4. According to the Ministry of Natural Resources and Tourism (in litt., 2008), 25% of the revenue accrued from the sport hunting of elephants goes to the conservation and protection of

African elephants and other wildlife species through the Tanzania Wildlife Protection Fund (TWPF). In addition, 25% of the game fees received from hunters is given to the local communities in the areas where the sport hunting took place. Apart from being the source of revenue to local communities, sport hunting plays an important role in creating employment for the members of the local communities, for example, as trackers, skinners, tent and mess attendants, and guards (Ministry of Natural Resources and Tourism, in litt., 2008). The Ministry of Natural Resources and Tourism (in litt., 2008) also reported that the sport hunting program assisted in curbing illegal harvesting and developing infrastructure such as roads, hospitals, and schools, as well as creating a market for local artwork.

5. The 1998 Wildlife Policy of the United Republic of Tanzania was revised in 2007 and provides guidelines for the management of African elephants through the development, review, and updating of specific management plans (CoP15 Doc. 68, Annex 6a [page 4]).

6. This past year, Tanzania published its country-level strategy and action plan, the "Tanzania National Elephant Management Plan 2010-2015." This plan provides updated information on several biological and ecological topics, including: distribution and range, abundance, population trends and demography, elephant corridors, and human-elephant conflicts. It identifies nine different strategic objectives, as well as numerous specific objectives and their associated targets, actions, timelines, actors, and indicators. The strategic objectives include: Human-Elephant Conflict, Elephant Corridors, Law Enforcement, Benefits and Sustainable Utilization, Ivory Stockpile and Management System, Research and Monitoring, Elephant Health and Welfare, Cross-border Cooperation, and Elephant Information Management (TAWIRI 2012).

Population Status and Trends

7. In 2006, the Tanzania Wildlife Research Institute [TAWIRI 2007 (cited in CoP15 Doc. 68, Annex 6a [page 1])] estimated the African elephant populations of Tanzania at 139,915 ± 12,338 (SE) animals based on census surveys covering 227,328 km^2 conducted using both total and sample counts. According to the Panel of Experts, this estimate was not significantly different from that of 111,475 ± 18,728 (95% CL) elephants estimated in 2000-2003. The Panel of Experts noted that the 2006 estimate did not include 2,873 additional elephants from areas not formally surveyed, which provided a country-wide "best estimate" of 142,788 ± 12,405 (SE) elephants in 2006 (CoP15 Doc. 68, Annex 6a [page 1]). In 2006, according to the African Elephant Status Report (Blanc *et al.*, 2007), the "definite" category estimate was 108,816 elephants, in addition to 27,937 "probable," 29,350 "possible," and 900 "speculative" category estimates.

8. In 2009, a similar survey covering 229,318 km^2 across the same six ecosystems produced a total population estimate of 105,439 ± 6,080 (SE) African elephants [TAWIRI 2010a (cited in CoP15 Doc. 68, Annex 6a)]. A "best estimate," which included an additional 3,583 elephants, provided a country-wide estimate of 109,022 ± 6,135 (SE) elephants in 2009. The Panel of

Experts noted that these results suggested a significant decline compared to the 2006 estimate of 142,788 elephants and that the decline could be attributed largely to a downward population trend recorded in the Selous-Mikumi ecosystem (CoP15 Doc. 68, Annex 6a [page 1]); however, Tanzania later clarified that methodological issues during the 2006 survey is believed to have resulted in an overestimate, and therefore, the two years' results cannot be compared due to different study techniques. Although a survey was also conducted in 2011, the final survey report is not yet available (SC62 Inf. 1).

9. Demographic parameters were calculated between 2009 – 2010 from 2,182 African elephants from six major elephant populations in Tarangire, Serengeti, Ruaha-Rungwa, Selous, Katavi-Rukwa, and Ugalla (TAWIRI 2012). This demographic survey of African elephants revealed that the proportion of the population < 5 years of age varied from 41% in Tarangire to 25% in Ugalla River Game Reserve, with values above 30% (Tarangire, Selous, Serengeti, and Ruaha-Rungwa). These results were indicative of good to high growth rates. The Panel of Experts, citing Foley and Faust (2010), further pointed out that Tarangire had a growth rate of > 6% and was one of the highest growth rates ever recorded for an African elephant population. It was noted that those populations with the proportion of their herds < 5 years of age below 30% (Katavi and Ugalla Game Reserve), which is indicative of low recruitment and growth rates, suggested one or more population stressors, such as higher infant mortality or increased stress associated with human-elephant conflict or illegal activity (i.e., poaching) (CoP15 Doc. 68, Annex 6a [pages 1-2]).

10. The Panel of Experts concluded that while estimates at that time suggested that the Tanzanian African elephant populations were stable or possibly decreasing, elephant populations still remained large (> 100,000 individuals) and were demographically healthy. The Panel of Experts noted that the populations of African elephants were geographically widespread across the country and occupied diverse ecosystems, and that a high proportion of the populations (> 80% individuals) occupied protected areas. In the overall opinion of the Panel of Experts, the African elephant populations in Tanzania were viable at the time of the analysis (CoP15 Doc. 68, Annex 6a [page 2]).

11. The Panel of Experts, however, raised concerns about the future mobility of the African elephant populations in Tanzania. They noted, for example, that associated human settlements were increasing in size and number around protected areas and were accompanied by increasing human-elephant conflicts. These settlements and the associated conflicts were probably the most important factors limiting the elephants' mobility and range. It was the opinion of the Panel of Experts that -- at the rates of habitat change and land conversion at the time -- the corridors that still remained in Tanzania would be converted to unsuitable habitat in less than 5 years (CoP15 Doc. 68, Annex 6a [page 4]).

12. According to Jones et al. (2009), Tanzania was working to minimize risks to African elephants, other wildlife, people, and property through improvements in spatial planning involving the identification, maintenance, and restoration of wildlife corridors. The "Tanzania

National Elephant Management Plan 2010-2015" lays out a strategic objective to restore lost corridors and to increase protection for corridors that are identified to still be in use (TAWIRI 2012).

Sustainability of Off-Take

13. In Tanzania, African elephant deaths occur as a result of several factors, including: 1) natural mortality; 2) trophy hunting; 3) problem animal control; and 4) poaching. In order to evaluate whether off-take from trophy hunting was sustainable, all losses to the African elephant population must be considered.

Legal Off-Take

14. Since 2007, the annual CITES Export Quota for the United Republic of Tanzania has been 400 tusks (sport-hunting quota of 200 elephants). During 2003-2006, the quota was 200 tusks from 100 individuals, while during 1997-2002 the quota was 100 tusks from 50 individuals. Tanzania, however, typically has not exported its full quota allotment in sport-hunted trophies or African elephant tusks. During 1997-2009, for example, annual tusk exports typically were about 40-45% of the allowed quantities and never exceeded the approved annual quota (UNEP-WCMC CITES Trade Database; available on the internet at: http://www.unep-wcmc.org/citestrade; accessed on 8 March 2010).

15. The Panel of Experts also assessed the sustainability of legal off-take from African elephant populations in Tanzania. Complete records on natural mortality for the entire country or on the killing of problem elephants were not available, but the Panel of Experts was able to estimate the level of such off-take by analyzing the data from the ivory store databases of Tanzania. Based on 21 years of data for that country, an average of 231 elephants died annually from natural mortality, while another 287 individuals died annually from elephant control measures (CoP15 Doc. 68, Annex 6a [page 5]).

16. Based a sport-hunting quota of 200 African elephants, as well as the estimates cited earlier for natural mortality and problem animal control in Tanzania, the Panel of Experts estimated that the overall legal off-take of African elephants from the several populations in that country was about 718 annually, which was 0.7% of the 2009 elephant population estimate of 109,022 individuals. Even if natural mortalities were considerably higher due, for example, to low carcass detection rates by observers in difficult terrain, the Panel of Experts believed that the legal off-take was still less than the annual population growth rate of 3-5% and, therefore, was sustainable (CoP15 Doc. 68, Annex 6a [page 14]).

17. The Panel of Experts also assessed whether the hunting of trophy-quality males in Tanzania was sustainable. According to an earlier analysis by Martin (1986), an annual harvest rate of 0.5-1.0% of the total African elephant population was sustainable. Based on the available population information, the Panel of Experts estimated that nationwide there was a potential off-take of 325 trophy-quality African elephant males (0.3% of the total population; CoP15 Doc. 68,

Annex 6a [page 14]). The Panel of Experts noted that this value of 0.3% was less than the value of 0.5-1% of total African elephant numbers and concluded that the hunting was sustainable.

Illegal Off-Take

18. According to the Panel of Experts, official poaching statistics provided by the Wildlife Division of Tanzania indicated 258 reported poaching incidents that were detected during 2005-2009, including 82 poaching incidents in 2009, the highest number poached annually during that time period. The Panel of Exports noted, however, that the total number of poaching incidents was likely underestimated given low African elephant carcass detection rates (CoP15 Doc. 68, Annex 6a [page 5]).

19. The Panel of Experts cited the following evidence that poaching has led to elephant population declines in the Selous-Mikumi ecosystem:

> *a) PIKE values collected at the Selous-Mikumi MIKE site have progressively increased between 2003 and 2009 (CITES Secretariat, 2010).*
>
> *b) Joint Wildlife Division/Selous Rhino Project aerial observations and foot patrols recorded more than a threefold increase in encounter rates of recently dead elephant carcasses between 2007 and 2008 (TAWIRI, 2010b).*
>
> *c) Tourism operators operating in the northern Selous reported to the Panel an increase in elephant (and other wildlife) poaching since 2007/8, including several incidents close to tourist camps.*
>
> *d) A significant proportion of the large seizures of ivory made in Asia in 2006 have been traced by forensic DNA work to elephants killed in the Selous-Niassa area (Wasser et al., 2009).*
>
> Note: PIKE = Proportion of illegally killed elephants

20. The Panel of Experts also pointed to evidence that the Selous-Mikumi ecosystem was a "hotspot" for African elephant poaching. They observed that the ivory that had been collected by wildlife enforcement officials at Udzungwa National Park was from confiscations. According to these officials, the confiscations consisted of illegally-sourced ivory coming out of nearby Kilombero Game Controlled Area in the Selous-Mikumi ecosystem. In addition, the highest number of tusks confiscated by field-based Wildlife Division offices originated from Morogoro and Lindi, which are adjacent to the Selous-Mikumi ecosystem (CoP15 Doc. 68, Annex 6a [page 5]).

21. Given the factors discussed above, the Panel of Experts concluded that the level of off-take at that time was not sustainable in the Selous-Mikumi ecosystem, which represents about 40% of the total African elephant population in Tanzania. They also noted, however, that legal and

illegal off-take appeared to be sustainable in the five other elephant ecosystems where the populations were stable or increasing. Expressing concern about the potential for off-take levels in the Selous-Mikumi ecosystem to have a future negative impact on the African elephant population as a whole, the Panel of Experts stated:

> *"Whilst not unequivocally substantiated, the Selous-Mikumi situation described above could affect long-term population sustainability."* .
> (CoP15 Doc. 68, Annex 6a [page 3])"

22. Based on a more recent analysis of MIKE data, the levels of illegal killing across the African elephants' range are of serious and increasing concern. Between 2009 and 2011, PIKE values remained high at the Selous-Mikumi MIKE site (SC62 Inf. 1). Moreover, a March 2012 IUCN African Elephant Specialist Group survey indicated that poaching over the last 12 months had increased in sites in Tanzania (SC62 Doc. 46.1 (Rev. 1).

23. Another concern that the Panel of Experts raised, which relates to the commitment by the Tanzania to combat poaching, was the financial mechanism by which the Wildlife Division was funded. The Wildlife Division's revenue share is paid directly to the central Treasury, and the Treasury is then supposed to distribute the budgeted monies to the Wildlife Division. The Panel of Experts raised the concern that over a 3-year period (2007-2009), the Wildlife Division had received only 63% (USD 2,634,975 per year) of its approved budget from the central Treasury. The Panel noted that given these funding limitations, the Wildlife Division would not be able to meet its needs and obligations regarding the conservation, management, and protection of African elephants. The Panel of Experts also noted, however, that between 2005 and 2009, the Tanzania Wildlife Protection Fund contributed on average a total of USD 12,894,564 annually to the Wildlife Division. According to the Panel of Experts, these funds, when combined with the Treasury allocations, should have put the Wildlife Division in a "strong position" to meet its enforcement obligations, including containment of threats to elephants in the Selous-Mikumi ecosystem (CoP15 Doc. 68, Annex 6a [page 3]). Recent African elephant poaching levels in the Selous-Mikumi ecosystem, however, suggest that enforcement may have been inadequate.

24. The Panel of Experts also noted that the National Parks and the Ngorongoro Conservation Area Authorities of Tanzania were adequately funded because they generated and retained 100% of their revenue share through park and conservation area fees (CoP15 Doc. 68, Annex 6a [page 3]).

25. Although the Panel of Experts raised concerns over the illegal killing of elephants in the Selous-Mikumi ecosystem, they also acknowledged the efforts by authorities of Tanzania to combat the increases in poaching. For example, in July 2009, a series of planning meetings led to anti-poaching patrols that were joint and cooperative, and involved rangers and scouts from the Selous Game Reserve, the Udzungwa Mountains National Park, and the Mikumi National Park. In December 2009, for example, the commander of special police operations led an anti-poaching operation, code-named "Operation Butterfly," in the Selous Game Reserve. This operation led to the arrest of 70 poachers and the recovery of elephant and hippopotamus ivory

(Midala 2010, *as cited in* TAWIRI 2012). Noting these, as well as other anti-poaching efforts by the Tanzanian authorities, the Panel of Experts stated:

> *"There is a clear indication of concern by the authorities to minimize poaching of elephant and other wildlife species. The various efforts to deploy staff and execute special anti-poaching operations in various parts of the country, particularly in the vast Selous Game Reserve, are noteworthy."*
> (CoP15 Doc. 68, Annex 6a [page 14]).

26. The Director of Wildlife of Tanzania informed the Panel of Experts that regulations were being finalized to implement The Wildlife Conservation Act, 2009, which would reportedly increase revenue retention, increase penalties up to 30 years, and provide additional powers to law enforcement personnel (CoP15 Doc. 68, Annex 6a [page 11]). Copies of those laws and regulations were provided to the U.S. Fish and Wildlife Service (Service) at a February 17, 2011, meeting with Tanzanian officials.

27. The "Tanzania National Elephant Management Plan 2010-2015" is based on several new wildlife laws and implementing regulations (TAWIRI 2012): The Wildlife Conservation Act, 2009 (Government of the United Republic of Tanzania 2009a); The Wildlife Conservation Act, 2009 (Act Supplement No. 5; 20th March, 2009; Government of the United Republic of Tanzania 2009b); and The Wildlife Conservation (Tourist Hunting) Regulations, 2010 (Subsidiary Legislation Supplement No. 25; 2nd July, 2010; Government of the United Republic of Tanzania 2010). During the February 2011, meeting, the Service received copies of these measures, but it was not clear when they would be fully implemented. For example, the Subsidiary Legislation (Supplement No. 25; 2nd July, 2010) of The Wildlife Conservation (Tourist Hunting) Regulations, 2010, in Part V, 24.-(5)(b), directs that no person shall hunt an elephant with tusks weighing below 18 kg per tusk or measuring not less that 160 cm per tusk (Government of the United Republic of Tanzania 2010). In another example, the Act Supplement (No. 5; 20th March, 2009) of The Wildlife Conservation Act, 2009, in Part IV, calls for the protection of wildlife corridors, dispersal areas, buffer zones, and migratory routes (Government of the United Republic of Tanzania 2009b). Both of these measures are critically important to the conservation of the African elephant, but it is not clear when they will become operational and backed by the force of law in Tanzania. Until the new laws are fully implemented, these African elephant conservation and management measures, while improving, are still in a transitional phase.

Conclusion

28. With the information currently available, we believe that the status of the African elephant population in Tanzania and ongoing management efforts in that country are adequate to ensure that the sport hunting of African elephants, as administered by the Government of the United Republic of Tanzania, does not adversely affect the status of the species in Tanzania.

29. Therefore, for calendar year 2012, we find that the import of sport-hunted trophies of African elephants taken in Tanzania will be for purposes that are not detrimental to the survival of the species.

CONCERNS:

Although we are able to make the current non-detriment finding, we still have concerns about the future sustainability of the total levels of off-take from the African elephant populations in Tanzania. These concerns – in part -- were also noted by the Panel of Experts (CoP15 Doc. 68, Annex 6a [pages 13-16]):

A. Efforts have been made by Tanzania to combat poaching in the Selous-Mikumi ecosystem. We also acknowledge that additional resources are now available to promote the conservation status of the African elephant in that country, including: "Tanzania National Elephant Management Plan 2010-2015" (TAWIRI 2012); The Wildlife Conservation Act, 2009 (Government of the United Republic of Tanzania 2009a); The Wildlife Conservation Act, 2009 (Act Supplement No. 5; 20th March, 2009; Government of the United Republic of Tanzania 2009b); and The Wildlife Conservation (Tourist Hunting) Regulations, 2010 (Subsidiary Legislation Supplement No. 25; 2nd July, 2010; Government of the United Republic of Tanzania 2010). The Service is interested in receiving an update on whether the management and regulatory measures mentioned above have been fully implemented, and if not, the targeted time period for full implementation of these measures. In particular, we remain concerned about the availability of future resources to combat poaching in Tanzania, especially in the Selous-Mikumi ecosystem. In this regard, we are interested in receiving updated information on recent initiatives and their effectiveness in combating poaching in Tanzania, particularly in the Selous-Mikumi ecosystem.

B. It is our understanding that the elephant population in the Selous ecosystem in Tanzania was surveyed in 2011 but that the results have not yet been available. We are interested in receiving these results as soon as they are available.

C. We note that most of the 23 known elephant corridors in Tanzania are in poor condition (TAWIRI 2012). We recognize that the "Tanzania National Elephant Management Plan 2010-2015" includes a strategic framework for increasing protection for these corridors and for restoring lost corridors and that laws and regulations are available to protect these corridors. Given the importance of protecting these corridors from ongoing threats and the risks to the African elephant populations in the future as a result of human-elephant conflict in and around these areas, we are interested in receiving updated information on Tanzania's success to date in achieving its objectives related to the protection of African elephant corridors, as laid out in the "Tanzania National Elephant Management Plan 2010-2015" (TAWIRI 2012).

D. Based on recent information obtained through the National Website of Tanzania, we understand that new procedures have been implemented regarding the allocation of tourist hunting blocks [see: Invitation For Applications For Tourist Hunting Blocks Allocation For The Period 2013 – 2018; (Made under Section 9 (2) of the Wildlife Conservation Act, Cap.283 (Tourist Hunting Regulations of 2010); http://www.tanzania.go.tz/ministriesf.html; accessed on March 9, 2011); Government of the United Republic of Tanzania 2011]. These changes deal primarily with the hunting block fees that will be charged by the government. We are interested in receiving information about these changes and how they could affect African elephant harvest quotas or off-take levels associated with the corresponding hunting blocks. Given the recent uncertainty about the total population sizes and trends of African elephant populations in the United Republic of Tanzania, especially in the Selous-Mikumi ecosystem, we will continue to monitor African elephant population survey results, as well as overall harvest quotas and off-take levels for this species in the United Republic of Tanzania.

Federal Fish and Wildlife Permit Application Form

Return to: U.S. Fish and Wildlife Service
(Enter address from pages 4 and 5 of application)

Type of Activity:
REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1 a. Last name	1 b. First name	1 c. Middle name or initial	1 d. Suffix
Rondeau	Catherine	Hammond	

2. Date of birth (mm/dd/aaaa)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b)(6)			

(b)(6)

B. Complete if applying on behalf of a business, corporation, public agency, tribe, or institution

1 a. Name of business, agency, tribe, or institution	1 b. Doing business as (dba)

2. Tax identification no.	3. Description of business, agency, tribe, or institution

4 a. Principal officer Last name	4 b. Principal officer First name	4 c. Principal officer Middle name/ initial	4 d. Suffix

5. Principal officer title	6. Primary contact

7 a. Business telephone number	7 b. Alternate telephone number	7 c. Business fax number	7 d. Business e-mail address

C. All applicants complete address information

1 a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6)

1 b. City	1 c. State	1 d. Zip code/Postal code	1 e. County/Province	1 f. Country
Leonard	MI	48367	Oakland	USA

2.a. Mailing Address (include if different than physical address, include name of contact person if applicable)
Same

2 b. City	2 c. State	2 d. Zip code/Postal code	2 e. County/Province	2 f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7**. Federal, tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits? attached
Yes ☒ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue 12US88593A/9 No ☐

3. Certification. I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b) (6)

Signature (**in blue ink**) of applicant/person responsible for permit (No photocopied or stamped signatures)

3-22-2013
Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: *Applications **must** be submitted to the office that issued the initial permit. This form cannot be used for lost or damaged permit. Lost or damaged permit must use form 3-200-66.*

NOTE 2: *If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf). If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.*

NOTE 3: *If you are renewing or amending a master file for multiple shipments or a COSE, use the appropriate form for proposed activity (form 3-200-29 for samples; 3-200-30 for circus/traveling exhibits; 3-200-33 for Artificially Propagated Plants; 3-200-39 for COSEs) (http://www.fws.gov/forms/ display.cfm?number1=200).*

1. **Permit number.** Enter the permit number to be reissued/renewed 12US88593A/9. The original permit **must** be submitted with this application.

2. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

3. **Annual Report.** If required by your permit, provide an annual report as conditioned. (Disregard if you have already submitted your annual report.)

4. **Captive-Bred Wildlife Registration (CBW):** If the location of activities has changed, attach a description and photographs or diagrams (no blueprints) of the current facilities. If a change in personnel (e.g., principal officer, curator, and primary animal care staff) has occurred, provide a brief description of their expertise in caring/handling of the species.

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification**. Complete one of the statements below and supply any additional documentation requested:

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: _____ Date: _____

   b. For **CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.
   [On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, port location.) Please sign each attached page. Also, please note that we may ask you to submit additional information.]

   Permittee's signature: (b) (6) [redacted] Date: 3-23-2013

7. Address where you wish permit mailed (if different than page 1): Same address

8. If you wish the permit to be sent to you by means other than regular mail, provide an air bill, pre-paid envelope, or billing information: n/a

9. Who should we contact if we have questions about the application? (Include name, phone number, and email):

   Catherine Hammond Rondeau
   (b)(6) [redacted]

RE: CITES permit # 12US88593A/9

Dear Sir or Madam,

Could you please reissue the attached CITES permit? I shot an elephant during the 2012 hunting season, and I am currently making arrangements to have it shipped from the hunting grounds to the United States.

I would like to change the consignee in box 4 to read:

Gerard Pasanisi Safari
PO Box 21880
Dar Es Salaam
Tanzania

I have enclosed the $50 fee.

If you have any questions, please, please call or email me.

Thank you very much,
(b) (6)
[redacted]

SPECIAL PERMIT CONDITIONS

for TANZANIAN LEOPARD AND ELEPHANT TROPHY IMPORT

MUST IMPORT THROUGH A DESIGNATED PORT AS LISTED IN CONDITION 10 OF GENERAL PERMIT CONDITIONS.

U.S. THREATENED SPECIES: TUSKS MUST BE MARKED AS PER [50 CFR 17.40(e)]. IN ACCORDANCE WITH THE AFRICAN ELEPHANT CONSERVATION ACT, RAW IVORY, INCLUDING SPORT-HUNTED TROPHIES THAT ARE WHOLLY OR PARTIALLY IVORY, MAY NOT BE RE-EXPORTED FROM THE U.S. ELEPHANT MUST NOT HAVE BEEN TAKEN FROM ANY MORATORIUM AREA INCLUDING LONGIDO CONTROLLED HUNTING AREA (CHA).

U.S. THREATENED SPECIES [50 CFR 17.40 (f)].
PERMITTEE MAY ONLY IMPORT TWO LEOPARD TROPHIES PER CALENDAR YEAR. EACH LEOPARD SKIN MUST HAVE A SELF-LOCKING TAG ATTACHED TO IT WHICH INDICATES THE STATE OF EXPORT, THE NUMBER OF THE SPECIMEN IN RELATION TO THE ANNUAL QUOTA, AND THE CALENDAR YEAR TO WHICH THE QUOTA APPLIES. THE EXPORT PERMIT (OR RE-EXPORT CERTIFICATE) MUST CONTAIN THE TAGGING INFORMATION AS OUTLINED ABOVE.

TROPHY MUST HAVE BEEN TAKEN DURING 2012 HUNTING SEASON.

<(b)(6)

Hi Shaunta,

How are you? I am hoping you can help me out.

I received a CITES permit (No. 88593A) many months ago. In March, I sent an application to have it changed because a name was wrong on it. On April 1, I received a letter stating that you had received my application. On April 12, I received a request to turn in the original permit. This was surprising as nowhere on the website or in the instructions did it say I needed to turn in the original permit. I sent it in on April 13.

I called 800-358-2104 today to find out about the revised permit and was told that it has been abandoned. I checked with the nice man to see if my email, work address, and phone numbers are correct in your system, and they are. So, I was surprised to hear that my permit was abandoned with no further communication.

I left a message on Ailteas's voice mail, and I have not heard back from her.

Could you please help me get my revised permit? I really don't have the money to pay again, when I have already paid twice.

Thank you very much,

Cathy Hammond Rondeau

Dear Sir or Madame,

I am seeking to replace the attached CITES permit for the elephant I shot in 2012 because it is expired.

I had to replace this permit once already because the consignee's name did not match exactly on the CITES & the Tanzania export permit. By the time I got the attached replacement, all the other paperwork had expired.

Neither the first permit nor this one were used in any way. The elephant tusks etc are still in storage in Tanzania.

Thank you,

Federal Fish and Wildlife Permit Application Form

Return to: U.S. Fish and Wildlife Service
(Enter address from pages 4 and 5 of application)

Type of Activity:
REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Rondeau	Catherine	Hammond	Mrs.

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6) [redacted]			

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6) [redacted]			

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
N/A	

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #, no P.O. Boxes)
(b) (6) [redacted]

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Leonard	MI	48367	Oakland	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
(b) (6) [redacted]

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country
Oakland	MI	48363	Oakland	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: 12US88593A/9 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b) (6) [redacted] 7-4-2014

Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend 13US88593A/9.

2. Submit the original permit with this application. ✓

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal. ✓

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

a. For **NO CHANGES** to original application:

I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

Permittee's signature: (b) (6) [redacted] Date: 7-14-14

b. For **CHANGES** to original application:

On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

Please note new mailing address

Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

N/A

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Catherine Hammond Rondeau
(b)(6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

CITES permit

cathy rondeau (b) (6) Tue, Aug 13, 2013 at 4:54 PM
To: "shaunta_nichols@fws.gov" <shaunta_nichols@fws.gov>, (b)(6)
(b)(6)

Hi Shaunta,

How are you? I am hoping you can help me out.

I received a CITES permit (No. 88593A) many months ago. In March, I sent an application to have it changed because a name was wrong on it. On April 1, I received a letter stating that you had received my application. On April 12, I received a request to turn in the original permit. This was surprising as nowhere on the website or in the instructions did it say I needed to turn in the original permit. I sent it in on April 13.

I called 800-358-2104 today to find out about the revised permit and was told that it has been abandoned. I checked with the nice man to see if my email, work address, and phone numbers are correct in your system, and they are. So, I was surprised to hear that my permit was abandoned with no further communication.

I left a message on Ailteas's voice mail, and I have not heard back from her.

Could you please help me get my revised permit? I really don't have the money to pay again, when I have already paid twice.

Thank you very much,

Cathy Hammond Rondeau

Sport hunted trophy permit re-issuance application.....88593A

Braxton, Ailteas <ailteas_braxton@fws.gov> Fri, Apr 12, 2013 at 12:40 PM
To: (b)(6)

Ms. Rondeau,

I am currently processing your application. Please forward the original copy of the permit to my attention as soon as possible.

I can not continue to process without this.

Thank you
Ailteas Braxton

Federal Fish and Wildlife Permit Application Form

Return to: U.S. Fish and Wildlife Service
(Enter address from pages 4 and 5 of application)

Type of Activity:
REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual			
1.a. Last name: Rondeau	1.b. First name: Catherine	1.c. Middle name or initial: Hammond	1.d. Suffix:
2. (b)(6)	3. Social Security No.: (b)(6)	4. Occupation: teacher	5. Affiliation/ Doing business as (see instructions)
6.a. Telephone number: (b)(6)	6.b. Alternate telephone number: \	6.c. Fax number: (b)(6)	6.d. E-mail address: (b)(6)

B. Complete if applying on behalf of a business, corporation, public agency, tribe, or institution			
1.a. Name of business, agency, tribe, or institution	1.b. Doing business as (dba)		
2. Tax identification no.	3. Description of business, agency, tribe, or institution		
4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix
5. Principal officer title	6. Primary contact		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information				
1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes): (b)(6)				
1.b. City: Leonard	1.c. State: MI	1.d. Zip code/Postal code: 48367	1.e. County/Province: Oakland	1.f. Country: USA
2.a. Mailing Address (include if different than physical address; include name of contact person if applicable): Same				
2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7**. Federal, tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits? attached
Yes ☒ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: 12458593A/9 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50,*** and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b) (6) — 3-22-2013

Signature (in blue ink) of applicant/person responsible for permit (NO photocopied or stamped signatures) — Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

***NOTE 1**: Applications **must** be submitted to the office that issued the initial permit. This form cannot be used for lost or damaged permit. Lost or damaged permit must use form 3-200-66.*

***NOTE 2**: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf). If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.*

***NOTE 3**: If you are renewing or amending a master file for multiple shipments or a COSE, use the appropriate form for proposed activity (form 3-200-29 for samples; 3-200-30 for circus/traveling exhibits; 3-200-33 for Artificially Propagated Plants; 3-200-39 for COSEs) (http://www.fws.gov/forms/display.cfm?number1=200).*

1. **Permit number.** Enter the permit number to be reissued/renewed 12US88593A/9. The original permit **must** be submitted with this application.

2. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

3. **Annual Report.** If required by your permit, provide an annual report as conditioned. (Disregard if you have already submitted your annual report.)

4. **Captive-Bred Wildlife Registration (CBW):** If the location of activities has changed, attach a description and photographs or diagrams (no blueprints) of the current facilities. If a change in personnel (e.g., principal officer, curator, and primary animal care staff) has occurred, provide a brief description of their expertise in caring/handling of the species.

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification**. Complete one of the statements below and supply any additional documentation requested:

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: _____ Date: _____

   b. For **CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.
   [On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, port location.) Please sign each attached page. Also, please note that we may ask you to submit additional information.]

   Permittee's signature: (b) (6) [redacted] Date: 3-23-2013

7. Address where you wish permit mailed (if different than page 1): Same address

8. If you wish the permit to be sent to you by means other than regular mail, provide an air bill, pre-paid envelope, or billing information: n/a

9. Who should we contact if we have questions about the application? (Include name, phone number, and email):

   Catherine Hammond Rondeau

RE: CITES permit # 12US88593A/9

Dear Sir or Madam,

Could you please reissue the attached CITES permit? I shot an elephant during the 2012 hunting season, and I am currently making arrangements to have it shipped from the hunting grounds to the United States.

I would like to change the consignee in box 4 to read:

Gerard Pasanisi Safari
PO Box 21880
Dar Es Salaam
Tanzania

I have enclosed the $50 fee.

If you have any questions, please, please call or email me.

Thank you very much,
(b) (6)

Memorandum

MAY 6 1997

To: The File

From: Chief, Branch of Permits

Subject: Enhancement Finding for African Elephants Taken as Sport-hunted Trophies in Tanzania

The African elephant (Loxodonta africana) is listed as threatened under the U.S. Endangered Species Act with a special rule at 50 CFR 17.40(e). The special rule sets forth requirements for the import of sport-hunted trophies, including marking requirements for ivory. Under paragraph 17.40(e)(3)(iii)(C), the Service must make a finding that the killing of the elephant whose trophy is intended for import would enhance the survival of the species.

Based on available information, the OMA believes that Tanzania is effectively conserving and managing the elephant population throughout the country and finds that the import of sport-hunted elephant trophies from Tanzania enhances the survival of the species. This finding applies to all African elephant trophies lawfully taken in Tanzania, provided they are imported by the person who hunted them for personal use.

Basis for Enhancement Finding:

Population Status: Aerial surveys of elephant populations have been undertaken by the Tanzania Wildlife Conservation Monitoring (TWCM) unit at two- to three-year intervals to monitor population trends, distribution, and recovery. Ground survey techniques have also been incorporated. They involve scientists and field staff undertaking routine monitoring duties during law enforcement patrols to determine population trends, distribution, and age and sex ratios of key populations.

Tanzania has the largest elephant population of any range state. In the early 1970's, the population was estimated at 365,000 elephants. By 1991, a population survey conducted by TWCM showed the population had dropped to approximately 57,334 elephants. This drop was primarily a result of extensive poaching which occurred during the 1970's and 1980's. A secondary factor was a reduction in habitat due to expanding human populations. The current estimates available indicate the population in Tanzania ranges from a low of 87,842 to a high of about 100,000 elephants.

ADDRESS ONLY THE DIRECTOR
FISH AND WILDLIFE SERVICE

United States Department of the Interior

FISH AND WILDLIFE SERVICE
WASHINGTON, D.C. 20240

JUN 10 1982

Memorandum

To: Chief, Federal Wildlife Permit Office

From: Chief, Office of the Scientific Authority

Subject: Importation of Leopard Trophies

The Scientific Authority advises the Management Authority that the importation of sport-hunted leopard (Panthera pardus) trophies taken in the following countries will be for purposes that are not detrimental to the survival of the species involved: Botswana, South Africa (Transvaal only), Tanzania, Zambia, and Zimbabwe. This advice applies to all leopard trophies lawfully taken in these countries on or after July 1, 1975, provided they are to be imported by the persons who hunted them for personal use or display.

Basis for Advice:

1. The factors that were considered in developing advice on leopard trophy imports are set forth in an attachment to our memorandum of March 25, 1982 (copy attached). Advice was developed in accordance with a resolution of the Parties on this subject (Conf. 2.11).

2. Each of the five countries mentioned above: (a) has laws under which the regulated sport-hunting of leopards is allowed, (b) limits the quantity, or spatial or seasonal distribution of the take of leopards, (c) bases these limits on the goal of managing leopards to sustain their populations, (d) maintains a licensing system for persons who take or process leopards (except in South Africa), and (e) implements a permitting system to regulate trade in accordance with CITES.

3. Our advice is based on a comprehensive review of the best available information on the status and management of the leopard in each of the 18 countries where it is classified as a Threatened species under the U.S. Endangered Species Act of 1973. We have information that sport-hunting of leopards is not permitted in 9 of these countries: Angola, Burundi, Gabon, Kenya, Lesotho, Malawi, Rwanda, Swaziland, and Uganda. We do not now have enough information to advise on Namibia. The available information indicates that it would not be appropriate to allow leopard trophy imports from Congo, Mozambique, or Zaire.

4. In the case of those countries not presently allowing the sport-hunting of leopards, we do not find it appropriate to advise in favor of importing specimens that were taken prior to a hunting ban. Circumstances that led to such bans were operating against the conservation of leopards in those countries. A detailed account of such circumstances in Kenya is provided by Patrick Hamilton's 1981 report to the Service on the status of the leopard and cheetah in that country.

5. We will continue to review information on the leopard, and may amend this advice as necessary. Please send us a copy of each permit issued under this advice, so that we can monitor the number of trophies imported from each country.

AUG 1 4 2012

MEMORANDUM

To: Chief, Division of Management Authority

From: Chief, Division of Scientific Authority Rosemarie Gnam

Subject: General Advice on Importation of Sport-hunted Trophies of African Elephants from Tanzania for the Calendar Year 2012

This responds to your request for a finding as required under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) on various applications for the importation of sport-hunted trophies of African elephants (*Loxodonta africana*) from the United Republic of Tanzania (Tanzania) for calendar year 2012.

Please be advised that, with the information currently available, we are able to find that the importation of sport-hunted trophies of African elephants from Tanzania will be for purposes that are not detrimental to the survival of the species. This General Advice applies only to sport-hunted trophies of African elephants that were lawfully taken in Tanzania during calendar year 2012 (i.e., January 1, 2012, through December 31, 2012), provided that they are to be imported by the persons who hunted them for personal use or personal display.

If new information becomes available during 2012 that suggests that this General Advice is no longer valid, it will be suspended and reconsidered by the Division of Scientific Authority. If, after reconsideration, the Division of Scientific Authority believes that the General Advice is no longer valid, we will issue a new General Advice or require that subsequent permit applications be considered on a case-by-case basis.

BASIS FOR ADVICE:

A significant amount of information relevant to this General Advice was made available at the Fifteenth Meeting of the CITES Conference of the Parties (CoP15), including Tanzania's proposal to transfer its population of African elephants from Appendix I to Appendix II (CoP15 Prop. 4 (Rev. 1)), in addition to the Report of the Panel of Experts on Tanzania's proposal (CoP15 Doc. 68, Annex 6a). Much of the information used in making the current finding was derived from these sources, as noted below.

In addition, since CoP15, a significant amount of new information relevant to this issue has become available, including:

TAKE PRIDE IN AMERICA

- Tanzania National Elephant Management Plan 2010-2015 (TAWIRI 2012);
- The Wildlife Conservation Act, 2009 (Government of the United Republic of Tanzania 2009a);
- The Wildlife Conservation Act, 2009 (Act Supplement No. 5; 20th March, 2009; Government of the United Republic of Tanzania 2009b);
- The Wildlife Conservation (Tourist Hunting) Regulations, 2010 (Subsidiary Legislation Supplement No. 25; 2nd July, 2010; Government of the United Republic of Tanzania 2010);
- Third African Elephant Meeting (1-3 November 2010; Gigiri, Kenya; various documents); and
- Documents from the 62nd Meeting of the CITES Standing Committee (Geneva 2012).

Much of the information used in making the current finding was derived from these sources, as noted below, as well as previously cited information (see AOSA106; dated July 23, 2010; [Division of Scientific Authority 2010]).

Conservation and Management

1. African elephants are widely distributed throughout Tanzania, covering 49% of the country's land area. About 37% of the elephant's range in that country is in protected areas (PA). This proportion of protected range is relatively high compared to other African elephant range countries (Blanc *et al.* 2007). These protected areas comprise 26% of the country's land area within six ecosystems throughout the country, including: Tarangire-Manyara, Serengeti, Selous-Mikumi, Ruaha-Rungwa, Katavi-Rukwa, and Moyowosi-Kigosi. The network of PAs includes 15 National Parks (NP) (4% of the country's land surface), Ngorongoro Conservation Area (1%), 28 Game Reserves (GR) (14%), and 33 Game Controlled Areas (GCA) and/or Wildlife Management Areas (WMA) (5%). Some of these areas were designated as recently as 2005 (CoP15 Doc. 68, Annex 6a [page 1]).

2. In Tanzania, the only consumptive use of African elephants is sport hunting [CoP15 Prop. 4 (Rev. 1)], which is covered by The Wildlife Conservation (Tourist Hunting) Regulations, 2010 (Government of the United Republic of Tanzania 2010). These regulations control hunting by concession area, season, minimum trophy sizes (18 kg and 160 cm per tusk), annual quotas, post-hunt reporting, trophy registration, marking, and export requirements [CoP15 Doc. 68 Annex 6a [page 11]; Part V, Regulation 24.-(5)(b)].

3. The trophy quota for African elephants is distributed among approximately 150 hunting concessions/blocks [Ministry of Natural Resources and Tourism (United Republic of Tanzania), in litt., 2008] with the number of trophy permits allotted to each concession determined by elephant survey information (Ministry of Natural Resources and Tourism, in litt., 2005).

4. According to the Ministry of Natural Resources and Tourism (in litt., 2008), 25% of the revenue accrued from the sport hunting of elephants goes to the conservation and protection of

African elephants and other wildlife species through the Tanzania Wildlife Protection Fund (TWPF). In addition, 25% of the game fees received from hunters is given to the local communities in the areas where the sport hunting took place. Apart from being the source of revenue to local communities, sport hunting plays an important role in creating employment for the members of the local communities, for example, as trackers, skinners, tent and mess attendants, and guards (Ministry of Natural Resources and Tourism, in litt., 2008). The Ministry of Natural Resources and Tourism (in litt., 2008) also reported that the sport hunting program assisted in curbing illegal harvesting and developing infrastructure such as roads, hospitals, and schools, as well as creating a market for local artwork.

5. The 1998 Wildlife Policy of the United Republic of Tanzania was revised in 2007 and provides guidelines for the management of African elephants through the development, review, and updating of specific management plans (CoP15 Doc. 68, Annex 6a [page 4]).

6. This past year, Tanzania published its country-level strategy and action plan, the "Tanzania National Elephant Management Plan 2010-2015." This plan provides updated information on several biological and ecological topics, including: distribution and range, abundance, population trends and demography, elephant corridors, and human-elephant conflicts. It identifies nine different strategic objectives, as well as numerous specific objectives and their associated targets, actions, timelines, actors, and indicators. The strategic objectives include: Human-Elephant Conflict, Elephant Corridors, Law Enforcement, Benefits and Sustainable Utilization, Ivory Stockpile and Management System, Research and Monitoring, Elephant Health and Welfare, Cross-border Cooperation, and Elephant Information Management (TAWIRI 2012).

Population Status and Trends

7. In 2006, the Tanzania Wildlife Research Institute [TAWIRI 2007 (cited in CoP15 Doc. 68, Annex 6a [page 1])] estimated the African elephant populations of Tanzania at 139,915 ± 12,338 (SE) animals based on census surveys covering 227,328 km^2 conducted using both total and sample counts. According to the Panel of Experts, this estimate was not significantly different from that of 111,475 ± 18,728 (95% CL) elephants estimated in 2000-2003. The Panel of Experts noted that the 2006 estimate did not include 2,873 additional elephants from areas not formally surveyed, which provided a country-wide "best estimate" of 142,788 ± 12,405 (SE) elephants in 2006 (CoP15 Doc. 68, Annex 6a [page 1]). In 2006, according to the African Elephant Status Report (Blanc *et al.*, 2007), the "definite" category estimate was 108,816 elephants, in addition to 27,937 "probable," 29,350 "possible," and 900 "speculative" category estimates.

8. In 2009, a similar survey covering 229,318 km^2 across the same six ecosystems produced a total population estimate of 105,439 ± 6,080 (SE) African elephants [TAWIRI 2010a (cited in CoP15 Doc. 68, Annex 6a)]. A "best estimate," which included an additional 3,583 elephants, provided a country-wide estimate of 109,022 ± 6,135 (SE) elephants in 2009. The Panel of

Experts noted that these results suggested a significant decline compared to the 2006 estimate of 142,788 elephants and that the decline could be attributed largely to a downward population trend recorded in the Selous-Mikumi ecosystem (CoP15 Doc. 68, Annex 6a [page 1]); however, Tanzania later clarified that methodological issues during the 2006 survey is believed to have resulted in an overestimate, and therefore, the two years' results cannot be compared due to different study techniques. Although a survey was also conducted in 2011, the final survey report is not yet available (SC62 Inf. 1).

9. Demographic parameters were calculated between 2009 – 2010 from 2,182 African elephants from six major elephant populations in Tarangire, Serengeti, Ruaha-Rungwa, Selous, Katavi-Rukwa, and Ugalla (TAWIRI 2012). This demographic survey of African elephants revealed that the proportion of the population < 5 years of age varied from 41% in Tarangire to 25% in Ugalla River Game Reserve, with values above 30% (Tarangire, Selous, Serengeti, and Ruaha-Rungwa). These results were indicative of good to high growth rates. The Panel of Experts, citing Foley and Faust (2010), further pointed out that Tarangire had a growth rate of > 6% and was one of the highest growth rates ever recorded for an African elephant population. It was noted that those populations with the proportion of their herds < 5 years of age below 30% (Katavi and Ugalla Game Reserve), which is indicative of low recruitment and growth rates, suggested one or more population stressors, such as higher infant mortality or increased stress associated with human-elephant conflict or illegal activity (i.e., poaching) (CoP15 Doc. 68, Annex 6a [pages 1-2]).

10. The Panel of Experts concluded that while estimates at that time suggested that the Tanzanian African elephant populations were stable or possibly decreasing, elephant populations still remained large (> 100,000 individuals) and were demographically healthy. The Panel of Experts noted that the populations of African elephants were geographically widespread across the country and occupied diverse ecosystems, and that a high proportion of the populations (> 80% individuals) occupied protected areas. In the overall opinion of the Panel of Experts, the African elephant populations in Tanzania were viable at the time of the analysis (CoP15 Doc. 68, Annex 6a [page 2]).

11. The Panel of Experts, however, raised concerns about the future mobility of the African elephant populations in Tanzania. They noted, for example, that associated human settlements were increasing in size and number around protected areas and were accompanied by increasing human-elephant conflicts. These settlements and the associated conflicts were probably the most important factors limiting the elephants' mobility and range. It was the opinion of the Panel of Experts that -- at the rates of habitat change and land conversion at the time -- the corridors that still remained in Tanzania would be converted to unsuitable habitat in less than 5 years (CoP15 Doc. 68, Annex 6a [page 4]).

12. According to Jones et al. (2009), Tanzania was working to minimize risks to African elephants, other wildlife, people, and property through improvements in spatial planning involving the identification, maintenance, and restoration of wildlife corridors. The "Tanzania

National Elephant Management Plan 2010-2015" lays out a strategic objective to restore lost corridors and to increase protection for corridors that are identified to still be in use (TAWIRI 2012).

Sustainability of Off-Take

13. In Tanzania, African elephant deaths occur as a result of several factors, including: 1) natural mortality; 2) trophy hunting; 3) problem animal control; and 4) poaching. In order to evaluate whether off-take from trophy hunting was sustainable, all losses to the African elephant population must be considered.

Legal Off-Take

14. Since 2007, the annual CITES Export Quota for the United Republic of Tanzania has been 400 tusks (sport-hunting quota of 200 elephants). During 2003-2006, the quota was 200 tusks from 100 individuals, while during 1997-2002 the quota was 100 tusks from 50 individuals. Tanzania, however, typically has not exported its full quota allotment in sport-hunted trophies or African elephant tusks. During 1997-2009, for example, annual tusk exports typically were about 40-45% of the allowed quantities and never exceeded the approved annual quota (UNEP-WCMC CITES Trade Database; available on the internet at: http://www.unep-wcmc.org/citestrade; accessed on 8 March 2010).

15. The Panel of Experts also assessed the sustainability of legal off-take from African elephant populations in Tanzania. Complete records on natural mortality for the entire country or on the killing of problem elephants were not available, but the Panel of Experts was able to estimate the level of such off-take by analyzing the data from the ivory store databases of Tanzania. Based on 21 years of data for that country, an average of 231 elephants died annually from natural mortality, while another 287 individuals died annually from elephant control measures (CoP15 Doc. 68, Annex 6a [page 5]).

16. Based a sport-hunting quota of 200 African elephants, as well as the estimates cited earlier for natural mortality and problem animal control in Tanzania, the Panel of Experts estimated that the overall legal off-take of African elephants from the several populations in that country was about 718 annually, which was 0.7% of the 2009 elephant population estimate of 109,022 individuals. Even if natural mortalities were considerably higher due, for example, to low carcass detection rates by observers in difficult terrain, the Panel of Experts believed that the legal off-take was still less than the annual population growth rate of 3-5% and, therefore, was sustainable (CoP15 Doc. 68, Annex 6a [page 14]).

17. The Panel of Experts also assessed whether the hunting of trophy-quality males in Tanzania was sustainable. According to an earlier analysis by Martin (1986), an annual harvest rate of 0.5-1.0% of the total African elephant population was sustainable. Based on the available population information, the Panel of Experts estimated that nationwide there was a potential off-take of 325 trophy-quality African elephant males (0.3% of the total population; CoP15 Doc. 68,

Annex 6a [page 14]). The Panel of Experts noted that this value of 0.3% was less than the value of 0.5-1% of total African elephant numbers and concluded that the hunting was sustainable.

Illegal Off-Take

18. According to the Panel of Experts, official poaching statistics provided by the Wildlife Division of Tanzania indicated 258 reported poaching incidents that were detected during 2005-2009, including 82 poaching incidents in 2009, the highest number poached annually during that time period. The Panel of Exports noted, however, that the total number of poaching incidents was likely underestimated given low African elephant carcass detection rates (CoP15 Doc. 68, Annex 6a [page 5]).

19. The Panel of Experts cited the following evidence that poaching has led to elephant population declines in the Selous-Mikumi ecosystem:

> *a) PIKE values collected at the Selous-Mikumi MIKE site have progressively increased between 2003 and 2009 (CITES Secretariat, 2010).*
>
> *b) Joint Wildlife Division/Selous Rhino Project aerial observations and foot patrols recorded more than a threefold increase in encounter rates of recently dead elephant carcasses between 2007 and 2008 (TAWIRI, 2010b).*
>
> *c) Tourism operators operating in the northern Selous reported to the Panel an increase in elephant (and other wildlife) poaching since 2007/8, including several incidents close to tourist camps.*
>
> *d) A significant proportion of the large seizures of ivory made in Asia in 2006 have been traced by forensic DNA work to elephants killed in the Selous-Niassa area (Wasser et al., 2009).*
>
> Note: PIKE = Proportion of illegally killed elephants

20. The Panel of Experts also pointed to evidence that the Selous-Mikumi ecosystem was a "hotspot" for African elephant poaching. They observed that the ivory that had been collected by wildlife enforcement officials at Udzungwa National Park was from confiscations. According to these officials, the confiscations consisted of illegally-sourced ivory coming out of nearby Kilombero Game Controlled Area in the Selous-Mikumi ecosystem. In addition, the highest number of tusks confiscated by field-based Wildlife Division offices originated from Morogoro and Lindi, which are adjacent to the Selous-Mikumi ecosystem (CoP15 Doc. 68, Annex 6a [page 5]).

21. Given the factors discussed above, the Panel of Experts concluded that the level of off-take at that time was not sustainable in the Selous-Mikumi ecosystem, which represents about 40% of the total African elephant population in Tanzania. They also noted, however, that legal and

illegal off-take appeared to be sustainable in the five other elephant ecosystems where the populations were stable or increasing. Expressing concern about the potential for off-take levels in the Selous-Mikumi ecosystem to have a future negative impact on the African elephant population as a whole, the Panel of Experts stated:

> *"Whilst not unequivocally substantiated, the Selous-Mikumi situation described above could affect long-term population sustainability."* ,
> (CoP15 Doc. 68, Annex 6a [page 3])"

22. Based on a more recent analysis of MIKE data, the levels of illegal killing across the African elephants' range are of serious and increasing concern. Between 2009 and 2011, PIKE values remained high at the Selous-Mikumi MIKE site (SC62 Inf. 1). Moreover, a March 2012 IUCN African Elephant Specialist Group survey indicated that poaching over the last 12 months had increased in sites in Tanzania (SC62 Doc. 46.1 (Rev. 1).

23. Another concern that the Panel of Experts raised, which relates to the commitment by the Tanzania to combat poaching, was the financial mechanism by which the Wildlife Division was funded. The Wildlife Division's revenue share is paid directly to the central Treasury, and the Treasury is then supposed to distribute the budgeted monies to the Wildlife Division. The Panel of Experts raised the concern that over a 3-year period (2007-2009), the Wildlife Division had received only 63% (USD 2,634,975 per year) of its approved budget from the central Treasury. The Panel noted that given these funding limitations, the Wildlife Division would not be able to meet its needs and obligations regarding the conservation, management, and protection of African elephants. The Panel of Experts also noted, however, that between 2005 and 2009, the Tanzania Wildlife Protection Fund contributed on average a total of USD 12,894,564 annually to the Wildlife Division. According to the Panel of Experts, these funds, when combined with the Treasury allocations, should have put the Wildlife Division in a "strong position" to meet its enforcement obligations, including containment of threats to elephants in the Selous-Mikumi ecosystem (CoP15 Doc. 68, Annex 6a [page 3]). Recent African elephant poaching levels in the Selous-Mikumi ecosystem, however, suggest that enforcement may have been inadequate.

24. The Panel of Experts also noted that the National Parks and the Ngorongoro Conservation Area Authorities of Tanzania were adequately funded because they generated and retained 100% of their revenue share through park and conservation area fees (CoP15 Doc. 68, Annex 6a [page 3]).

25. Although the Panel of Experts raised concerns over the illegal killing of elephants in the Selous-Mikumi ecosystem, they also acknowledged the efforts by authorities of Tanzania to combat the increases in poaching. For example, in July 2009, a series of planning meetings led to anti-poaching patrols that were joint and cooperative, and involved rangers and scouts from the Selous Game Reserve, the Udzungwa Mountains National Park, and the Mikumi National Park. In December 2009, for example, the commander of special police operations led an anti-poaching operation, code-named "Operation Butterfly," in the Selous Game Reserve. This operation led to the arrest of 70 poachers and the recovery of elephant and hippopotamus ivory

(Midala 2010, *as cited in* TAWIRI 2012). Noting these, as well as other anti-poaching efforts by the Tanzanian authorities, the Panel of Experts stated:

> *"There is a clear indication of concern by the authorities to minimize poaching of elephant and other wildlife species. The various efforts to deploy staff and execute special anti-poaching operations in various parts of the country, particularly in the vast Selous Game Reserve, are noteworthy."*
> (CoP15 Doc. 68, Annex 6a [page 14]).

26. The Director of Wildlife of Tanzania informed the Panel of Experts that regulations were being finalized to implement The Wildlife Conservation Act, 2009, which would reportedly increase revenue retention, increase penalties up to 30 years, and provide additional powers to law enforcement personnel (CoP15 Doc. 68, Annex 6a [page 11]). Copies of those laws and regulations were provided to the U.S. Fish and Wildlife Service (Service) at a February 17, 2011, meeting with Tanzanian officials.

27. The "Tanzania National Elephant Management Plan 2010-2015" is based on several new wildlife laws and implementing regulations (TAWIRI 2012): The Wildlife Conservation Act, 2009 (Government of the United Republic of Tanzania 2009a); The Wildlife Conservation Act, 2009 (Act Supplement No. 5; 20th March, 2009; Government of the United Republic of Tanzania 2009b); and The Wildlife Conservation (Tourist Hunting) Regulations, 2010 (Subsidiary Legislation Supplement No. 25; 2nd July, 2010; Government of the United Republic of Tanzania 2010). During the February 2011, meeting, the Service received copies of these measures, but it was not clear when they would be fully implemented. For example, the Subsidiary Legislation (Supplement No. 25; 2nd July, 2010) of The Wildlife Conservation (Tourist Hunting) Regulations, 2010, in Part V, 24.-(5)(b), directs that no person shall hunt an elephant with tusks weighing below 18 kg per tusk or measuring not less that 160 cm per tusk (Government of the United Republic of Tanzania 2010). In another example, the Act Supplement (No. 5; 20th March, 2009) of The Wildlife Conservation Act, 2009, in Part IV, calls for the protection of wildlife corridors, dispersal areas, buffer zones, and migratory routes (Government of the United Republic of Tanzania 2009b). Both of these measures are critically important to the conservation of the African elephant, but it is not clear when they will become operational and backed by the force of law in Tanzania. Until the new laws are fully implemented, these African elephant conservation and management measures, while improving, are still in a transitional phase.

Conclusion

28. With the information currently available, we believe that the status of the African elephant population in Tanzania and ongoing management efforts in that country are adequate to ensure that the sport hunting of African elephants, as administered by the Government of the United Republic of Tanzania, does not adversely affect the status of the species in Tanzania.

29. Therefore, for calendar year 2012, we find that the import of sport-hunted trophies of African elephants taken in Tanzania will be for purposes that are not detrimental to the survival of the species.

CONCERNS:

Although we are able to make the current non-detriment finding, we still have concerns about the future sustainability of the total levels of off-take from the African elephant populations in Tanzania. These concerns – in part -- were also noted by the Panel of Experts (CoP15 Doc. 68, Annex 6a [pages 13-16]):

A. Efforts have been made by Tanzania to combat poaching in the Selous-Mikumi ecosystem. We also acknowledge that additional resources are now available to promote the conservation status of the African elephant in that country, including: "Tanzania National Elephant Management Plan 2010-2015" (TAWIRI 2012); The Wildlife Conservation Act, 2009 (Government of the United Republic of Tanzania 2009a); The Wildlife Conservation Act, 2009 (Act Supplement No. 5; 20th March, 2009; Government of the United Republic of Tanzania 2009b); and The Wildlife Conservation (Tourist Hunting) Regulations, 2010 (Subsidiary Legislation Supplement No. 25; 2nd July, 2010; Government of the United Republic of Tanzania 2010). The Service is interested in receiving an update on whether the management and regulatory measures mentioned above have been fully implemented, and if not, the targeted time period for full implementation of these measures. In particular, we remain concerned about the availability of future resources to combat poaching in Tanzania, especially in the Selous-Mikumi ecosystem. In this regard, we are interested in receiving updated information on recent initiatives and their effectiveness in combating poaching in Tanzania, particularly in the Selous-Mikumi ecosystem.

B. It is our understanding that the elephant population in the Selous ecosystem in Tanzania was surveyed in 2011 but that the results have not yet been available. We are interested in receiving these results as soon as they are available.

C. We note that most of the 23 known elephant corridors in Tanzania are in poor condition (TAWIRI 2012). We recognize that the "Tanzania National Elephant Management Plan 2010-2015" includes a strategic framework for increasing protection for these corridors and for restoring lost corridors and that laws and regulations are available to protect these corridors. Given the importance of protecting these corridors from ongoing threats and the risks to the African elephant populations in the future as a result of human-elephant conflict in and around these areas, we are interested in receiving updated information on Tanzania's success to date in achieving its objectives related to the protection of African elephant corridors, as laid out in the "Tanzania National Elephant Management Plan 2010-2015" (TAWIRI 2012).

D. Based on recent information obtained through the National Website of Tanzania, we understand that new procedures have been implemented regarding the allocation of tourist hunting blocks [see: Invitation For Applications For Tourist Hunting Blocks Allocation For The Period 2013 – 2018; (Made under Section 9 (2) of the Wildlife Conservation Act, Cap.283 (Tourist Hunting Regulations of 2010); http://www.tanzania.go.tz/ministriesf.html; accessed on March 9, 2011); Government of the United Republic of Tanzania 2011]. These changes deal primarily with the hunting block fees that will be charged by the government. We are interested in receiving information about these changes and how they could affect African elephant harvest quotas or off-take levels associated with the corresponding hunting blocks. Given the recent uncertainty about the total population sizes and trends of African elephant populations in the United Republic of Tanzania, especially in the Selous-Mikumi ecosystem, we will continue to monitor African elephant population survey results, as well as overall harvest quotas and off-take levels for this species in the United Republic of Tanzania.

Type of Activity:
Import of Sport-hunted Trophies of
Southern African Leopard, African Elephant, and
Namibian Southern White Rhinoceros

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Rondeau	Catherine	Hammond	MRS

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b)(6)	(b)(6)	(b)(6)	

6.a. Telephone number (b)(6)

B. Complete if applying on behalf of a business, corporation, public agency or institution

1.a. Name of business, agency, or institution	1.b. Doing business as (dba)

2. Tax identification no.	3. Description of business, agency, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)
(b)(6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Leonard	MI	48367	Oakland County	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
(b)(6)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country
Oakland	MI	48363	Oakland County	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100** Federal, tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☒ If yes, list the number of the most current permit you have held ~~or that you are applying to renew/re-issue.~~ 10US25986A/9 I had and used
No ☐ a permit in 2010 for an elephant + another in 2010 for a leopard.

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best o (b) (6) he criminal penalties of 18 U.S.C. 1001.

Signature (b) (6) ures) Date of signature (mm/dd/yyyy) 9-12-2012

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please return the unused original permit. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form, (3-200-52), [www.fws.gov/forms] and return your original permit with that form. NO NO

I am requesting a new elephant a new leopard permit fo

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Please provide the following information. Complete all pages of the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory can not be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) Quantity: 0 (Import permit is not required for trophies harvested in South Africa)

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and place (area, region, or ranch AND nearest city) where wildlife is to be taken from the wild: Tanzania's Selous Reserve
   b. Date wildlife is to be hunted: Nov. 2 - 24, 2012
   c. Description of the trophy and/or parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn): Leopard = full body skin with claws, skull, teeth. Elephant = 2 tusks, 2 ears, 4 feet, 1 trunk, tail with ha
3. **IF THE ANIMAL IS DEAD**, please enter the following: full body skin, four teeth
   a. Country and place (area, region, or ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):
   b. Date wildlife was hunted:
   c. Description and size of the trophy and/or parts (e.g., skin, skull, shoulder mount, life size mount, claws, horn):
   d. The current location of the trophy (address and country):
4. **Complete name and address** of overseas person or business shipping the trophy to you (this name will appear on the face of the permit). If you are applying to import a trophy from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit.

Name: Tanganyika Wildlife Safari

Address: Uhuru Street, Plot-38, near Buguruni Police Post

City/Country: P.O. Box 21880
Buguruni Kisiwani, Dar-es-Salaam, Tazania, Eas

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license\trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application. Afri

CERTIFICATION STATEMENT

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement (disregard no. 7).

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import yonr own trophy**, please read and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

   Applicant's signature: (b) (6) Date: 9-12-12

8. Have you obtained all required local, Federal, or foreign government approval(s) to conduct the activity you propose? (Be aware that there may be other requirements necessary to conduct this activity such as a hunting license or collection permit.) Yes ☒ (provide a copy of the approval(s)) Have applied ☐ Not required ☐
   The outfitter in Tanzania is holding my hunting license on my behalf
9. Enter the U.S. port through which the [export/re-export/import] will occur. New York City
   (All wildlife, including parts and products, must be declared to and inspected by a Wildlife Inspector from the U.S. Fish and Wildlife Service Office of Law Enforcement. A list of designated ports (where an inspector is posted) is available from [illegible])

10. Address where you wish permit mailed (if different than page 1):
    (b)(6) Oakland, MI 48363, USA
    (same as on page 1)

11. If you wish the permit to be sent to you by means other than regular mail, provide an air bill, pre-paid envelope, or billing information:
    N/A

12. Who should we contact if we have questions about the application? (Include name, phone number, and email):
    Catherine Rondeau (b)(6)
    (b)(6)

Leonard, MI 48367

Dear Ms. Hammond Rondeau:

On 04/12/2013, you were notified, and requested to provide additional information in regard to your application PRT- 88593A. In that request, you were informed that you needed to respond within 45 days or your application would be abandoned. Since we have not received the requested information, we have abandoned your application, and your application has been administratively closed.

If, in the future, you wish to pursue the activity for which you originally applied, you will need to submit a new application, along with any appropriate fees, to this office. Please be aware that in most cases, we will not "transfer" information from your old application to a new application. All relevant information would need to be supplied at the time a new application is submitted.

If we can be of assistance, you may contact our office at 703-358-2104 or fax 703-358-2281.

Sincerely,

Division of Management Authority

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  (i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  (ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  (iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Import is limited to two per hunter per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: na (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: Leopard - 3-3-17 — 3-18-17
   b. Date wildlife was hunted: ELEphant - 11-7-2016 — 11-21-2016 —
   Elephant - Mangetti Park - Windhoek Namibia
   Leopard — Okakango Ptn 4 #58 — Windhoek Namibia
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

      leopard-life size mount elephant-skin,skull,tusks,shoulder mount

   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
   The Yellow Shark Holdings (pty) ltd.
   POBox 81413
   Olympia, Windhook Republic of Namibia, Namibia

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business	The Yellow Shark Holdings (pty) ltd.
Name: Address:	po box 81413
Address:	
City:	Olympia-Windhook,
State/Province:	Republic of Namiba
Country, Postal Code:	Namibia

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

   I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

   Taxidermist/Broker's signature:_____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivo[redacted] not be re-exported.

Applicant's signature: [redacted] Date: Feb. 18, 2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☒ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Paul Hardman [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit to the address on page one.**

Note 2: If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 4: Certain hunting trophies, including leopard and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

- **Complete all questions on the application.**
- **Mark questions that are not applicable with "N/A".**
- **If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.**
- **If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.**

Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

same

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

Paul Hardma[redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

a. Leopard (*Panthera pardus*) Quantity: na (Limited to the import of two per calendar year). If you wish to import a leopard taken in northern or western Africa, please use form 3-200-20.

b. Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia
Quantity: na (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use Form 3-200-20).

c. Elephant 11-7-2016 to 11-21-2016

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, Please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

b. Date wildlife is to be hunted:

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

6. **IF THE ANIMAL HAS ALREADY BEEN TAKEN**, please enter the following:

   d. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

Mangetti, Park Winhock, Namibia

   e. Date wildlife was hunted: 11-7-2016 to 11-21-2016

   f. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

Thormanlen and Cochran Nel Nelson

   g. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

The Yellow Shark Holdings (pty) ltd. PO Box 81413 Olympia-Windhook, Republic of Namibia, Namibia

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you.

   a. If you are applying to import a trophy directly from **Namibia**, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	The Yellow Shark Holdings PO Box 81413 Olympia, Republic of Namibia, Namibia
Business Name:	
Address:	
Address:	
City:	
State/Province:	
Country, Postal Code:	

CERTIFICATION STATEMENT (original signature must be provided for either 9 or 10 below)

9. **If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

10. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: [redacted] Date: 12/27/2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

11. **All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from the list of designated ports. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).**

RE: RE: Import application for Tanzania Lion Trophy, Todd Cusick

Dear Chief Cogliano:

Enclosed please find the application to import a lion trophy that will be hunted between July and October of 2019 in the Rungwa Mpera Hunting Block of Tanzania. The applicant, Todd Cusick, will be hunting with Michael Angelides of Old Nyika Safaris Ltd. Please refer to the hundreds of pages of enhancement information Conservation Force has previously submitted to DMA including the Operator Enhancement Reports for Old Nyika Safaris for the years 2016 and 2018 (copies also attached here), as well as information submitted by Tanzania authorities, outfitters, and others, in making an enhancement finding for lion trophy imports from Tanzania.

Please do not hesitate to contact us if you have questions about this permit application.

Sincerely,

John J. Jackson III

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III of the non-profit firm Conservation Force as my attorneys and legal representatives for all matters concerning my applications for a permit to import a lawfully hunted African Lion trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

I also request that the attorney, through the address for Conservation Force below, be copied with all correspondence, acknowledgements, notices and decisions concerning my application to import my trophy at the following address:

Type of Activity

IMPORT OF SPORT-HUNTED TROPHIES under Appendix I of the Convention on International Trade in Endangered Species (CITES) and/or U.S. Endangered Species Act (ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
Instructions on how to make your application complete and help avoid unnecessary delays are attached.

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
CUSICK	TODD	DENNIS	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
(b) (6)			

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)				
(b) (6)				
1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
PROVO	UTAH	84604		USA
2.a. Mailing address (include if different than physical address; include name of contact person if applicable)				
2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee--attach documentation of fee exempt status as outlined in instructions [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Expires 08/31/2020

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Conservation Force, 504-837-1233, cf@conservationforce.org

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(●) No ( ) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

PANTHERA LEO

b. Sex (if known). MALE

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

LUKWATI NORTH GAME RESERVE (1,748 square kms), CONCESSION IS IN CHUNYA DISTRICT, NEAREST CITY IS MBEYA. CHUNYA MSAMI, CHUNYA LUKWATI & PITI WEST (6,603 square kms) CONCESSIONS ARE IN CHUNYA DISTRICT. NEAREST CITY IS MBEYA. ALL LOCATED IN SOUTH WEST TANZANIA AND BORDER THE PITI AND THE RUNGWA RIVER.

b. Date wildlife is to be hunted:

BETWEEN JULY & OCTOBER 2019. SAFARI DATE TO BE FINALIZED.

c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

OLD NYIKA SAFARIS LTD.
MICHAEL ANGELIDES

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). HUNT TO TAKE PLACE IN 2019 AND PERMITS AND WILL BE PROVIDED ONCE OBTAINED AND THE HUNT IS COMPLETED.
8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	OLD NYIKA SAFARIS LTD
Business Name:	OLD NYIKA SAFARIS LTD.
Address:	P. O. BOX 4
City:	ARUSHA
State/Province:	NOT APPLICABLE
Country, Postal Code:	TANZANIA

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

COMPANY AND AREA INFORMATION HAS BEEN PROVIDED THROUGH CONSERVATION FORCE AS PER ATTACHED DOCUMENTS, MAPS AND DATA.

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

ESTIMATED LICENSE AND GOVERNMENT FEES TO BE PAID TO THE TANZANIAN GOVERNMENT - $6700. TROPHY FEE FOR THE LION THAT WILL BE PAID IF TAKEN - APPROXIMATELY $12,000. THE GOVERNMENT USES TROPHY FEES TO FUND GAME SCOUTS. THE OPERATOR APPLIES FUNDS TOWARDS COMMUNITY SUPPORT AND FUNDING OF ANTIPOACHING PATROLS BY PROVIDING A VEHICLE, FUEL FOOD RATIONS AND SUPPORTING PERSONELL.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

DONATION OF TENTS TO ANTIPOACHING PATROLS, CONTRIBUTION TOWARDS GAME SCOUT ALLOWANCES PARTAKING IN ANTI POACHING PATROLS, DONATION OF IRON ROOFING SHEETS TO THE LOCAL COMMUNITY FOR THE BUILDING OF A SCHOOL, DEMARKATING BOUNDARIES AND BUILDING BEACONS TO CLEARLY MARK THE RESERVE BOUNDARIES AND DISCOURAGE HUMAN ENCROACHMENT.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) Date: 08-01-18

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

LION HUNTING POLICY 2018

Age is the primary criteria in the selection of all hunting trophies, including lion.

The companies have a zero tolerance policy towards the shooting of young lions.

All Professional Hunters must be able to determine the approximate age of an adult male lion with a reasonable degree of accuracy. Pressure from clients or mistaken ageing are not acceptable excuses should an immature lion be harvested.

Studies of known age lion and standard aging criteria have established sufficient guidelines for field determination of whether a lion is older or younger than the 6 year legal standard.

The following points must be adhered to when hunting lion:

- 6 years of age is the recognized legal minimum for harvestable males
- Male lion must not be accompanied by a pride with cubs or sub-adult young
- Male lion must not be accompanied by a pride with lactating females, should cubs not be visible
- If the lion has a poor mane (i.e. a poor trophy) - then it must show visible signs of advanced age.
- Do not shoot marginal lion in the 5-6 year old category.
- Be careful not to take any obviously young lion even if they have fully developed manes.
- Do shoot - if you are convinced that a lion is 6 yrs + with visible signs of age - One that no one can reasonably question your decision to take it.
- A trophy lion should also pass the criteria that the majority of PH's would agree to it being harvestable.

No client is ever guaranteed to take any trophy – particularly lion.

The success rates for finding 6 year old trophy lion are notoriously low and can never be guaranteed.

The majority of recognized scientists concerned with the study of lion and sustainable lion hunting have endorsed the definition of a huntable lion as follows:

Huntable male lions are defined as those male lions whose off-take has no negative impact on the sustainability of local lion population dynamics. Research has shown that these are typically lions of 6 years of age or more that have completed their first breeding cycle. To reduce risks of infanticide, males of any age known to be heading prides with dependent cubs should not be hunted. Based on these considerations, a huntable male lion is at least six years of age and is not known to head a pride with dependent cubs.

Research models have demonstrated that selective trophy hunting does not alter wild lion population dynamics if restricted to males that meet the criteria of a huntable lion as defined above.

Please insure that you take as many clear photos of the lion as possible. These photos play a crucial role in aging lions, supplying inferior of badly taken photos will go against you in the aging process, make sure you clearly show.

Teeth – from the front, side and show the back of the canines for wear.

Face – front, side clearly show and scars.

Nose – close up and clear.

Mane - Side, front, top, chest.

Full Body – side, top, rear, in particular show any scars

Conservation Force
Operator Enhancement Questionnaire

v.5/8/18

Swarovski

1. Name of area operator: __Old Nyika Safaris _____
   a. Years in business: ____20 years_____
   b. Name of company conducting hunt: __Old Nyika Safaris _____
   2. Name of concession: Chunya Msami, Chunya Lukwati, Piti West

      Size in km^2: _6603_____
   a. Land tenure: __ Government lease _√ Community __ Private ranch __ Private conservancy
   b. Length of concession agreement: _____5 years_____ Can it be renewed? _√ Yes __ No
   c. Length of renewal, if applicable: ____5 years_____
   d. Estimated total amount received in trophy fees last year, if applicable: $124,490_____
   e. Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain: As per wildlife regulations and ACT, companies are required to contribute to anti poaching, block development and contribute a minimum of $5000 cash per concession towards community development. Each company is accessed on its contribution towards these 3
   f. Please provide the concession location and nearest city. Please attach a map or maps with the boundaries marked and showing the nearest city: Nearest City Mbeya, concession is in the district of Chunya, Tanzania (Map attached)
   g. If the concession borders a national park, please provide the park name: NA
   h. Description of general and distinctive habitat features and any water features: Miombo Forest, concession borders the seasonal Rungwa River
3. Are there any communities living in the concession? _√ Yes __ No
   a. If so, estimated number of people or villages in the concession? 12,000_____
4. Are there communities bordering this concession? √ Yes __ No
   a. If so, estimated number of people or villages around the concession? 18,000
5. Relevant game populations in the concession:[1]

Species name	Relative Abundance (dense/avg./sparse)	Est. population	3-Year trend (up/ down/ stable)	How monitored?
Elephant				No study

[1] The new FWS import permit application form asks the applicant: "9. a. Do you have any information regarding the population status or trend on the species hunted?"

Lion				All observations are recorded by GPS, as attached
Leopard				All Observations are recorded by GPS, Pilot monitoring project in progress (2nd year)
Prey species				

6. Total employment number: _____27_____

   a. Please identify the number and type of all employees:

Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters	2	1
Trackers	4-6	2-4
Anti-poaching scouts/rangers	4	2
Other anti-poaching	4	2
Cooks/housekeepers	8	7
Community coordinators	1	0
Managers	1	0
Biologists	0	0
Others: Camp Supervisor	1	0

7. Number of staff employed in the off-season: __13_____

   a. Please identify the number and type of staff that are engaged when the season is not open:

Type	Total number of this type	Number of locals/from nearby communities	When employed?
Anti-poaching staff	3	2	All year
Managers	1	0	All year
Maintenance	1	0	All year
Road opening/construction	3-6	2	May- August
Community relations personnel	1	0	All year
Others: _____			

8. Anti-poaching efforts:[2]

   a. Number of anti-poaching staff: __3_____

[2] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

b. Are anti-poaching patrols conducted during the hunting season, off-season, or both? _both___

c. Months during which anti-poaching patrols are conducted: periodic - all year___

d. Number of anti-poaching patrols per month: __14 days at a time____

e. Description of anti-poaching equipment, vehicles, etc.: __1 Toyota land Cruiser pick up

f. Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution? The company in co-ordination with Tanzania Wildlife Authority does prevention, Tanzania Wildlife Authority are solely responsible for prosecution

g. Do you offer rewards to poaching informants leading to arrest? _√ Yes __ No

h. Do you offer rewards to poaching informants upon conviction? __√ Yes __ No

i. Please describe the company's anti-poaching expenditures below. What currency are the expenditures given in? ___US$_____

Type of expense	Spending 2015	Spending 2016	Spending 2017	Remarks
Salaries for anti-poaching scouts	$5,979.75	$8,867.95	$11,814.48	
Equipment	$71.25	$133.33	$234.00	
Vehicles	$3582.61	$2,585.47	$2979.78	
Petrol/fuel	$2635.50	$2,155.42	$3,389.53	
Rewards paid	N/A	N/A	N/A	Reward scheme implemented in 2018
Other: Legal fees	$423.75	N/A	N/A	
Other: _____				
TOTALS	$12,692.86	$13,742.17	$18,417.79	

9. Anti-poaching results:

Category	2015	2016	2017	Remarks
Poaching incidents discovered	18	12	15	Camps and tracks
Elephant carcasses observed	2	0	0	
Lion carcasses observed	0	0	0	
Leopard carcasses observed	0	0	0	
Ivory poachers arrested	0	0	0	
Meat poachers arrested	0	0	0	
Other poachers arrested	2	4	6	Trespassers
Poachers convicted	unknown	unknown	unknown	Government information
Snares/gin traps collected	0	0	0	Snares/trap are not used in this region
Firearms confiscated	0	0	0	
Vehicles confiscated	0	0	0	
Bicycles confiscated	2	1	4	
Boats/nets confiscated	0	0	0	
Tusks recovered	0	0	0	

Other: Timber planks	250	5	0	

10. Community investment:[3]

a. Does the company contribute money or goods/services to local communities? √ Yes __ No

b. If so, what percentage or amount is shared, how often, and why (e.g., required by law, required by contract, voluntary contribution)? $5000 cash ($5000 cash per concession yearly required by law) $2000 - $4000 voluntary contribution depending on projects and available funds

c. Does the company provide game meat to nearby communities? __ Yes √ No

d. If so, please estimate the amount and/or value of meat contributed in prior year and describe the meat contribution program: ___NA_____

e. If the company performs problem animal activities for surrounding communities (e.g., patrolling fields during the harvest, chasing away problem animals, conducting PAC hunts or PAC killings), please describe. Government can only conduct this

f. Please describe any consolation payments made to local residents damaged by game species. What currency are the expenditures reported in? _N/A_____

Species	Damage caused	Consolation paid 2015	Consolation paid 2016	Consolation paid 2017
Elephant		N/A	N/A	N/A
Lion		N/A	N/A	N/A
Leopard		N/A	N/A	N/A
Other				

g. Please describe any community projects paid for by the company. What currency are the expenditures reported in? _____US$____

Type of project	Spending 2015	Spending 2016	Spending 2017	Remarks
Education (e.g., classrooms, offices)	-	-	$324	
Education (e.g., school fees, supplies)	$357	$172.81	-	
Health (e.g., clinics, offices)	-	-	-	
Health (e.g., medical salaries, equipment)	$2100	-	-	
Community scout salaries	N/A	N/A	N/A	No such program
Other community anti-poaching	N/A	N/A	N/A	No such program

[3] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers community investment a "conservation benefit."

Local government activities	$428.25	$75	-	
Water infrastructure improvements	$2142	-	-	
Sports teams funded	-	-	-	
Construction materials donated	-	-	-	$1275
Other: cash donation	$15,000	$15,000	$15,000	
Other: Farming supplys	-	-	$88.99	
TOTALS	$20,027.25	$15,247.81	$15,412	

11. How many U.S. clients did the company have in the past three years, what percentage of the company's clients were from the U.S., and what fees did they pay?

	Hunting elephant	Hunting lion	Hunting leopard	Hunting all species
Number of U.S. clients	2015: 0 2016: 0 2017: 0	2015: 1 2016: 0 2017:1	2015:3 2016:1 2017:3	2015: 5 2016: 1 2017:3
Percentage of U.S. clients	2015: 0 2016: 0 2017: 0	2015: 50% 2016:0% 2017:33%	2015:50% 2016:50% 2017:100%	2015:55% 2016:33% 2017:50%
Trophy fees paid by U.S. clients	2015: 0 2016: 0 2017: 0	2015:$18,320 2016:$0 2017:$15,050	2015:$46,890 2016:$16,050 2017:$44,630	2015:$82,060 2016:$16,050 2017:$7,900

12. Approximate dollar amount and/or percentage of the company's revenue from U.S. clients: _____$67,580/75%

13. Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concession improvements (e.g., digging and maintaining boreholes, restocking), management activities, research, etc. Company lion hunting policy attached, Lion monitoring maps attached, 2017 anti poaching/community development and block enhancement report attached

14. I declare that the foregoing is true and correct.

Butzler, Julia <julia_butzler@fws.gov>

lions

Mike Angelides (b) (6) Wed, May 29, 2019 at 12:41 PM
To: Julia Butzler <julia_butzler@fws.gov>

Dear Julia,

Please find my written report which I send out to clients and my detailed summery of expenses.

It's only been recent that we have really had to show in detail what we do so I am still working on keeping better records, there still is a lot that we do that slips though the cracks.

This year with our successful lion permit (hopefully 2 the second will be huge because he will only book if he gets it), I want to particularly show how that a big 21 day lion safari brings in more income than a non lion hunt, successful or not, and because of that hunt we will have more income thus more to spend on community and anti poaching. So we are already looking at an increase of what we sent last year.

Please note that all the money we spend is from income after TAX, we do not get a tax write off or deductible for any contribution made, even the contribution from Dallas safari club comes in as income and TAX is deducted.

Thanks once again.

All the best
Mike

Anti-poaching and Community Development Report
June 2018 - March 2019.

Introduction

McCallum Safaris Tanzania is the marketing name for both Safari Royal and Old Nyika safaris, both companies are owned by Mike and Helen Angelides. In this report the expenditures of both companies are combined. We operate in 4 contiguous concessions in the west of Tanzania, namely Piti West Game Reserve, Chunya Lukwati, Chunya Msami and Lukwati North Game reserve.

In this report you will find a summary of our funding, expenditure and brief description of our participation in anti-poaching, area development and community assistance.

Funding

Our conservation and community efforts were funded solely by profit margins generated by tourist hunters, in 2015 we formed McCallum Safaris Custodians Conservation Program to enable Conservation Force to add us to their list of conservation projects that they support enabling donors to make a tax deductible donation.

In August 2018 August the McCallum Safaris Custodians Conservation Program were proud to receive a grant from the Dallas Safari Club Foundation of $20,000.

Anti-poaching equipment and training

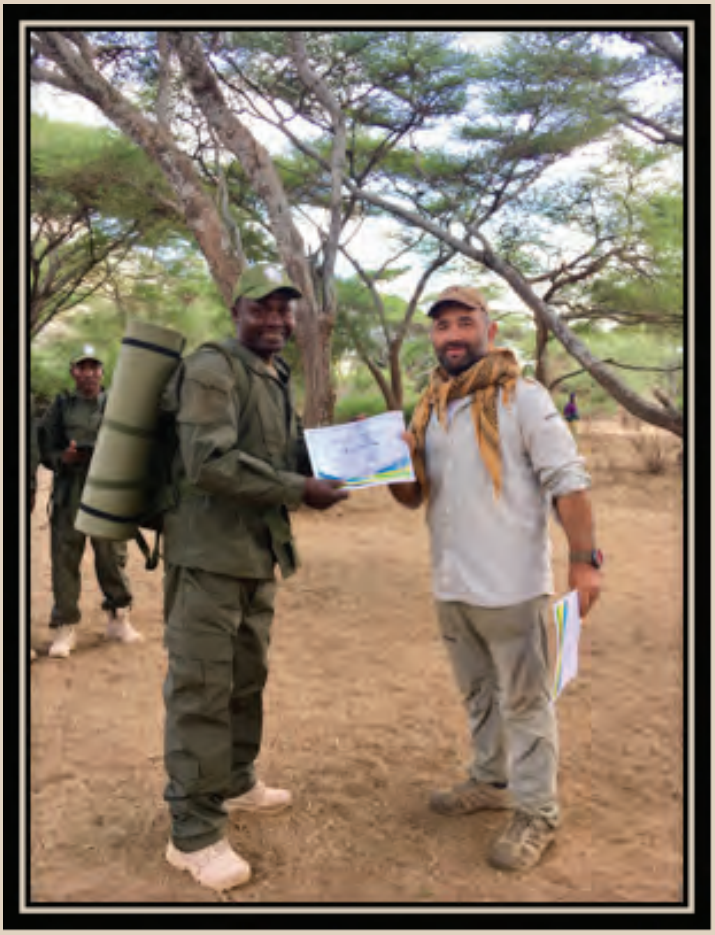
We have outfitted our Anti-poaching team leader with some new equipment and branded DSC clothing to instill pride and commitment to his work as well to assist him when on the ground. These items include;

Binoculars
Spotting scope
Camera
GPS

We have also purchased a Garmin spot trace (USD $99.99) and subscribed to a 1 Year Service Plan (USD $199.99). This will assist us to better monitor each patrols movements and have a better idea of how to plan and monitor our patrols.

We also have purchased the Spot Gen3 unit (USD - $149.99) and subscribed to a 1 Year Plan (USD -$199.99) which will enable the team leader to send an ok or distress message from anywhere on patrol. This plan will be activated when the team leader goes out on Patrol this month.

Anti poaching Training



At the end of 2018 The Spanish Wildlife Authority sponsored a new project called “The Euro Scout”. We sent two members of our anti-poaching crew to participate in the 10-day training course. Several new skills were learned including first aid, tracking and anti tracking technics, navigation, and data/evidence collection. The cost of this training was minimal to us; we hope that the Spanish Wildlife Authority will return again in 2019. We have offered to host the training in our western blocks.

Village contributions

It is mandatory to make cash contribution as Community Fees to the villages within or surrounding your hunting blocks. The amount is USD $5000 per hunting block and the District decides and advices which villages should receive this contribution. Up until 2017 we were only contributing to 2 Villages but in 2018 the district requested that we disperse the contribution to a total of 7 villages and the money is divided according to how much village land falls within or close to any particular hunting block. Our concern with this new structure is that our mandatory contribution and any additional budget allocated to direct contributions will remain the similar, therefore the villages will not get a substantial enough amount that will make a difference to them.

Villages that received cash contributions in 2018;

Gua – USD $5000
Ngwala – USD $5833
Kambikatoto – USD $5833
Mafyeko – USD $834
Mazimbo – USD $833
Mtanila – USD $833
Bitimanyanga – USD $834
Total fees community fees paid $20,000

Tangible contributions

Through dialog with our local villages, we determine what their priorities are, we also encourage them to do start a project that is achievable; we also ensure that they commit to partake in each project so as to appreciate the importance of working together. Our goal is to make villages realize that they need to work towards self-sufficiency but also understand that we are not able to commit and cover the full cost for a project and that they need to undertake projects that are realistically achievable. We expect to help the villages with a further donation of building materials for ongoing projects in 2019, inclusive of iron roofing sheets.

1. Ngwala Village local administration building.

In 2018 we delivered:
80x12 mm Iron rods for supporting walls. Cost USD $1005.29
40 x 50kg bags of cement (4480 Lbs.). Cost USD $264.55

2. Gua Village secondary school

This is an on going project that was started in 2017. As agreed, In July 2018 the village was able to fire harden enough clay bricks to commence the project, we assisted with by providing our tractor, Crew and trailer to deliver these bricks to the site, as well as transport foundation stones and sand to the building site.

We also fulfilled our commitment to supply all the roofing iron sheets for the classrooms once the building was elevated.

- Cost of delivery of fire hardened bricks and foundations rocks to the building site: USD $913
- 80 iron roofing sheets. USD $676.81

3. Gua Village - Transport of building supplies to local clinic.

We also assisted with our tractor and trailer to deliver bricks, foundation stones and sand to the building site of another building project in Gua village – a Local clinic.
The cost Delivery of fire hardened bricks and foundations rocks to the building site:
USD $611

Contributions to anti-poaching scouts and local game post

We have presently made a contribution to build the Toilet & washroom facilities at the new Ranger Game Post erected in the Lukwati / Piti Game reserve. Our contribution totaled Tshs 10,000,000/- (USD $4409.18). Building will commence in June 2019 and we have also committed to providing our tractor and crew to for use to assist with transporting bricks and rocks to the building site.

We also donated:
20 “police issue” batons to the local scouts: Cost USD $209
2 X 4 man “bow tents”: USD $1,058.20

Block development contributions

In 2017 we had begun assisting the local game department authorities to demarcate the Piti Game Reserve boundary. This is done by clearing the boundary area of trees and placing cement beacons at regular intervals. In 2018 we once again supplied our tractor, crew and trailer and with our help the authorities have completed the Southern and Eastern boundary cost: USD $913.58

We continue to open up and maintain a decent road network through out all the 4 areas allocated to our companies. This is of course important for hunting activities but is also crucial for our anti-poaching patrols. This rainy season we saw the need for an all weather circuit around the blocks. Patrolling during the rainy season, (which is also the closed season), is quite simply too hard on the vehicles and maintenance costs sky rocketed and the vehicles wear and tear was too extreme life. We are going to look into purchasing a
specialized possibly tracked vehicle for patrolling during the rains.

Poaching observations

Fishing and fishing camps

Fishing and fishing camps remain a problem on the Rungwa River. Licenses are issued for the area on the other side of the river, so the fishermen are mostly legal but numbers are not monitored. The project manager for our area has taken his complaint to the respective District commissioner citing section 74 of the Wildlife ACT . “Any human activity, settlement or any other development that will adversely affect wildlife shall not be permitted within five hundred meters from the wildlife protected area borderline without the permission of the Director”.

We have agreed to supply 2 tents this year to create a semi permanent game post on the river.

Poaching.

There is little if any activity of meat poaching during the hunting season (July-October). Our main concern during this time frame is wood cutters and honey gatherers who come in on foot across the Piti river boundary on day trips. The block adjacent to us across the Piti has been vacant since 2014 and the human encroachment has been immense and is devastating that particular area and now putting pressure on our area. The destruction caused by honey hunters is of particular concern, as they will cut down a whole tree for a little bit of honey.

In 2018 we only recorded two elephant carcasses, the first was a young female. The probability was that it was wounded and lost by a poacher, the Ivory was recovered, the second was a bull and the ivory had been hacked out.

During the rains (closed season) is when we see the most activity, but as mentioned previously in this report it is very difficult to traverse the area at this time. Between December 2018 and March 2019 team was able to capture 5 poachers and destroy several camps.

Income/expense Summery

Income

- Dallas Safari Club Foundation Grant $20,000
- Private Donations $1000

Expense Summery

DEVELOPMENT OF HUNTING AREAS:

SN	PARTICULARS	TSHS.	US$
1	Labour expenses for road building	T Sh13,499,955.00	$5,952.36
2	Vehicle expenses for road building	T Sh23,542,381.74	$10,380.24

How to Contribute

We would really appreciate any support of contribution. We are proud to work with and have the support of Conservation Force who provide us with a tax-deductible channel for any contribution.

- Conservation Force is a 501(c) (3) non-profit organization and all donations are tax deductible. We are in great need of your support, if you would like to donate to the Custodians Conservation Project please send donations to Conservation Force:

- Postal Contributions: Conservation Force P.O Box 278 Metairie, LA 70004-0278
- Internet Contributions: www.conservationforce.org/donate

- Ref: Custodians Conservation Program

For the future

We are currently at our limit of what we are financially able to contribute and have already had to make the difficult decision to cut tangible community contributions so we hope to continue our partnership with DSC and DSCF who have enable us to almost double our anti-poaching efforts in the last 9 months. We also hope to and keep better records and reports to hopefully gain more contributions to grow our program to a level where it can expand to the vacant areas that currently border us.

We will work on preparing a rainy season road circuit and research how and with what vehicle we can effectively patrol during the rains. Maintaining a presence is a huge deterrent and has been very effective so far.

This dry season of particular concern is our river boundary, we have committed to supplying at least 2 tents to set up a semi permanent game post close to the river.

Now that we have 7 villages to work with we would like to employ a community officer do keep in contact with each of them, with this our current team leader Rodrick will concentrate exclusively on anti-poaching activities.

As mentioned it is going to be difficult to spread a decent amount of money across 7 villages, we already anticipate that past villages will still expect past levels of tangible contributions. No doubt Gua will want more funding to compete their secondary school and Ngwala will want continued help with the completion of their administration building.

Yours in conservation.

GENERAL ASSESSMENT IN HUNTING PERFORMANCE

2018

Please note that we are operating at less than 50% of our capability in all areas, this is due to many things, the lion import suspension probably the prime reason.

Utilization of less than 40% results in additional penalties issued by the

Appendix 'A'

Mr. Cusick,

I have begun the process of reviewing your permit application to import one lion taken from Tanzania in the 2019 season. Please address the following:

1/ we have on file an application submitted in January of 2017 for a lion hunted in 2017. Please verify that you would like to withdraw that application.

2/ Can you please provide the estimated date of the hunt?

3/ Can you please verify the location of the hunt?

Your application has been attached to this email.

Thank you,

--
Julia Butzler, Biologist
Branch of Permits
Division of Management Authority
U.S. Fish and Wildlife Service
(703) 358-1988

Please respond to any requests for information or documentation within 45 days from the date of this message; if not received within 45 days, your application will be considered incomplete and will be placed in our inactive files and we will not complete your request for a permit.

To: Julia Butzler <julia_butzler@fws.gov>
Cc: "John J. Jackson, III" <jjj@conservationforce.org>, Mike Angelides [redacted]

1) Yes, I withdraw the 2017 application.

2) October - November 2019

3) Lukwati Game Reserve, Chunya District Tanzania, Chunya Msami, Chunya Lukwati and Piti West Concessions

Thank you!

Todd Cusick

Enhancement Finding
Applicant: Todd Dennis Cusick

I. Summary:

Mr. Cusick submitted an application on August 23, 2018, for the importation of one male African lion (*Panthera leo melanochaita*) from Tanzania for the purpose of enhancing the propagation or survival of the species in the wild. This subspecies of African lion is listed in Appendix II of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) and is listed as threatened under the U.S. Endangered Species Act (Act or ESA). As such, export of a hunted African lion from Tanzania requires prior issuance of a CITES export permit from the CITES Management Authority of Tanzania, and import into the United States requires prior issuance of an ESA import permit by the U.S. Fish and Wildlife Service (Service). The Service may authorize the import of a sport-hunted lion trophy from Tanzania, but only if it first makes a finding that permitting import of a trophy would enhance the propagation or survival of the species in the wild.

After evaluating the available information submitted with the application, information provided by the government of Tanzania, and other information available to the Service, the Service has determined that the importation of the sport-hunted trophy to be taken during October and November 2019, from the Lukwati Game Reserve, Chunya District, Chunya Msami, Chunya Lukwati and Piti West Concessions in Tanzania **meets** the enhancement criteria under 50 CFR 17.32.

The Service recognizes that legal, well-regulated hunting as part of a sound management program can benefit the conservation of certain species by providing incentives to local communities to conserve the species and by putting much-needed revenue back into conservation. We consider whether the management program is actively addressing the current and longer term threats to the subspecies based on sound scientific principles. A management program for a species such as *P. l. melanochaita* is expected to address, at a minimum, an evaluation of population trends; the biological needs of the species; quotas; management practices; legal protection; local community involvement; and use of hunting fees for conservation. In evaluating whether the importation of Mr. Cusick's trophy of *P. l. melanochaita* would be authorized in accordance with our permit issuance criteria, we were particularly interested in examining how Tanzania's management program for lions addresses the three main threats that have led to the decline of the subspecies: habitat loss, loss of prey base, and human-lion conflict. We evaluated how, and how well, the hunting component of the management program addresses these threats by looking at whether hunting concessions/tracts are managed to ensure the long-term survival of the lion, its prey base, and habitat. We also considered how the participation of a U.S. hunter, in this case, Mr. Cusick, contributes to the overall management of lions within a country.

We work closely with the range countries and interested parties to obtain relevant information. The government of Tanzania has provided a series of documents, including Tanzania's "enhancement"[1] and non-detriment finding for lions (TAWA, 2016). These documents, verbal updates/presentations at the 16th Annual African Wildlife Consultative Forum (Uganda, November 2018), information received in Mr. Cusick's application, the Tanzania Wildlife Research Institute (TAWIRI), open sources (e.g., IUCN, published literature), and a field mission in November, 2018, were the basis of this finding.

II. U.S. Governance of the Lion:

On December 23, 2015, the Service published in the Federal Register a final rule that, effective January 22, 2016, listed the lion subspecies *P. l. melanochaita* (southern and eastern Africa) as a threatened species under the Act (USFWS 2015; 80 Fed. Reg. 79999); this species is regulated under a species-specific 4(d) rule of the Act, which is set forth at 50 CFR17.40(r).

Where a rule is promulgated for a threatened species under Section 4(d) of the Act, the rule contains the applicable prohibitions and exceptions for the specific species (50 CFR 17.31(c)). Under the 4(d) rule for *P. l. melanochaita* (50 CFR 17.40(r)), all of the prohibitions of 50 CFR 17.31 and permit provisions of 50 CFR 17.32 apply. The prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to "take" (which includes harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or to attempt any of these) within the United States or upon the high seas; import or export; deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever, in the course of a commercial activity; or sell or offer for sale in interstate or foreign commerce any lion specimens. It also is illegal to possess, sell, deliver, carry, transport, or ship any such wildlife that has been taken in violation of the ESA. Permits may be issued to carry out these otherwise prohibited activities, including importation, under certain circumstances (e.g., scientific purposes or activities that enhance the propagation or survival of the species), in accordance with the Service's regulations at 50 CFR 17.32. Accordingly, the Service may authorize the import of a sport-hunted lion trophy from Tanzania, but only if it first makes a finding that permitting the import of a trophy would enhance the survival of the species in the wild (USFWS 2015; 80 Fed. Reg. 79999); 50 CFR 17.40(r)(2); 50 CFR 17.32(a)).

As with all permit applications submitted under 50 CFR 17.32, the individual requesting authorization to import a sport-hunted trophy of *P. l. melanochaita* bears the burden of providing information in their application showing that the activity meets the issuance criteria under 50 CFR 17.32. However, in some cases, such as for import of sport-hunted trophies, it is not always possible for the applicant to provide all of the necessary information needed by the Service to make a positive determination under the Act to authorize the activity. In such cases, the Service may consult with the range country and other interested parties to the extent practicable to obtain necessary information. The Service has made the required enhancement finding based on this individual application to import a sport-hunted trophy of *P. l. melanochaita*; however as detailed below, relevant information obtained for the country as a whole has been considered, as it contains information pertinent to the Service's evaluation as required by the 4(d) rule for *P. l. melanochaita*.

[1] Note, although "enhancement finding," is referenced in the document's title, the document is not, nor does Tanzania produce, an enhancement finding under the U.S. Endangered Species Act.

A. General ESA permitting requirements

As we explained when finalizing the 4(d) rule, our threatened species permitting regulations provide issuance criteria for threatened species permits [50 CFR 17.32(a)(2)], but do not specify what would constitute the enhancement of propagation or survival with regard to authorizing the import of parts or products of *P. l. melanochaita*, including sport-hunted trophies. Therefore, when making a determination of whether an otherwise prohibited activity enhances the propagation or survival of *P. l. melanochaita,* the Service examines the overall conservation and management of the population in the country where the specimen originated and whether that management of the population addresses the threats to the subspecies (*i.e.,* that it is based on sound scientific principles and that the management program is actively addressing the current and longer term threats to the subspecies). In this review, we evaluate whether the import of a sport-hunted lion trophy taken in Tanzania contributes to the overall conservation of the species by considering whether the biological, social, and economic aspects of Tanzania's lion management plan provides a net benefit to the subspecies and its ecosystem. For example, several components of a management plan by which trophy imports could meet the issuance criteria might be government incentives in place that lead to increased habitat protection for lions by private landowners and communities, and incentives provided to local communities that lead to reductions in the incursion of livestock into protected areas for lions or lead to increases in active management of livestock to reduce conflicts with lions.

The Service evaluates an application involving a *P. l. melanochaita* sport-hunted trophy in the context of enhancement of propagation or survival in accordance with our threatened species permitting regulations at 50 CFR 17.32 and issuance criteria for threatened species permits [50 CFR 17.32(a)(2)]. These include, in addition to the general permitting criteria in 50 CFR 13.21(b), the following:

> (i) Whether the purpose for which the permit is required is adequate to justify removing from the wild or otherwise changing the status of the wildlife sought to be covered by the permit;
>
> (ii) The probable direct and indirect effect that issuing the permit would have on the wild populations of the wildlife sought to be covered by the permit;
>
> (iii) Whether the permit, if issued, would in any way, directly or indirectly, conflict with any known program intended to enhance the survival probabilities of the population from which the wildlife sought to be covered by the permit was or would be removed;
>
> (iv) Whether the purpose for which the permit is required would be likely to reduce the threat of extinction facing the species of wildlife sought to be covered by the permit;
>
> (v) The opinions or views of scientists or other persons or organizations having expertise concerning the wildlife or other matters germane to the application; and
>
> (vi) Whether the expertise, facilities, or other resources available to the applicant appear adequate to successfully accomplish the objectives stated in the application.

B. IUCN guiding principles

In addition to these factors, specifically in relation to sport-hunting, in the 4(d) rulemaking for *P.l. melanochaita*, the Service explained it considers the publication, *IUCN Species Survival Commission (SSC) Guiding Principles on Trophy Hunting as a Tool for Creating Conservation Incentives* (IUCN SSC, 2012), to provide useful principles, which, considered in conjunction with our threatened species issuance criteria, will aid the Service when making an enhancement finding for importation of sport-hunted trophies of *P.l. melanochaita*. The Service has, therefore, considered these principles in conjunction with our threatened species issuance criteria in making our determination of enhancement concerning import of the sport-hunted *P. l. melanochaita* trophy that is the subject of this permit application. The IUCN document sets out guidance from experts in the field on the use of trophy hunting as a tool for "creating incentives for the conservation of species and their habitats and for the equitable sharing of the benefits of use of natural resources". It recognizes that recreational hunting, particularly trophy hunting, can contribute to biodiversity conservation and, more specifically, the conservation of the hunted species.(IUCN SSC, 2012)

The IUCN document lays out the following five guiding principles:

(a) *Biological sustainability:* The hunting program cannot contribute to the long-term decline of the hunted species. It should not alter natural selection and ecological function of the hunted species or any other species that share the habitat. The program should not inadvertently facilitate poaching or illegal trade in wildlife by acting as a cover for such illegal activities. The hunting program should also not manipulate the ecosystem or its component elements in a way that alters the native biodiversity.

(b) *Net Conservation Benefit:* The biologically sustainable hunting program should be based on laws, regulations, and scientifically based quotas, established with local input, that are transparent and periodically reviewed. The program should produce income, employment, and other benefits to create incentives for reducing the pressure on the target species. The program should create benefits for local residents to co-exist with the target species and other species. It is also imperative that the program is part of a legally recognized governance system that supports conservation.

(c) *Socio-Economic-Cultural Benefit:* A well-managed hunting program can serve as a conservation tool when it respects the local cultural values and practices. It should be accepted by most members of the community, involving and benefiting local residents in an equitable manner. The program should also adopt business practices that promote long-term economic sustainability.

(d) *Adaptive Management: Planning, Monitoring, and Reporting:* Hunting can enhance the species when it is based on appropriate resource assessments and monitoring (*e.g.,* population counts, trend data), upon which specific science-based quotas and hunting programs can be established. Resource assessments should be objective, well documented, and use the best science available. Adaptive management of quotas and programs based on the results of resource assessments and monitoring is essential. The program should monitor hunting activities to ensure

that quotas and sex/age restrictions of harvested animals are met. The program should also generate reliable documentation of its biological sustainability and conservation benefits.

(e) *Accountable and Effective Governance:* A biologically sustainable trophy-hunting program should be subject to a governance structure that clearly allocates management responsibilities. The program should account for revenues in a transparent manner and distribute net revenues to conservation and community beneficiaries according to properly agreed decisions. All necessary steps to eliminate corruption should be taken and to ensure compliance with all relevant national and international requirements and regulations by relevant bodies such as administrators, regulators and hunters.

This approach to developing enhancement findings for the importation of sport-hunted trophies of *P. l. melanochaita* is consistent with the purpose and intent of the ESA. Before the Service will authorize the importation of a sport-hunted trophy, we must determine that the trophy-hunting program is managed to ensure the long-term survival of the species. As part of this evaluation, we recognize that in many parts of the world, wildlife exists outside of protected areas and must share the same habitat and compete with humans living in these areas for space and resources. As identified in the *IUCN SSC Guiding Principle on Trophy Hunting as a Tool for Creating Conservation Incentive*, if communities that share these resources with wildlife do not perceive any benefits from the presence of wildlife, they may be less willing to tolerate the wildlife. However, under certain circumstances, trophy hunting can address this problem by making wildlife more valuable to the local communities, thus encouraging community support for managing and conserving the hunted species, as well as other species.

III. Basis for Finding:

As explained above, any person wishing to conduct an otherwise prohibited activity, including import of *P. l. melanochaita* specimens, must first obtain a permit as required by 50 CFR 17.32; issuance of an import permit for a sport-hunted trophy of *P. l. melanochaita* requires an enhancement finding.

The Service has made the required enhancement finding for this import permit based on this individual application to import a sport-hunted trophy of *P. l. melanochaita* taken in Tanzania. Additionally, as detailed below, relevant information obtained for Tanzania as a whole, has been considered. The government of Tanzania has provided a series of documents, including Tanzania's "enhancement"[2] and non-detriment finding for lions (TAWA, 2016). These documents, verbal updates/presentations at the 16th Annual African Wildlife Consultative Forum (Uganda, November 2018), information received in Mr. Cusick's application, the TAWIRI, open sources (e.g., IUCN, published literature), and a field mission in November, 2018, were the basis of this finding.

On April 14, 2016, the Service sent a letter to Mr. Herman Keraryo, Acting Director of Wildlife for the Wildlife Division of the Ministry of Natural Resources and Tourism (MNRT), with a list

[2] Note, although "enhancement finding," is referenced in the document's title, the document is not, nor does Tanzania produce, an enhancement finding under the U.S. Endangered Species Act.

of questions that would aid the Service in evaluating the overall conservation and management of the lion population in Tanzania, and whether that management addressed the three main threats that have been identified as the reason for the decline of the species: habitat loss, loss of prey base, and human-lion conflict. Additionally, in the letter the Service referenced the *IUCN Species Survival Commission (SSC) Guiding Principles on Trophy Hunting as a Tool for Creating Conservation Incentives* (IUCN SSC, 2012), as it provides useful principles, which, when considered in conjunction with the Service's permit issuance criteria, would aid the Service in making the required enhancement findings for permitting importation of sport-hunted lion trophies. In response to our April 14, 2016 letter, the MNRT provided a series of documents, including Tanzania's "enhancement" and non-detriment finding for lions.

Upon invitation, a U.S. delegation of Service personnel visited Tanzania in November 2018 to observe the challenges and successes of conserving wildlife, including lions, in Tanzania. This trip allowed first-hand exposure to the on-the-ground implementation of policies and procedures the government has put into place to conserve lions. Detailed discussions with government officials, national experts, land managers, game officers, village leaders, and leaders in the hunting industry, as well as site visits to different models of hunting operations, served to both substantiate and elucidate information provided in documents. We determined that the status of lions and the management approach of Tanzania are substantially as presented, conferring confidence to the conclusions drawn from information provided.

IV. Governance of Wildlife in Tanzania:

In Tanzania, wildlife resources, such as lions, are protected under several Acts of Parliament, establishing the authority for all aspects of wildlife management, including law enforcement activities. The **Wildlife Conservation Act** (WCA) of 2009, which replaced the original WCA of 1974, provides the legal framework for operation of the Wildlife Division under the MNRT, including the appointment of the Director of Wildlife. The WCA provides for the establishment of a Wildlife Protection Unit granted paramilitary status to protect wildlife against unlawful utilization, and a Wildlife Authority to manage all Tanzania wildlife located outside the boundaries of the National Parks and the Ngorongoro Conservation Area. The Wildlife Authority is also responsible for meeting international obligations involving wildlife conservation. The WCA ensures the protection of natural habitat and wildlife through the establishment of a network of Protected Areas (PAs), e.g., Game Reserves, Game Controlled Areas, Wildlife Management Areas, and areas such as wildlife corridors. The **National Parks Act** (CAP 282 R.E. 2002) establishes the legal authority for the creation and management of national parks, granting powers to the Director to enable maintenance and security within national parks, as well as the responsibility for the protection of their wildlife resources. The **Ngorongoro Conservation Act** (CAP 284 R.E. 2002) provides the legal framework for the existence of the multiple land use in the Ngorongoro Conservation Area, its Management Authority under the direction of the Conservator, and the authority for its maintenance and security. The **TAWIRI Act** (CAP 260 R.E. 2002) grants powers to the Director who is responsible for research involving wildlife, and for providing this information to the Wildlife Authorities.

The responsibility for managing Tanzania's wildlife currently falls primarily under four institutions. The **Tanzania Wildlife Research Institute** (TAWIRI) is responsible for conducting and coordinating wildlife research in Tanzania. It functions as the scientific authority for wildlife conservation and management, and the CITES Scientific Authority for Tanzania. The **Tanzania National Parks Authority** (TANAPA) is responsible for managing 15 National Parks with a

total area of 50,872 sq.km. In the national parks, only non-consumptive utilization (tourism game viewing) of wildlife resources is allowed. **Ngorongoro Conservation Area Authority** (NCAA) is responsible for management of only one area, the Ngorongoro Conservation Area, a protected area of 8,300 km^2. It is the only multiple land use wildlife area in Tanzania in which the consumptive utilization of wildlife is not permitted. Both TANAPA and NCAA are parastatal – public organizations, but not directly run by the government; all revenue is kept by the organizations for use in management of these areas.

The Wildlife Division has historically been responsible for the country's wildlife resources located outside the jurisdiction of the Ngorongoro Conservation Area and Tanzania National Parks. However, in response to concerns over questionable management practices and lack of adequate funding for the Wildlife Division to successfully manage wildlife resources, the **Tanzania Wildlife Management Authority** (TAWA) was established in 2014[3]. Also a parastatal organization, TAWA operates with significant autonomy and retains all revenue generated from hunting[4]. TAWA became operational in July 2016, and has since established an aggressive, proactive approach to protecting wildlife. In addition to conducting routine anti-poaching patrols, TAWA is actively building capacity with technology (e.g., GIS), relationships with local communities (e.g., intelligence-led operations), and collaborative efforts on an international scale.

TAWA is responsible for the management of 28 Game Reserves with an area of 112,564 km^2, approximately 38 Game Controlled Areas covering about 161,521 km^2, and Ramsar sites covering 249,856 km^2. There are also District Councils, local government institutions that work in collaboration with the TAWA. These councils oversee wildlife conservation issues and facilitate the establishment and management of Wildlife Management Areas (WMAs) on village lands.

WMAs were established as a new category of wildlife conservation areas consisting of settled and unsettled lands outside PAs, with the goal of allowing for rural communities and private landholders to manage wildlife on their land for their own benefit, shifting wildlife such as lions from a liability to an asset. The framework for WMAs was outlined in Tanzania's Wildlife Policy of 1998 (revised in 2007), with legislation established under the Wildlife Management Areas Regulations of 2002, authorizing the formal establishment of WMAs. From 2010 to 2014, over 1.3 million USD from hunting fees were disbursed to WMAs (TAWA, 2016). In 2012, Tanzania amended its Wildlife Management Area Regulations to provide a new basis for strengthening the links between local communities and wildlife management by addressing the issues of benefit sharing and control over concession allocations. Under the new regulations, the WMAs receive approximately 60-65% of the total hunting revenue occurring within the block. Additionally, WMAs gained the power to sign utilization contracts with the private sector, enabling seven WMAs to sign contracts with hunting operations worth more than 4.3 million USD (TAWA, 2016). The establishment of these WMAs has resulted in an additional 23,700 km^2 of Tanzania's land area being added to its conservation network and increased capacity for protected area management through the training of village game scouts and WMA managers.

The tourism industry, largely wildlife-based, contributes to about 13% of Tanzania's annual Gross National Product and is predicted to increase (WTTC, 2017). The tourist industry generates

[3] Prior to the establishment of TAWA, funding to the Wildlife Division was paid by the central treasury; inadequate funding left the Wildlife Division unable to effectively manage and protect Tanzania's wildlife resources.
[4] The mandate to collect and retain revenue from trophy hunting is enshrined in "The Wildlife Conservation (The Tanzania Wildlife Management Authority) Establishment Order 2014.

almost 6 billion per year (WTTC, 2017) with about 80 million annually going to TANAPA, NCAA, and the Wildlife Division to fund their operations. The three parastatal organizations, TANAPA, NCAA and TAWA, retain 100% of their revenue share. Both TANAPA and NCAA are generally self-sustaining; consequently, National Parks and equivalent areas such as Ngorongoro Conservation Area, with an area covering approximately 38% of all PAs in Tanzania, are adequately funded. The sustainable utilization of resources (i.e., hunting) accounts for 70% of TAWA revenue; therefore, the viability of TAWA will depend, in part, on sufficient revenue from safari hunting. In 2012/2013, the Government of Tanzania re-established the Selous Game Reserve Revenue Retention Scheme, whereby 50% of the revenue generated from photographic tourism and tourist safari hunting is retained in order to meet management and enforcement costs in the Selous Game Reserve, one of the largest protected areas in Africa. Again, the viability of the Selous will depend, in part, on sufficient revenue from safari hunting.

Tanazania is a Party to CITES. The lion is listed in Appendix II of the Convention. As an Appendix-II species, certain criteria must be met before such species can be exported, including a finding from the exporting country's CITES Scientific Authority that the proposed activity will not be detrimental to the survival of the species in the wild. In their reply to our inquiry, Tanzania provided a copy of their CITES non-detriment finding (NDF) for lions, which finds that the export of the species will not be detrimental to the survival of the species in the wild.

Tanzania is also a member of the Southern African Development Community (SADC). Under the SADC Treaty, Article 5(g) establishes objectives to, among other aspects, promote the sustainable use of wildlife, harmonization of legal instruments governing wildlife use and conservation, promote the conservation of shared wildlife resources through the establishment of transfrontier conservation areas, and facilitate community-based natural resources management practices. As required of a member state, Tanzania has established management programs for the conservation and sustainable use of wildlife.

V. Status of Lions in Tanzania:

Approximately 40% of all lions in Africa are found in Tanzania (Riggio et al., 2013). The lion range in Tanzania covers over 90% of land (Mesochina et al., 2010), with four main subpopulations:

1. the Maasailand Ecosystem, which encompasses the Mara, Arusha Kilimanjaro and Manyara Regions of northeastern Tanzania;
2. the Kagera and Kigoma Regions of northwestern Tanzania;
3. the Rukwa, Tabora and Mbeya Regions of central and western Tanzania;
4. Selous Ecosystem, which encompasses the Lindi, Morogoro and Ruvuma Regions of southern Tanzania.

TAWIRI presents Tanzania's latest lion population estimates as 16,800 individuals (Mesochina et al., 2010), and 17,564 (12,208-19,320) (Ikanda & Packer, 2006). They estimate that 13,600 (or 81%) of these lions occurred within PAs and approximately 3,200 (or 19%) individuals occurred outside PAs. According to Riggio et al. (2013) and Björklund (2003), the minimum number of lions estimated to categorize an area as a lion stronghold is 500 individuals. The estimated population size of the four main lion ecosystems was 3,700 in the Maasailand Ecosystem, 520 in Kagera and Kigoma Regions, 2,300 in Rukwa, Tabora and Mbeya Regions, and 7,200 in the Selous Ecosystem.

Trend analysis of the lion population in Tanzania is limited due to the sporadic nature and variable methodology of past surveys, as well as the difficulty of obtaining precise lion counts (Brink, Smith, & Skinner, 2013; Funston et al., 2010), but it is suggested that, nationally, far fewer lions exist today than did 50 years ago (Ikanda, 2008). Available information suggests that this may be spatially variable, e.g., declining populations in Katavi and Tarangire (Bauer et al., 2015) and stable populations in the Selous Game Reserve (Packer et al., 2011).

VI. Management of Tanzania's Lion Population

In recognition of the role that Tanzania plays in the conservation of this species, a workshop was held in 2006 to assess available information and to set priorities for conservation of the lion in Tanzania. The Tanzania Lion and Leopard Conservation Action Plan (TAWIRI, 2009) provided an overview of this workshop and outlined a national strategic plan for lion conservation. Habitat loss and increased conflict with humans had been identified as the major threat to the species. The Tanzania Lion and Leopard Conservation Action Plan (Plan) concluded that, for those lion populations existing outside National Parks, well-run trophy hunting programs could be leveraged to successfully manage and conserve lions against these threats. To that point, the majority of permanent lion range in Tanzania lies within protected areas, 61% of which are designated as hunting areas (Mesochina et al., 2010).

A. Hunting:

Hunting of lions is allowed across much of Tanzania. Safari hunting occurs in areas known as hunting blocks, designated in Game Reserves, Game Controlled Areas, Open Areas, Forest Reserves and WMAs. Until recently, blocks were allocated using an administrative process. The government would invite hunting companies to apply to operate a hunting block; interested hunting companies were evaluated by the Hunting Block Advisory Committee. Hunting companies were allocated blocks for a period of five years, with a reporting requirement on the third year to determine compliance under the terms outlined within the hunting block regulations (TAWA, 2016). However, in 2017, it was announced that the block allocation process would be amended to introduce an auction system.

Wildlife hunting in Tanzania is based on hunting regulations set forth in Tourist Hunting Regulations No. 306 (2002). The regulations specify the fees for hunting different species, and further specify a minimum number of hunting days. Hunters are required to purchase a minimum 21-day safari in order to request a permit for the harvest of lions, as well as other specified animals (e.g., elephant, leopard). Hunters must pay a number of different fees for permits and licenses to be granted harvest authorization. The game fee to hunt a lion is the second highest game fee in Tanzania, second only to elephants.

A quota system historically was the primary method of regulating trophy hunting in Tanzania. Annual harvest quotas have been lowered over the past decade, from 520 in 2008-2009 (Lindsey et al., 2013) to 315 in recent years (TAWA, 2016). In 2016, the annual quota was further reduced to 200 individuals (TAWA, 2016). An annual quota of 200 individuals is well within the suggested sustainable 1 lion/2000 km^2 harvest rate identified by Packer et al. (Packer et al., 2011), and 25% below the sustainable harvest level suggested by TAWIRI (TAWA, 2016). However, the Plan noted the lack of scientific justification underlying that system. Furthermore, a quota system is reliant on

accurate population estimates, a near impossibility with lions. A model that simulated the dynamics of populations as a function of both quota size and age at harvest showed that there is almost no negative affect on population size when hunting is restricted to males six years or older (Whitman, Starfield, Quadling, & Packer, 2007). Restricting lion hunting by age would reduce the reliance on population estimates – an intensive and expensive effort that does not reliably return accurate results – while minimizing the effect on a lion population. Tanzania was the first country in African lion range states to officially establish age restriction rules, prohibiting hunting lions of an age below six years (section 27(1) of the Tourist Hunting Regulations of 2015). Violations of this regulation can result in penalties for the professional hunter guiding the offending hunter, including fees and revoking of the professional hunter's license.

Although inspection of trophies are required prior to export, the fundamental difficulties of accurately estimating lion age, as well as a disregard for these regulations, can result in the take of lions younger than six years. Tanzania has consequently maintained a quota system, set by hunting block according to the lions harvested during the previous hunting season. If a trophy lion is estimated to be 4-6 years, the hunter/client may export that lion, but the quota for the hunting block where the trophy was taken is reduced for the following hunting season. If a trophy is taken below the age of 4, there is a reduction of the hunting block's quota of harvestable lions by 2 and potential cancellation of the hunter's license along with other penalties such as the trophy not being eligible for export. If the trophy meets the criteria of 6 years of age or older, the hunting block's quota remains unchanged for the following hunting season. According to MNRT, these regulations have been in place since the 2012/2013 hunting season. For each trophy harvested, a compulsory hunter evaluation form, photos along with presentation of lion skull to officials for inspection and measurements, including tooth x-rays, are necessary prior to the issuance of an export permit (MNRT, 2015; TAWA, 2016).

B. Human-Lion Conflict:

It is difficult to estimate how many lions are killed illegally each year; however, retaliatory killings may be as high as 200 individuals annually (TAWA, 2016). Lions are provided protection from illegal or retaliatory killing under the Fourth Schedule due in part to human/livestock-conflict under the Dangerous Animals Damage Consolation (Government Notice No. 146) of 2011; unauthorized personnel are not permitted to kill a conflict lion unless under exceptional circumstances. Tanzania established a mitigation scheme to protect lions from retaliatory killings. This scheme consoles people affected by the loss of relatives and property through payment in kind, and is intended to increase human tolerance for lions (TAWA, 2016).

VII. Evaluation:

In evaluating whether the importation of Mr. Cusick's trophy of *P. l. melanochaita* would be authorized pursuant to 50 CFR 17.32, in accordance with our permit issuance criteria, we examined how Tanzania's management program for lions addresses the three main threats that have led to the decline of the subspecies: habitat loss, loss of prey base, and human-lion conflict. We considered whether the management program is based on sound scientific information and identifies mechanisms that would arrest the loss of habitat or increase available habitat (*i.e.,* by establishing protected areas and ensuring adequate protection from human encroachment). We evaluated government incentives designed to increased habitat protection for lions by private

landowners and communities, and incentives provided to local communities designed to lead to reductions in the incursion of livestock into protected areas for lions or lead to increases in active management of livestock to reduce conflicts with lions. We considered whether the management program actively addresses the loss of the lion's prey base by addressing poaching or unsustainable offtake. We examined if the hunting component of the management program supports all of these efforts by looking at whether hunting concessions/tracts are managed to ensure the long-term survival of the lion, its prey base, and habitat. Hunting, if properly conducted and well managed, can generate significant economic benefits that may contribute to the conservation of lions. As such, we examined if the trophy hunting provides financial/resource assistance to the wildlife department to carry out elements of the management program, and if there is a compensation scheme or other incentives to benefit local communities that may be impacted by lion predation. We also considered how a U.S. hunter's, in this case, Mr. Cusick, participation in the hunting program contributes to the overall management of lions within the country.

As stated earlier, the Service has evaluated this application in accordance with our regulations at 50 CFR 17.32 and the issuance criteria for threatened species permits [(50 CFR 17.32(a)(2)]. In evaluating each of these criteria based on information available to the Service, we have been able to determine for this application that the import of the wild lion trophy animal would enhance the propagation or survival of the species in the wild and qualifies for the issuance of the required import permit.

17.32(a)(2)(i): Whether the purpose for which the permit is required is adequate to justify removing from the wild or otherwise changing the status of the wildlife sought to be covered by the permit:

In evaluating this criterion, the Service assesses whether the proposed activity in this permit application (import of a trophy hunted lion from Tanzania) has demonstrated the ability to contribute towards positive conservation outcomes that mitigate or improve the status of lions throughout their range while addressing the main threats of habitat loss, human-lion-livestock conflict, and prey depletion that collectively contribute towards continued population declines.

Tanzania faces a growing human population, and a subsequent development of land and increasing rates of human-wildlife interactions. Protection of suitable habitat for both the lion and its prey is essential for the survival of the lion, as well as developing and sustaining the local communities' support for such policies. Wildlife protected areas, in various forms, cover about 40% of Tanzania's land area, and safari hunting has created a financial incentive to maintain these protected areas as a land use. Both the consumptive and non-consumptive utilization of wildlife resources contributes to about 13% of Tanzania's annual Gross National Product and is predicted to increase (WTTC, 2017). The tourist industry generates almost 6 billion per year (WTTC, 2017) with about 80 million annually going to TANAPA, NCAA, and the Wildlife Division to fund their operations.

The companies awarded a hunting block are in a key position to conserve this land for wildlife, and are annually evaluated by the Tanzania government on several criteria, including the maintenance of prey populations, contributions/provision of benefits to the local villages, improvement to infrastructure, protection of the environment, and anti-poaching operations.

Mr. Cusick will hunt with Old Nyika Safaris LTD, a subsidiary of McCallum Safaris. McCallum Safaris has developed several programs by which to address the main threats to lion populations.

- The company, in collaboration with government game scouts, maintains significant anti-poaching efforts to protect against potential threats to habitat loss and the loss of game. Anti-poaching teams include government scouts with the ability to arrest, and company scouts with years of anti-poaching training and experience. The company has established a network of informants in the villages, and maintains the road system within the hunting area, both of which aid in the monitoring and apprehension of active poachers. The company invests a significant amount of resources into anti-poaching activities, including funding their own poaching teams, purchasing state-of-the-art equipment, and contributing to government anti-poaching operations occurring in areas surrounding their holdings. The successes of these anti-poaching activities include the removal of illegal fishing camps; the seizure of weapons, vehicles, and equipment; and the arrest and prosecution of poachers. The active monitoring by the anti-poaching teams has resulted in a decrease in the occurrences of timber felling.

- While there has been no instances of human-lion conflict in the hunting areas, the company has established an agreement to compensate the owner of the full value of lost livestock.

- The company protects prey base species by setting low off-take quotas, and mandating that professional hunters take only mature adults.

- McCallum Safaris has adopted a company hunting policy to which all professional hunters must adhere, or else lose employment. This policy reiterates the country's age restriction on lion off-take, prohibiting the take of lions under the age of six, of lions accompanied by a pride with cubs or sub-adult lions, or of lions accompanied by a pride of lactating females.

- The company has implemented a lion-monitoring program that allows personnel to view and track the movement of lions. With this data, the company can efficiently and accurately determine the age and status of lions, reducing the take of young males or males accompanied by a protected class of individuals.

It has been stated that upwards of 200 lions are killed annually due to preemptive strikes or as retaliatory actions after some form of direct loss is experienced by an individual or community (TAWA, 2016). In the Ruaha communities surrounding hunting blocks and the Ruaha National Park, researchers reported 35 large carnivores were killed over an 18-month period. Similarly, Lichtenfeld et al. (2015) reported that in 12 communities of the Maasai Steppe region, more than 50 attacks by large carnivores on livestock resulted in retaliatory killing of 72-84 lions. Tanzania established a mitigation scheme to protect lions from retaliatory killings. This scheme consoles people affected by the loss of relatives and property through payment in kind, and is intended to increase human tolerance for lions (TAWA, 2016).

As described above, we have determined that the government of Tanzania and McCallum Safaris contribute towards positive conservation outcomes by addressing the main threats of habitat loss, human-lion-livestock conflict, and prey depletion, which contributes to improving the status of

lions in Tanzania. Further, the fees garnered through Mr. Cusick's hunt will provide revenue to support these positive conservation outcomes.

Therefore, based on the information available to the Service, the purpose for which the permit is being requested, import of this trophy lion, is adequate to justify removing the sport-hunted trophy lion from the wild or otherwise changing its status.

17.32(a)(2)(ii): The probable direct and indirect effect that issuing the permit would have on the wild populations of the wildlife sought to be covered by the permit:

A myriad of issues and factors, largely related to an increasing human population, complicate and put at risk the management of Tanzania's wildlife (Kideghesho, Rija, Mwamende, & Selemani, 2013). It is likely that the lion populations that exist outside of protected areas will continue to decline (Riggio et al., 2013), making the existence of these protected areas all the more important. The trophy-hunting program in Tanzania provides a revenue source necessary to maintain and manage protected areas from encroachment or elimination.

It is a widely supported belief that increasing the benefits for those who live with and bear costs of wildlife damage or injury by wildlife can increase tolerance of wildlife, especially of large carnivores (e.g. lions) (Bencin, Kioko, & Kiffner, 2016; Lindsey et al., 2013; Winterbach, Winterbach, Somers, & Hayward, 2012). Mr. Cusick will hunt with a subsidiary of McCallum Safaris, which, as outlined below, will provide an indirect benefit to the lion population by generating revenue to help support and maintain a hunting block where lions are found. McCallum Safaris is required by Tanzanian law to pay directly a $5,000 community development fee to the villages in the hunting area. The company has contributed significantly more than the base requirement, aiming to develop and maintain a strong relationship with these villages. These contributions have paid school fees, constructed classrooms, purchased books, and invested in solar power. In addition to direct financial assistance, the company also employs villagers in both permanent positions and short-term projects; conducts conservation workshops to educate the local residents of the importance of wildlife and hunting in their daily life, and the negative effects of poaching. The Service is further encouraged by the recent action taken by the MNRT to amend the WMA regulations enabling these communities to receive a greater proportion of revenues returned on wildlife uses.

Therefore, based on the information available to the Service, the probable direct and indirect effect that issuing an import permit for this legally hunted lion would have on the species would be positive.

17.32(a)(2)(iii): Whether the permit, if issued, would in any way, directly or indirectly, conflict with any known program intended to enhance the survival probabilities of the population from which the wildlife sought to be covered by the permit was or would be removed:

The government of Tanzania has implemented a number of policies and regulations to monitor and control the harvest of lions in the country. Therefore, the issuance of an import permit for a lion legally hunted in Tanzania does not conflict with any programs intended to enhance the survival probably of the species in Tanzania.

17.32(a)(2)(iv): Whether the purpose for which the permit is required would be likely to reduce the threat of extinction facing the species of wildlife sought to be covered by the permit:

As previously stated, almost 40% of all remaining lions are found in Tanzania. The lions located within protected areas are under the legal authority of MNRT, as well as subjected to direct management activities by hunting companies. All indications show, that given the threats identified by the Service when listing the species as threatened under the ESA, the maintenance of these protected areas by hunting companies is actively addressing the three causes of lion decline: loss of habitat, loss of prey base, and human-lion conflict. The cost of operating a hunting block is considerable, and lion safaris are a large source of revenue for hunting companies. This revenue is, in part, what allows the company to first and foremost maintain a presence in this protected area, and subsequently maintain an anti-poaching program, and to aid in local community development, all factors which reduce the threats faced by lions.

With limited, controlled off-take of lions in a manner that mimics natural processes, the hunt proposed in Mr. Cusick's application contributes to reducing the threat of extinction of lions in Tanzania. The utilization of hunters such as Mr. Cusick in supporting the safari hunting industry is an important element of the success of lion management in Tanzania.

Therefore, based on the information available to the Service, the purpose for which this import permit would be issued will likely reduce the threat of extinction facing lions in Tanzania.

17.32(a)(2)(v): The opinions or views of scientists or other persons or organizations having expertise concerning the wildlife or other matters germane to the application:

As with any discussion of hunting as a management tool, there are numerous opinions on the impact it would have on a species. From reviewing comments made during the listing process for lions, as well as information obtained through personal conversations and available literature, there is a general agreement that hunting, done properly and well managed, would not have an adverse effect on lion populations. Mimicking natural processes within the management program, such as maintaining pride hierarchy for long periods by leaving the alpha male in place, will better ensure the long-term survival of the species. Numerous researchers have stated that, while they may not support hunting in general, they see benefits that can be realized through a scientifically based hunting program for lions. There have been a large number of comments from some Non-Governmental Organizations (NGOs) and the public that oppose hunting any lions. While these comments are an indication of concerns from some members of the public over hunting, they are not germane to our review process for this application.

Therefore, based on the information available to the Service, there is general support by scientists, individuals, and other organizations having expertise concerning lions, that legal and sustainable harvest and subsequent import of these lion trophies would not have an adverse effect on the species, but would further efforts to conserve the species in the wild into the future.

17.32(a)(2)(vi): Whether the expertise, facilities, or other resources available to the applicant appear adequate to successfully accomplish the objectives stated in the application.

The long-term survival of lions in Tanzania is tied directly to the success, both ecologically and economically, of the protected areas. Based on our understanding of the hunting block allocation

and management, companies must submit annual reports that address several criteria, including the maintenance of key prey populations, contributions to the local villages, improvement to infrastructure and protection of the environment, and anti-poaching operations.

Therefore, based on the information available to the Service, the applicant will hunt on a hunting block that carries out their management practices in accordance with national regulations, having the expertise, facilities, or other resources available to them to successfully accomplish the objective stated in the application.

VIII. Conclusion

As stated earlier, this application received by the Service for the import of a sport-hunted trophy lion from Tanzania has been evaluated on an individual basis. The major threat facing lions today is the loss of habitat to humans, and the subsequent consequences of living among humans (e.g., decrease of prey base due to bush-meat consumption, increase in human-lion conflict). The occupation and maintenance of hunting areas by hunting concessions -- an industry supported by U.S. hunters such as Mr. Cusick -- protects lion and prey habitat through legal hunting by preventing conversion of such land to other uses, thereby contributing to the enhancement of this species. In addition, the financial benefits to local communities generated from lion safari hunting creates incentives for protection of lions, resulting in fewer lions lost as a result of human-lion conflict, which further contributes to enhancement of this species. Given the status of lions in Tanzania and the level of management and oversight provided to them, it appears that the harvest and import of this lion as a sport-hunted trophy meets the purposes of the Act. The applicant will hunt on a hunting block that is actively managing lions in a manner that mimics natural processes. The applicant attests in the application that the hunt will occur on a properly licensed hunting block, and this finding is contingent on the hunting block where the lion will be taken, having been properly licensed and fully in compliance with national and local regulations.

Therefore, with the information currently available to the Service and in accordance with the issuance criteria laid out above, the Service is able to make a determination that the import of the sport-hunted trophy of this wild lion will enhance the propagation or survival of the species in the wild. Therefore, the Service **is able to authorize the import of one male trophy lion taken from the wild in Tanzania, to Todd D. Cusick, Provo, Utah.**

Type of Activity

REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details. **Instructions on how to make your application complete and help avoid unnecessary delays are attached.**

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
CUSICK	TODD	DENNIS	

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
	(b) (6)		

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution		1.b. Doing business as (DBA)	
2. Tax identification no.		3. Description of business, agency, Tribe, or institution	
4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
5. Principal officer title	6. Primary contact name		
7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

Section C: All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Provo	UT	84604		USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f.Country

Section D: All applicants MUST complete

1. Attach the **nonrefundable application processing fee** in the form of a check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions* [50 CFR 13.11(d)].
2. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for a lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to these application types to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. Name and address where you wish the permit to be mailed, **if different from page 1**. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via regular mail through the U.S. Postal Service.

   SAME

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Todd Cusick (b) (6) [redacted]

3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

   ☒ No ☐ Yes

   If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. **Permit number.** Enter the permit number to be reissued/renewed/amended. Prt#: MA046570-0

5. Submit the original permit with this application.

6. **Past activities.**

   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

7. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

8. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

9. **Certification -** Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

      I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

      Permittee's signature: (b) (6) Date: 6-30-20

   b. For **CHANGES** to original application:

      On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we may need to request additional information regarding the changes after reviewing your initial request.

      I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

      Permittee's signature: _____ Date: _____

All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Authorizations and Conditions:

A. Authorized to import the sport-hunted trophy of one male African lion (*Panthera leo melanochaita*), taken in Tanzania for the purpose of enhancement of the survival of the species.

B. Specimen may not be sold or transferred for any financial remuneration.

C. **Trophy must have been taken during the 2019 hunting season.**

D. Trophy must be accompanied by a valid trophy permit or hunting license issued by the government of Tanzania for the 2019 season.

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit, source code "W", issued by the Management Authority of Tanzania.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

TO: UWFWS

FROM: TODD CUSICK

DATE: 6/30/20

SUBJ: PERMIT MA04657D-0 – attachment to Form 3-200-52 extension/renewal

All information on the original permit remains correct. The lion was harvested in October 2019 as expected. The government of Tanzania has been slow (their excuse continues to be COVID-19) in aging the Lion for their governmental processing.

Yesterday I was informed that the aging report would not be done in time to get the lion to a US port by 7/21/20.

Please add 120 days to this permit time. Please note that I was issued this permit on 7/22/19 which meant I had to schedule and execute a hunt in 120 days because Tanzania hunting has to be done by November 1st. I have been diligently trying since November of 2019 to get the Lion aged so Tanzania would release it. I believe we are close.

I have also attached correspondence related to this with my agent in Tanzania and my importer.

Please call me at (b) (6) if there are any questions.

HA

Dearest Todd,

I hope that all is well.

As Vincent has indicated the Lion ageing was finally done by the authorities but in their usual laid-back manner, we do not expect the findings back for at least a month.
We will of course be ready to ship as soon as we get the results, but we are worried that this may not be before the date that your permit expires.
The US FWS has said the following regarding Lion permit extensions.

I can speak to the re-issuance of the import permits. So long as the import permit was already issued and the import has not yet occurred, we may re-issue the permit and the permittee may request to do so using Form https://www.fws.gov/forms/3-200-52.pdf

Please let me know if you need any assistance from my side and we will keep you posted on the status of the findings.

Kind regards.

Dear Todd,
I hope all is well.
The lion aging exercise has been done by our Tanzania Wildlife Management Authority officials.
We are now awaiting for the results which we expect to get them soon.
Kindly note that your lion import permit no MAO O4654D -O expires on 07/27/2020 .
Can your please ask for extension of the validity to enable us export all your trophies once we get the lion aging results.

Thanks
Vincent Kimario

Dear Hunter International:

I am applying for an extension to the Lion permit.

Is the leopard CITES permit being handled by you?

Todd Cusick

On May 25, 2020, at 10:12 AM, Helen Angelides <helen@dmstz.com> wrote:

Dear Maria,
Thank you for the information.
We will plan to ship the Lion as soon as we have the ageing results. It is of course extremely frustrating how long the authorities are taking to complete the ageing exercise in Tanzania.
Very discouraging to hear that the Leopard import CITES takes so long these days. It used to be quite quick.
The US Fish & Wildlife have not told us anything about an enhancement report for Leopard but they do have our Lion Enhancement report.
Anyway, we hope that the ageing and the licenses will all fall in place and we can proceed with the export.
Kind regards.

Subject: Re: CITES permit for leopard and lion

Hi Helen,

Thank you for these information. Can you please confirm if Old Nyika Safaris would be the exporter/shipper on the TZ cites permit? Also, please note the leopard import permit processing can take 8 to 10 months or longer depending on how long the "enhancement findings" will take. This is another layer of review added by Fish & Wildlife last year so the issuance of permit takes much longer than it used to. If you can expedite the lion ageing process and get all paperwork done by end of this month that would be great and ship to the U.S. by first week of July without the leopard. This would be the ideal scenario otherwise the lion import permit will need to be renewed.

We will require a Leopard Import CITES for Mr Cusick and would like to have it in hand so that we can ship as soon as the Lion ageing has been done.
We do have the Lion import License but cannot export because the required Lion ageing to be done by the authorities is still pending. The Lion import permit expires on the 21st July 2020 and we are pushing for the ageing to be done constantly so as long as we have all the other paperwork ready we will export as soon as the ageing is done.

The Leopard was taken in;
Country: Tanzania
Region: Mbeya
Area: Chunya Msami Open Area
Date taken: 20th October 2019
Coordinates: UTM 469776 / 9166127
City where trophy was taken to: Arusha

Current Location of the Trophy is Arusha, Tanzania

Exporter details

Okay then we can apply for your leopard import permit.

Helen - please provide information on highlighted items on the leopard application form. The shipper or exporter name on your export cites permit is very important. It must match the U.S. import permit as noted on block 8(a). If possible, please send a photo of the leopard with the TZS CITES tag attached on the skin.

Hi Todd,

The Tanzania CITES **EXPORT** permits for the lion and leopard will be applied for by the shipper - I assume that's Helen?

With regards to your leopard import permit, did you apply for it? Who applied for your lion permit?

What I strongly suggest is to ship the lion right away - if they can secure the export cites permit asap! But if they are required to have it "aged" first before they can get the CITES permit, maybe Helen can tell us how long will that take. In my opinion, between now and July 21 is not enough time for them to achieve both BUT I could be wrong!

> Meanwhile, I am not confident that shipper will be able to do the lion ageing and secure CITES export permits **BEFORE** your lion import permit expires on 7/21. From what I know, these things take a while and considering most government offices in TZ are closed or partially open, there will be delays in processing for sure - plus the fact that airlines in TZ are not back in full operations yet. We have a shipment that is booked to leave on 5/25 from DAR to SFO. If shipper miss this flight or cargo is offloaded, we were told the next flight out is a month away.

Please let me know exactly what your plan is for this consignment. Did you want all trophies shipped one time?

He has already sent in a re-issuance application (he mailed it last week). He is waiting on the paperwork from Tanzania to export the trophy.

I told him that if nothing changed in his application, he shouldn't have much to worry about, but that I am unfamiliar with lion trophy imports and that process.

I let him know that we are having delays with our mail intake process as we may have received it, but it is not in our system yet.

Please continue to next page

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   Same

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Conservation Force, 504-837-1233, cf@conservationforce.org

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

☒ No ☐ Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

   Loxodonta africana, African elephant

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   Zimbabwe, Chipondo Pools, boundary of Gonarezhou National Park

   b. Date wildlife is to be hunted:

   2/2019

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   Cliff Walker
   Cliff Walker Safaris

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

   b. Date wildlife was hunted:

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so).

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: CUAN MEREDITH
Business Name: TROPHY CONSULTANTS INTERNATIONAL
Address: 4 JOSIAH CHINAMANO ROAD, BELMONT
City: BULAWAYO,
State/Province:
Country, Postal Code: ZIMBABWE

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

Please see attached + forthcoming report from Cliff Walker Safaris

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

SAME

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

SAME

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: [redacted] Date: 6/26/2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Hi Tom ,

Yes I under and I can try give you want I have given other clients , it's always hard to answer some questions as it's government, but ,
1) population of elephant , 14000
3 times the carrying capacity of the area
2) this is a communal land , money is paid directly to villages that live in the area
So far a clinic has been built , a school,several grinding mills bought and set up , boreholes drilled and equipped
Due to the large population of people in this area it is impossible to police , with the tribesman benefitting directly from wildlife , poaching has become almost non existent , not one elephant has been poached in this area in the last 18 years.
3) activities done throughout the last several years
Mostly educating the local population on the benefits of wildlife conservation , most anti poaching scouts imployed in the neighboring Gona Re Zhou park are from the surrounding communal land , many families have atleast one family member imployed in the wildlife industry.
4) area is Zimbabwe , Chibwedziva

The Gonerezhou National parks holds around 20 000 elephants at any one time ,

A quota of 4 elephant area shot in this area , year round ,

Regards
Cliff

Abstract

EN FR

For 30 years, regular aerial surveys in Zimbabwean protected areas were funded, designed and executed primarily to estimate elephant numbers. Other large herbivores were recorded, even though some species were not easily seen from the air in savannah woodlands. Population estimates for species other than elephant provided indices of abundance that could be used to determine temporal trends in population size. This study tests for significant trends in the abundance of large herbivores in Gonarezhou National Park, assuming that data from aerial sample surveys designed for elephant also provide accurate estimates of real trends in the populations of other herbivores. For each species, the exponential rate of population change was calculated using weighted regression, with the variance of this rate based on the sampling variances of the population estimates. Significant population trends were detected for eight species. Before the 1992 drought, elephant number was held approximately constant by frequent culls, but afterwards, it increased at a mean annual rate of 6.2% (confidence limits 4.0% and 8.6%). Elephants in cow herds increased at 7.3%, significantly faster than elephants in bull herds (−0.5%). Buffalo,

Executive Summary

In April 2014, the United States Fish and Wildlife Service (FWS) suspended the import of elephant trophies taken in Zimbabwe. In March 2015, the suspension was extended to include future hunting seasons. For it to reverse this decision, the FWS must make a finding that the killing of the animal whose trophy is intended for import would enhance the survival of the species in the wild. The Zimbabwe Parks and Wildlife Management Authority (ZPWMA) defended its position and provided the FWS with significant amounts of information and data related to elephant management. While this is acknowledged, the FWS was still of the opinion that its concerns had not been addressed, and identified six areas where additional information was required.

The CAMPFIRE Association has taken these into consideration, especially the issues regarding "excessive retention of generated funds by Rural District Councils", and how much revenue elephant sport-hunting provides and how much of that comes from U.S. hunters. This document addresses part of the information requested by the FWS under "Revenue Utilization" to demonstrate that by allowing the importation of trophies taken by U.S. hunters, the survival of elephants in Zimbabwe would be enhanced. To support this position, the CAMPFIRE Association outlines the evolution of the CAMPFIRE Program, describing the extent of its coverage and the impact that it has had on wildlife conservation in Communal Areas of Zimbabwe.

Evidence from the 2014 national elephant survey is provided to show that Zimbabwe has a substantial elephant population that is managed sustainably through an adaptive quota setting mechanism. Data from 9 CAMPFIRE Districts that participated in this audit of CAMPFIRE revenue shows that approximately 60% of the allocated elephant quota is utilized and that the majority of hunters (53%) originate from America. These hunters have contributed US$9 million towards the CAMPFIRE Program during the period 2010-2015 compared to US$8 million by the 40 other nations.

The income generated from trophy fees in the last 6 years (2010 – 2015) is approximately US$11.4 million of which elephant trophy fees contributed 65%, while a further US$4 million has come from the sale of hides, concession fees and other sundry income. These funds have been distributed to CAMPFIRE communities in various Wards who received approximately 57% (range 39% - 77%) of the Trophy Fees.

A standardized tool designed to gather baseline data has provided information on the physical and human parameters of the 9 participating Districts including how and on what the revenues from hunting have been utilized. At the District level, approximately 80% of the funds are used to support the administration and management of the CAMPFIRE program, including investment on law enforcement. In contrast, 55% of revenues provided to the producer Wards are channeled towards supporting social services such schools, clinics and other programs that benefit the community.

The cost of living with wildlife, and particularly elephants, is shown through providing data on the scale of crop damage (7,000ha over 6 years) that has a significant impact in terms of its monetary value on rural communities who face food insecurity and deep poverty (average income US$1 a day). 96 human lives were lost to wildlife attacks, with elephant accounting for more than half of those deaths. Yet despite these challenges, communities still retain a high level of tolerance for elephants, but this support is rapidly dissipating as a result of the loss of income from trophy hunting. This places almost two million hectares of wild land at risk, including the risk of increasing retaliatory killing through poisoning and illegal wildlife crime.

A way forward is discussed outlining how the resumption of trophy imports can offset the challenges facing the CAMPFIRE program and through this, enhance the conservation of elephant outside of the protected areas.

1 INTRODUCTION

In April 2014, the United States Fish and Wildlife Service (FWS) suspended the import of elephant trophies taken in Zimbabwe. The suspension was extended to include future hunting seasons on March 26, 2015. In May 2015, the Assistant Director (International Affairs) from the United States Fish and Wildlife Service (FWS), Mr. Byron Arroyo, wrote to the (then) Minister of Environment, Water and Climate outlining the reasons why the Service made a determination on 26th March 2015 that it was unable to authorize the import of elephant trophies taken in Zimbabwe in future. This is further explained in detail in the "Enhancement Findings for African Elephant Taken as Sport-hunted Trophies in Zimbabwe during 2014" published on the 7/22/14 (see reference FWS/AIA/DMA).

The FWS make the point that for it to authorize imports of sport-hunted African elephant trophies into the USA, the Service must be able to determine that the requirements of the special rule for the African elephant under the U.S. Endangered Species Act (ESA) have been met (see 50 CFR 17.40(e)(3)(iii)C). Specifically, the FWS must make a finding that the killing of the animal whose trophy is intended for import would enhance the survival of the species in the wild.

In defense of this, the Zimbabwe Parks and Wildlife Management Authority (ZPWMA) provided the FWS with significant amounts of information and data related to elephant management. The FWS also communicated with various stakeholders including the Safari Operators Association of Zimbabwe (SOAZ), Zimbabwe Professional Hunters and Guides Association (ZPHGA), the CAMPFIRE Association, as well as individual professional hunters and outfitters, and independent scientific researchers.

The FWS acknowledged this input but still believed the data received did not fully address the questions regarding how elephants are managed in Zimbabwe, and how, by allowing the importation of trophies taken by U.S. hunters, that the survival of elephants in Zimbabwe would be enhanced. Six areas were identified where additional information was required. These are:

1: Updated Elephant Management Plan with formalized targets or indicators

2: Current elephant population data and the impact of hunting on the elephant population

3: Levels of poaching and prevention, including MIKE and PIKE data

4: Regulation and enforcement, particularly regarding the use of funds generated by U.S. hunters to support law enforcement and management

5: Sustainable use of elephant, specifically information of the levels of legal and illegal offtake

6: Revenue utilization from the hunting of elephant on Communal Lands, Safari Areas, Forestry and Private Conservancies.

The CAMPFIRE Association is not able to address these issues since these are the prerogative of the ZPWMA who is responsible for the conservation and management of elephant at the national level. Nonetheless, the CAMPFIRE Association is in a position to address part of the information requested under "Revenue Utilization", and contribute indirectly to the other five issues raised by the FWS.

2 Overview of Community Based Natural Resources Management in Zimbabwe

There are numerous reports and references in the literature that analyze the community based natural resources management program (CBNRM) in Zimbabwe. A more recent assessment can be found in the document prepared for USAID Zimbabwe by Mazambani and Dembetembe (2010).

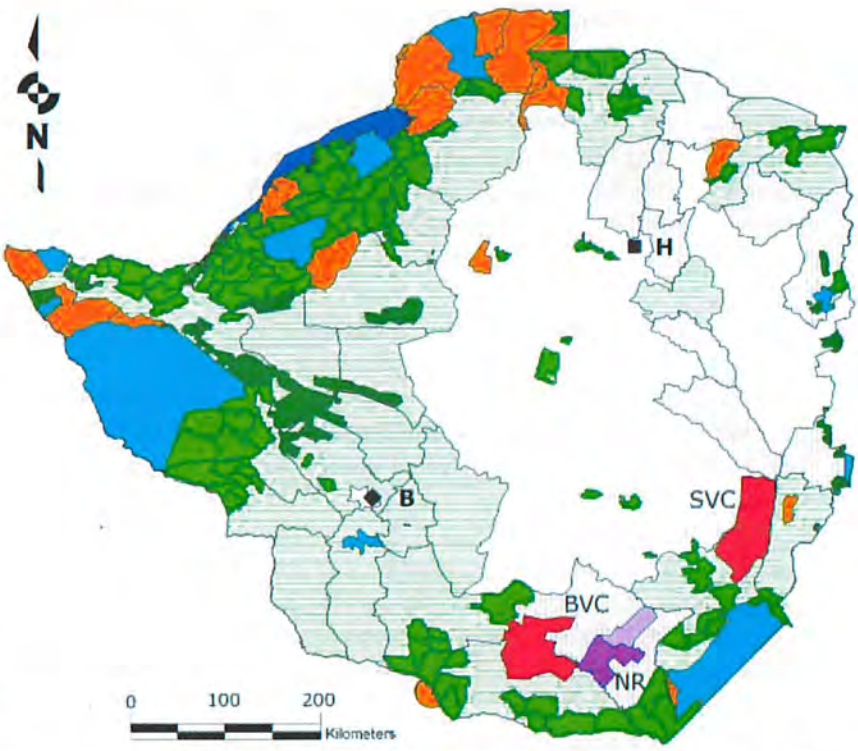

Figure 1: The location of CAMPFIRE areas (in light green) relative to National Parks (blue), Safari Areas (orange), Forest Areas (dark green) and Conservancies (red).

In 1982, the government amended the 1975 Parks and Wildlife Act to enable Rural District Councils (RDCs) to obtain 'appropriate authority' (AA) to utilize wildlife for commercial gain. The proposed changes were aimed at finding alternative forms of land use to subsistence agriculture on marginal lands. At that time, there was no particular model as to how this could happen without threatening the resource base. The (then) Department of National Parks and Wildlife Management (DNPWLM) began to explore options within the framework of an integrated landuse plan for the communal lands bordering National Parks and Safari Areas. This Act provided an opportunity to extend to communities in the Communal Lands the benefits that the private landowners enjoyed as a result of the 1975 Parks and Wild Life Act. This eventually led to the birth of Zimbabwe's Community Areas Management Program for Indigenous Resources (CAMPFIRE), which had far reaching impacts on wildlife productivity as well as the socio-economic wellbeing of CAMPFIRE communities.

2.1 The CAMPFIRE Program

The CAMPFIRE program was conceptually designed to focus on wildlife, woodlands, water, grazing resources, and grasslands. In practice, it focused on managing wildlife because of the direct monetary benefits which this resource offered to producer communities. The CAMPFIRE concept (see Murphree, 1993; Jones and Murphree, 2001) was developed in response to the realization that unless communities living adjacent to National Parks can obtain direct value from wildlife, they will not protect the wildlife. These communities would also need to have a much greater say in how those benefits would be derived and utilized.

While the 1982 amendment of the 1975 Parks and Wildlife Act permitted devolution of authority over wildlife to Rural District Councils (RDCs), the DNPWLM had meager resources to render the program operational (Jones and Murphree, 2001). The DNPWLM therefore turned to such institutions as the Center for Applied Social Sciences (CASS) at the University of Zimbabwe, which was assigned a socio-economic research and evaluation role; the WWF Multispecies Animal Production System Project in Zimbabwe; and the Zimbabwe Trust—an NGO focusing on rural development. These agencies had different but complementary objectives and together with the DNPWLM they formed the original CAMPFIRE Collaborative Group (CCG).

From 1986 to 1988, DNPWLM and its CCG partners engaged in discussions with selected communities and RDCs to identify locations for the inception of the program. The discussions focused on two main criteria, namely:

(a) voluntary interest in participation by communities and District Councils, and

(b) the presence of wildlife populations capable of producing sustainable and economically significant revenues.

The CCG work during this period also involved securing political support for the program, and attending to the demands of institutional and administrative detail associated with the conferment of Appropriate Authority (AA) by DNPWLM to RDCs, including the guidelines for awarding revenues and other benefits to communities from the the number of animals harvested within a local community's area each hunting season.

The agreed but non-binding guidelines stated that not less than 50% of the revenues was to be paid to the communities (as wards), not more than 35% was to be allocated to wildlife management (habitat management, fire control, monitoring, hiring of game scouts, etc.), and that 15% could be retained by the District Councils as an administrative levy.

Under the CCG, the CAMPFIRE Program attracted donor support and evolved through a number of phases.

- **Phase I** 1989-1994: (US$10m grant support – USAID and various partners). The period saw the initiation of CAMPFIRE and donor support was channelled towards the improvement of safari hunting in major districts that had been granted AA by 1995. This is also the period in which CAMPFIRE Association was established to coordinate the program.
- **Phase II** 1994-2003: (US$30m - USAID). This support focused on the capture of other natural resources (e.g. timber, sand, fishing, etc.). High-end non-consumptive tourism facilities were developed in Nyaminyami and Chipinge districts in the early 1990s, and 12 'joint venture' eco-tourism lodges were in operation in communal areas by 1999. Small grants were also provided to support the development of eco-tourism, crafts, and other community based natural resources management projects. Investments were also made in the production of natural resource products (e.g. fish in Beitbridge, Mwenezi; mopane worms in Bulilima Mangwe and Gwanda; honey in Binga, Kusile, Mutoko, and Nyanga districts) and many other products.
- **Phase III** 2003-2007: (US$165,000 – Ford Foundation). This period saw the cessation of major donor funding to CAMPFIRE, and it also coincided with larger macro level policy changes in

Zimbabwe after 2000, and the subsequent adverse socio-economic conditions. This led to the collapse of financial and technical support previously provided by the CCG.

- **Phase IV** 2007-present: (US$350,000 WK Kellogg Foundation). During this period, there was hyper-inflation, which led to the loss of income from hunting in real terms. This situation stabilised in 2009, when multiple foreign currencies were introduced. The CAMPFIRE Association maintained operations through a 4% levy paid by major hunting districts amounting to less than US$100,000 annually.

Following are key achievements in the development of CAMPFIRE (see Mazambani and Dembetembe, 2010):

I. Guruve and Nyaminyami, the first RDCs to be granted AA status, received their first hunting revenues in 1988. This had a dramatic effect in that many districts that are rich in wildlife applied for AA status and by the end of 1991 eleven additional districts had been granted AA status.

II. By the end of 1991, the 13 districts participating in the program collectively grossed US$1.1 million in revenue for that year.

III. By 1995 there were 23 districts participating in the program.

IV. The CAMPFIRE Association (CA), the secretariat for all districts with CAMPFIRE activities, was formed in 1992. Its primary objectives were to promote the wildlife interests of RDCs and to serve as an association of producer communities. The association played an important role in securing full government support for wildlife management in communal lands so that CAMPFIRE became a recognized conservation program.

V. Between 1995 and 2000 CAMPFIRE not only witnessed growth in terms of attracting more districts, but also in building the capacity of the RDCs, and in diversifying their activities to include other natural resources. The number of RDCs that were awarded AA status to manage wildlife increased from 2 in 1988 to 27 in 1996. Institutional capacity building grants via United States Agency for International Development (USAID) funding were secured for 24 districts from 1996 to 1999.

VI. Between 1989 and 2001, CAMPFIRE revenues amounted to almost USD $ 20.3 million, 97% of which originated in the original 13 districts. Of this, 49% was disbursed to communities (118 wards with over 121,500 households), 20% used for wildlife management, just over 12% retained by the District Councils as a levy, 3% used for other expenses (including the then 1.5% levy to the CAMPFIRE Association), and about 15% was retained by the RDCs pending allocation (Khumalo, 2003). Almost 90% of this income came from safari trophy hunting.

VII. The period from 2001 to 2003 witnessed two significant developments in CAMPFIRE:
   a. formation and registration of community trusts as a strategy for devolving decision making and control over resources from the RDCs to community groups, and
   b. a concerted drive to diversify CAMPFIRE. Twenty-eight non-wildlife-based community projects received financial support through CAMPFIRE compared to only five wildlife-based community projects.

VIII. At its peak in 2002, CAMPFIRE encompassed 53 districts with AA, though only 23 of these really functioned as intended, while only 12 received regular income from wildlife.

IX. The Association has spearheaded the revision of CAMPFIRE revenue sharing guidelines to improve the community's share of income from 50% to 55% of hunting income. A Direct Payment System was developed in 2006 to ensure that communities receive their income on

time. A standard hunting contract has been developed to improve hunting administration by RDCs.

In summary, CAMPFIRE protects about 50,000 km^2 (12.7%) of land in Zimbabwe (Figure 1). Benefits from wildlife and other incomes encompass:

- Approximately 777,000 households (25%) in Zimbabwe benefited from CAMPFIRE directly or indirectly;
- Approximately 25% of Zimbabwe's people are receiving incentives to conserve wildlife and prevent anti-poaching through CAMPFIRE;
- Between 1994 and 2012, CAMPFIRE generated US$39 million of which US$21.5 million was allocated to communities and used for resource management (22%), household benefits (26%), and community projects (52%).
- About 90% of CAMPFIRE revenue comes from hunting with elephant hunting contributing up to 70% of annual revenue.
- Based on Constitution of the CAMPFIRE Association as amended in 2007, all major RDCs use CAMPFIRE revenue sharing guidelines, and in these districts revenue is paid directly into community controlled bank accounts by safari operators using the following guideline:
  - RDC fees (41%), CAMPFIRE Association Levy (4%), and CAMPFIRE community (55%).

In the following sections, we describe how the income from the hunting of elephant is generated and utilized using data from 9 Districts (Beitbridge, Binga, Bulilima, Chipinge, Chiredzi, Hwange, Mbire, Nyaminyami, and Tsholotsho) for the period 2010 and 2015[1]. For each of these areas we provided:

- Total number of elephant hunted
- Total revenue earned from elephant (and other trophy species)
- How the revenue is spent on various management and social services

We also provide examples of community project support and the impact of human-wildlife conflict over this period.

3 Sustainable Use and Utilization of CAMPFIRE Resources and Revenues

The CAMPFIRE program relies almost exclusively on income from hunting. Since 2009, the number of RDCs where hunting is practiced has decreased, mostly because of the prevailing socio-economic conditions that have resulted in high levels of poverty. This is seen as the key driver of the escalating levels of illegal wildlife crime, and poaching of elephant in particular. Maintaining elephant numbers outside of the protected areas is important to their overall conservation, and the reason why Zimbabwe regards the sustainable utilization of all wildlife as critical to its national conservation strategy. The hunting of elephant in CAMPFIRE areas thus plays an important role and is the major source of income to communities in these areas.

[1] Hurungwe provided partial information, as explained in relevant parts of the report

3.1 Numbers, distribution and regional trends of elephant in Zimbabwe

Elephants are distributed in four main regional populations in Zimbabwe, namely, Northwest Matabeleland, the Sebungwe, the mid-Zambezi Valley, and the South-East Lowveld. Crude ecological densities vary between 2.16 elephant/km^2 in Northwest Matabeleland and 0.46 elephant/km^2 in the Sebungwe region.

Elephant densities in the Communal Areas varies from 1.50 elephant/km^2 in the south-east Lowveld to 0.06 elephant/km^2 in the Sebungwe region. Overall it is estimated that 5,000 elephants reside in Communal Areas and occupy approximately 16,000km^2 (Table 1, Zimbabwe Elephant Management Plan: 2015-2020).

Table 1. Numbers and densities of elephants in the four regions of elephant range within Zimbabwe. (Source: Zimbabwe National Elephant Management Plan 2015 - 2020, see Dunham *et. al.* 2015a, b, c and d).

Name of Region & Area	Area (km2)	Estimated Number of Elephants	Density of Elephants/km^2

Mozambique Border	*1,574*	*0*	*0*
National Total*	**65,367**	**82,091**	**1.23**
Parks & Wildlife Estate	43,191	74,455	1.75
Forest Areas	2,593	1,117	0.43
Save Conservancy	3,496	1,585	0.45
Communal Lands	**16,087**	**4,934**	**0.18**

* The survey did not include Bubye Valley Conservancy or the Tuli Safari Area and some other small populations that likely add another 1,000 elephants to the estimated total for the country. The area surveyed in Mozambique is not included in the national total or in the South-East Lowveld total area.

3.2 ELEPHANT QUOTA ALLOCATION AND UTILISATION

Zimbabwe is allocated an export quota of 500 elephants (1,000 tusks) in terms of the CITES regulations (see https://cites.org/eng/res/10/E-Res-10-10R16.pdf). In practice, Zimbabwe adopts an adaptive management strategy that sets the overall elephant quota at up to 0.75% of the overall population. This implies that the maximum national quota should not exceed 600 animals at the current population estimate of 80,000 elephants. However, to maintain trophy quality at approximately 35kg (77lbs), the national quota is set at 0.3 – 0.5% of the overall population i.e. 240 – 400 elephants, assuming an average offtake of 60% (R.B. Martin, pers. comm.).

The approach applied to the CAMPFIRE areas is to set quotas that use parameters that are higher than these national guidelines. This strategy is adopted to provide incentives to local communities that reside in areas where high levels of human-elephant conflict is recorded, and to facilitate benefits to local communities through sport hunting.

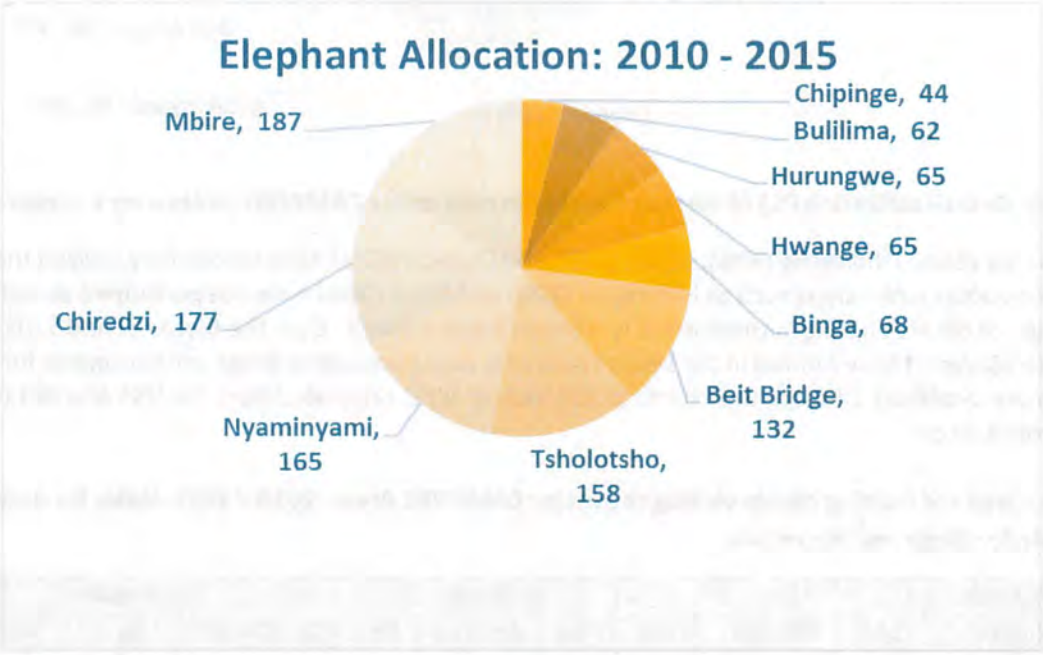

Figure 2: Total allocation of trophy elephant (N=1087) to nine major CAMPFIRE areas over a 6-year period

A total of 1,087 elephants have been allocated on quota to nine major CAMPFIRE areas since 2010 (Figure 2). This equates to 180 elephants per year. The distribution of this quota among the nine CAMPFIRE areas is dictated by the relative density of elephants in the neighboring protected areas and those residing in the CAMPFIRE areas. Tsholotsho, for example, that borders the southern boundary of Hwange National Park, was allocated 158 elephants (or 26/year) while Hwange, Binga and Hurungwe CAMPFIRE Areas that do not border onto areas of high elephant densities receive approximately 10 elephants/year.

The historical trend of utilization of the elephant quota (667 elephant or 61% of the quota allocation) is provided in Figure 3.

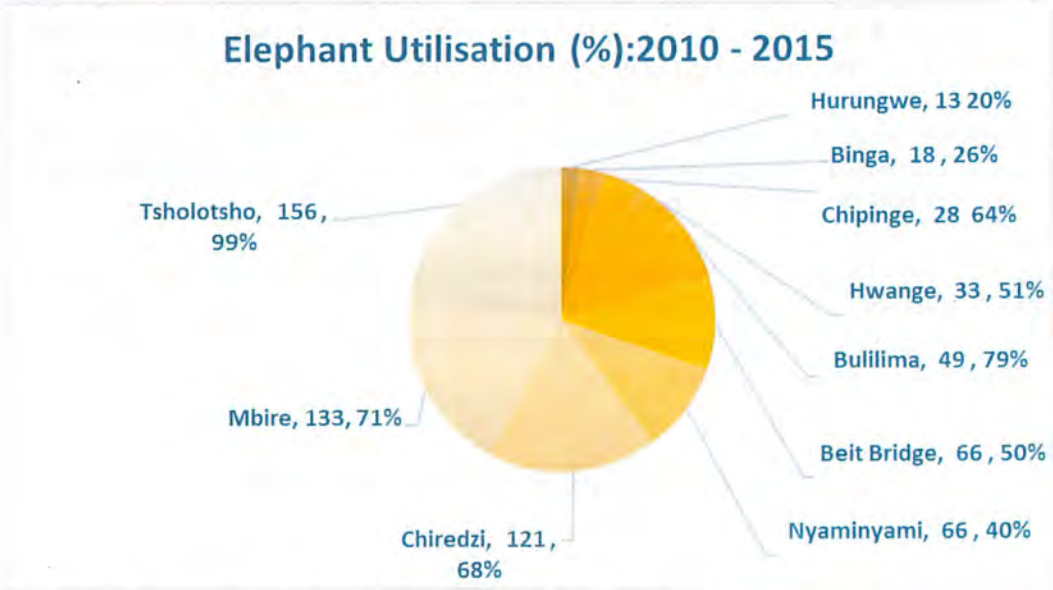

Figure 3: Overall utilization (%) of elephant quotas in nine major CAMPFIRE Areas over a 6-year period

Over the six years, Tsholotsho (99%), Mbire (71%) and Chiredzi (68%) have successfully utilized their allocated quotas while areas such as Hurungwe (20%) and Binga (26%) have not performed as well. The origin of clients hunting in these areas is summarized in Table 2. Over the 6-year period 1702 clients (average 284/year) have hunted in the seven CAMPFIRE Areas (excluding Binga and Hurungwe for which no data are available). Of these 897 clients (c.150/year or 53%) originated from the USA and 461 (c.77 or 27%) from Europe.

Table 2: Origin of hunting clients visiting the major CAMPFIRE Areas :2010 – 2015. Note. No data are available for Binga and Hurungwe

Origin of Clients	USA	Europe	Africa	Asia	South America	Oceania	Canada	Middle East	Total	Average

3.3 Income Generation from Sport Hunting of Elephants and other Key Species

3.3.1 Income received by Outfitters

To fully account for earnings in the hunting sector, the Reserve Bank of Zimbabwe, in collaboration with all the relevant stakeholders, introduced the Tourism Receipts Accounting System (TRAS) that required all outfitters to submit returns listing the revenue generated for hunting activities. This system has been in place for several years but required manual analysis of the data to extract the information. In January 2015, a web-based system (TRAS2) was introduced which links Safari Operators, Zimbabwe Parks and Wildlife Management Authority, Taxidermists, Shipping Agents, International Marketing Agents and Reserve Bank. Under this system all authorized hunts are registered allowing for the capture of hunting data (origin of clients, value of trophies and hunts, area hunted etc.), monitoring hunting quota utilization and tracking hunted trophies (Chitauro, 2016). The Exchange Control Division of the Reserve Bank of Zimbabwe and the ZPWMA are now able to:

1. Assess regional price differentials of similar hunts and the reasons thereof;
2. Present TRAS2 systems updates and reports to the users including international marketing agents;
3. Engage with international marketing agents of sport-hunting;
4. Obtain relevant insights on governing of the hunting sector; and
5. Come up with an effective mechanism to fully account for export proceeds from the hunting sector.

Outfitters that operate hunting concessions in CAMPFIRE Areas are required to deposit copies of the TRAS2 form with the CAMPFIRE Office in their respective RDCs/Wards. Each Office is therefore able to extract data on daily rates, trophy fees and other incidental revenues. Figure 4 provides a summary of the income by country of origin. This data confirms the major role of American hunters to the CAMPFIRE program who contribute 52% of the overall income.

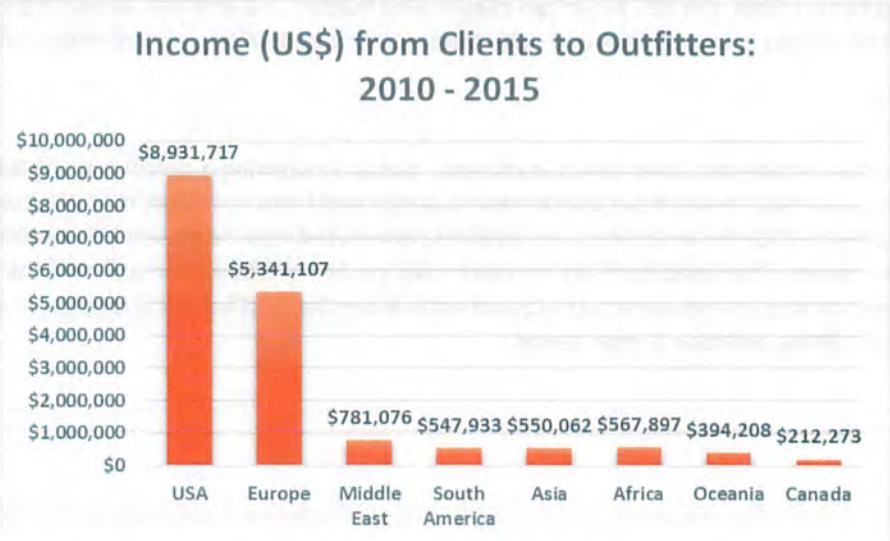

Figure 4: Contribution of hunting clients to the CAMPFIRE Program

3.3.2 Income from Trophy Fees

The data for the total amount of revenue generated for elephant, buffalo, leopard, hippo, crocodile and lion between 2010 – 2015 (approximately US$11 million) is shown in Figure 5.

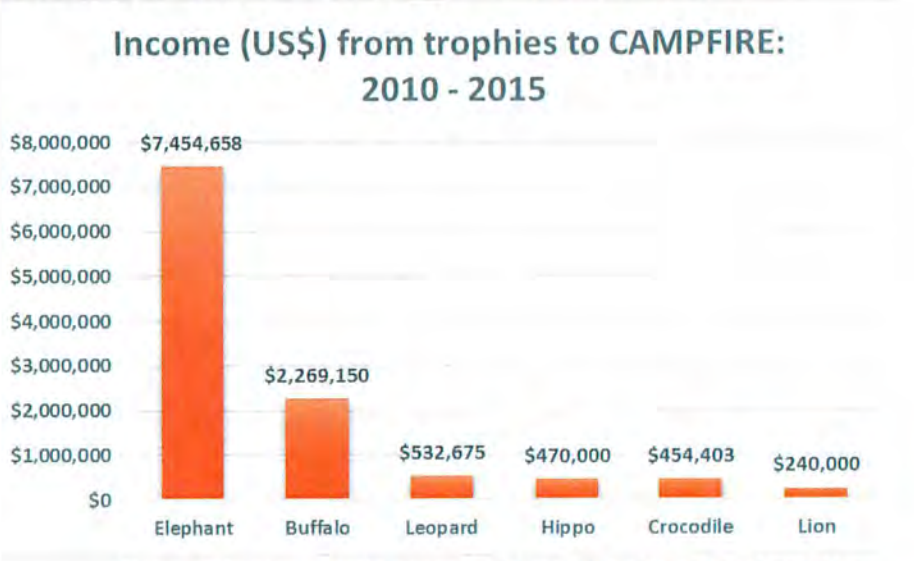

Figure 5: Income (US$) generated from the sale of key trophies

The importance of the income from elephant is clear from these data. Trophy fees from elephant account for 64% of all fees generated from the key species (approximately US$1.2 million/year). Buffalo (20%) are ranked second while leopard, hippo and crocodile contribute approximately 5% each. Noteworthy here is the low contribution of lion (approximately 2%). This low level of income generation is partly a result of the impact of the lion import suspension into the USA and Europe, decreasing quota allocations and decreasing offtake levels brought about by the recently imposed lion age hunting regulations. By comparison, the 897 American clients who hunted in CAMPFIRE Areas in the six-year period paid US$9 million in trophy fees and daily rates. Other nationalities, contributed US$8 million.

3.3.3 Other Income to RDCs

RDCs can generate income for other revenue streams, notably receiving a percentage of the daily rate, concession fees, bed night levies from photographic camps and from the lease/rent of equipment (Figure 6). The eight RDCs for which data are available generated approximately US$4 million from these revenue streams. Excluded here are revenues that could have been earned from the sale of ivory recovered from problem animal control (PAC) and natural deaths, and from the distribution of meat estimated at 550,000kg over the 6-year period.

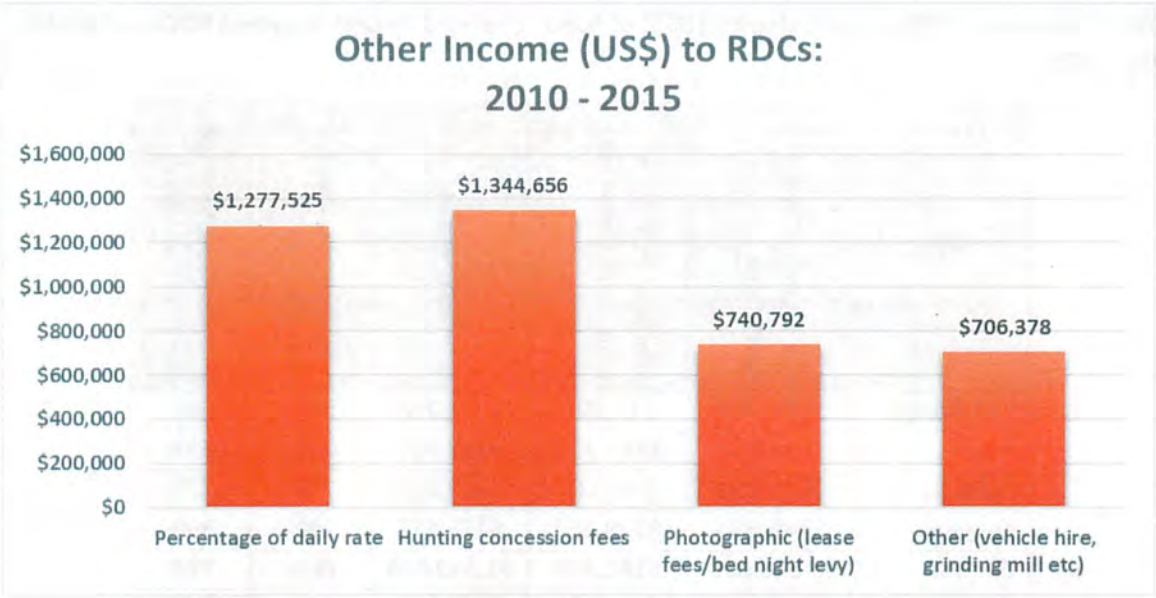

Figure 6: Income (US$) accruing to the RDCs from related income revenue streams

3.3.4 Benefit sharing: RDC vs Wards

Communities at the Ward level receive funds directly from the outfitter utilizing their area, except for those in Beitbridge and Hwange who are paid from dedicated CAMPFIRE accounts with the respective RDC. These funds are generated through trophy fees and income from the sale of hides, concession fees etc. (Table 3).

Over the last 6 years, the income generated from trophy fees is approximately US$11 million while a further US$4 million has come from the sale of hides, concession fees and other sundry income. The agreed split of these funds is that not less than 55% of the revenues is paid as Ward dividends, not more than 35% is allocated to the RDC for wildlife management (habitat management, fire control, monitoring, hiring of game scouts, etc.), and 15% is retained by the RDC as an administrative levy. Some RDCs do not consider all these revenues as "CAMPFIRE Funds" and segregate trophy fees from the other revenues. On average, the CAMPFIRE District Wards received 42% (range 23% - 66%) of the ***combined Concession and Trophy Fees***, but the Wards received approximately 58% (range 26% - 77%) of the ***Trophy Fees*** (Table 3).

Table 3: Summary of the benefit sharing (US$) of hunting related income between RDCs and Wards: 2010 - 2015

Districts	Income to RDC from trophy fees	Income to RDC from Hides, Concession fees etc.	Income to Wards	% All Revenue share: RDC vs Wards	% Trophy Fee Revenue share: RDC vs Wards
Beit Bridge	$657,458	$12,298	$370,228	55%	56%
Binga	$299,800	$364,224	$162,062	24%	54%
Bulilima	$521,700	$46,337	$403,685	71%	77%
Chipinge	$349,500	$139,259	$135,572	28%	39%
Chiredzi	$1,848,600	$181,420	$1,339,678	66%	72%
Hwange	$394,000	$105,131	$237,245	48%	60%
Mbire	$3,022,250	$54,420	$1,740,714	57%	58%
Nyaminyami	$1,883,853	$1,319,772	$1,132,204	35%	60%
Tsholotsho	$2,136,000	$1,990,200	$1,109,956	27%	52%
Total	**$11,420,886**	**$4,213,061**	**$6,631,342**	**42%**	**58%**

4 USE OF FUNDS BY RDCS AND WARDS

The CAMPFIRE Association prepared two templates in conjunction with district based CAMPFIRE Managers that were used as tools to audit the flow of income from safari hunting for the period 2010-2015, and how these funds are used to benefit CAMPFIRE communities. The tools gathered information on the following:

Tool 1: Data related to Rural District Councils

1. Area of district (either sq. km / ha) and total number of wards
2. The income generated by elephant, lion, leopard, hippo and crocodile i.e. Allocated quota (Number), Trophy fee, number hunted (offtake), percentage quota utilization.
3. The origin of the hunters (i.e. USA, Germany etc.) and the value of the safaris extracted from the TRAS2 forms where available. This data provided an indication of the income generation by outfitters.
4. The gross income that CAMPFIRE Districts received from the hunting and photographic activities (i.e. trophy fees, daily rates, concession fees, photographic fees, meat and any other sundry income).
5. Human resources employed at the District level (i.e. number of Wildlife Managers, number of Game Scouts, equipment (e.g., vehicles, patrol equipment etc.), patrol days per year.
6. The use of the funds to support:
    a. Meetings and Administration (i.e. the "15%" of funds)

   b. Law enforcement (RDC Game scouts, equipment, operational costs etc.)
   c. Compensation schemes (burial expenses, education, payment for hospital expenses etc.)
7. Management activities (fire guards, rehabilitation of water supplies, anti-poaching, problem animal control etc.)
8. Social services i.e. support to clinics, schools etc.
9. Other expenses not related to the above.

Tool 2: Data related to Wards

The following data was summarized for each ward in the District. The data collected at the Ward level was supported with evidence of income and expenditure e.g. copy of accounts, photographs of infrastructure etc.

1. Name of ward and ward number
2. Name and size of hunting area(s)
3. Name and number of village(s) and number of household beneficiaries
4. Income received at Ward level from hunting income, income generating projects from wildlife and other income (grinding mills etc.)
5. Allocation and use of income at Ward level for
   a. Meetings and Administration
   b. Wages/salaries
   c. Compensation schemes (e.g., burial expenses, education)
   d. Management activities (e.g., fire guards, rehabilitation of water supplies, anti-poaching, problem animal control.)
   e. Project running costs
   f. Social services (e.g. clinics, schools, grinding mills, roads, fencing, equipment, boreholes/pumps)
   g. Food security
   h. Direct cash benefits (i.e. to individuals, households, if applicable)
   i. Other
6. Human resources employed at the Ward level (i.e. number of Wildlife Managers, number of Game Scouts, equipment (e.g., vehicles, patrol equipment etc.), patrol days per year.
7. Number of Human and Wildlife Conflict cases by year and type (human death, injury, livestock, infrastructure)
8. Population estimates of major species (where available)

4.1 Profile of Rural District Councils

The data presented here has been extracted from Tool 1. For ease of understanding, these are presented below as follows:

- Characteristics of CAMPFIRE Districts
- Human resources and patrol effort
- Investment in equipment
- Expenditure

4.1.1 Characteristics of the CAMPFIRE Districts

The main parameters of the 10 RDCs (including Hurungwe) that provided data for this analysis are provided in Table 4. These RDCs represent approximately 9 million hectares of which 3.7 million hectares fall under the CAMPFIRE program. These RDCs have entered into agreements with both hunting and photographic outfitters who have invested in 26 hunting camps and 8 photographic camps respectively.

Altogether there are 224 Wards represented in these areas of which 104 are under the CAMPFIRE program. Excluding Hurungwe, there are 737 villages with a minimum of 85,847 households. This represents a community of approximately 600,000 people assuming that the average household is represented by 7 family members.

Table 4: Baseline features of the nine CAMPFIRE Districts

District	Total Area (Ha)	CAMPFIRE Area (Ha)	Hunting camps	Photo camps	Number of Wards	Number of Campfire Wards	Number of Villages	Number of Households
Beit Bridge	1,269,700	310,300	4	1	15	8	15	5,070
Binga	1,230,800	364,000	1	0	25	21	51	19,474
Bulilima	203,300	203,300	1	0	22	13	51	7,767
Chipinge	522,300	40,800	1	1	33	2	15	951
Chiredzi	1,710,239	481,004	5	0	32	9	52	9,461
Hurungwe	1,967,834	529,800	2	1	26	7	N/A	N/A
Hwange	376,963	376,963	2	1	20	18	93	13,980
Mbire	781,000	898,000	6	0	17	9	328	12,302
Nyaminyami	369,931	140,000	3	3	12	6	62	5,875
Tsholotsho	833,600	410,000	2	1	22	11	70	10,967
Total	**9,265,667**	**3,754,167**	**26**	**8**	**224**	**104**	**737**	**85,847**

4.1.2 Human resources and equipment employed at the District Level

Each of the RDCs employ staff to manage the CAMPFIRE program in their Districts. The number of people employed and the roles that they play is dependent on the level of income generated by the CAMPFIRE program. The core function of these staff is to monitor wildlife related activities in their respective areas, notably recording and dealing with human and wildlife conflict, coordinating meetings at the Ward level and monitoring outfitter hunting activities.

Most RDCs employ Game Scouts to conduct routine patrols and undertake basic law enforcement activities. In most cases this is low key since the CAMPFIRE program relies on members of the community to report incidents of wildlife crime, and any other matters related to wildlife in their respective Wards and villages.

Table 5: Summary of Human Resources Employed at District Level.

District	Wildlife Managers	Wildlife Officers	Game Scouts	Employees	Patrol Days
Beit Bridge	2	0	0	76	0
Binga	2	0	9	0	48
Bulilima	1	0	4	5	24
Chipinge	1	0	10	0	365
Chiredzi	2	0	8	8	91
Hurungwe	1	1	4	0	31
Hwange	1	0	6	0	144
Mbire	2	0	21	50	255
Nyaminyami	1	0	23	46	112
Tsholotsho	1	0	10	30	162
Total	**14**	**1**	**94**	**215**	**1231**

All RDCs have invested in various equipment that are employed on wildlife management activities. The number and type of equipment depends on the level of income and sophistication of the CAMPFIRE program. For example, the relatively wildlife endowed Mbire RDC has invested in a VHF radio system and camping gear for its scout force.

Table 6: Examples of equipment used in the CAMPFIRE Districts.

District	Vehicle (4 x 4, pick up etc.)	Truck	Tractor	Trailer	Grader/Tow Grader	Motor cycle	Bicycles	Radio Base Station	Radio hand sets	Rifles	Tents	Other
Beit Bridge	2	-	-	-	-	-	-	-	-	7	-	-
Binga	1	-	-	-	-	-	-	-	-	-	-	-
Bulilima	1	1	-	-	-	-	2	-	-	-	-	-
Chiredzi	2	-	1	1	1	-	-	-	-	-	-	-
Chipinge	1	-	-	-	-	-	-	-	-	7	-	-
Hurungwe	1	-	-	-	-	-	-	-	-	-	-	-
Hwange	1	-	-	-	-	3	-	-	-	7	1	-
Mbire	3	-	-	-	-	2	20	6	15	-	23	8
Nyaminyami	1	-	-	-	-	-	-	-	-	27	-	10
Tsholotsho	2	-	-	-	-	-	-	-	-	-	-	-
Total	**15**	**1**	**1**	**1**	**1**	**5**	**22**	**6**	**15**	**48**	**24**	**18**

4.1.3 RDC expenditure

CAMPFIRE related expenditure over the 6-year period is approximately US$6.2 million (or US$1.0 million/year). Figure 7 represents a breakdown of how the RDCs utilize the income from hunting to support the CAMPFIRE Program in their respective areas. These can be broken down into Administration, Management and Law Enforcement which accounts for approximately 80% of the expenses (or approximately US$835,000/year). The remaining 20% are used to support various community benefits and are aggregated under Social Services, Compensation and Other[2] activities. This equates to approximately US$220,000/year.

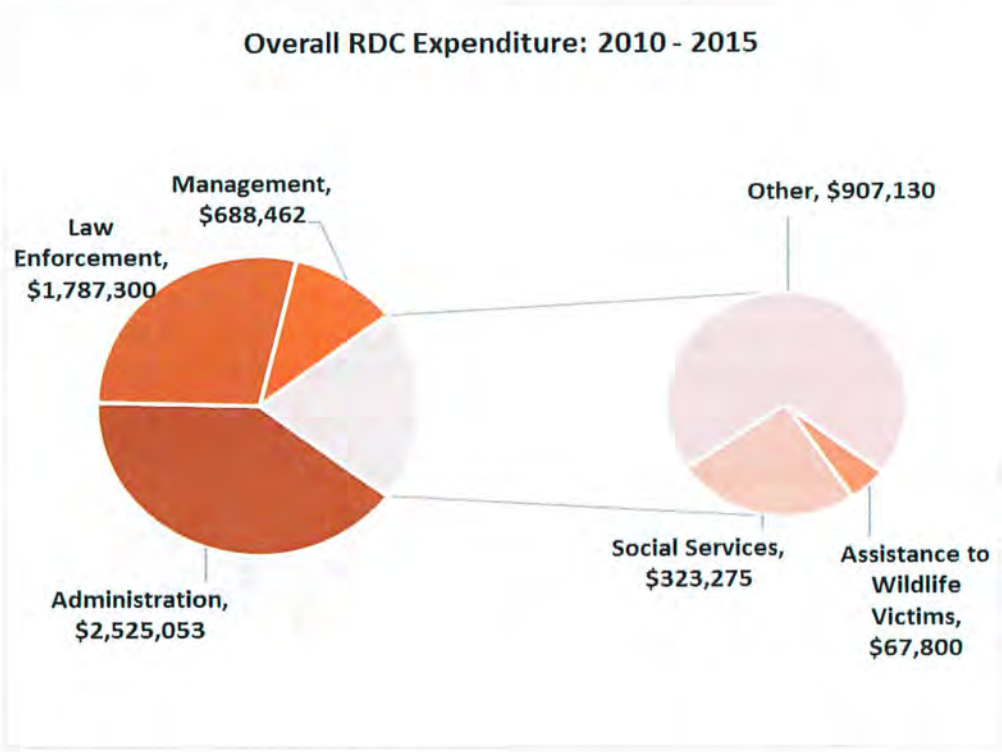

Figure 7: Breakdown of expenditure at the District level on CAMPFIRE program activities

A strategy employed by most RDCs is to invest more in activities related to the management and administration of the CAMPFIRE program rather than on social services. On average, 40% is spent on administration, 20% of law enforcement and 11% on management related expenses while 6% is allocated to support social services. There is no official national compensation scheme, however, RDCs and Wards (including outfitters) assist people and families who are injured or killed by wildlife.

4.2 Profile of CAMPFIRE Producer Wards

[2] The "Other" activities have been skewed by the inclusion of a number of expenses registered by Mbire RDC that include construction and maintenance of staff housing, promoting and managing a community cattle production scheme and purchasing vehicles and office equipment.

The data presented here has been extracted from Tool 2. For ease of understanding, these are presented below as follows:

- Human resources and patrol effort
- Human and Wildlife Conflict
- Investment in equipment
- Expenditure

4.2.1 Human Resources, Patrol Effort and Equipment

Table 7 represents the decision that the CAMPFIRE producer Wards elect to invest in their respective CAMPFIRE Programs. Each Ward is required to establish a Wildlife Committee to which at least 7 members are elected from the villages located in that ward. Each Wildlife Committee employs several people either as ward based monitors or as Game Scouts. This workforce is responsible for approximately 2.6 million hectares of land and represents the 85,847 households that reside in the 737 villages.

The decision to invest in equipment is dictated by the level of income that each producer Ward receives, and the ability of the Ward to service and maintain the equipment in the long term. The records kept at the Ward level under estimate the number of patrol days (minimum 3,002/year) achieved.

Table 7: Average number of staff employed at the Ward level, patrol effort and investment in equipment

District	Number of Wildlife Committee members	Number of Employees paid by community	Number of Game Scouts paid by community	Patrol days per year	Equipment (e.g., vehicles, tractors, grinding mills)	Concession Area (Ha)	Number of Villages	Number of Households
Beit Bridge	66	1	3	152	1	324,300	15	5,070
Binga	7	-	-	-	-	364,000	51	19,474
Bulilima	-	-	100	7	-	193,984	51	7,767
Chiredzi	56	32	-	-	3	N/A	52	9,461
Chipinge	9	5	5	1,584	4	9,400	15	951
Hwange	49	-	-	-	-	342,750	93	13,980
Mbire	76	90	48	1,259	19	898,000	328	12,302
Nyaminyami	45	30	12	-	-	140,000	62	5,875
Tsholotsho	77	2	-	-	1	410,000	70	10,967
Total	**385**	**161**	**168**	**3,002**	**28**	**2,682,434**	**737**	**85,847**

4.2.2 Human and Wildlife Conflict and Problem Animal Control

Communities living in CAMPFIRE areas are on the front line and are required to deal with wildlife problems almost on a daily basis. Table 8 below provides a summary of the magnitude of human and wildlife conflict (HWC) recorded over a 6-year period (2010 – 2015) in 9 CAMPFIRE Districts.

Conflict with wildlife falls under two areas: crop damage and livestock deaths. While there are many other wildlife species responsible for crop damage (baboons, monkeys, bushpig, rats, quelea birds etc.), elephant are considered the greatest threat and problem.

Although the data are incomplete, it is estimated that 7,000ha of crops were destroyed by elephant during the 6-year period under review. It is not possible to accurately place a monetary value to this because crop production varies greatly from one year to the next, and from one region to another. It is important however to take into consideration that the impact of crop destruction in the highly prone drought areas and areas of low rainfall (e.g. Beit Bridge, Binga, Tsholotsho) is more acute than in areas where crop production may be higher. To place this into perspective, the national average maize yield is estimated at 300 – 600kg/ha, and the minimum cash value is US$180/ton[3]. The approximate value of the maize lost is therefore US$500,000 – US$1.0 million. Applying this to livestock losses, the average price of cattle is US$400 – US$700/head depending on the time of year and condition of the livestock. Lion and crocodile are responsible for most cattle deaths and at these prices, the value of stock lost to these predators is US$500,000 – US$1.0 million. Hyena equally destroy cattle but are more likely to kill small livestock (goats, sheep). At US$75 – US$125/head, the minimum cost of predation on small livestock is estimated at US$170,000 – US$300,000 (Table 8).

Table 8: Summary of the extent of human – wildlife conflict recorded in CAMPFIRE Wards: 2010 - 2015

District	Crop Damage (estimated Ha)			Livestock killed (cattle, goats, sheep)				Human deaths
	Elephant	Hippo	Buffalo	Lion	Leopard	Crocodile	Hyena	
Beit Bridge	268	-	1	3	-	-	30	4
Binga	26	35	-	1	-	32	29	7
Bulilima	522	-	-	5	-	-	231	-
Chiredzi	18	9	-	122	-	21	-	2
Chipinge	22	10	-	5	-	7	-	7
Hwange	461	-	-	71	2	15	-	2
Mbire	3,878	475	1,146	426	52	416	1,870	53
Nyaminyami	1,216	49	102	59	6	9	-	13
Tsholotsho	1,085	-	20	175	19	-	211	8
Total	**7,495**	**578**	**1,269**	**867**	**79**	**500**	**2,371**	**96**
	9,342ha			**3,817**				
Cost (US$)	**@300kg/ha*$180/ton**		**$504,473**	**Cattle@$400 - $700/head**		**$546,800 - $1,040,400**		
	@600kg/ha*$180/ton		**$1,008,947**	**Small livestock@$75 - $125/head**		**$177,825 - $296,375**		

Communities who live with wildlife also pay the ultimate price and 96 people have lost their lives and others injured after encountering dangerous animals. Crocodile and hippo are responsible for most human deaths and injuries but there are many incidents where elephant have killed and maimed people who were tending their fields or traversing wildlife areas.

[3] Note: the official price for maize is approximately $350/ton but sellers rarely receive this price from the millers and other interested buyers.

Table 9 summarizes the incidents of problem animal control and illegal activities recorded in the 9 major CAMPFIRE RDCs (data extracted from The Proceedings of the CAMPFIRE workshop, Gandiwa et. al. 2014).

Table 9: Summary of problem elephant destroyed and through illegal activities in 9 CAMPFIRE Districts

	2009	2010	2011	2012	2013	2014	Total
Conflict	250	283	340	208	295	478	**1854**
PAC	55	66	41	33	36	66	**297**
Illegal	7	14	12	11	16	19	**79**

It is not unexpected that local communities will seek to mitigate these losses either through retaliatory killings (this applies mostly to the carnivores) or through removal of problem animals. With respect to elephant, it is important to understand the relationship between trophy hunting, problem animal control and illegal offtake. The interactions amongst all three variables are not simply additive. For example, a relatively small offtake of problem animals can have a significant influence on the mean tusk weight of hunting trophies taken from the population and, hence, the income derived from hunting. Martin (pers. comm.) uses a population simulation model (Craig et. al. 2011) to carry out an analysis to examine these interactions. This model assumes that Problem Animal Control (PAC) is selective, and that most of the elephants killed are males between the ages of 13-36 years old and females between the ages of 22-42 years old. Moreover, more males are killed than females (5:1).

Martin demonstrates that the combined effect of trophy hunting quotas and level of PAC shows that in a scenario where there is no PAC, trophy hunting quotas can be set ranging from 0.1 - 0.6 % of the population. However, as PAC increases, so the trophy hunting quotas must be decreased to maintain trophy quality. The magnitude of the changes caused by relatively minor increments in PAC are highly significant. The modelling shows that increases in the trophy hunting quotas and PAC offtake causes only a minor drop in the rate of increase of the population which remains above 4% per annum, however, if the PAC offtake exceeds 1% of the population, then hunting quotas should not exceed 0.1% of the population. Unless these ratios are maintained, there is a real risk that the elephant populations will decline with the consequential loss of income from sport hunting.

Currently Zimbabwe adheres to quotas set at 0.3 – 0.4% of the population, and slightly higher in the CAMPFIRE areas. The PAC levels shown in Table 9 do not approach these critical thresholds, however, close attention needs to be paid to trophy quality and age (see discussion of elephant hunting in Mbire - in The Proceedings of the CAMPFIRE workshop, Gandiwa et. al. 2014).

4.2.3 Beneficiaries of CAMPFIRE Income at the Ward Level

The beneficiaries of revenues from the CAMPFIRE program are the community's resident in the producer Wards. However, the volume of people residing in these areas precludes providing individuals with direct dividends since the value of such dividends would be meaningless. The CAMPFIRE wards have therefore elected to invest in projects that provide social services to the whole community and only in special circumstances are dividends paid out for food security and direct cash benefits.

Table 10: Examples of Social Services funded in selected CAMPFIRE areas from Ward Revenues generated from sport hunting: 2010-15

District	Project
Beitbridge	Rehabilitation of schools, clinics and protection of irrigation schemes
Bililima	Rehabilitation of 3 clinics and 3 primary schools, hall, fencing of fields and rehabilitation of lodge, community truck, tractor, dam repair machinery.
Chipinge	3 grinding mills, lorry, teachers houses, community office, shop
Chiredzi	Clinic, teachers' houses, primary school, community-grinding mill, Police sub-office, piped water and electrification of clinic.
Hurungwe	Construction of classroom block Nyamakate Secondary, Maintenance of Nyamakate bridge. Purchase of tractor tube, payment of carpenters, Roofing Chipfuko Primary School and Huyo Secondary School, CAMPFIRE Ward tractor major service, Purchase of Treasurers bicycle, Payment of Nyamakate Clinic guard, 7 resource monitors allowances, 26 bag cement Chitindiva, Kabidza , Manyenyedzi and Mawau schools for toilets construction, renovation Karuru School (5 bags cement), and toilet construction, Chitindiva Clinic toilet construction, Roofing Chikova Secondary School, Purchase of buiding materials Chikova Secondary Block, Painting Dete Primary School, Building toilets Makwiye school, Building shed Mupuse school, Roofing Bhashungwe primary school, Sanyati Bridge camp renovation, Purchase of Cement Tashinga Primary School, 6 pairs uniform for resource monitors, Purchase of 20 bags cement Chisipite Primary School, Purchase of tires for Ward tractor, Bridge maintenance
Mbire	Clinic, nurse's houses, office, storerooms, 14 classrooms, 7 teachers houses, grinding mill, school office, wildlife administration offices, 2 hand pump boreholes, water piping, toilet, water storage tanks, 2 tractors, a basic tourist camp with 4 chalets;
Nyaminyami	Tillage tractors, renovation of dispensary at clinic, nurse's house. Construction of Mayovhe classroom block, 3 grinding mills, Teacher's house, Jongola school. School bursaries x 3 students at Seke Teacher's College. Renovation of pre-schools x 2. Negande: Rehabilitation of water pipeline, grinding mill. Nebiri: Chikuro primary block, rehabilitation of Harudziva water pipeline. Kasvisva: Rehabilitation of water pipeline to supply water to Kasvisva clinic, Kasvisva Secondary school block. Msampa: Teacher's house, Majazu primary, renovation of ward warehouse; Kanyati: Cement for teacher's house renovation.
Tsholotsho	Classroom blocks and furniture (Sihazela, Mlevu, Mtshwayeli, Ntulula, Dibutibu, Gwaai, Nkwizhi, Zibalongwe, Malindi, Mgodimasili, Phelela, Mpilo, Jimila, and Kapane Primary schools), 2 F14 cottages, 10 sewing machines (Dibutibu Secondary school), 7km piped water system for Thembile primary school, Sikente Clinic, Tshitatshawa and Jowa clinics construction, fencing of Madlangombe clinic, 10 water engines, borehole drilling and repairs and repair kits, Lister diesel engines for 6 villages in ward 21 and at Sihazela Line in ward 1, grinding mills, solar water pumping in wards 1, 2 and 4. 2 pickup trucks for wildlife monitoring purchased in 2015.

Figure 8 summaries the distribution of the US$5.4 million that Wards in 9 CAMPFIRE areas received over the 6-year period under review (2010 – 2015). As with the District expenditure, the Ward Wildlife Committees allocate 42% of the funds (US$2.2 million) for administrative functions (i.e. Meetings and Administration, Wages and Salaries, Management and Projects) and 55% of the funds (US$2.9 million) to

community benefits. Most of the funds are allocated to social services (US$2.4 million) that support schools, clinics and other infrastructure that benefit the whole community. Examples of this support are provided in Annex 1.

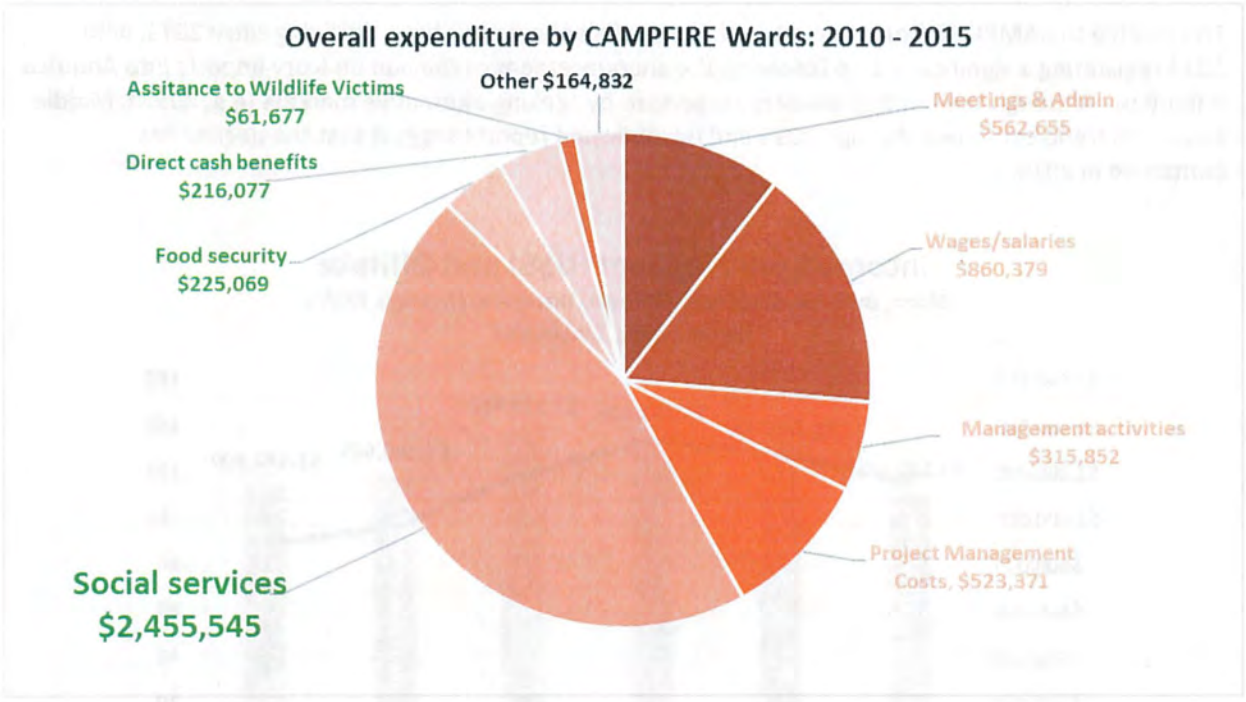

Figure 8: Allocation of Ward Campfire funds

5 Impact of the Suspension of Elephant Trophy Imports to the United States on the CAMPFIRE Program

The income to CAMPFIRE from the sustainable use of elephants has been declining since 2013, with 2014 registering a significant drop following the announcement of the ban on ivory imports into America (Figure 9). Although the hunting industry responded by seeking alternative markets (e.g. Russia, Middle East), this trend continued through 2015 and unconfirmed reports suggest that the decline has continued in 2016.

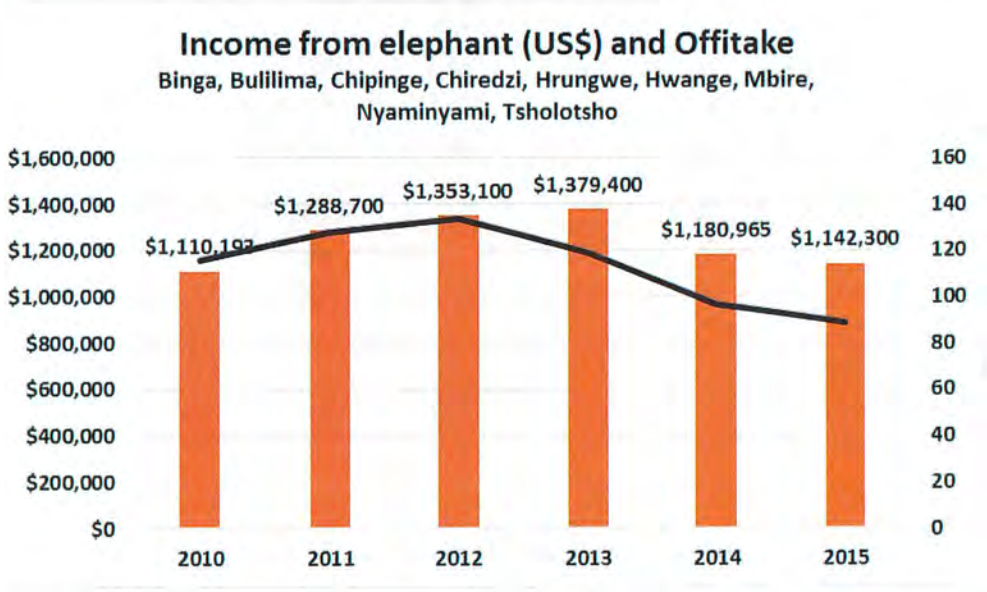

Figure 9: Annual income (US$) and offtake of elephants in 10 CAMPFIRE Districts

It is difficult to show concisely how the American ban on importation of elephant ivory from Zimbabwe has contributed to the decline in CAMPFIRE revenue and how hunting has enhanced the conservation of this species, due to the nature of the hunting industry in the CAMPFIRE areas. The hunting sector is integrated across a wide range of socio-economic activities and withdrawing one segment adversely affects a range of other wildlife based activities. Several indicators are provided here to demonstrate this:

1. The US suspension of ivory imports from Zimbabwe has had a significant impact on CAMPFIRE, and resulted in the cancellation of 108 out of 189 (57%) elephant hunts in all major districts initially booked by US citizens in 2014. The net impact of this was a reduction of CAMPFIRE income for all areas from US$2.2m in 2013 to US$1.7m in 2014. A similar pattern prevailed in 2015 (US$1.6m), and a further decline is anticipated in 2016 where outfitters struggled to sell elephant safaris and those that did had to heavily discount their prices.
2. The key trophy species (elephant, buffalo, leopard, hippo, crocodile and lion) contribute approximately US$1.2 million/year to CAMPFIRE revenues. Elephant account for 64% of these fees.

3. Quota utilisation of elephant prior to the ban did not exceed 60% of the CAMPFIRE quota allocation.
4. American hunters make up 53% of the clients in CAMPFIRE areas.
5. CAMPFIRE producer Wards receive on average 57% of all trophy revenues.
6. The CAMPFIRE hunting industry in the 9 RDCs covered in this analysis directly supports 104 producer Wards, representing 737 villages or 85,847 households.
7. The CAMPFIRE program employs managers, officers and game scouts at both the District and Ward level who are responsible for monitoring wildlife based land use activities in their areas and these are directly paid from safari hunting income.
8. Both RDCs and Wards invest in a variety of equipment that benefits communities and wildlife management. The operational and maintenance costs for this equipment are drawn from safari hunting income.
9. RDCs utilise 80% of the CAMPFIRE revenues to support administration and management of the program. 20% is invested in global social services that benefit communities at the District level.
10. Producer Wards, representing approximately 2.6 million hectares, bear the cost of living with wildlife. Under the 6-year period under review, elephants are responsible for the destruction of approximately 7,000ha of croplands in the 9 Districts. The minimum cost of this in terms of food production is estimated at US$500,000 – US$1.0 million.
11. Producer Wards have elected to invest 55% of their dividends from CAMPFIRE revenues in social services (schools, clinics etc.). 74% of these revenues are generated through trophy fees where elephant play a significant role.
12. Although CAMPFIRE communities suffer most from elephant crop damage, the number of elephant destroyed as problem animals is well within acceptable limits and with few exceptions, has little or no impact on population numbers.

In conclusion, the CAMPFIRE program relies almost exclusively on revenues generated through hunting. These revenues cannot be replaced through alternative wildlife based activities. This places almost two million hectares of wild land at risk, including the risk of increasing retaliatory killing through poisoning and illegal wildlife crime.

Wildlife in Communal Lands is under pressure. Removing any benefits will tip the balance and disgruntled CAMPFIRE communities will turn to pastoralism and unsustainable agricultural practices, thereby reducing wildlife habitat. The suspension of trophy imports is effectively encouraging communities to become willing tools for poaching – a forced abandonment of CAMPFIRE.

6 The Way Forward

The ZPWMA has recently developed and approved its 5-year Elephant Management Plan (ZPWMA, 2015). This plan recognizes that if elephants are to survive in the future, they must have a value, both to the governing authorities and to the local people. Unless the local communities, who live closest to elephants, are tolerant of this charismatic yet destructive species, it is unlikely that they will survive in the long term.

The Elephant Management Plan recognizes that "*regulated sport hunting converts wildlife into assets for the benefit of local people and the country as a whole. Wildlife can be a most valuable asset and in turn empower local communities and provide basic necessities. When it is viewed as a valuable asset, wildlife becomes an economically competitive land use in Zimbabwe, which leads to habitat preservation instead of habitat destruction and conversion to agriculture or livestock production.*"

The presence of regulated hunting can also reduce illegal activities, and private outfitters' lease agreements are being reviewed to include anti-poaching as an obligation of the concessionaire. Trophy hunting revenues are vital to facilitating not only law enforcement activities but also general wildlife management. Alternative wildlife land use practices, e.g. eco-tourism, cannot generate sufficient revenues to cover these costs, and certainly not to justify wildlife as a land use outside of protected areas.

Hunting can generate revenues under a wider range of scenarios than eco-tourism, including in remote areas lacking infra-structure, attractive scenery, or high densities of viewable wildlife. Consequently, elephant and other wildlife populations will be negatively affected through reduced conservation efforts arising from low funding and reduced goodwill from the communities.

CAMPFIRE has been widely regarded as one of Africa's most successful contemporary conservation initiatives. Hunting of elephants plays an integral part in promoting CAMPFIRE as it permits the residents of communal lands to share in the benefits generated by wildlife utilization on those lands.

As shown above, the bulk of CAMPFIRE's revenue comes from hunting, with elephant hunting contributing more than 60% of annual revenue. The current revenue sharing guidelines require safari outfitters to pay revenue directly into community-controlled bank accounts and this has had a positive impact on community attitudes to wildlife conservation. These funds have been used by RDCs and producer Wards to promote wildlife conservation, but despite its achievements, CAMPFIRE still faces fundamental challenges.

The most crucial of these challenges is developing strategies to accommodate the increasing human populations averaging 16-20 people per km^2 in some key CAMPFIRE areas. Understandably, the focus of these households is on food security requiring the extension of basic agricultural schemes and increased livestock numbers. Such land uses are incompatible with wildlife based land use.

Other CAMPFIRE challenges include: (i) the downturn in Zimbabwe's economy and tourism sector post-2000, (ii) great reliance on consumptive trophy hunting and less focus on other uses and non-consumptive uses of natural resources due to viability considerations, and (iii) low re-investment in development, fixed assets, human capital, and management and protection of wildlife in CAMPFIRE areas.

Despite these challenges, CAMPFIRE stands very high in the agenda of Zimbabwe's Government, and an evaluation dedicated to improving the program is ongoing and should be finalized by the end of 2017. Zimbabwe's Government recognizes that the survival of wild animals depends entirely on those among whom they live. Unless local people want to save them, wildlife will be poached to the point where just a few remain in fortified reserves. CAMPFIRE is meant to avoid this and the future of wildlife in communal areas rests on the success of this program.

The hunting of elephants, under sustainable and well-regulated conditions, has the potential to raise adequate funds to support itself and other species in CAMPFIRE areas. For these reasons, Zimbabwe confirms its commitment to the sustainable use of elephant and other wildlife in its Elephant Management Plan, and recognizes the role that elephant play in the CAMPFIRE program.

A PAUL G. ALLEN PROJECT

FRANKFURT ZOOLOGICAL SOCIETY

Discussion

Elephants

There were estimated to be 11120 (+/- 2753) elephants in Gonarezhou NP during 2015. This is the greatest ever estimate for the number of elephants in this park. Taken with the results of the earlier aerial surveys, this estimate implies that the number of elephants in Gonarezhou NP has increased at a mean annual rate of 6.0 % (lower and upper confidence limits 4.5 % and 7.5 %) during the past 19 years.

Elephant Carcasses

No fresh or recent carcasses of elephants (i.e. age categories 1 or 2) were seen in Gonarezhou NP during 2014. Consequently, the 1+2 carcass ratio was zero. This compares with 0.39 % during 2013 and 0.28 % during 2001 (Figs 4 and 5).

The estimated number of all elephant carcasses increased from 167 during 2001 to 511 during 2014. The all-carcass ratio increased from 3.3 % during 2001 to 4.2 % during 2013 and 4.4 % during 2014. If it is assumed that all unidentified carcasses were in fact elephant carcasses, the all-carcass ratio becomes 6.6 % during 2014, which compares with 7.6 % during 2001. Taken together, these numbers suggest that much of the increase in the number of dead elephants since 2001 can be accounted for the large increase in the number of live elephants during the same period. In other words, the more live elephants there are, the more that are likely to die, even when only deaths from natural causes are considered.

Other Large Herbivores

The trend analysis confirmed the results of earlier analyses, namely that the numbers of all large herbivores in Gonarezhou NP (except sable and ostrich) have increased since the 1992 drought.

Encroachment on Gonarezhou NP

Cattle – presumably from Mozambique – were seen outside the search strips west of the international border in the Chefu stratum.

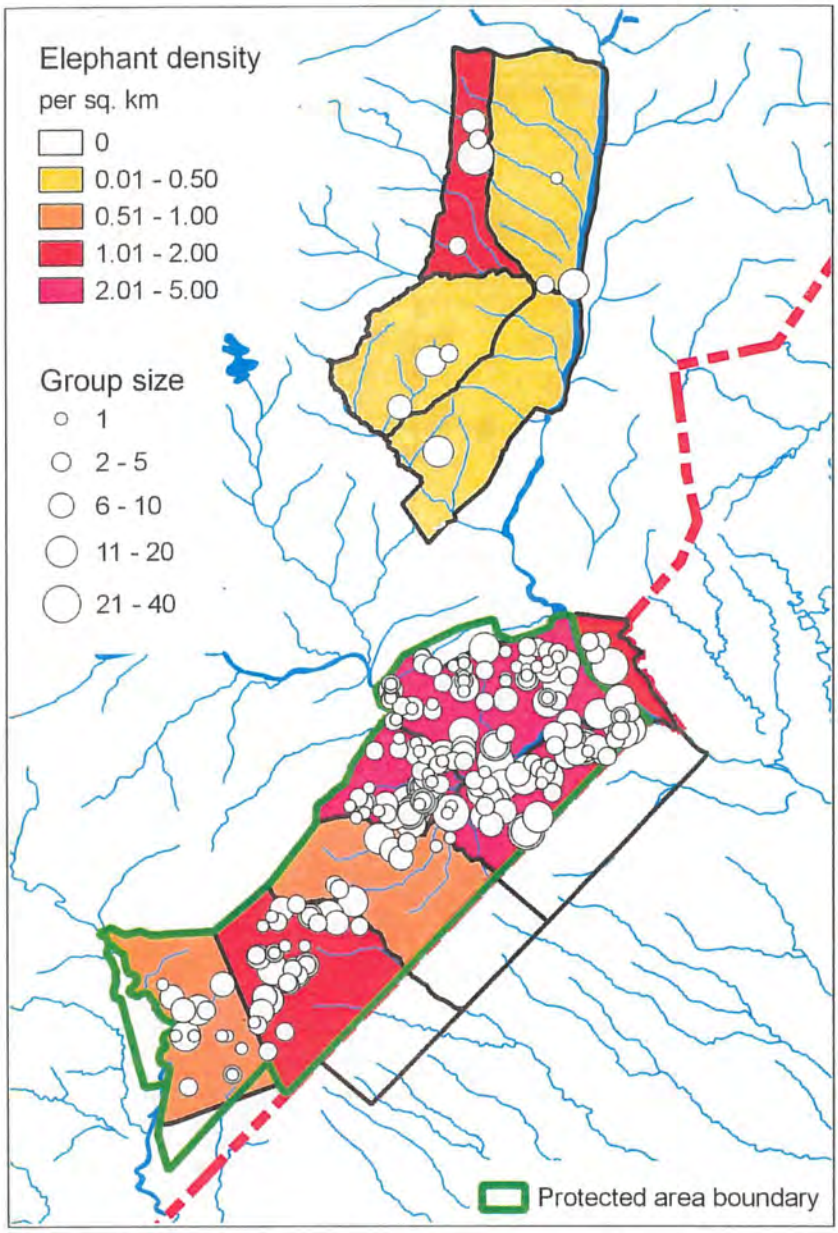
Coincident with the occupation of Zimbabwean commercial farms during 2000, the Chitsa people illegally occupied land in the north of Gonarezhou NP. Their action stemmed from dissatisfaction dating from when they (or their ancestors) were removed from the area of the current national park when the land that they then occupied was incorporated into a hunting area, established possibly as part of a programme to control tsetse flies and trypanosomiasis. Between the 2009 and 2013 surveys, a game fence has been erected to separate the area occupied by the Chitsa community (Stratum Chitsa S) from the remainder of the park. All sightings of domestic livestock in the north of the park during the 2014 survey were northwards of this fence, or in the vicinity of the Save River northwards of its confluence with the Runde River. It seems likely that there is a discrepancy here between official maps (followed when drawing the stratum boundaries) and the local people as to where the park boundary lies.

DRAFT ONLY

Map 5. Strata used during the 2014 aerial survey of South-East Lowveld

Bold lines indicate stratum boundaries and labels give stratum names.

DRAFT ONLY



Map 7. Distribution of elephant in Gonarezhou NP and SVC during 2014

Colouring indicates the mean density of elephants within each stratum. The dots indicate the locations of elephants seen *within the search strips*, together with an indication of the size of each group. Small dots overlaying large dots indicate two or more groups of elephants in close proximity. Variation in dot density between strata reflects differences between strata in *both* the density of elephant groups *and* the sampling intensity (given in Table 6). The red dashed line indicate the international border.

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III of the non-profit firm Conservation Force as my attorneys and legal representatives for all matters concerning my applications for a permit to import a lawfully hunted African Elephant trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

I also request that the attorney, through the address for Conservation Force below, be copied with all correspondence, acknowledgements, notices and decisions concerning my application to import my trophy at the following address:

RE: Application for Permit to Import Sport-Hunted Elephant Trophy, Thomas Lavelle

Dear Chief Cogliano:

Enclosed please find one application for a permit to import a sport-hunted elephant trophy from the Chiponda Pools concession, Zimbabwe. This is a CAMPFIRE communal area on the border of Gonarezhou National Park. The elephant population has increased to a record, excessive high, and the hunting incentivizes community tolerance for, and willingness to protect, this growing population. As stated in the attached email from the hunting operator, no elephant has been poached on this concession. We have included additional enhancement information in the DMA's files submitted by Conservation Force and Zimbabwe's Parks and Wildlife Management Authority, in making a positive enhancement finding for the applicant.

Please do not hesitate to contact us if you have questions about this application or need further information.

Sincerely,

John J. Jackson III

Thomas,

U.S. Fish and Wildlife Service Prt #02666D

On 08/14/2018 an applica on for the importa on of an African Elephant, sport hunted trophy was received by this office **Prt #** 02666D . At the me of the applica on's submission the hunt was to be held at a future date.

Please confirm at this me if you successfully hunted the elephant. If **yes**, please state so, and provide the date and loca on the elephant was taken.

If **no**, do wish to withdraw your applica on at this me?

Please confirm the current status.

****Please note the permit that was applied for was for a specific loca on, and date. Permit applica ons and fees are not transferable to another hunt, and so if you have scheduled a different hunt, you must submit a new applica on.*

Thank you,

Tim Mac Donald

Status of 02666D African elephant sport-hunted trophy import from Zimbabwe

1 message

Brisendine, Amy <amy_brisendine@fws.gov> Wed, Oct 2, 2019 at 12:21 PM
To: (b) (6) m
Cc: Amy Brisendine <amy_brisendine@fws.gov>, "Emma C. Sampson" <permits@conservationforce.org>

Hi Mr. Lavelle,

I apologize for the delay in processing your application. I am copying, per your application, Ms. Emma Sampson, at Conservation Force.

Your application, dated June 26, 2018, received in our office on August 14, 2018, to import one male sport-hunted African elephant trophy from Zimbabwe (scheduled hunt originally in February 2019 with Cliff Walker Safaris, location Chiponda Pools, Gonarezhou National Park, has been assigned to me to review.

Please note that since March 1, 2018, in response to a D.C. Circuit Court opinion, the Service informed the public that we were revising our procedures for assessing applications to import certain sport-hunted species (memo link here - https://www.fws.gov/international/pdf/memo-withdrawal-of-certain-findings-ESA-listed-species-sport-hunted-trophies.pdf).

The Service withdrew its countrywide enhancement findings for a range of species, including African elephant and bontebok. In their place, the Service is now making findings for trophy imports on an application-by-application basis. The Department of the Interior recognizes that well-managed hunting programs can contribute to the conservation of the hunted species. Therefore, the Service is continuing to monitor the status and management of these species in their range countries. We review each application received for the import of these sport-hunted species, including African elephants) and we evaluate the information provided in the application as well as other information available to the Service regarding the status and management of the species to ensure that the hunting program is promoting the conservation of the species. Each application must also meet all other applicable permitting requirements before it may be authorized. The Department is fully aligned with the Administration and the law on this matter.

With that said, based on reviewing your application, it looks like the two pieces of information remaining are your CITES export permit from Zimbabwe and the hunting license. When you receive these two documents, please forward copies to me.

I hope you enjoy your hunting trip to Zimbabwe, and please let me know when you return if you successfully hunt an elephant.

Please feel free to contact me directly if you would like to discuss your application.

Thank you and again, my apologies for the delay.

Thomas,

U.S. Fish and Wildlife Service Prt #02666D

On 08/14/2018 an applica on for the importa on of an African Elephant, sport hunted trophy was received by this office **Prt #** 02666D . At the me of the applica on's submission the hunt was to be held at a future date.

Please confirm at this me if you successfully hunted the elephant. If **yes**, please state so, and provide the date and loca on the elephant was taken.

If **no**, do wish to withdraw your applica on at this me?

Please confirm the current status.

****Please note the permit that was applied for was for a specific loca on, and date. Permit applica ons and fees are not transferable to another hunt, and so if you have scheduled a different hunt, you must submit a new applica on.*

Thank you,

Tim Mac Donald

Subject: Status of 02666D African elephant sport-hunted trophy import from Zimbabwe

Hi Mr. Lavelle,

I apologize for the delay in processing your application. I am copying, per your application, Ms. Emma Sampson, at Conservation Force.

Your application, dated June 26, 2018, received in our office on August 14, 2018, to import one male sport-hunted African elephant trophy from Zimbabwe (scheduled hunt originally in February 2019 with Cliff Walker Safaris, location Chiponda Pools, Gonarezhou National Park, has been assigned to me to review.

Please note that since March 1, 2018, in response to a D.C. Circuit Court opinion, the Service informed the public that we were revising our procedures for assessing applications to import certain sport-hunted species (memo link here - https://www.fws.gov/international/pdf/memo-withdrawal-of-certain-findings-ESA-listed-species-sport-hunted-trophies.pdf).

The Service withdrew its countrywide enhancement findings for a range of species, including African elephant and bontebok. In their place, the Service is now making findings for trophy imports on an application-by-application basis. The Department of the Interior recognizes that well-managed hunting programs can contribute to the conservation of the hunted species. Therefore, the Service is continuing to monitor the status and management of these species in their range countries. We review each application received for the import of these sport-hunted species, including African

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  (i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  (ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  (iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Import is limited to two per hunter per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild: Namibia; Zambezi Region; Katima Mulilo District; Bwabwata National Park East; near the village of Kongola; GPS Coordinate: S17°44.408' E023°21.743'
   b. Date wildlife is to be hunted:
   6/1/2017 - 6/17/2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).
Elephant - hide, feet, ears, tusks, shoulder mount, skull
Leopard - lifesize mount, skull, hide

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: N/A
   b. Date wildlife was hunted: N/A
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks): N/A
   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]: N/A

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business Name:	Ndumo Safaris Ltd.
Address:	Karl Stumpfe/Frederick Bezuidenhout
City:	P.O. Box 1667
State/Province:	
Country, Postal Code:	Ngweze, Namibia

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.
Please see attached page

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: N/A Date: N/A

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signatu (b) (6) Date: 8/30/2016

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

ATLANTA, GA

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

SAME AS MAILING ADDRESS ON PAGE 1

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Tim Bo
(b) (6)

12. **Disqualification Factor:** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Ndumo Safaris Enhancement Letter

Ndumo Safaris Ltd is a northeast Namibia based outfitter striving to combine sustained big game hunting with a focus on wildlife conservation within a vast concession of land. The concession is managed in an integrated approach with both the Namibian Government and local communal conservancies to enhance and benefit wildlife through conservation. This partnership approach with Ndumo and the communal conservancies which have been awarded a hunting quota have developed a successful model to help benefit both wild populations of target species and the local, impoverished communities to:

1) Co-exist on land with elephants and leopard
2) Derive a hunting based income from animals on land unsuitable for eco-tourism
3) Create core hunting areas with limited livestock entry, thus creating enhanced wildlife zones
4) Create 33 jobs with wages close to double the local standard
5) Provide communities with over 100 metric tons of much needed protein

Ndumo currently owns/operates two communal conservancies in the Caprivi/Zambezi region of Namibia:

- Sobbe conservancy
- Sikunga conservancy

Additionally, we operate Bwabwata East or Kwando Core area inside the Bwabwata National Park. The Namibian government has adopted integrated park management with the residents of the land on which the National Park is situated. Park residents are mostly from the Barakwena tribe, a Khwe San bushmen minority group. The residents have formed the Kyaramacan Association to represent them and manage income from tourism and trophy hunting. Ndumo has been awarded the trophy hunting concession from the Association.

Ndumo Safaris pays close to US$ 550,000 to both the Namibian government and local communities in concession and license fees. Fully 60% of these fees generated by elephant and leopard hunting support conservation through local communities and the Game Products Trust Fund (GBTF). GBTF revenue is reinvested into wildlife management, conservation, rural development, and activities that are aimed at promoting the coexistence of humans and wildlife. Additionally, Ndumo pays the communities another US $ 50,000 to further enhance and benefit wildlife by drilling bore holes, empowering local communities through anti-poaching efforts, purchasing game scout uniforms, and managing risks in areas of possible human/wildlife conflict further ensuring wild population sustainment.

The International Union for Conservation of Nature (IUCN) believes well-managed trophy hunting can "assist in furthering conservation objectives by creating the revenue and economic incentives for the management and conservation of the target species and its habitat, as well as supporting local livelihoods" and, further, that well-managed trophy hunting is "often a higher value, lower impact land use than alternatives such as agriculture or tourism." When a trophy hunting program incorporates the following Guiding Principles, IUCN considers that trophy hunting can serve as a conservation tool: biological sustainability; net conservation benefit; socio-economic-cultural benefit; adaptive management—planning, monitoring, and reporting; and accountable and effective governance. We support this approach and are taking an active role in its implementation.

ELEPHANT IMPORT FROM NAMIBIA

Permit Number: MA10499C-0

Effective: 03/13/2017 Expires: 03/12/2018

Issuing Office:

Department of the Interior
U.S. FISH AND WILDLIFE SERVICE
DIVISION OF MANAGEMENT AUTHORITY
BRANCH OF PERMITS, MS: IA
5275 LEESBURG PIKE
FALLS CHURCH VA 22041-3803

CHIEF, BRANCH OF PERMITS, DMA

Permittee:

THOMAS S. EDWARDS JR
(b) (6)
JACKSONVILLE, FL 32207
U.S.A.

Authority: Statutes and Regulations: 16 USC 1539 (a); 50 CFR 17.40 (e).

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Conditions and Authorizations:

A. Authorized to import the sport-hunted trophy of one African elephant (*Loxodonta africana*), taken in Namibia for the purpose of enhancement of the survival of the species.

B. Trophy must have been taken during the 2017 hunting season.

C. U.S. Threatened Species: tusks must be marked as per [50 CFR 17.40(e)]. In accordance with the African Elephant Conservation Act, raw ivory, including sport-hunted trophies that are wholly or partially ivory, may not be re-exported from the U.S.

D. Valid for use by permittee named above.

E. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law.

H. Specimen may not be sold or transferred for any financial remuneration.

I. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II expot permit issued by the Management Authority of Nambia.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 0 (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory cannot be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: 0 (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild: N/A

   b. Date wildlife is to be hunted:
      N/A

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).
      2 Tusks, 2 ears, 1 foot

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: Botswana, Matsebe Camp, Hunting block NG29, near Maun

   b. Date wildlife was hunted:
      7/09/08

REGISTER

(The licence holder must complete the shaded section)

Species	Area	Sex	Date of killing or wounding	Signature
ELEPHANT	NG29	MALE	07/09/08	

The holder shall complete this register when the animal is killed and BEFORE it is moved or dismembered or, when the animal is wounded, as soon as the pursuit of the wounded animal is abandoned. IT IS AN OFFENCE NOT TO SO COMPLETE THIS REGISTER (Section 38 WCNPA)

along this perforation)

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

2 Tusks, 2 ears, 1 foot (umbrella stand)

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Plot 157 Gauteng
Nooitgedacht South Africa
Muldersdrift 1747

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	
Business Name:	Trans African Taxidermists
Address:	Plot 157
Address:	Nooitgedacht
City:	Muldersdrift 1747
State/Province:	Gauteng
Country, Postal Code:	South Africa

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: N/A _____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: N/A _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: X (b) (6) Date: 12-9-16

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

Same Address as in

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Alex Brant as provided in Applicant information

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
MILLBROOK	NY	12545	DUTCHESS	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☒ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: MA14673C-0 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other applicable parts in subchapter B of ***Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

(b) (6)

Signature of person responsible for permit (No photocopied or stamped signatures) — Date of signature (mm/dd/yyyy): 12/17/2017

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend MA146736-0
would like to extend for a year, please
2. Submit the original permit with this application.

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signatur[redacted] Date: Dec 17, 2017

   Note: You misspelled Bangall Road and Millsoods on permit.

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

   ☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email): ALEX BRANT
(b) (6) [redacted] Dec 29- JAN 2 ONLY)
(b) (6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☐ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES* and/or *ESA)*

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but are unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 3: USFWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 4: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-5 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. For each trophy to be imported, provide:
   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      Loxodonta Africana - African Elephant

   b. Sex (if known).

      Male

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

3. **IF THE ANIMAL IS DEAD,** please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):

      Namibia, Caprivi Strip , Nakabolelwa , S17*49.861 E24*52.936 , Ngoma

   b. Date wildlife was hunted:

      09/18/2016

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

2 Tusks , 1 ear , 1 tail

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export documents]:

Omujeve Safaris
Ongombo West #56 , Windhoek Namibia

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will also appear on your Namibian export permit and must match the U.S. import permit].

Name:	Corne Kruger
Business Name:	Omujeve Safaris
Address:	Ongombo West #56
Address:	Windhoek
City:	Namibia
State/Province:	
Country, Postal Code:	

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., population status or trend data; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signatu(b) (6) _____ Date: 12/11/16

Be aware that there may be additional permitting or approval requirements by your local or state government, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist you, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish permit mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):
aldredge (Beau) Estes, (b) (6)
(b) (6)

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if I the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

mpongo PRIVATE GAME RESERVE

21 February 2017

LETTER OF MOTIVATION

To whom it may concern

Proposed hunting of an elephant bull on Mpongo Private Game Reserve

Mpongo Private Game Reserve is managed at a very high level on all fronts, including correct management of all its plentiful wildlife. Mpongo Reserve is currently building up its elephant population, having started with a small nucleus of re – introduced animals. The original bull that arrived with this group will in the very near future, have the undesired effect of breeding with his offspring. Part of the funds acquired from the hunting of this bull will go towards obtaining a new bull of unrelated bloodline. This is essential to the wellbeing of our growing heard of wild elephant.

Mpongo Reserve also prides itself on the staff that it employs from the local communities that live adjacent to the reserve. Total employees 65
This employment is essential to the employee's families, as they are the main breadwinners. They receive ongoing training, and are doing very well in their respective forms of employment.
The remaining part of the funds obtained by the hunting of this elephant will go to uplifting and empowering these dedicated staff members and their families.

Please contact me or Mike Bunge for any other information.

Kind Regards

Martin Jansen van Rensburg
General Manager

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES* and/or *ESA)*

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but are unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 3: USFWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 4: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-5 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. For each trophy to be imported, provide:
   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      Loxodonta africana, African bush elephant - Elephant

   b. Sex (if known).

      Male

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

      Mpongo Game Reserve, Eastern Cape Province, nearest city - East London, South Africa
      COORDINATES: SOUTH 32° 50' 36.0"
      EAST 72° 43' 57.5"

   b. Date wildlife is to be hunted:
      07/01/2017 - 08/02/2017

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

      2 Ears, 2 Tusks, 2 front feet, Panels of skin and the tail.

3. **IF THE ANIMAL IS DEAD,** please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):

      N/A

   b. Date wildlife was hunted:

      N/A

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

N/A

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export documents]:

N/A

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will also appear on your Namibian export permit and must match the U.S. import permit].

Name:	Kevin Boucher (owner) Hunters & Collectors Taxidermy
Business Name:	19 Produce Street Baakens River Valley
Address:	Port Elizabeth Eastern Cape South Africa
Address:	Postal Address:
City:	P.O. Box 15675
State/Province:	Emerald Hill, 6011
Country, Postal Code:	Port Elizabeth Eastern Cape South Africa

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., population status or trend data; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if ap[redacted]t raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: _____ Date: _____

Be aware that there may be additional permitting or approval requirements by your local or state government, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist you, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

Houston TX

9. Name and address where you wish permit mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

Return Envelope Inclosed

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Craig Bemis, (b) (6) [redacted]

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Re: Reissuance, Renewal of permit # MA24155C-0

Please find enclosed a check for $100.00, my original Cites Permit for an elephant from South Africa and the appropriate Permit Application Form for reissuance of an existing permit. My hunt was successful and the trophies are being processed at this time. However the processing will not be completed within the time frame of the original permit. I would therefore appreciate it if the permit could be reissued / renewed in order for me to import my trophies.

If needed my contact information is as follows:

Physical address (where the trophies will be shipped:

(b) (6) Tucson AZ 85715

Mailing address:

(b) (6) Tucson AZ 85751

Email: (b) (6)

Mobil phone (b) (6)

Thank you for your help in this.

Regards,

(b) (6)

Sig sible for permit (No photocopied or stamped signatures) 01/02/2018 Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend MA24155C-0.

2. Submit the original permit with this application.

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: (b) (6) Date: 01/02/2018

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

   ☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Craig Bemis, (b) (6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

NOTICE OF REPRESENTATION

This is a notice to the U.S. Fish and Wildlife Service that I have appointed John J. Jackson, III and Regina Lennox of the non-profit firm Conservation Force as my attorneys and legal representatives for all matters concerning my applications for a permit to import a lawfully hunted Elephant trophy.

This authority is inclusive and extends to all applications and filings, whether administrative or judicial, including but not limited to any request for reconsideration, appeal, and litigation.

I also request that these attorneys, through the address for Conservation Force below, be copied with all correspondence, acknowledgements, notices and decisions concerning my application to import my trophy at the following address:

Conservation Force
3240 S. I-10 Service Road W., Suite 200
Metairie, Louisiana 70001 USA
T: (504) 837-1233

Type of Activity:
Import of Sport-hunted Trophies of Southern African Leopard, African Elephant, and Namibian Southern White Rhinoceros

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Jeter	Russell		

2. Date of birth (mm/dd/yyyy)	3. Occupation	4. Affiliation/ Doing business as (see instructions)
(b) (6)		N/A

5.a. Telephone number	5.b. Alternate telephone number	5.c. Fax number	5.d. E-mail address
(b) (6)			(b) (6)

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
N/A	

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. (b) (6) Boxes)

1.b. City	1.c. State	1.d. Zip code/Postal code.	1.e. County/Province	1.f. Country
Anacortes	WA	98221	Skagit	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
(b) (6)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country
Anacortes	WA	98221	Skagit	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $100, nonrefundable processing fee** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☒ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: Unavailable No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the be[illegible]d that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for a trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

(1) Is raw, processed, or manufactured;
(2) Was legally obtained by the hunter through hunting for his or her personal use;
(3) Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
(4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
(i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
(ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
(iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy.

If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity:_____(Import is limited to two per hunter per calendar year)

African elephant (*Loxodonta africana*) Quantity:__1__(Import is limited to two per hunter per calendar year)
Note: once imported, ivory cannot be re-exported.

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity:_____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you wish to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

N/A

b. Date wildlife is to be hunted:

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: Tanzania Burunge Wildlife Management Area
   b. Date wildlife was hunted: March 28th, 2013
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks): EARS, Leg skin, Tail
      skin, skull, tusks, shoulder mount
   d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:
      Game Frontiers Office Dar Es Salaam

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Business	Game Frontiers of Tanzania Ltd.
Name: Address:	P.O. Box 19746
Address:	Dar es Salaam
City:	Tanzania
State/Province:	
Country, Postal Code:	

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

ease refer to the positive enhancement and non-detriment findings for import of sport-
nted elephant trophies from Tanzania in 2013.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year. I understand that my client may only import two African elephant trophies in one calendar year. In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

N/A

Taxidermist/Broker's signature:_____ Date: _____

7. **If you are the hunter applying to import your own trophy**, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year. I understand that I may only import two African elephant trophies in one calendar year. In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) Date: 3-20-2017

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Applicant or John J. Jackson, III or Regina Lennox of Conservation Force, 504-837-1233, cf@conservationforce.org

12. **Disqualification Factor**. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Authority: Statutes and Regulations: 16 USC 1539 (a); 50 CFR 17.40 (e).

Location where authorized activity may be conducted:
IMPORT THROUGH ANY PORT LISTED IN 50 CFR 14.12

Reporting requirements: Not applicable

Conditions and Authorizations:

A. Authorized to import the sport-hunted trophy of one African elephant (*Loxodonta africana*), taken in Tanzania for the purpose of enhancement of the survival of the species.

B. Specimen may not be sold or transferred for any financial remuneration.

C. U.S. Threatened Species: tusks must be marked as per [50 CFR 17.40(e)]. In accordance with the African Elephant Conservation Act, raw ivory, including sport-hunted trophies that are wholly or partially ivory, may not be re-exported from the U.S.

D. **Trophy must have been taken during the 2013 hunting season.**

E. Trophy must be accompanied by a valid Convention on International Trade in Endangered Species (CITES) Appendix II export permit issued by the Management Authority of Tanzania.

F. General conditions set out in Subpart D of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accord with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

G. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local, tribal, or other federal law. **This permit can be photocopied.**

H. Valid for use by permittee named above.

I. Acceptance of this permit serves as evidence that the permittee understands and agrees to abide by the "General Permit Conditions" (copy attached).

Re: Permit 30348C

Dear Luis:

Thank you for speaking with me today. Attached please find the amendment application and its attachment, and the originally issued permit. As we discussed, please reissue as a CITES Appendix-I import permit for the import of a sport-hunted elephant trophy from Tanzania.

Please do not hesitate to contact me if you have any questions about this permit or the information submitted.

Thank you for your prompt attention to the reissuance of this permit.

Sincerely.

Regina Lennox

Russell Jeter

Application for Reissuance of Permit: MA30348C-0

Response to Question E.3.b / E.6.b:

I request reissuance of this permit to correct two errors. First, this permit is titled "Elephant Import from South Africa" in the top right corner. However, as stated in my application and in Conditions A and E, the elephant was hunted in Tanzania and not South Africa.

Second, I believe this is not the correct permit form. Elephant from the United Republic of Tanzania are listed on Appendix I of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES). To comply with CITES, the U.S. Management Authority must issue an import permit. However, the permit referenced above does not say anything about CITES. I am concerned Tanzania's Management Authority will not be able to issue an export permit and I will not be able to comply with Condition E if the FWS does not issue a CITES-compliant import permit.

Accordingly, I request the permit referenced above be reissued on a standard CITES import permit form, signed by the CITES Management Authority, and the language "elephant import from South Africa" be removed.

Certification:

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted above. I hereby request re-issuance of this permit with the indicated changes.

(b) (6)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country
Anacortes	WA	98221	Skasit	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee — ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue MA30348C-0 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend MA30348C-0.

2. Submit the original permit with this application.
   Please see attacked.

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit. N/A
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

   Please see attached.

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

   N/A

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.
   N/A

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

a. For **NO CHANGES** to original application:

I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

Permittee's signature: N/A _____ Date: _____

b. For **CHANGES** to original application:

On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

Please see attached.

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Applicant or Conservation Force, 504-837-1233, cf@conservationforce.org

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Attention: Luis Rivera

Re: Permit 17US30348C/9

Dear Luis:

Enclosed please find an amendment application and its attachment, and the originally issued permit to import an elephant from Tanzania. This permit has been reissued once, and I request reissuance a second time to amend the Consignor name. I hunted with an affiliate of Game Frontiers of Tanzania and want to ensure my export and import permits match exactly. Please do not hesitate to contact me if you have any questions about this permit or the information submitted.

Thank you for your prompt attention to the reissuance of this permit.

Sincerely,

(b) (6)

Russell Jeter

Application for Reissuance of Permit: MA30348C-0

Response to Question E.3.b / E.6.b:

I request reissuance of this permit to amend the name of the Consignor (Box 4). I hunted with one of Game Frontiers of Tanzania's subsidiaries, namely, Northern Hunting Enterprises Ltd. My CITES export permit refers to Northern Hunting Enterprises Ltd. Therefore, to avoid any difficulty in import, I request reissuance with "Northern Hunting Enterprises Ltd., P.O. Box 20965, Dar es Salaam, Tanzania" identified as the Consignor.

Certification:

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted above. I hereby request re-issuance of this permit with the indicated changes.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Jeter	Russell		

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			N/A

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6)			(b) (6)

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
N/A	

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Anacortes	WA	98221	Skasit	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
(b) (6)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country
Anacortes	WA	98221	Skasit	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: MA30348C-0 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend 17US30348C/9.

2. Submit the original permit with this application.

   Please see enclosed.

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit. N/A
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

   Please see enclosed explanation.

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

   N/A

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

   N/A

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

a. For **NO CHANGES** to original application:

I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

Permittee's signature: N/A Date: _____

b. For **CHANGES** to original application:

On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

Please see enclosed page.

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

Permittee's signatu (b) (6) Date: 7-26-17

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Applicant or Conservation Force, 504-837-1233, cf@conservationforce.org

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Good afternoon.

I have been assigned your application to amend your permit to import an elephant from Tanzania. In order to continue processing your application, please sign and date page 1 of the application and reply to this email with the completed, scanned version.

Please be aware that if the requested information is not received by this office within 45 days, your application will be abandoned and administratively closed. Once a file is closed, you will need to submit a new application and all required fees for the Service to consider your proposed activity

Application for Reissuance of Permit: MA30348C-0

Response to Question E.3.b / E.6.b:

I request reissuance of this permit to amend the name of the Consignor (Box 4). I hunted with one of Game Frontiers of Tanzania's subsidiaries, namely, Northern Hunting Enterprises. My CITES export permit refers to Northern Hunting Enterprises. Therefore, to avoid any difficulty in import, I request reissuance with "Northern Hunting Enterprises, P.O. Box 20965, Dar es Salaam, Tanzania" identified as the Consignor.

Certification:

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted above. I hereby request re-issuance of this permit with the indicated changes.

Attention: Luis Rivera

Re: Permit 17US30348C/9

Dear Luis:

Enclosed please find an amendment application and its attachment, and the originally issued permit to import an elephant from Tanzania. This permit has been reissued once, and I request reissuance a second time to amend the Consignor name. I hunted with an affiliate of Game Frontiers of Tanzania and want to ensure my export and import permits match exactly. Please do not hesitate to contact me if you have any questions about this permit or the information submitted.

Thank you for your prompt attention to the reissuance of this permit.

Sincerely,

(b) (6)

Federal Fish and Wildlife Permit Application Form

Return to: U.S. Fish and Wildlife Service
(Enter address from pages 5 and 6 of application)

Type of Activity:
REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Jeter	Russell		

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			N/A

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6)			

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)
N/A	

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Anacortes	WA	98221	Skasit	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)
(b) (6)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country
Anacortes	WA	98221	Skasit	USA

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7**. Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: MA30348C-0 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best o[illegible] at any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

6-21-18

Sig[redacted] permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend 17US30348C/9

2. Submit the original permit with this application. √

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

4. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification** - Complete one of the statements below and supply any additional documentation requested (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's signature: (b) (6) Date: 6 21 18

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

   Russell Setzer
   (b) (6)

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

   Fedex # (b) (6)

   ☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email): Ross Seier

(b) (6)

12. **Disqualification Factor:** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

June 21, 2018

US Fish and Wildlife

Renewal request of permit # 17US30348C/9

Pursuant to renewal application instructions 3. Past activities B.

I was issued the permit on permit on September 18, 2017 and promptly submitted it to the Tanzanian hunting outfitter/exporter who applied for the appropriate export permits and signatures. They failed to secure the last signature required prior to my permit expiration on May 7th, 2018 and thus were not able to ship it to me.

Please issue a renewal so I can try to get it exported from Tanzania and imported to the US.

Thank you,

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES* and/or *ESA)*

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but are unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 3: USFWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 4: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-5 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. For each trophy to be imported, provide:
   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

      Loxodonta Africana - Elephant

   b. Sex (if known).

      Male

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

      N/A

   b. Date wildlife is to be hunted:

      N/A

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

      N/A

3. **IF THE ANIMAL IS DEAD,** please enter the following:
   a. Country and PLACE (area, region, GIS coordinates, ranch AND nearest city) where wildlife was removed from the wild (provide a map if possible):

      South Africa, Limpopo Province, nearest town is Marken.
      Ranch: Shelanti Reserve, Gate Cor: 523° 29' 3688", E028° 23' 58.22"

   b. Date wildlife was hunted:

      July 28th 2015

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks).

2 each Tusks, 2 Skin Panels, 4 Foot Stools, 1 each Tail Mount, Elephant Skin Chair

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export documents]:

Estelle Nel Taxidermy, Roodepoort Plot 122
Bella Bella, 0480 Limpopo RSA

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will also appear on your Namibian export permit and must match the U.S. import permit].

Name:	Louise Grobler
Business Name:	Estelle Nel Taxidermy
Address:	Roodepoort Plot 122
Address:	
City:	Bella Bella
State/Province:	Limpopo RSA
Country, Postal Code:	0480

5. Please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., population status or trend data; how the funds from license/trophy fees will be spent; what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: N/A Date: _____

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) Date: 5-12-2017

Be aware that there may be additional permitting or approval requirements by your local or state government, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist you, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish permit mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

(b) (6) [redacted]

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Ron Cooper (b) (6) [redacted]
(b) (6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Federal Fish and Wildlife Permit Application Form

Return to: U.S. Fish and Wildlife Service
(Enter address from Page 4 and 5 of application)

Type of Activity:
REPLACEMENT DOCUMENT
(CITES/ESA/MMPA/WBCA/LACEY ACT)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
COOPER	RONALD	WARD	

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6)			

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
HOUSTON	TX	77015	HARRIS	USA

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount of $50 nonrefundable processing fee.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: MA36381C-0 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Lynette Leggy, Well Worldwide Energy, Atty-in-fact 11/28/2017

Signature (in blue ink) of applicant/person responsible for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

E. REPLACEMENT DOCUMENT (CITES/ESA/MMPA/WBCA/LACEY ACT)

NOTE 1: Use this application to request a replacement document if your currently valid permit has been lost or misplaced (for this application, all permits, registrations, and certificates are referred to as a permit).

NOTE 2: The application **must** be submitted to the office that issued the initial permit.

Provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you submit, indicate the application question number you are addressing.

1. Identify the permit number (found in the upper right corner) of the permit needing replacement, if known:
   MA36381C-0

2. Current location of specimen (include address and country):
   SAFARI AIR CARGO SYSTEMS
   HOLDING 34, 5TH AVENUE,
   BREDELL GAUTENG 1623, RSA

3. If the shipment has already occurred (i.e., the document was lost or damaged in transit), provide copies of:
   a. Cancelled CITES export or re-export document validated by OLE;
   b. For wildlife, cleared Declaration for Importation or Exportation of Fish or Wildlife (Form 3-177); **AND**
   c. Any correspondence you had with the shipper or importing country's Management Authority concerning the shipment.

   *Please be aware that if the permit was lost in transit, the issued permit will be forwarded to the Management Authority of the foreign country.

4. If the shipment has **not** occurred and the original permit no longer exists, submit a signed, dated, and notarized statement that:
   a. Refers to the permit number and describes the circumstances that resulted in the loss or destruction of the original permit;
   b. Includes a statement that affirms the shipment did not occur;
   c. You are requesting a replacement U.S. CITES permit;
   d. If found, the original permit will be returned to the Division of Management Authority.

5. If the shipment has **not** occurred and the original permit exists but has been damaged, submit the original damaged permit and a signed, dated, and notarized statement that:
   a. Describes the circumstances that resulted in the permit being damaged;
   b. Includes a statement that affirms the shipment did not occur;
   c. You are requesting a replacement U.S. CITES permit.

6. Address where you wish permit mailed (if different from page 1):
   SAME AS PAGE 1

7. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 6. I understand that you will contact me for my credit card information once the application has been processed.

8. Who should we contact if we have questions about the application? (Include name, phone number, and email):

RON COPPER, (b) (6) [redacted]
or
LYNETTE LILLEY, WELL WORLDWIDE, 281-606-2400, llilley@well-usa.com

9. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

doing business as [redacted] under the laws of the State of (4) [redacted], residing ~~or having a principal~~
home address (5) X (b) (6) [redacted] Houston TX 77015

hereby constitutes and appoints **WELL Worldwide Energy Logisitics, Inc** to act through its officers, employees and specially designated agents which are duly authorized by said Grantee by power of attorney

As a true and lawful agent and attorney of the Grantor named above for and in the name, place and stead of said Grantor from this date and in all Customs Districts, and in no other name to make, endorse, sign, declare, or swear to any entry, withdrawal declaration, certificate, bill of lading, or other document required by law or regulation in connection with such merchandise; to receive any merchandise deliverable to said Grantor;

To make endorsements on bills of lading conferring authority to transfer title; to make entry and collect drawback; and to make, sign, declare, or swear to any statement, supplemental statement, schedule, supplemental schedule, certificate of delivery, certificate of manufacture, certificate of manufacture and delivery, abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificates, abstract, declaration, or other affidavit or document is intended for filing in any other Customs District;

To sign, seal and deliver for and as the act of said Grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise exported with or without benefit of drawback or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said Grantor, and any and all bonds of which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owner's declaration provided for in section 485 Tariff Act of 1980 amended or affidavits in connection with the entry or merchandise;

To sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated by Grantor;

To grant powers of attorney on behalf of said Grantor to other Customs Brokers to act as said Grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in said Grantor's name drawn on the Treasurer of the United States;

And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930, in which said Grantor is or may be concerned or interested and which may properly be transacted or performed by an agent and attorney giving said agent and attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said Grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents, the forgoing power of attorney to remain in full force and effect until

(6) (✓) Revoked ( ) [redacted] (click arrow to select date)

If Grantor is a partnership or LLC, signatory certifies that he/she has full authority to execute this instrument on behalf of Grantor and shall state the names of all members and/or directors on a separate addendum to this document, and said the power shall in no case have any force or effect beyond two years from the date of its execution.

Grantor further authorizes Grantee to act as its agent in signing or endorsing export documents, i.e. commercial invoices, shipper's export declarations, Automated Export System records, bills of lading, insurance certificates, drafts and any other documents necessary to the successful completion of any export transaction on its behalf.

If Grantor is a U.S. Principal Party in Interest (USPPI) in an export transaction then the Grantor/USPPI hereby certifies that all statements and information contained in the documentation provided to Grantee relating to exportation are true and correct. Furthermore, Grantor/USPPI understands that civil and criminal penalties may be imposed for making false or fraudulent statements or for the violation of any United States laws or regulation on exportation. Grantor/USPPI undertakes to determine any export license requirements and to obtain, for export purposes, any export license or other official authorization.

All services and transactions are subject to WELL's Terms and Conditions of Service (NCBFFA 6/94) which are included in this document for which Grantor expressly acknowledges receiving a written copy. To the extent provided by law, WELL's liability as a Customs Broker is limited to $50.00 (19 USC 1641(f)).

IN WITNESS WHEREOF, the said Grantor has caused these presents to be sealed and signed:

(signature) X Ron Cooper (capacity) (7) [redacted]
(If Duly Authorized Representative, supporting documentation must be provided)

(print name) (8) X RONALD WARD COOPER (date) (9) X 5-15-17

If you are the importer of record, payment to the broker will not relieve you of liability for Customs charges (duties, taxes, or other debts owed Customs) in the event the charges are not paid by the broker. Therefore, if you pay by check, Customs charges may be paid with a separate check payable to the "Bureau of Customs and Border Protection" which shall be delivered to Customs by the broker (19 CFR 111.29). If you elect to make payment with a check made payable to the Bureau of Customs and Border Protection, arrangement must be made in advance.

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: _____ (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 _____ (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory cannot be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: _____ (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild: Country-Zimbabwe area-Gwayi Concession-Gwayi Farms GPS-S18373558 E027104410 nearest town- Hwange nearest city-Bulawayo
   b. Date wildlife is to be hunted:
   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD**, please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild: Gwayi, Zimbabwe(Gwayi Farms)GPS -S18373558- E027104410- near Hwange
   b. Date wildlife was hunted:

      October 30, 2016

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks):

tusks four feet 2 mounted as foot stools with elephant skin on top and 2 mounted as waste baskets 1 ear painted and 1 skull

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

Collett's Wildlife Artistry 15 Josiah Road Belmont Bulawayo Zimbabwe +263 9 885868

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name:	Michelle Nash
Business Name:	Outbound Cargo and Trophy Exporters
Address:	5 Grantham Road
Address:	Belmont
City:	Bulawayo
State/Province:	Zimbabwe
Country, Postal Code:	

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature (b) (6) Date: 11/17/2017

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):
Stevan White (b) (6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Federal Fish and Wildlife Permit Application Form

RCVD DEC 15 2016 LB

Return to: U.S. Fish and Wildlife Service
(Enter address from pages 5 and 6 of application)

Type of Activity:
REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT
(For this application, all permits, registrations, and certificates are referred to as a permit.)

Complete Sections A or B, C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
See attached instruction pages for information on how to make your application complete and help avoid unnecessary delays.

A. Complete if applying as an individual

1.a. Last name	1.b. First name	1.c. Middle name or initial	1.d. Suffix
Ryan	Jimmie	R	

2. Date of birth (mm/dd/yyyy)	3. Social Security No.	4. Occupation	5. Affiliation/ Doing business as (see instructions)
(b) (6)			

6.a. Telephone number	6.b. Alternate telephone number	6.c. Fax number	6.d. E-mail address
(b) (6)			matt@genuslogistics.com

B. Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (dba)

2. Tax identification no.	3. Description of business, agency, Tribe, or institution

4.a. Principal officer Last name	4.b. Principal officer First name	4.c. Principal officer Middle name/ initial	4.d. Suffix

5. Principal officer title	6. Primary contact name

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address

C. All applicants complete address information

1.a. Physical address (Street address; Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code:	1.e. County/Province	1.f. Country
Alabaster	AL	35007		US

2.a. Mailing Address (include if different than physical address; include name of contact person if applicable)

2.b. City	2.c. State	2.d. Zip code/Postal code:	2.e. County/Province	2.f. Country

D. All applicants MUST complete

1. Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount indicated on pages 6 and 7.** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – ***attach documentation of fee exempt status as outlined in instructions.*** (50 CFR 13.11(d))

2. Do you currently have or have you ever had any Federal Fish and Wildlife permits?
Yes ☑ If yes, list the number of the most current permit you have held or that you are applying to renew/re-issue: 15US71502B9 No ☐

3. Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50, Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Atty in fact — 12/14/16

Signature (**in blue ink**) of applicant/person responsible for permit (No photocopied or stamped signatures) — Date of signature (mm/dd/yyyy)

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend 15US71502B9.

2. Submit the original permit with this application.

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

4. **Annual Report.** If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

a. For **NO CHANGES** to original application:

I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

Permittee's signature: _____ Date: 12/14/16

b. For **CHANGES** to original application:

On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

Genus Logistics 161-15 Rockaway Blvd Jamaica NY 11434 SASE included FedEx

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☑ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

Matt Mayers Genus Logistics 718 790 0216 matt@genuslogistics.com

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☑ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients advising that if a client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

BELOW IS A POWER OF ATTORNEY FORM WHICH IS REQUIRED BY U.S. CUSTOMS. TO ALLOW US TO TRANSACT U.S. CUSTOMS CLEARANCE ON YOUR BEHALF

CUSTOMS POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Jimmie Roger Ryan (Full Name)

Residing at (b) (6) [redacted] Albastfy AL. 35007

hereby constitutes and appoints each of the following persons Matthew Mayers dba Genus Logistics

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, stead of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandise shipped or consigned by or to said grantor, to perform any act or condition which may be required by law or regulation in connection with such merchandise; to receive any merchandize deliverable to said grantor.

To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filing in any customs district.

To sign, seal, and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connection with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in section 485, Tariff Act of 1930, as amended, or affidavits in connection with the entry of merchandise.

To sign and swear to any document, and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor.

To authorize duly Customs Brokers to act as grantor's agent; to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States, if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor.

And generally to transact at the customhouses in said district any and all customs business, including making, signing, and filing of protests under section 514 of the Tariff Act of 1930, in which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent; and attorney giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid. If the donor of this power of attorney is a partnership, the said the power shall in no case have any force of effect after the expiration of 2 years from the date of its execution.

Pursuant to 19 CFR 111.35(a), election is made waiving the right to receive invoices, supporting documents and correspondences from Matthew Mayers dba Genus Logistics, who is directed to forward all documents and invoices concerning our imports to their customs brokerage services, to our freight forwarder, who will pay Matthew Mayers dba Genus Logistics, for duties, and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

IN WITNESS WHERE OF, the said (Print Name): Jimmie R Ryan

has caused these presents to be sealed and signed: (Signature) (b) (6) [redacted] Date: 9-02-15

Signatu... ...ble for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy) 2/15/18

E. REISSUANCE, RENEWAL, OR AMENDMENT OF A PERMIT (For this application, all permits, registrations, and certificates are referred to as a permit.)

NOTE 1: If you are renewing your Designated Port Exemption permit, use form 3-200-2 (http://www.fws.gov/forms/3-200-2.pdf) and submit to appropriate Office of Law Enforcement address. If you are renewing your Import/Export license (required for commercial activities), use form 3-200-3 (http://www.fws.gov/forms/3-200-3.pdf) and submit to appropriate Office of Law Enforcement address.

NOTE 2: This form **cannot** be used for lost or damaged permit. If you need to replace a lost or damaged permit, please use form 3-200-66, http://www.fws.gov/international/pdf/permit-application-form-3-200-66-replacement-document.pdf. The application **must** be submitted to the office that issued the initial permit. Lost or damaged permit

NOTE 3: Some activities, such as all master files for multiple shipments, Certificate of Scientific Exchange (COSE), circus/traveling exhibits, and artificially propagated plants, can only be re-issued, renewed, or amended by submitting a new application for permits for those activities. Please refer to http://www.fws.gov/international/permits/by-form-number/index.html to determine if another application form would be more appropriate or contact the Division of Management Authority for more information.

1. **Permit number.** Enter the permit number to be reissued/renewed/amend 17US71502B9.

2. Submit the original permit with this application.

3. **Past activities.**
   a. Provide copies of all cleared documents and form 3-177 (FWS declaration of wildlife) associated with this permit.
   b. Provide a summary detailing activities conducted under this permit, as well as a brief statement of why you are seeking reissuance/renewal.

4. **Annual Report**. If required by your permit, provide an annual report as conditioned (Please disregard if you have already submitted your annual report.)

5. **Sport-hunted trophies:** If you did not hunt during the hunting season stated in your original application, you are not eligible for a renewal. Please submit a new application form.

6. **Certification** - Complete one of the statements below and supply any additional documentation requested: (original signature is required)

   a. For **NO CHANGES** to original application:

   I certify that the information submitted in support of my original application for the permit indicated above has not changed and is still currently correct. I hereby request reissuance or renewal of this permit.

   Permittee's sig[redacted] Date: 2/15/18

   b. For **CHANGES** to original application:

   On an attached page(s), provide a complete description of any changes (e.g., change in principal officer, personnel, address, location of activities, types of activities). Please sign each attached page. Also note that we need to request additional information regarding the changes after reviewing your initial request.

   I certify that the information submitted in support of my original application for the permit indicated above is still currently correct EXCEPT for the changes noted on the attached, signed page(s). I hereby request re-issuance or renewal of this permit with the indicated changes.

   Permittee's signature: _____ Date: _____

7. All international shipment(s) must be through a designated port, unless otherwise authorized. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact either the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2) or the Division of Management Authority.

8. Name and address where you wish the permit to be mailed, if different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

   GENUS LOGISITCS
   161-15 ROCKAWAY BLVD SUITE 205
   JAMIACA,N.Y 11434

9. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

   ☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 8. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

MATT MAYERS
7187900216
MATT@GENUSLOGISITICS.COM

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. [50 CFR 13.21(c)]. Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☐ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Customs Rules on Discharge of Importers Liability for Duties

The U.S. Customs Service has issued a final amendment of the regulations to provide an alternative procedure for an importer record to pay duties on imported merchandise through a licensed customhouse broker. Present rules provide for the payment of duties to Customs by a broker on behalf of the importer. Under the alternative procedure, the importer may elect to submit to the broker a separate check or bank draft for the duties payable to the "U.S. Customs Service". The broker would then deliver the importer's check or bank draft to Customs. The new rule also requires brokers to provide written notification to their clients, advising that if the client is an importer of record, payment to the broker will not relieve the client of liability for Customs charges in the event that the charges are not paid by the broker. Brokers will be required to provide this notification to all active clients annually during the month of February. Additionally, brokers will be required to provide such information on a power of attorney executed on or after the effective date of the new rule. These amendments are effective as of September 27, 1982.

BELOW IS A POWER OF ATTORNEY FORM WHICH IS REQUIRED BY U.S. CUSTOMS TO ALLOW US TO TRANSACT U.S. CUSTOMS CLEARANCE ON YOUR BEHALF

CUSTOMS POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That, JIMMIE ROGER RYAN (Full Name)

Residing at, (b) (6) ALBASTY AL. 35007

hereby constitutes and appoints each of the following persons Matthew Mayers dba Genus Logistics

may act through any of its offices or any employees with Power of Attorney on file with this licensed broker as required by the Regional Commission of Customs as a true and lawful agent and attorney of the grantor named above for and in the name, place, steed of said grantor from this date and in all Customs Districts, and in no other name, to make, endorse, sign, declare, or swear to any entry, withdrawal, declaration, certificate, bill of lading, or other document required by law or regulation in connection with the importation, transportation, or exportation of any merchandize shipped or consigned by or to said grantor; to perform any act or condition which may be required by law or regulation in connection with such merchandize, to receive any merchandize deliverable to said grantor:

To make endorsements on bills of lading conferring authority to transfer title, make entry or collect drawback, and to make, sign, declare, or swear to any statement, supplemental statement, schedule,, supplemental schedule, certificate of delivery, certificate of manufacture, certificate, and delivery abstract of manufacturing records, declaration of proprietor on drawback entry, declaration of exporter on drawback entry, or any other affidavit or document which may be required by law or regulation for drawback purposes, regardless of whether such bill of lading, sworn statement, schedule, certificate, abstract, declaration, or other affidavit or document is intended for filling in any customs district

To sign, seal and deliver for and as the act of said grantor any bond required by law or regulation in connection with the entry or withdrawal of imported merchandise or merchandise exported with or without benefit of drawback, or in connect on with the entry, clearance, lading, unlading or navigation of any vessel or other means of conveyance owned or operated by said grantor, and any and all bonds which may be voluntarily given and accepted under applicable laws and regulations, consignee's and owners declarations provided for in sect on 485 Tariff Act of 1930 as amended or affidavits in connection with the entry of merchandise.

To sign and swear to any document and to perform any act that may be necessary or required by law or regulation in connection with the entering, clearing, lading, unlading, or operation of any vessel or other means of conveyance owned or operated said grantor.

To authorize other Customs Brokers to act as grantor's agent to receive, endorse and collect checks issued for Customs duty refunds in grantors name drawn on the Treasurer of the United States if the grantor is a nonresident of the United States, to accept service of process on behalf of the grantor

And generally to transact at the customhouses in said district any and all customs business including making, signing, and filing of protests under section 514 of the Tariff Act of 1930 in which said grantor is or may or may be concerned or interested and which may properly be transacted or performed by an agent and attorney, giving to said agent attorney full power and authority to do anything whatever requisite and necessary to be done in the premises as fully as said grantor could do if present and acting, hereby ratifying and confirming all that the said agent and attorney shall lawfully do by virtue of these presents; the forgoing power of attorney to remain in full force and effect until notice of revocation in writing is duly given to and received by the District Director of customs of the district aforesaid if the donor of this power of attorney is a partnership, the said the power shall in no case have any force or effect after the expiration of 2 years from the date of its execution

Pursuant to 19 CFR 111.36(a), election is made waiving the right to receive invoices, supporting documents and correspondences from Matthew Mayers dba Genus Logistics, who is directed to forward all documents and inquiries concerning our imports to their customs brokerage services, to our freight forwarder who will pay Matthew Mayers dba Genus Logistics, for duties and services performed on our behalf. It is understood the right to revoke said waiver is continuing.

IN WITNESS WHERE OF, the said (Print Name): JIMMIE R RYAN

has caused these presents to be sealed and signed: (Signature) (b) (6) Date: 9-02-15

WITNESS: (b) (6) Date: 9-02-15

NOTICE TO THE WILDLIFE IMPORT/EXPORT COMMUNITY

October 16, 2017

Subject: Electronic Licensing

Background: Anyone engaging in business as an importer or exporter of wildlife must obtain a USFWS import/export license. In the past, importers and exporters could only apply for an import/export license from the Service by completing a paper form and presenting it to a Service wildlife inspection office or an Office of Law Enforcement Permits Office.

The Fish and Wildlife Service has developed and tested a new voluntary electronic licensing system (eLicense). eLicense allows users to apply for a new import/export license or renew or amend a current or expired license from the Service via a secured Internet web site. The system facilitates clearance of wildlife imports and exports, allowing users to store data for future use and communicate by e-mail with Service license issuers.

Action: Effective October 2, 2017, the new eLicense system will be available for use by any individual or company that imports or exports wildlife for commercial purposes. Although the Service will continue to accept and process traditional "paper" applications for those who prefer that method of applying, we encourage importers and exporters to take advantage of the new electronic application system.

Importers and exporters may access eLicense via the Office of Law Enforcement eLicense home page (https://www.fws.gov/elicense).

To complete an application with eLicense, users need Internet connectivity, an e-mail address, the Microsoft Internet Explorer browser (version 5.0 or higher), and an ink jet or laser printer. No special software is required, and no additional fees are charged for using eLicense. Help files on the eLicense web site provide an on-line user manual, information on reconfiguring your Internet browser, filing instructions, and useful FAQs.

There is no reason for you to have a USFWS import/export license if you do not commercially import or export wildlife. Requests for license renewals will be reviewed for import/export activity.

This document does not convey any rights, benefits, or privileges beyond authorizing you to engage in business as an importer or exporter of wildlife. The import/export license is not recognized outside the United States.

Thank you for submitting an application to the U.S. Fish and Wildlife Service. The application was received by the Division of Management Authority on 03/14/2018; check number "NOT AVAILABLE" accompanied the application for JAGUAR. Your application has been assigned the following PRT identification number: MA82699C-0

While processing time may be less, you should anticipate a minimum of 30 days to process your request, with many requests averaging between 60 to 90 days due to some requests which need to be published in the Federal Register and/or be reviewed by other Service offices.

While we are aware that you may want to inquire about the status of your application, we request that you allow our office at least three weeks after the receipt of this letter to make any inquiries. If you have additional information that needs to be provided, please mail information to DMA, Branch of Permits MS: IA, 5275 Leesburg Pike, Falls Church, VA 22041 by fax 703-358-2281 or call our staff on duty at 800-358-2104.

Lines, Jim (b) (6) Wed, Mar 14, 2018 at 7:17 PM
To: "permits@fws.gov" <permits@fws.gov>

To whom it may concern:
I did not submit an application for a Jaguar! I submitted one for an elephant.
Please call me at (b) (6)

E. IMPORT OF SPORT-HUNTED TROPHIES OF SOUTHERN AFRICAN LEOPARD, AFRICAN ELEPHANT, AND NAMIBIAN SOUTHERN WHITE RHINOCEROS

Note 1: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit.** If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52; http://www.fws.gov/international/permits/by-form-number/index.html) and return your original permit with that form.

Note 2: The U.S. FWS has determined that a trophy consists of raw or tanned parts of a specimen taken by a hunter during a sport hunt for personal use. It may include the bones, claws, hair, head, hide, hooves, horns, meat, skull, teeth, tusks, or any taxidermied part, including, but not limited to, a rug or taxidermied head, shoulder, or full mount. It does not include articles made from a trophy, such as worked, manufactured, or handicraft items for use as clothing, curios, ornamentation, jewelry, or other utilitarian items. If you wish to import such products, please contact the Division of Management Authority for the proper application form.

Note 3: Certain hunting trophies, including leopard, elephant, and rhinoceros hunting trophies, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If applying for more than one trophy, be sure to answer questions 2 and 3 for each trophy. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. ENTER the quantity next to the name of the species you are applying to import (you may apply to import specimens of more than one species provided they have been/are being hunted in the same country):

Leopard (*Panthera pardus*) Quantity: 1 (Limited to the import of two per calendar year)

African elephant (*Loxodonta africana*) Quantity: 1 (Import permit is not required for trophies harvested in Botswana, Namibia, South Africa, or Zimbabwe). **Note: once imported, ivory cannot be re-exported.**

Southern white rhinoceros (*Ceratotherium simum simum*) from Namibia Quantity: N/A (An import permit is not required for trophies harvested in South Africa or Swaziland. If you are looking to import from a different country, please use form 3-200-37).

2. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch AND nearest city) where wildlife is to be taken from the wild:

   b. Date wildlife is to be hunted:

   c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horns, tusks).

3. **IF THE ANIMAL IS DEAD,** please enter the following:
   a. Country and place (area, region, GIS coordinates, ranch, and/or AND nearest city) where trophy was removed from the wild:

Leopard - Farm Moedhou (Kleeberg) # 112, Okahandja, Okahandja, Otjozondjupa of Namibia; Elephant - Mahango National Park, Divundu, Rundu, Kavango East

   b. Date wildlife was hunted: June 1 - 12, 2017

c. Description of the trophy and parts you intend to import (e.g., skin, skull, shoulder mount, life size mount, claws, horn, tusks): Skin, skull, claws, tusks, horn

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

The Yellow Shark Holdings (Pty) Ltd.
P.O. Box 81413
Olympia - Windhoek, Republic of Namibia

4. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you **must** provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

	Elephant	Leopard
Name:	Abiliu Hihuilepo Snr	Brink Grobler
Business Name:		
Address:	3674 Vinetta	92 Nelson Mandela Avenue
Address:		Stillwater # 5
City:		
State/Province:	Swakopmund	Klein Windhoek
Country, Postal Code:	Namibia	Namibia

5. Please be aware that the U.S. Fish and Wildlife Service may need to make a finding that your activities will enhance or benefit wild populations of the species involved. If you have any information that could support this finding (e.g., how the funds from license/trophy fees will be spent, what portion of the hunting fee will support conservation), please submit such information on a separate page with your application.

CERTIFICATION STATEMENT (original signature must be provided for either 6 or 7 below)

6. **If you are a broker or taxidermist applying on behalf of a foreign national,** provide documentation to show you have a **Power of Attorney** to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that my client may only import two leopard trophies in one calendar year (if applicable). In addition, I have advised my client that raw ivory, once imported into the United States, cannot be re-exported.

Taxidermist/Broker's signature: _____ Date: _____

7. **If you are the hunter applying to import your own trophy,** please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., **not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit**). I understand that I may only import two leopard trophies in one calendar year (if applicable). In addition, I understand that raw ivory, once imported into the United States, cannot be re-exported.

Applicant's signature: (b) (6) Date: 2/28/2018

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

8. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from http://www.fws.gov/le/designated-ports.html. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

9. Name and address where you wish the permit to be mailed, **if** different from page 1 (All permits will be mailed via the U.S. Postal Service, unless you identify an alternative means below):

10. If you wish the permit to be delivered by means other than USPS regular mail, provide an air bill, pre-paid envelope, or billing information. If you do not have a pre-paid envelope or air bill and wish to pay for a courier service with your credit card, please check the box below. Please DO NOT include credit card number or other information; you will be contacted for this information.

☐ If a permit is issued, please send it via a courier service to the address on page 1 or question 9. I understand that you will contact me for my credit card information once the application has been processed.

11. Who should we contact if we have questions about the application? (Include name, phone number, and email):

James Lines
(b) (6) [redacted]

12. **Disqualification Factor.** A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

☐ Yes ☒ No If you answered "Yes" provide: a) the individual's name, b) date of charge, c) charge(s), d) location of incident, e) court, and f) action taken for each violation.

Subject: Fwd: CITES APPLICATION

Did you not send a check in with this?

RCVD APR 03 2018 LS

-------- Original message --------
From: "Hubbard, Rogelio" <rogelio_hubbard@fws.gov>
Date: 3/29/18 3:43 PM (GMT-06:00)
To: "Lines, Jim" <(b) (6)
Subject: CITES A

Good afternoon James,

Ref: 82698C, 82699c

Our office received a permit application request for the import. In order to comply with your request, please reply to the following:

1. Please provide a check or money order to the U.S Fish and Wildlife Service of 100 Dollar for the propose activity.

In accordance with 50 CFR 13.11(e) if the requested information is not received by this office by 05/14/2018 45days of the date of this email, your application will be abandoned and administratively closed. Once a file is closed, you will need to submit a new application, and all required fees, for the service to consider your propose activity.

Please do not hesitate to contact us if you have further questions.

Respectfully,

Rogelio P. Hubbard
Legal Instrument Examiner
U.S. Fish and Wildlife Service
International Affairs
Division of Management Authority - CITES
5275 Leesburg Pike
Falls Church, Virginia 22041-3803

APPLICANT:

JIM LINES

NAMIBIA
GROWTH IN
AGRICULTURAL COMMODITIES
-WILDLIFE & TOURISM-

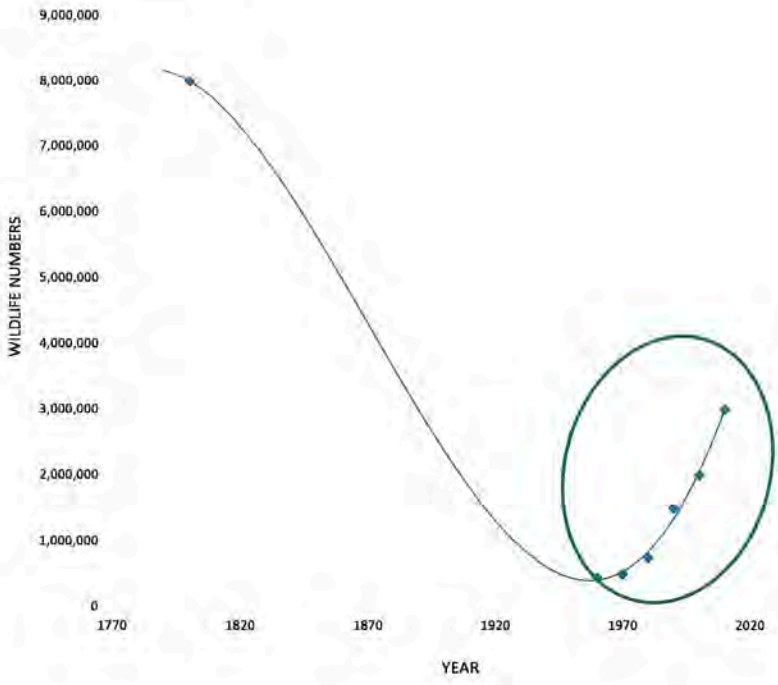
Growth in agricultural commodities:

- Wildlife & Tourism -

Chris Brown

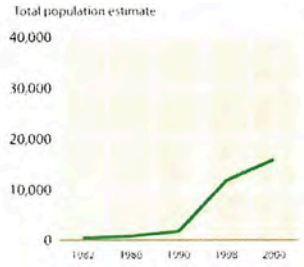
NCE
Namibian Chamber of Environment

Changing wildlife number in Namibia over past 240 years

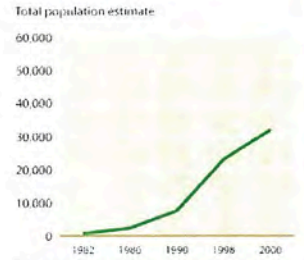


- ✓ State devolved rights over wildlife to land owners & custodians
- ✓ Wildlife became part of the rural economy
- ✓ Led to a multi-purpose wildlife economy comprising tourism, trophy hunting, meat harvesting, own use and live sale

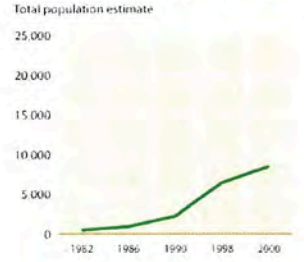
Oryx

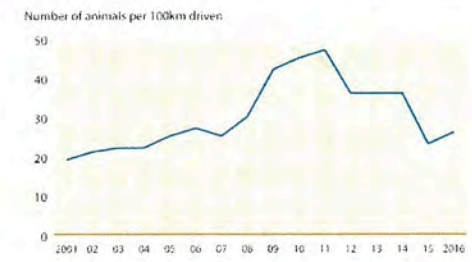


Springbok

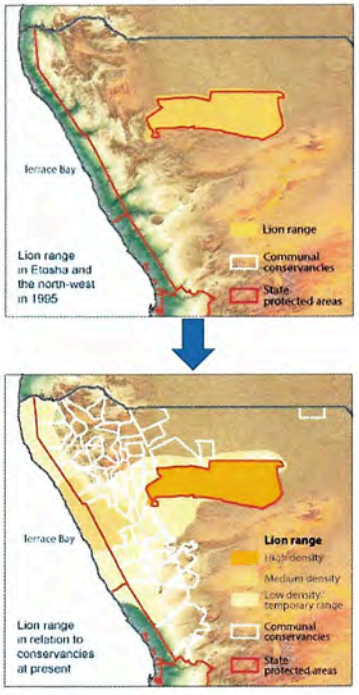


Mountain Zebra





Lion 1995 - 2015



Trends in iconic species

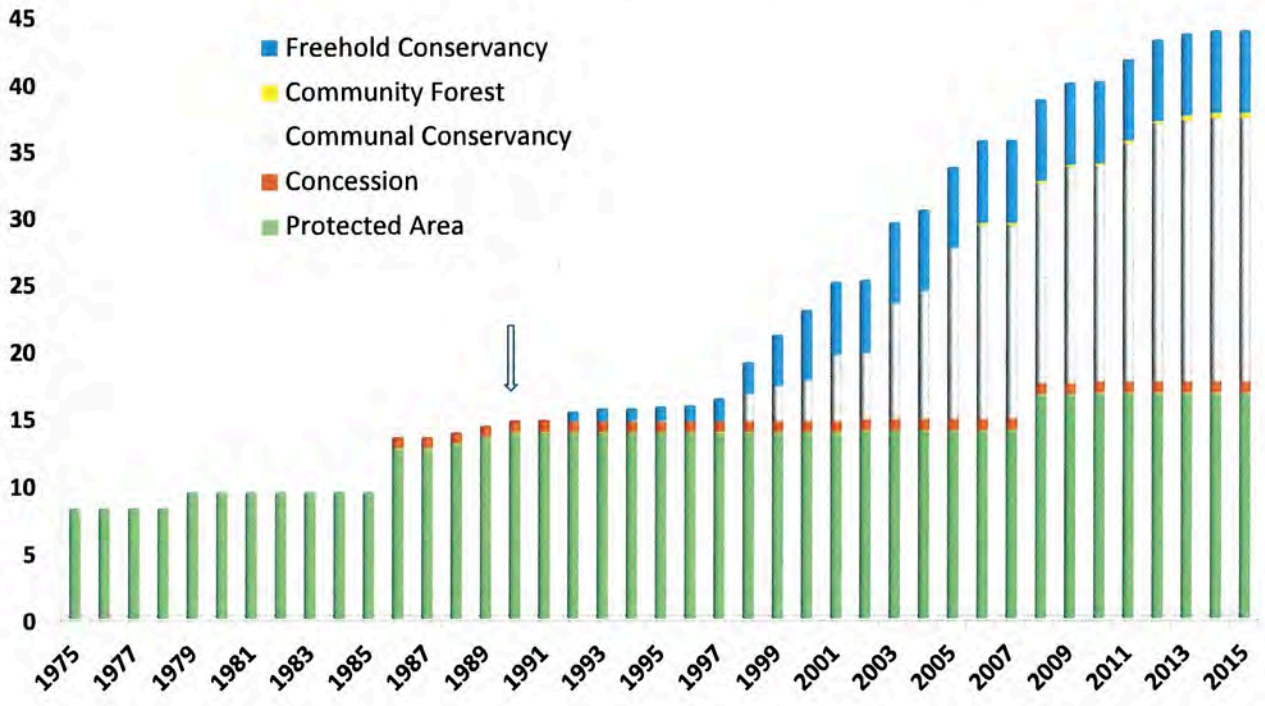
Elephant

- **1995: 7,600**
- **2017: 23,000+**

Black Rhino

- **1980: Near extinct**
- **2015: Largest national population & largest population outside state parks in world**

Land under various forms of wildlife management



Types of land management systems and percentage of country

Land under wildlife	Percent
State protected areas	18
Privately protected areas	1
Wildlife & tourism concession areas	1
Communal conservancies	20
Freehold “conservancies”	6
State & community forests	1
Registered hunting farms	4
Informal – farms using wildlife	?
Total	51+

Namibia's land-tenure systems wrt wildlife

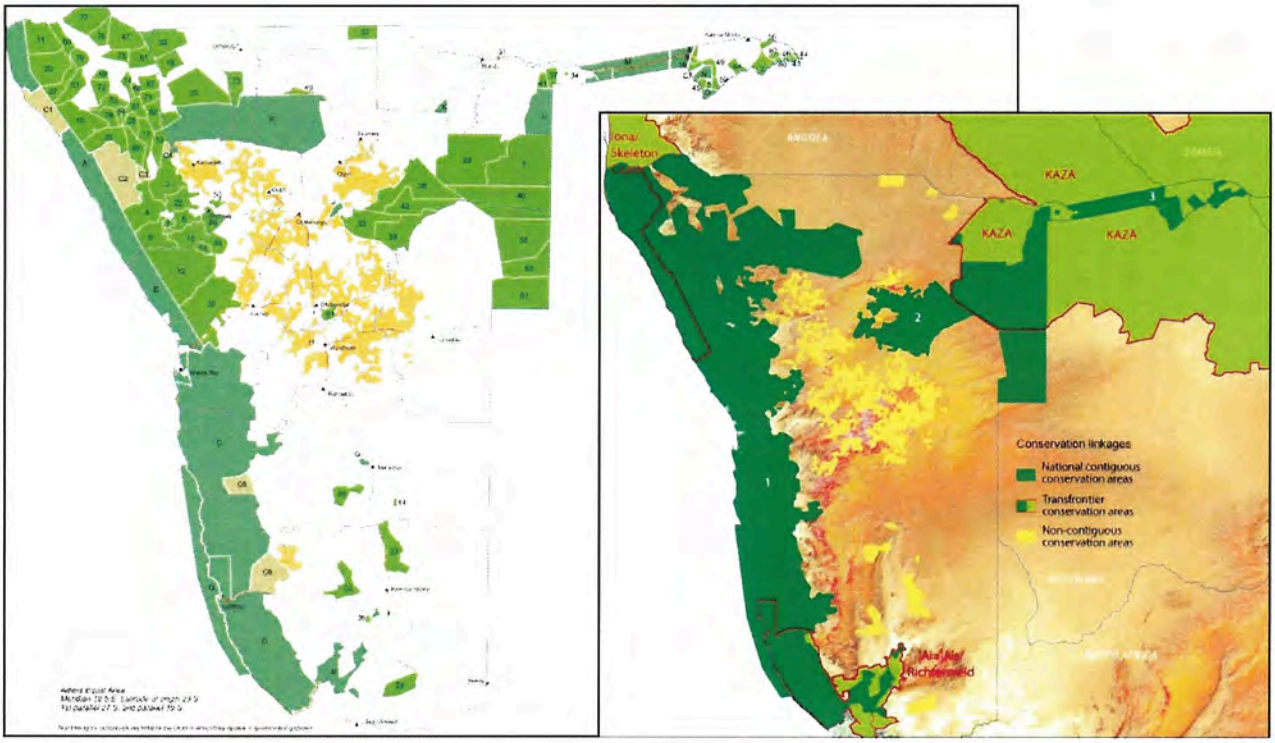
Land tenure units	Land area	Wildlife
Freehold (privately owned) land	42%	82%
Communal land	40%	12%
National Parks	17%	6%

Freehold – conditional use rights since mid-1960s – based on surveyed farms – private ownership & management

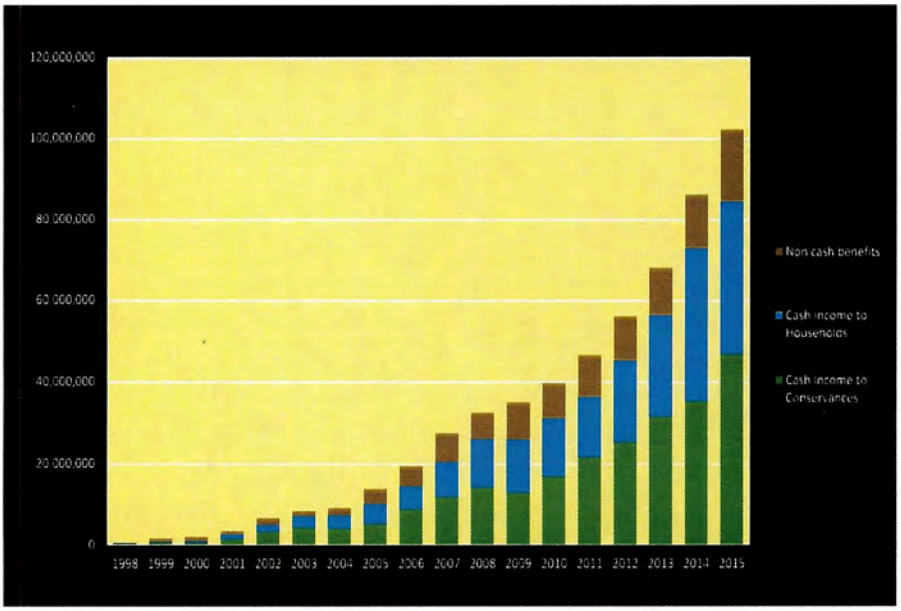
Communal – conditional use rights since mid-1990s – based on registration of a "conservancy" – communal ownership & management

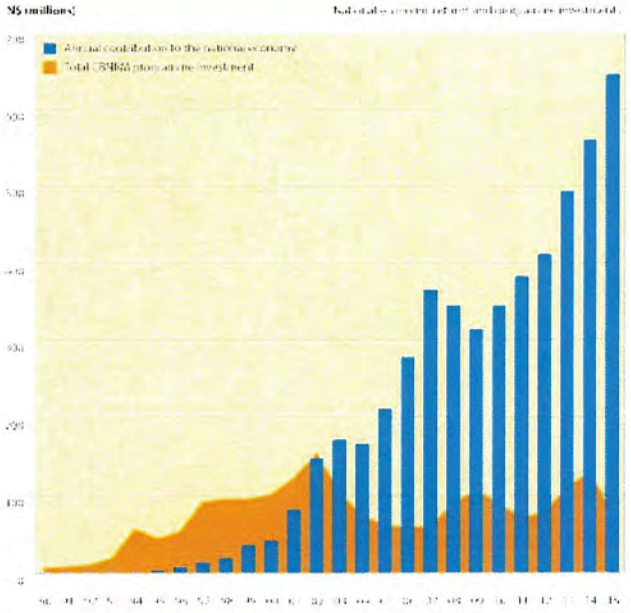
National Parks – based on Nature Conservation Ordinance – State held (on behalf of the nation) and State managed.

What this means at a landscape level

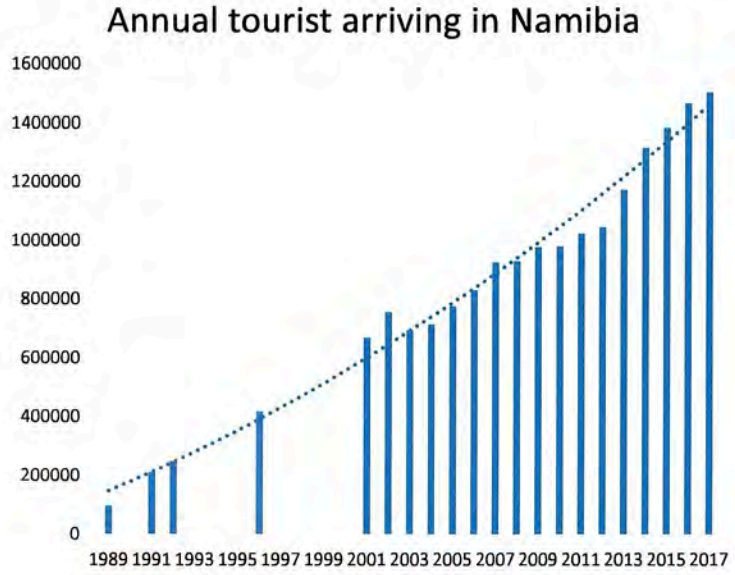


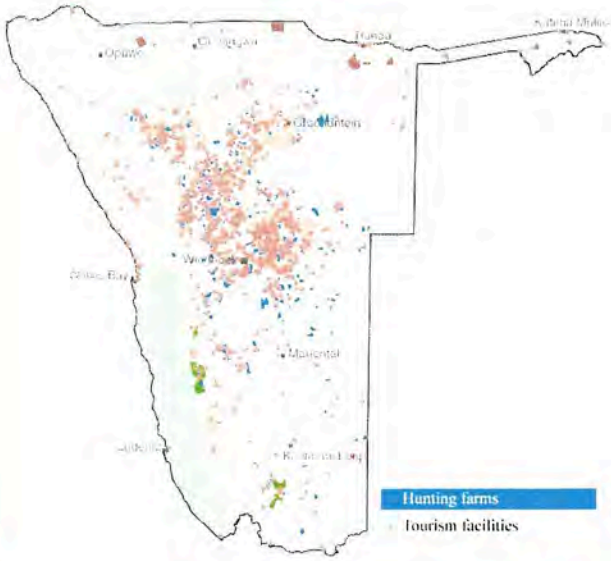
Changing contribution of wildlife on communal land …



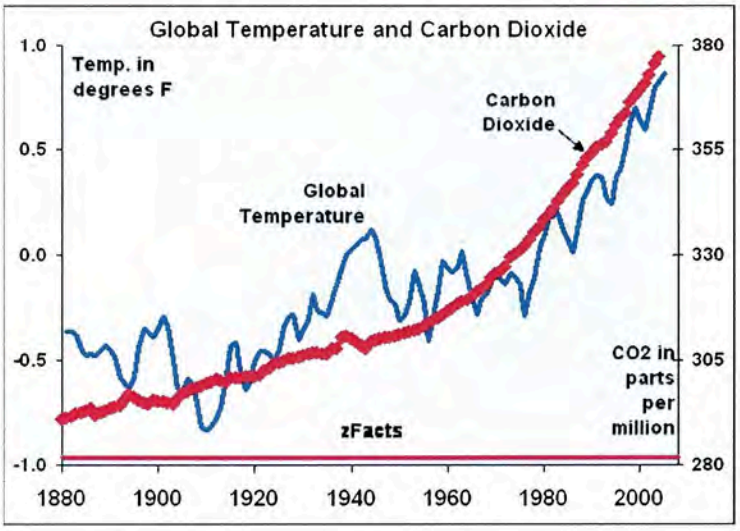


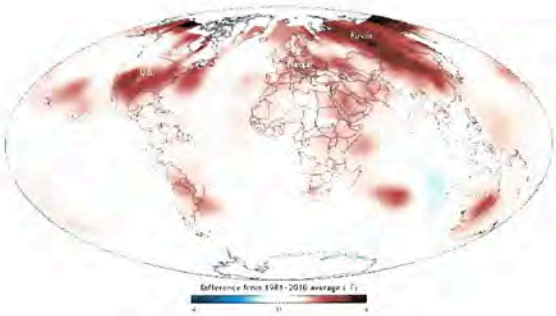
Tourism growth and distribution of tourism facilities

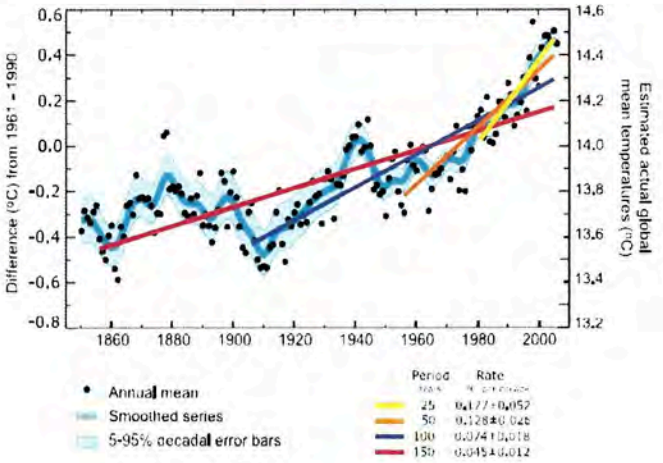




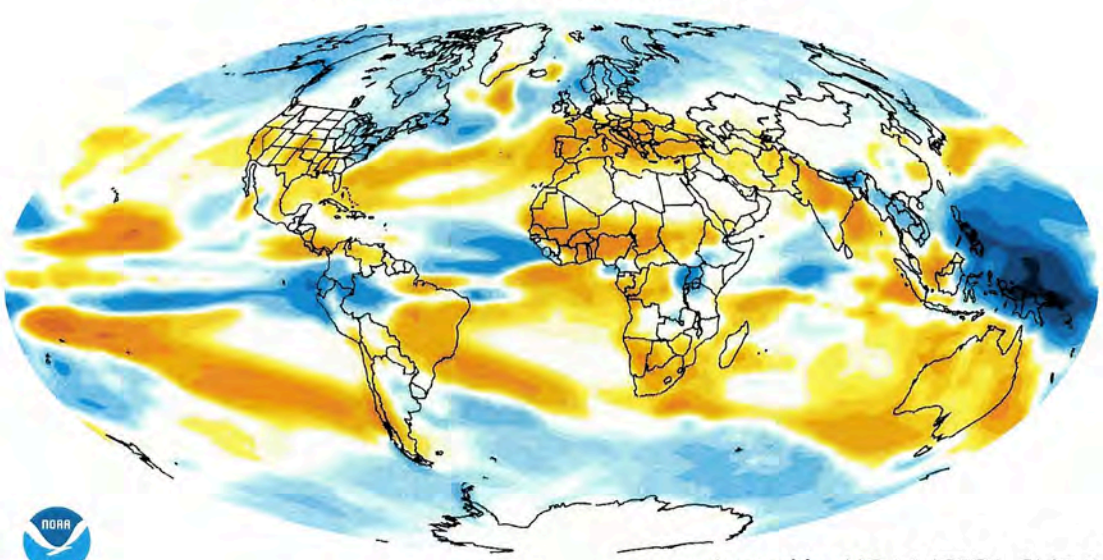
Implications of climate change on land use and productivity







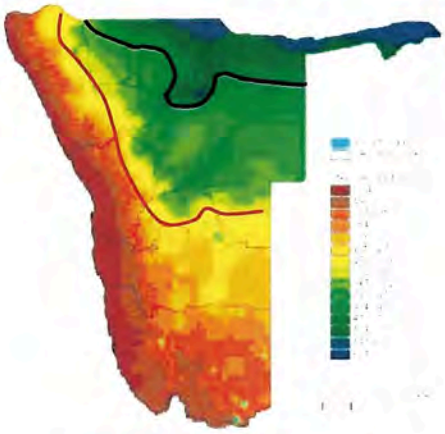
CHANGE IN PRECIPITATION BY END OF 21st CENTURY
inches of liquid water per year



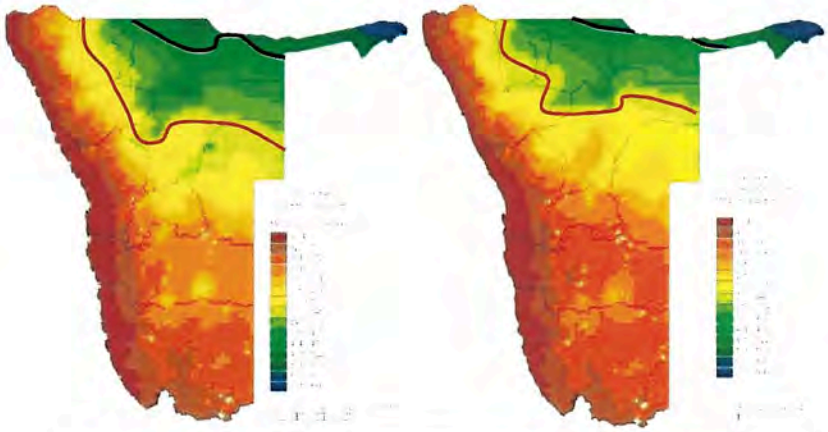
as projected by NOAA/GFDL CM2.1

Climate change

Median Climate change projections ... (in reality – happening faster)

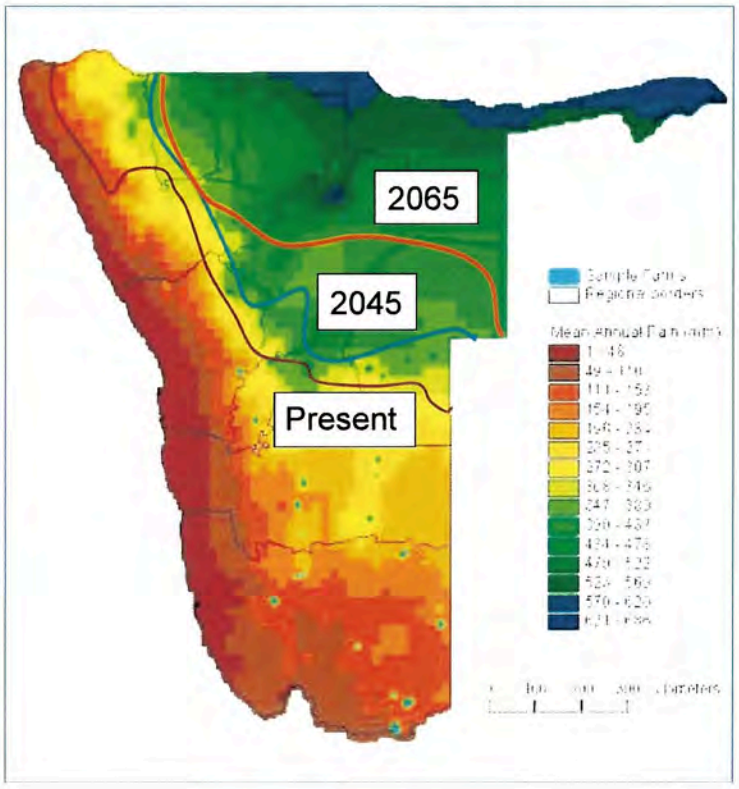


Current mean annual rainfall across Namibia



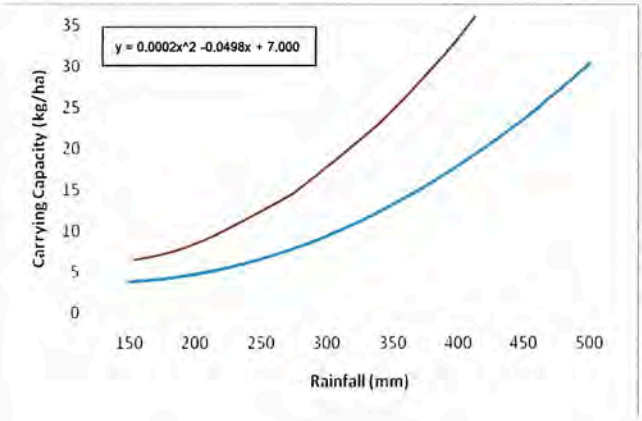
Projected mean annual rainfall across Namibia by 2045 and 2065, according to predictions generated by the HADCM3 general circulation model

Economic viability under commercial cattle farming

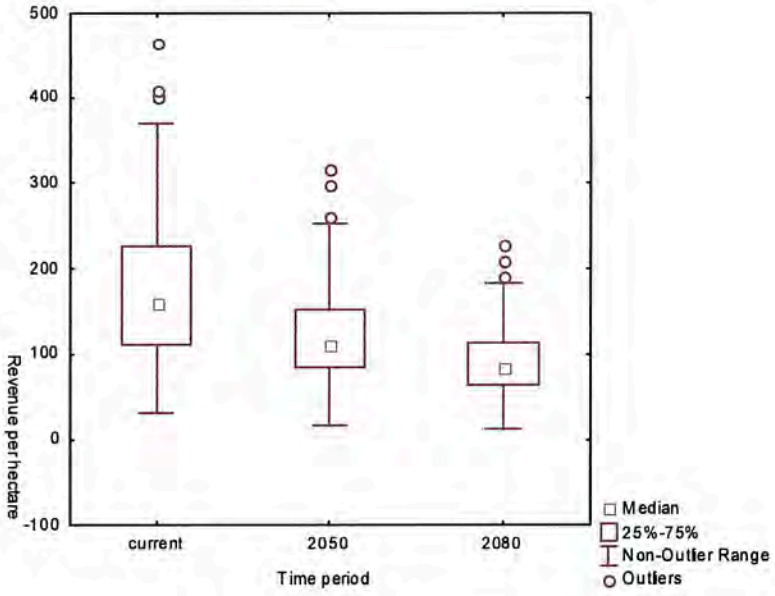


Large-stock areas lost	
By 2045	By 2065
9 million ha	**18 million ha**

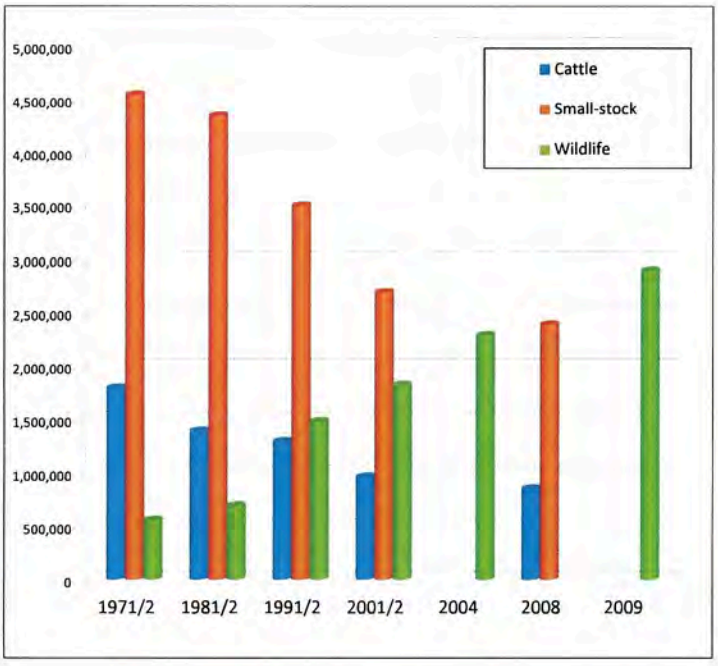
Relationship between rainfall and carrying capacity



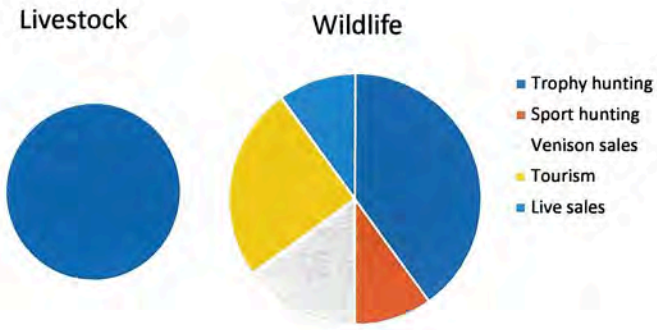
Livestock farming revenue is strongly linked to annual rainfall. 1% change in rainfall = 1.36% change in revenue: 20% decline in rainfall = 27% drop in revenue = unviable.



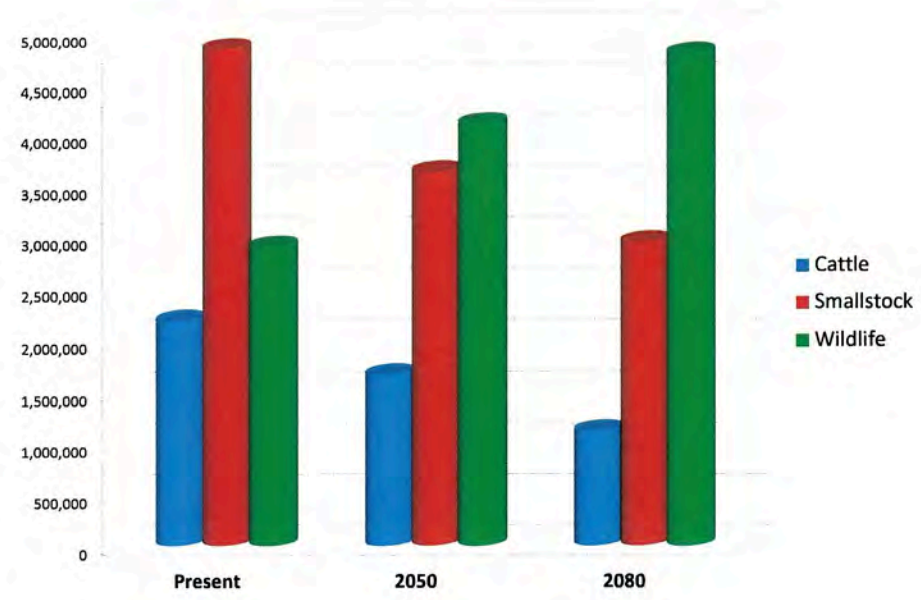
Changing contribution of livestock & wildlife on freehold land ...



Financial returns – central Namibia

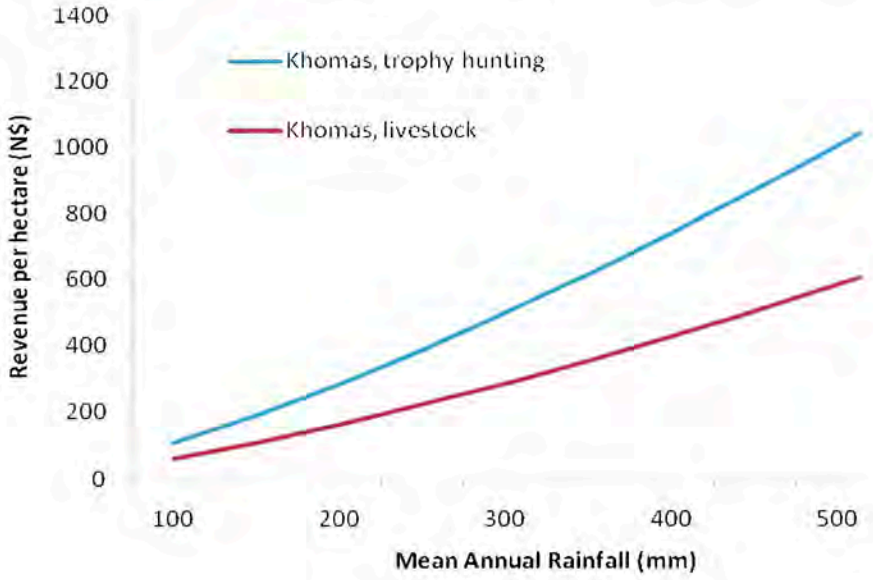


Projected livestock and wildlife numbers on freehold land in response to climate change



Trophy hunting

- Takes off about 1% of the national wildlife herd per year
- Contributes about 20% more to GDP than the small-stock sector

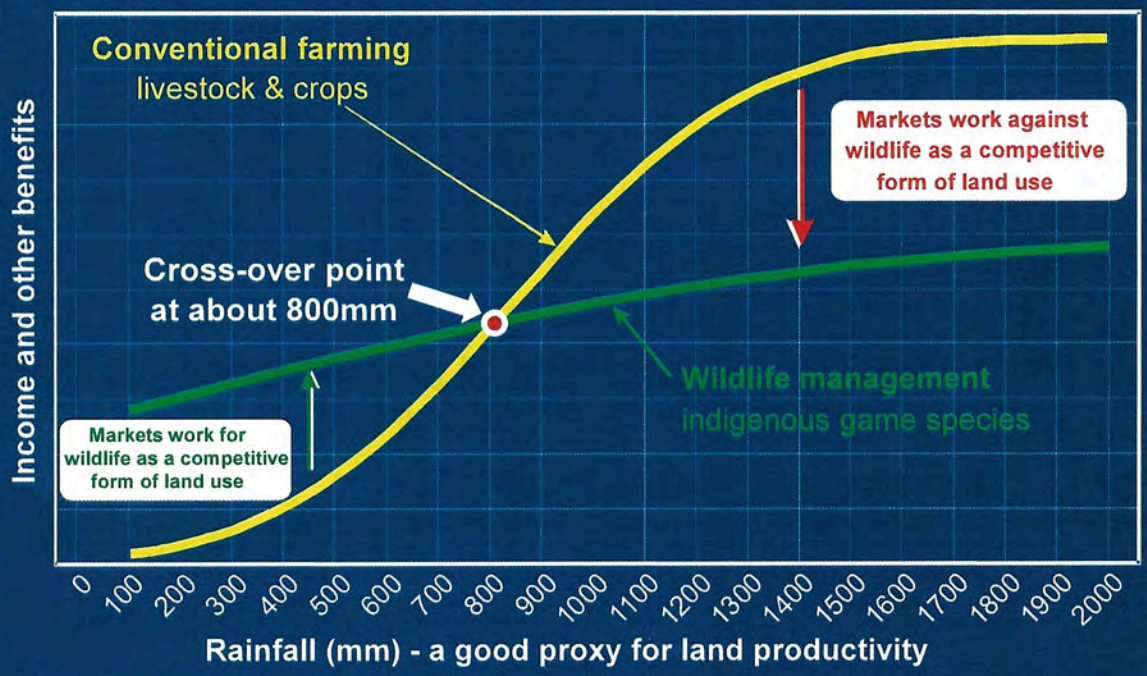


Tourism

Region	Land use	Employees per 1,000 ha	Gross Value Added (GNI) per ha (N$)	Net Value Added (NNI) per ha (N$)
Karas (Karoo)	Communal livestock	0.85	3	2
Karas (Karoo)	Freehold livestock	0.17	2	0.8
Karas (Karoo)	Tourism	0.76	83	69
Hardap (Namib)	Tourism	5	601	516
Hardap (Kalahari)	Tourism	4	504	342

Region	Land use	Employees per 150 ha	GNI per ha (N$)	NNI per ha (N$)
Zambezi	Communal livestock	0.8	60	50
Zambezi	Communal cropping	75	626	443
Zambezi	Tourism	45	18,968	18,394

Why are land owners moving into wildlife and out of livestock?

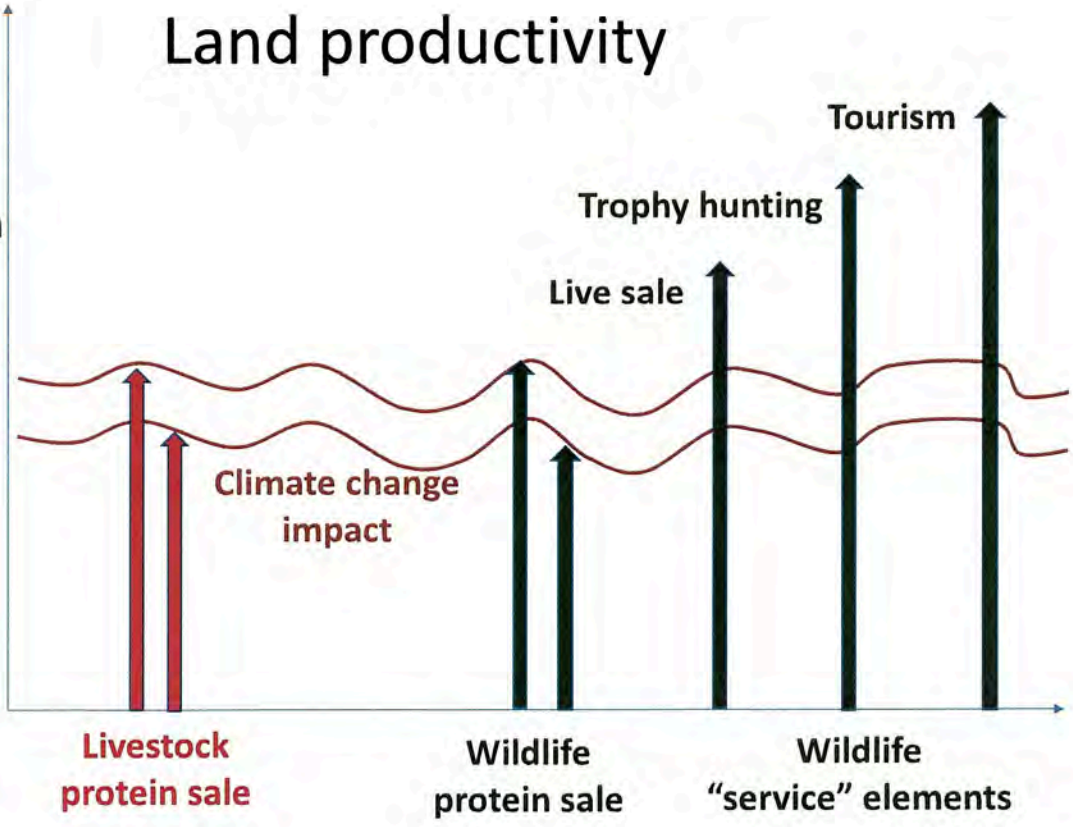


Economic returns to conventional farming (yellow line) and to wildlife management (green line) in areas of different land productivity, with rainfall being a good proxy for productivity

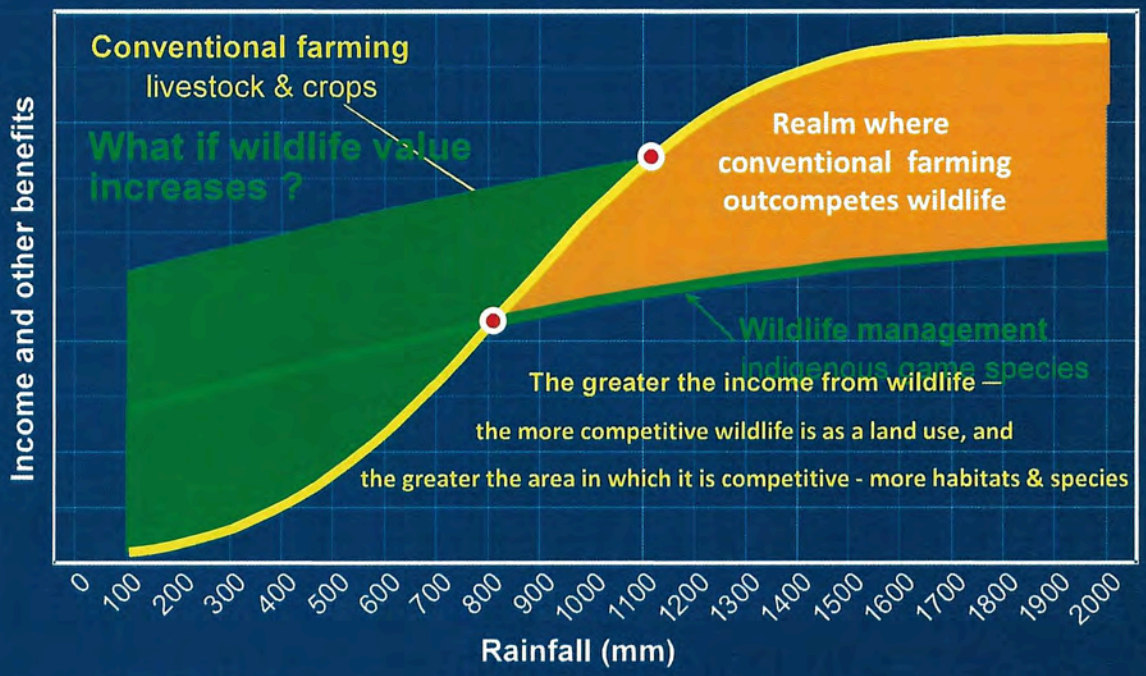
Service industries break through low primary production ceiling

Primary production ceiling

- Protein price
- Protein biomass
- Protein quality
- Area
- Soil
- Rainfall
- Management
- Agricultural policy
- Production costs



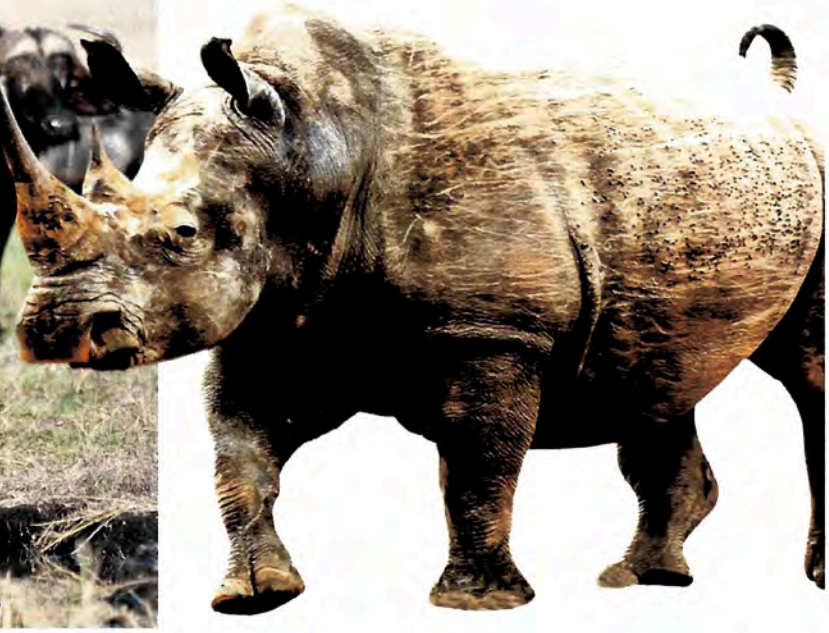
How could wildlife be even more attractive as a land use?



Improving economic returns to wildlife management over conventional farming in areas of different land productivity, with rainfall being a good proxy for productivity

How to increase value of wildlife?

1: Bring high value species into production

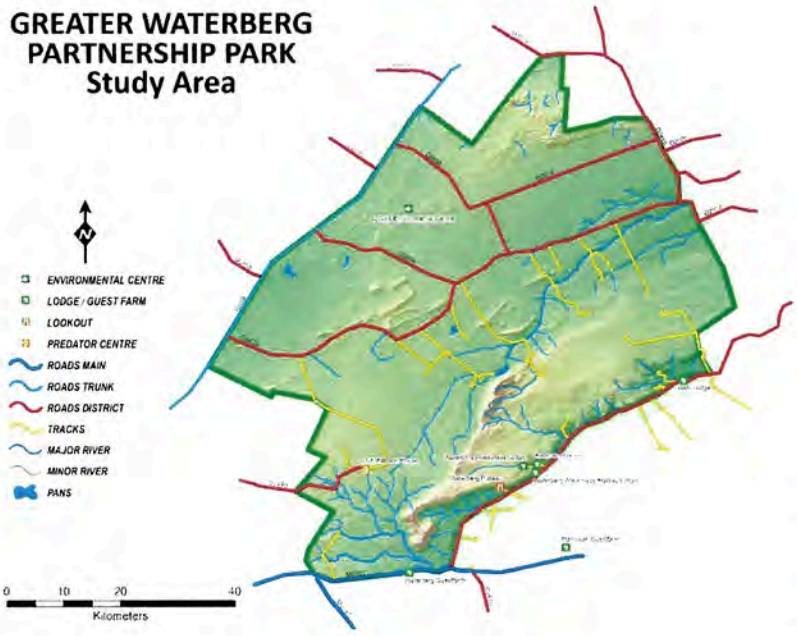


Why wildlife is a strategic response to climate change

- Wildlife is arid adapted
- Wildlife makes more $ / ha than conventional farming under our conditions
- Wildlife revenue per ha could be increased 4-5 times by adding in all wildlife species (especially buffalo and rhino)
- Wildlife has service elements (tourism & trophy hunting) that break through the low primary production / protein value ceiling
- Wildlife lends itself to working at scale – more efficient and productive
- Wildlife would be the largest renewable economy in Namibia
- Namibia could essentially climate-proof itself, and out-perform its land productivity levels prior to climate change
- Namibia could be an example to Africa, following this model to rewild the continent driven by market forces

How to increase value of wildlife?

2: Work at scale and diversity

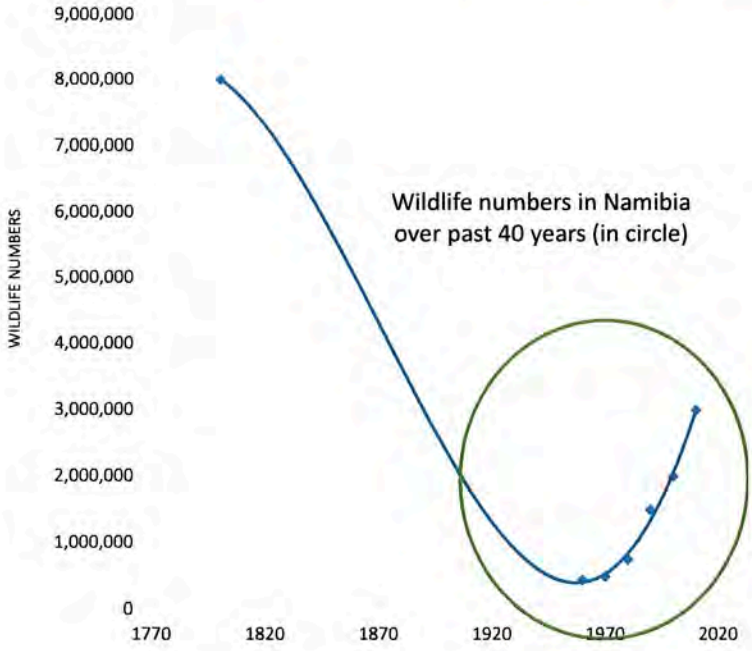


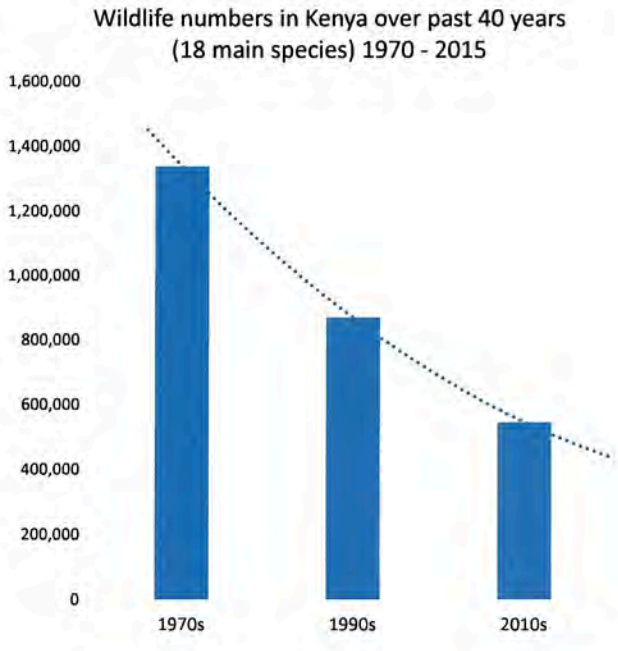
Why scale is important

- Large unfenced landscapes offer more economic opportunities
- Land value immediately increases when land is part of a larger vision and programme / story
- Tourism is enhanced – marketability, diversity, occupancy, pricing (and willingness to pay) because of a better product and experience
- Trophy hunting is enhanced because of the large open African landscape – no fences – better experiences and thus higher prices
- More diversity of wildlife – including predators and elephant, thus better marketability and revenue
- More diversity of enterprises – abattoir / meat processing facility, tannery, cannery, commercial outlets, etc.
- More institutional / organisational options, e.g. management agreements, shareholding (land Co, game Co, cattle Co, tourism Co) giving flexible options
- Financial diversification (land owners are also benefit financially from all enterprises), and more financing options

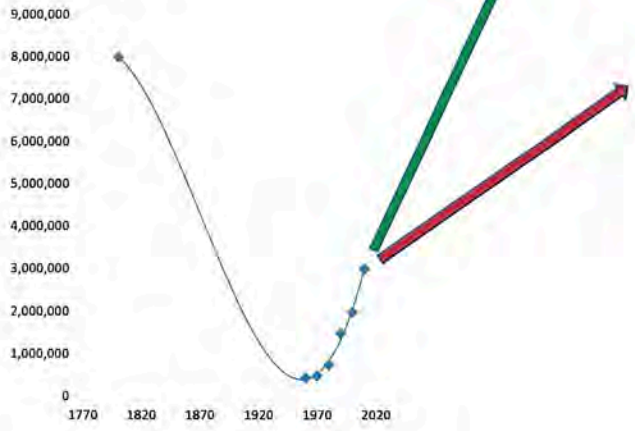
How to increase value of wildlife?

3: Protect our global competitive advantage





Where to from here?



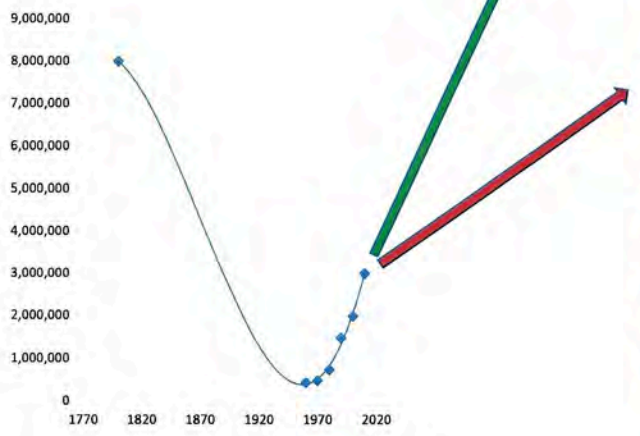
High road

- Open systems – landscape approach
- Indigenous species
- Natural ecological & evolutionary processes
- Good rangeland management and condition

Low road

- Intensification (small camps)
- Land fragmentation
- Selective breeding – colour morphs, hybrids
- Exotic species
- Cage breeding & hunting
- Land degradation

Where to from here?



High road

- National opportunities (all land owners & custodians)
- Long-term perspective
- Environmental integrity & resilience
- Drought-proofs and adapts to climate change
- Major conservation benefits - biodiversity, landscapes, connectivity
- Promotes Namibia's international conservation standing
- Enhances Namibia's economic competitiveness

Low road

- Get rich quick for a few
- Short-termism
- Environmental degradation
- No contribution to conservation values
- Compromises Namibia's conservation integrity
- Diminishes Namibia's economic competitiveness

Conclusions

1. Build on Namibia's comparative and competitive wildlife advantages
2. Link wildlife as a land-use to economic development and to biodiversity conservation - they are all aligned (marketing value)
3. Align markets to work for sustainable use of wildlife, conservation of biodiversity and indigenous ecosystems through focused policies and legislation (including export of game meat and landscape approach)
4. Devolve rights and responsibilities over sustainable wildlife use still further to local level (reduce bureaucracy)
5. Use protected areas to create incentives for compatible adjacent landscapes and as "engines" for landscape development
6. Limit the role of government to that of creating a conducive environment, regulating for equity and providing extension and capacity-building services to those who need them

Thanks you

ceo@n-c-e.org

APPLICANT:

JIM LINES

OPERATOR ENHANCEMENT REPORT

Conservation Force v.5/8/18
Operator Enhancement Questionnaire

1. Name of area operator: Peter Thormahlen

   a. Years in business: 20

   b. Name of company conducting hunt: Thormahlen & Cochran Safaris

   2. Name of concession: **Mahango NP** **Size in km²: 30,000 ha**

   a. Land tenure: __ Government lease X__ Community _ Private ranch __ Private conservancy

   b. Length of concession agreement: 4 years Can it be renewed? __ Yes _X_ No

   c. Length of renewal, if applicable: Auction every 4-5 Years

   d. Estimated total amount received in trophy fees last year, if applicable: $400,000

   e. Are there any special obligations under the concession agreement such as annual reporting, poaching control, community investment, community employment, etc.? If so, please explain: Government Concession – none of the above required

   f. Please provide the concession location and nearest city. Please attach a map or maps with the boundaries marked and showing the nearest city: Nearest town is Divundu. Map, attachment 1,

   g. If the concession borders a national park, please provide the park name: _____Concession is Mahango National Park_____

h. Description of general and distinctive habitat features and any water features: Biotype is made up of Kanago River, Riverine Area, as well as Miombo Forest area

3. Are there any communities living in the concession? Yes _X_ No

   a. If so, estimated number of people or villages in the concession?

4. Are there communities bordering this concession? X_ Yes __ No

   a. If so, estimated number of people or villages around the concession? Divundu Town Area, Kavango Tribe

5. Relevant game populations in the concession:[1]

Species name	Relative Abundance (dense/avg./sparse)	Est. population	3-Year trend (up/ down/ stable)	How monitored?
Elephant	**abundance**	1,000-1,500	stable	MET Game Count Surveys
Lion	average	20	stable	MET Game Count Surveys
Leopard	abundance	100	upwards	MET Game Count Surveys

[1] The new FWS import permit application form asks the applicant: "9. a. Do you have any information regarding the population status or trend on the species hunted?"

Hippo	abundance	500	upwards	MET Game Count Surveys
Crocodile	abundance	1,500	upwards	MET Game Count Surveys
Roan Antelope	abundance	400	upwards	MET Game Count Surveys
Kudu	abundance	1,000	upwards	MET Game Count Surveys
Sable Antelope	abundance	400	upwards	MET Game Count Surveys
Prey species	Abundance: zebra, giraffe, baboon, Steenbuck, grey duiker, impala, reedbuck	7000+	upwards	MET Game Count Surveys

Wildlife monitoring in the Park is done by Ministry of Environment & Tourism (MEFT)

6. Total employment number: __5_____

   a. Please identify the number and type of all employees:

Type	Total number of this type	Number of this type who are local/from nearby communities
Professional Hunters	4	2
Trackers	4	3
Anti-poaching scouts/rangers	0	
Other anti-poaching	Namibia Game Department - MET	
Cooks/housekeepers	2	2
Community coordinators		
Managers	1	1
Biologists		
Others: _____	2	2

7. Number of staff employed in the off-season: 13 - anti-poaching excluded.

   a. Please identify the number and type of staff that are engaged when the season is not open:

Type	Total number of this type	Number of locals/from nearby communities	When employed?
Anti-poaching staff	0		
Managers	2	1	2014-2017
Maintenance	2	2	2014-2017
Road opening/construction			

Community relations personnel			
Others: _____			

8. Anti-poaching efforts:[2]

   a. Number of anti-poaching staff: National Park -MET is doing Anti-Poaching

   b. Are anti-poaching patrols conducted during the hunting season, off-season, or both? both

   c. Months during which anti-poaching patrols are conducted: every month

   d. Number of anti-poaching patrols per month: Anti-poaching is done 24/7 in the National Park by Park Officials

   e. Description of anti-poaching equipment, vehicles, etc.: Patrol 4x4 cars and on foot.

   f. Who is responsible for organizing and coordinating anti-poaching from prevention through successful prosecution? Namibian Government - MET

   g. Do you offer rewards to poaching informants leading to arrest? __ Yes _X_ No

   h. Do you offer rewards to poaching informants upon conviction? Yes _X_ No

   i. Please describe the company's anti-poaching expenditures below. What currency are the expenditures given in? The anti-poaching campaign done by Parks personnell

Type of expense	Spending 2015	Spending 2016	Spending 2017	Remarks
Salaries for anti-poaching scouts				
Equipment				
Vehicles				
Petrol				
Rewards paid				
Other: _____				
Other: _____				
TOTALS				

9. Anti-poaching results:

Category	2015	2016	2017	Remarks
Poaching incidents discovered				
Elephant carcasses observed				
Lion carcasses observed				
Leopard carcasses observed				
Ivory poachers arrested				

[2] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers anti-poaching a "conservation benefit."

Meat poachers arrested				
Other poachers arrested				
Poachers convicted				
Snares/gin traps collected				
Firearms confiscated				
Vehicles confiscated				
Bicycles confiscated				
Boats/nets confiscated				
Tusks recovered				
Other: _____				

The Game Department does not share information. Poaching is a sensitive issue and therefore no information in this regard is available to us to complete the above table. However, because of all the anti-poaching programs run in the area, poaching of antelope is zero, or so little that we don't know of any incidents.

10. Community investment:[3]

a. Does the company contribute money or goods/services to local communities? _X_ Yes _ No

b. If so, what percentage or amount is shared, how often, and why (e.g., required by law, required by contract, voluntary contribution)? __voluntary and donated by our overseas clients – mostly USA citizens who donates school stationary to schools in the area.

c. Does the company provide game meat to nearby communities? x_ Yes __ No

d. If so, please estimate the amount and/or value of meat contributed in prior year and describe the meat contribution program: All the game meat hunted by us and as per the allocated quotas of the Minister of Environment and Tourism, go to the local community

Yearly the following Game is harvested:
Elephant x 2 @ 4,500 kg per carcass @N$22 / kg = N$198,000
Hippo x 4 @ 1,500 kg per carcass @N$22 / kg = N$132,000
Buffalo x 4 @ 800 kg per carcass @N$22 / kg = N$70,400
Kudu x 2 @ 120 kg carcass @N$22 / kg = N$5,280
Giraffe x 1 @ 750 kg carcass @N$22 / kg =N$16,500
Sable x 2 @ 150 kg carcass @N$22 / kg =N$6,600
Roan x 2 @ 150 kg carcass @N$22 / kg =N$6,600
Impala x 4 @ 50 kg carcass @ N$22 / kg = N$2,640

TOTAL = N$438,020.00

[3] The new FWS import permit application asks for activities that provide a "conservation benefit" to the species. The FWS considers community investment a "conservation benefit."

e. If the company performs problem animal activities for surrounding communities (e.g., patrolling fields during the harvest, chasing away problem animals, conducting PAC hunts or PAC killings), please describe.

National Park -Park Officials on duty

f. Please describe any consolation payments made to local residents damaged by game species. What currency are the expenditures reported in?

There is a Government Fund that refunds the community for damages.

Species	Damage caused	Consolation paid 2016	Consolation paid 2017	Consolation paid 2018
Elephant				
Lion				
Leopard				
Other				

g. Please describe any community projects paid for by the company. What currency are the expenditures reported in? _____US$_____

Type of project	Spending 2015	Spending 2016	Spending 2017	Remarks
Education (e.g., classrooms, offices)	$1,750	$3,500	$4,000	20 blue bags @ $200 per bag = $4000, or N$55000. Clients donate $200, we will up the bag to the total of $200 with the necessary school or educational supplies, identified by the local schools.0-
Education (e.g., school fees, supplies)				
Health (e.g., clinics, offices)				
Health (e.g., medical salaries, equipment)				
Community scout salaries				
Other community anti-poaching				
Local government activities				
Water infrastructure improvements				
Sports teams funded	$500	$500	$500	

Construction materials donated				
Other: _____				
Other: _____				
TOTALS	$2,250	$4,000	$4,500	

11. How many U.S. clients did the company have in the past three years, what percentage of the company's clients were from the U.S., and what fees did they pay?

Please note: we operate in South Africa and Namibia, and the figures below, is for the whole operation

	Hunting elephant	Hunting lion	Hunting leopard	Hunting all species
Number of U.S. clients	2015: 4 2016: 9 2017: 5	2015: 2016: 2017:	2015: 2 2016: 9 2017: 9	2015: 126 2016: 110 2017: 141
Percentage of U.S. clients	2015: 99 2016: 98 2017: 100	2015: 2016: 2017:	2015: 100 2016: 98 2017: 99	2015: 95 2016: 96 2017: 97
Trophy fees paid by U.S. clients	2015: 220000 2016: 495000 2017: 275000	2015: 2016: 2017:	2015: 42000 2016: 225000 2017: 256000	2015: 303 715 2016: 1075 000 2017: 997 375

12. Approximate dollar amount and/or percentage of the company's revenue from U.S. clients: _95%

13. Other information: Please provide a narrative of other enhancement information about the operation, such as any special hunting policies (e.g., aging, size, resting areas), concession improvements (e.g., digging and maintaining boreholes, restocking), management activities, research, etc.

Thormahlen & Cochran operates on other conservancies in Namibia, namely:
Na#Jaqna
Ondjou
Kabulabula
We built camps in Na Jaqna, Ondjou, and Kabulabula. Thormahlen & Cochran donate all the camps to the Conservancies. We deliver all the meat that we hunt, to the conservancies, and donate to every local school the blue bags. We are building roads, and are responsible for the water and electricity supply for the camps. We employ the local community as staff and currently employ 5 to 6 conservancy members as staff . We are also responsible for the training of the staff to be able to serve the overseas clients. To date we have 32 community members employed in the various camps. We also have social responsibilities towards the conservancies: we built a school hostel, a community hall, drilling of waterholes, making cutlines, building roads etc. We are buying protective clothing to the game guards and uniforms for the personnel on an annual basis and opened another drilling hole for N$460,000.

14. I declare that the foregoing is true and correct.

IMPORT OF SPORT-HUNTED TROPHIES (Appendix I of CITES and/or ESA)

Complete Sections A or B, and C, D, and E of this application. U.S. address may be required in Section C, see instructions for details.
You may find instructions on how to make your application complete and help avoid unnecessary delays at the following link: .

Section A: Complete if applying as an individual

1.a. Last Name	1.b. First Name	1.c. Middle Name/Initial	1.d. Suffix
N/A	N/A	N/A	N/A

2. Date of Birth (mm/dd/yyyy)	3. Telephone Number	3.a. Alternate Telephone Number	4. E-mail address
N/A	N/A	N/A	N/A

Section B: Complete if applying on behalf of a business, corporation, public agency, Tribe, or institution

1.a. Name of business, agency, Tribe, or institution	1.b. Doing business as (DBA)
Green Oaks Museum & Educational Center	Green Oaks Museum & Educational Center

2. Tax identification no.	3. Description of business, agency, Tribe, or institution
82-1330846	This Museum and Educational Center is for local schools and the general public to view a collection of already over 150 species.

4.a. Principal officer Last name	4.b. Principal officer First Name	4.c. Principal officer Middle name/initial	4.d. Suffix
Van Beek	Arden	Neal	Mr.

5. Principal officer title	6. Primary contact name
President	Brandon Van Beek

7.a. Business telephone number	7.b. Alternate telephone number	7.c. Business fax number	7.d. Business e-mail address
(b) (6)			

Section C: All applicants complete address information

1.a. Physical address (Street address, Apartment #, Suite #, or Room #; no P.O. Boxes)
(b) (6)

1.b. City	1.c. State	1.d. Zip code/Postal code	1.e. County/Province	1.f. Country
Hudson	South Dakota	57034	Lincoln	USA

2.a. Mailing address (include if different than physical address; include name of contact person if applicable)
(b) (6)

2.b. City	2.c. State	2.d. Zip code/Postal code	2.e. County/Province	2.f. Country
Hudson	South Dakota	57034	Lincoln	USA

Section D: All applicants MUST complete

1 Attach check or money order payable to the U.S. FISH AND WILDLIFE SERVICE **in the amount identified on page 2, nonrefundable processing fee** Federal, Tribal, State, and local government agencies, and those acting on behalf of such agencies, are exempt from the processing fee – *attach documentation of fee exempt status as outlined in instructions.* [50 CFR 13.11(d)]

2 Certification: I hereby certify that I have read and am familiar with the regulations contained in ***Title 50 Part 13 of the Code of Federal Regulations*** and the other ***applicable parts in subchapter B of Chapter I of Title 50***, and I certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 U.S.C. 1001.

Signature of applicant/Principal Officer for permit (No photocopied or stamped signatures) Date of signature (mm/dd/yyyy)

(b) (6)

E. IMPORT OF SPORT-HUNTED TROPHIES *(Appendix I of CITES and/or ESA)*

Note 1: This form should be used to request authorization to import trophies of species listed on Appendix I of CITES and/or as threatened or endangered under the ESA (examples include elephants, lions, cheetahs, wood bison, and markhor).

PLEASE USE FORM 3-200-19 FOR SOUTHERN AFRICAN LEOPARD TROPHIES AND SOUTHERN WHITE RHINOCEROS TROPHIES TAKEN IN NAMIBIA.

Note 2: If you hold an import permit for trophy/trophies that you did not use, please **return the unused original permit**. If you are requesting reissuance of a permit because you have taken a trophy, but were unable to import it prior to the expiration of the permit, please use the renewal form (3-200-52) and return your original permit with that form.

Note 3: Applications for species listed as endangered under the U.S. Endangered Species Act are published in the Federal Register for a 30-day public comment period. Please allow at least **90 days** for the application to be processed.

Note 4: *Sport-hunted trophy* is defined at 50 CFR 23.74 as follows: *Sport-hunted trophy* means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on the accompanying CITES document that meets the following criteria:

- Is raw, processed, or manufactured;
- Was legally obtained by the hunter through hunting for his or her personal use;
- Is being imported, exported, or re-exported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
  - i. Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
  - ii. The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
  - iii. The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.

Note 5: Certain hunting trophies, including elephants, are subject to restrictions on their use after import into the United States. Please see 50 CFR 23.55 for more information or contact the Division of Management Authority.

Please provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. On all attachments or separate sheets you are submitting; please indicate the application question number you are addressing. If applying for more than one trophy, be sure to answer questions 1-6 for each trophy addressed in this application. If importing trophies from more than one country, you must submit a separate application for each shipment in order to obtain separate import permits.

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.

   N/A

2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?

   Brandon Van Beek, ([redacted]

3. Have you or your client (if a broker applying on behalf of your client), been assessed a civil penalty or convicted of any criminal provision of any statute or regulation relating to the activity for which the application is filed; been convicted, or entered a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act; forfeited collateral; OR are currently under charges for any violation of the laws mentioned above?

(No) Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court, and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

N/A

4. For each trophy to be imported, provide:

   a. Scientific name (genus, species, and, if applicable, subspecies) and common name.

   Loxodonta Africana, African Elephant

   b. Sex (if known). Male

5. **IF ANIMAL IS CURRENTLY LIVING IN THE WILD**, please enter the following information:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where wildlife is to be taken from the wild:

   Our hunt will take place int he northeast region of Namibia, formerly the Caprivi Region. We will be hunting in the following conservancies: Salambala , Kabulabula , Lusese , Bamunu , Kasika. The largest nearest city would be Katima Mulilo.

   b. Date wildlife is to be hunted:

   October 1 - 15, 2018

   c. Name of hunting outfitter, safari company, or professional hunter you will be hunting with:

   Byron Hart, of Zambezi East Hunting Safaris.

   +264 81 124 7795
   byron@zambezihuntiungsafaris.com

6. IF THE TROPHY HAS ALREADY BEEN TAKEN, please enter the following:

   a. Country and place (area, region, GIS coordinates, ranch, conservancy, management area, or hunting block, AND nearest city) where trophy was removed from the wild:

   N/A

   b. Date wildlife was hunted:

   N/A

c. Name of hunting outfitter, safari company, or professional hunter you hunted with:

N/A

d. The current location of the trophy (address and country) [the U.S. import permit will identify this country as the country of export/re-export and must match with the export/re-export document]:

N/A

7. Please provide a copy of any applicable foreign government permits or licenses that were required to remove this animal from the wild (if you have not hunted yet and do not currently hold any such permits or licenses, please indicate so). Our permit has not been issued yet. Permit will be issued by way of quota set forth by The Ministry of Environment & Tourism of Namibia.

8. Complete name and address of overseas person or business shipping the trophy to you. If you are applying to import a trophy directly from Namibia, you must provide the name and address of the professional hunter listed on your Namibian hunting permit [this name will appear on the face of the export permit].

Name: Byron Hart
Business Name: Zambezi East Big Game Safaris (ZEBG)
Address: P.O. Box 11338, Windhoek, Namibia
City: Windhoek
State/Province: Khomas Region
Country, Postal Code: Namibia

9. For species listed under the Endangered Species Act, please be aware that the U.S. Fish and Wildlife Service must make a finding that your activities will enhance or benefit wild populations of the species involved. While we will communicate with the range country for the species you will hunt or hunted when making the required findings, if you have any information that could support this finding, it would be helpful to our review if you could provide it. Please submit such information on a separate page with your application.

a. Do you have any information regarding the population status or trend data on the species hunted?

From the aerial surveys conducted across the country, the Namibian Ministry of Environment & Tourism can say that there are approx. 22'000-26'000 elephant in Namibia at any 1 time. These are NOT all resident, especially in the North-East (Zambezi-Kavango-Bushmanland) region of the country where there is much movement across borders with Zambia, Botswana and Angola. The survey suggests that in 2015 this North-East region had 16-17'000 elephant, with approx. 2'000 in Etosha National Park and a further 2'000 in the dryer North-Western region. The survey suggests that in Zambezi Region alone were 14'000 elephant. "There are more elephant in Namibia now than 100 years ago" (K. Uiseb, Pers Comm, 03 may 2018).

b. In order to hunt, you likely paid for licenses or trophy fees. What were those fees and do you have any information on how those funds were used by either the landowner, community, or government?

In total, the hunt will likely cost in the range of $80,000 to $85,000. This total includes the local community's permits, wages paid to scouts, trackers, camp staff, lodging, travel and other. Much of this cost directly impacts the villages and communities that the hunting takes place in. Not only do these monetary funds help, but also the meat from the animals hunted is often times a saving grace for many local villagers who would otherwise resort to poaching their own food and harvesting young, female and any animal they see. Zambezi East Big Game Safaris uses funds generated through hunting in many ways to help local communities. In 2016, due to flooding many local students were pushed out of their housing. ZEBG used hunter generated revenue to provide the necessary shelter for these students in their time of need.

c. Do you have information on other funding activities that are being carried out, or were carried out, by the safari outfitter, professional hunter, concession holder, or land owner that provide a conservation benefit to the species being hunted/species hunted

ZEBG constructs many water sources for animals in their conservancies, both contractual and non-contractual. ZEBG has a commitment to education and sponsors students to attend vocational training schools. Also, ZEBG sponsored a anti-poaching soccer tournament that was planned in coordination with delegates from the local Police, Ministry of Environment & Tourism, Tribal Authority and Prison Services. At the event each organization gave speeches to the locals in attendence regarding the drastic effects of poaching and the advantages of sustainable hunting efforts.

CERTIFICATION STATEMENT (original signature must be provided for either 10 or 11 below)

10. If you are a broker or taxidermist applying on behalf of a U.S. hunter or foreign national, provide documentation to show you have a Power of Attorney to act on your client's behalf and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by my client and is being imported only for my client's personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying for the import of a leopard trophy, I understand that my client may only import two leopard trophies in one calendar year.

Taxidermist/Broker's signature: _____ Date: _____

11. If you are the hunter applying to import your own trophy, please read and sign the following statement.

I acknowledge that the sport-hunted trophy/trophies to be imported has been/will be personally hunted by me and is being imported only for my personal use (i.e., not for sale, transfer, donation, or exchange that is reasonably likely to result in economic use, gain, or benefit). If applying to import a leopard trophy, I understand that I may only import two leopard trophies in one calendar year.

Applicant's signature: (b) (6) _____ Date: 6-13-18

Be aware that there may be additional permitting or approval requirements by your local or state governments, as well as required by other Federal agencies or foreign government to conduct your propose activity. While the Service will attempt to assist where possible, it is your responsibility to obtain such approval.

12. All international shipment(s) must be through a designated port. A list of designated ports (where an inspector is posted) is available from **the list of designated ports**. If you wish to use a port not listed, please contact the Office of Law Enforcement for a Designated Port Exemption Permit (form 3-200-2).

1. NAMIBIA'S COMMUNAL CONSERVANCY CONCESSIONS (APPLICATION QUESTION 5 a.)

The Communal Conservancy Concessions are Parliament Gazetted areas that have shown an interest in conserving the natural resources for the benefit of the residents in that area. The unit is demarcated, and a natural resource management plan structured according to needs of the residents and the area. A **Management Committee** is established/employed including Chairperson, Manager, Treasurer, Secretary, Committee Members/Area Representatives and then **Game Scouts** are employed and trained in accordance to the Ministry of Environment & Tourism (MET) requirements including record keeping, patrols, laws, utilization and hunting standards and ethics. This Conservancy structure is created and monitored under supervision and in conjunction with various NGO's supporting *Community Based Natural Resource Management* (CBNRM), including:

Ministry of Environment & Tourism

Namibian Association of CBNRM Support Organisations (NACSO)
19 Lossen Street, P.O. Box 98353, Windhoek, Namibia
Tel: +264 61 230888 Fax: +264 61 237036
officemanager@nacso.org.na www.nacso.org.na

The Namibian Communal Conservancy Program currently has 83 Gazetted/Registered Conservancies, with over 163'017 km^2 area under Conservation Management, with not less than 189'230 people living in these areas. Since the inception of CBNRM, game populations have drastically increased in all areas, employment of community members into positions of responsibility over their own natural resources, and one of the main focuses is to alleviate poverty and manage Human Wildlife Conflict (HWC). This is mostly done through tourism and hunting to generate funds for development projects.

2. NAMIBIAN GOVERNMENT ELEPHANT MANAGEMENT PLAN (APPLICATION QUESTION 9 a.)

The Namibian Government/MET is still working according to an Elephant Management Plan that was drafted in 2007. It was reviewed in 2016 after **3 years of consecutive aerial surveys/game counts** (2013/2014/2015). MET are in the process of setting up terms of reference for a new Elephant Management Plan that is scheduled to be finished within about a year from now, with **funding for this already secured**. A new set of Terms of Reference are being formulated, they will then get a consultant in to draft the new plan by October/November of this year, and completion should be within the first quarter of 2019. It takes time, as a percentage of the decisions involve cross border/international liaison with neighbouring countries across which elephant movement occurs.

(KAZA- Kavango-Zambezi Transfrontier Conservation Area task group, Established 2011 www.kavangozambezi.org)

From the aerial surveys conducted across the country, MET can say that there are approx. 22'000-26'000 elephant in Namibia at any 1 time. These are **NOT all resident**, especially in the North-East (Zambezi-Kavango-Bushmanland) region of the country where there is much movement across borders with Zambia, Botswana and Angola. The survey suggests that in 2015 this North-East region had 16-17'000 elephant, with approx. 2'000 in Etosha National Park and a further 2'000 in the dryer North-Western region. The survey suggests that in Zambezi Region alone were 14'000 elephant. "There are more elephant in Namibia now than 100 years ago" *(K. Uiseb, Pers Comm, 03 may 2018).*

Namibia currently has a CITES quota of 90 exportable elephant. With the results of the survey, and various other annual game counts conducted within the conservancies, and the new proposed Elephant Management Plan, Government will most likely request an increase on this number from CITES. Including about 70-80 Community/Own-use elephant, and isolated Problem Animal incidents, between **190-210 total elephant are legally hunted** in Namibia per year, between 0.8-1.2% of the estimated population.

Obviously, one of the biggest concerns is the increase in HWC, as both the human and elephant populations increase and thus their effective range. Elephants are moving into and taking residence in areas formerly not frequented, including commercial farming areas. This possibly due to a combination of both drought (2014-2016) and increasing numbers, "space/food-pressure" from other herds. There are also more water points in commercial farming areas, making it convenient for family groups with young. Due to this expanding range, more HWC as well as poaching occurs. This is where the successful Communal Conservancy Conservation (CBNRM) projects come in to effect as they highlight the value of these animals to the community as a whole rather than the short-sighted individual filling pockets. **Sustainable utilization** being the topic most emphasized.

3. ZAMBEZI EAST BIG GAME SAFARIS (APPLICATION QUESTION 9 c.)

Zambezi East Big Game Safaris (ZEBG) has been conducting hunting operations in the North-East Zambezi Region of Namibia (*formerly Caprivi Region*) since November 2012 when the first community hunting contracts were signed. It has since grown to become the largest operator in the Zambezi Region with currently 5 Concessions under contract. These are:

Salambala	since Nov 2012, approx. 930 km^2,	*Chairperson:* Daniel Mwinga +264 81 455 9835
Kabulabula	since Nov 2012, approx. 89 km^2,	*Chairperson:* Leonard Mbala +264 81 639 8464
Lusese	since Nov 2014, approx. 207 km^2,	*Chairperson:* Chrispen Mwilima +264 81 430 5904
Bamunu	since Feb 2017, approx. 556 km^2,	*Chairperson:* Chunga Chunga +264 81 310 8124
Kasika	since Feb 2018, approx. 147 km^2,	*Chairperson:* Fransisca Simasiku +264 81 887 5212

Hunting is conducted on as many Concessions as possible to allow a Professional Hunter (PH) the opportunity to find the oldest/most suitable bull. Obviously because of quota, we hunt from multiple camps simultaneously. Hunting is conducted in the most traditional form of finding tracks, following-up to find the suitable animal, or "spot and stalk". Hunting vehicles/boats are used only to find elephant tracks, and NOT to hunt from. No animals are shot from the vehicle at all.

3.1 Permits

The PH hunts with a permit issued by MET according to quota available in the various concessions. These permits are applied for and approved in Windhoek at the MET. On the **PERMIT TO HUNT FOR TROPHIES** is the PH's name who is responsible for the hunt, the clients name and address as per passport, the area in which the elephant may be hunted, the number of elephant to be hunted (max 2 per hunter per safari), and the dates in which the hunt may take place. On completion of the hunt, the PH, client and **Conservancy Employed** game scout all sign on the reverse of the permit against the animal hunted to confirm what is written. It is compulsory to have a game scout on the hunt at all times.

3.2 Product (ivory) chain of Custody

Salambala is our "main" concession with our biggest camp. (S 17" 51' 802 ; E 024" 37' 015) This is where most of our trophy preparation takes place. Once an elephant is harvested, the trophy is taken to this camp for skinning, and recorded in the camp trophy book. Skins are salted and treated with insecticide, and dried in a "non-cloven hoof" shed. The head is then buried in a razor-wire secured enclosure till the tusks are extracted and labelled. The game scout issues a **record ticket** (sticky) that is stuck onto the ivory, with all relevant information. They are then logged out of the camp trophy book against a signature, and transported to a quarantine facility in Katima Mulilo against Foot & Mouth Disease (FMD), where the tusks will be quarantined for minimum of 30 days. Although elephant are not carriers, State Veterinary Services requires **all** trophies coming out of Zambezi and Kavango region to be quarantined against possible cross-contamination. State Vet does the quarantining, and sprays all trophies with a bicarbonate solution before locking the trophies away, and sealing it with a veterinary seal. The State Vet keeps the keys for the entire period till the bins are opened again. Product is locked away in vaults that are secured with added steel walls and security alarms. Whilst product is at the quarantine station, there is armed security guards at all times, 1 during daylight hours, 2 at night.

Veterinary Movement Permits are issued in Windhoek at the **Ministry of Agriculture, Water and Rural Development, Veterinary Department**, only once the 30-day quarantine period is complete, under authorization of the State Vet that locked the trophies away. ZEBG was the first company to build separate salting sheds and quarantine bins for "cloven" and "non-cloven" hoofed trophies for possible cross contamination, although this is **not a requirement** by regulation.

After the 30-day quarantine period, State Vet opens the bins by cutting seals and confirms that there was no tampering, and confirm that the trophies are all recorded on the movement permit in accordance with the list that went into quarantine. An MET official is also present to issue the **Possession Permit** that allows the responsible person to be in possession of contra-ban products (Ivory & Horn). 6 measurements are taken of each tusk and recorded on the possession permit along with the Trophy Hunting Permit numbers, these are:

- Lip to tip on outside curve
- Lip to tip on inside curve
- Base to tip on outside curve
- Circumference at the lip
- Circumference at the base
- Weight

Trophies are then loaded into closed transport, and **once again sealed** with veterinary seal for transportation. A **"Red-Cross" Veterinary Permit** is then issued against the **Movement Permit** by State Vet that allows the trophies to be transported beyond the veterinary control fence south of Kavango. Product/trophies are then transported to a **separate** Veterinary Approved FMD receiving/cleaning station at Reiser Taxidermy (plot 43, Brakwater-Windhoek, Tel: +264 61 264 207, Fax: +264 61 264 209 , reiser@iway.na , sven@reiser.iway.na) where the transport seal is checked and broken by a State Vet official. Product is once again cleaned and locked in a vault. It is then ISO-coded (stamped) against the possession permit by the CITES office of MET. Once complete consignment is ready, a CITES permit is applied for and based in this an export permit is applied for.

So in summary, the following checks are completed to ensure the product is authentic:

- **Hunting permit** (area, PH, client, date specific) – MET, Windhoek
- **Game scout ticket** (area, PH, client, permit number) – MET issued
- Camp trophy log book – ZEBG
- Quarantine-in **list and stamp, sealed bin** – State Vet, Katima Mulilo
- **Veterinary Movement Permit** – State Vet Windhoek
- Quarantine-out **list and stamp, seal checked and broken** – State Vet, Katima Mulilo
- **Possession Permit** – MET, Katima Mulimo
- **Red-Cross Movement Permit** – State Vet, Katima Mulimo
- Taxidermy receiving station – transport **seal checked and broken** by State Vet

- Product is **ISO-coded** – MET/CITES
- **CITES Permit** issued
- **Export Permit** issued.

In case of any irregularities, trophies are confiscated, and in the case of State Vet, destroyed (burned). ZEBG can obviously not afford to have this happen, thus it's in our best interest to **maintain the correct chain of custody**.

Ivory from Community-use hunted elephant is delivered to MET, within 2 weeks of being hunted as per regulation, with handing in of original permit for quota control.

3.3 Meat Distribution

All meat, both trophy and community-use quota of all species hunted is distributed at ZEBG cost and logistics, **as per contract**. The conservancy is notified in advance what will be hunted in a certain area in advance. Once hunted, the distribution point is confirmed by the conservancy management. It is then the responsibility of the game scout to ensure that all meat is loaded and is delivered to this point. All PH's hunting for ZEBG are informed this procedure.

Sometimes, in logistically difficult areas, ZEBG transports the villagers to the site and back to collect the meat, under supervision of the game scout and PH. ZEBG may keep a small piece of meat, usually 5-10kg for camp use, but this is pre-arranged with management. Similarly, meat used for baiting predators is also pre-arranged and documented.

3.4 Social developments

ZEBG also responds to Social Developments within the various communities of our concessions. It is part of the contract to develop the individual communities on issues raised by the community at large. The older contracts just had a cash lump sum indicated as "Social Development" which was a yearly requirement paid over at the beginning of the hunting season. The problem with these bulk payments was that the funds were generally used for other purposes like Game Scout overtime pay or vehicle repairs rather than community development. ZEBG, along with IRDNC, helped change this in the standardized contracts to categorize individual community needs, and allocate funds to these, the total still being the original amount. An **example** of this would be:

- Anti-poaching equipment N$45'000
- Borehole drilling N$ 30'000
- Schools & Sports N$ 25'000
- Elderly N$ 25'000
- Drought/flood relief N$ 25'000
- Traditional Authority N$ 10'000

Conservancy office in construction phase, Lusese, 2016

Rather than a lump sum of N$160'000, the Conservancy management indicates a project per year per category, and we issue funds or purchase the goods/equipment for them to the value agreed on. In this way, more of the actual development funds are reaching the intended purposes.

ZEBG also contributes to development projects **outside the contractual agreement**. One conservancy in the eastern floodplains indicated a need for scholar housing, because during flood times (Jan-May), the scholars would be housed in the class-rooms or in make-shift accommodation outside school grounds because distances by mukoro (traditional canoe) to school and back was to great. ZEBG built a hostel in 2016 to house 40 scholars, this all with hunters Dollars.

Construction Phase

Make-shift scholar housing, with new accommodation (green) and school (yellow) in the background

Professional Hunter training within the conservancies is a contractual requirement, whereby an aspiring individual is selected from the conservancy and ZEBG then trains this individual to obtain the MET standard hunting license. 3 candidates (from Lusese, Salambala and Kabulabula) were sent to a Hunters Training Academy in 2016 for this initial training, 2 of which were in the top 2 positions in class. The 2 remaining candidates (Kasika & Bamunu) will be sent this year, as the Hunting academy didn't offer a course in 2017. To our knowledge, there is only 1 other operator in the Zambezi region that is training an apprentice PH.

Poaching is an ongoing problem, and as operators, ZEBG as private "individuals" are somewhat restricted in terms of the Policing Law to engage actively in anti-poaching operations. ZEBG assists where possible at all times with vehicle support and transport of Game Scouts to various operations being conducted by the military, police and MET. Having vehicles in the field is a definite deterrent and many times hunting vehicles have encountered suspicious situations whereby the "would-be" poachers have moved off or vehicles and firearms have been confiscated by game scouts.

What ZEBG can do though is create awareness against poaching, and in 2017, we sponsored an inter-conservancy soccer tournament, total 6 teams in round-robin tournament with a combined team from IRDNC & MET. The idea for this tournament came from a Prison Warden who noticed increasing convictions in poaching and decided to act. Involving the local broadcasting station (NBC), delegates from the Police, MET, Tribal Authority and Prison Services were invited to all the matches to give speeches and talk to the community at large about the poaching and the consequences there-of. The tournament itself was a success and the conservancies earned good funding for more anti-poaching activities.

ZEBG has a commitment to education. **Outside contractual requirements**, 2 student's tuition fees have been paid for by ZEBG. The first a 3 year Diploma at the Namibian Vocational Training Institute in Management and Administration, the second, a 3 year Diploma in Wildlife Management at the Wildlife College of South Africa. Both these candidates selected by the communites.

ZEBG has also contributed to the drilling of boreholes to create water-points for wildlife in the core wildlife areas of the conservancies, both contractual and non-contractual. This can only be done with Hunters Dollars.

Dear Mr. Brandon Van Beek,

The following is in response to your request regarding the status of your application.

Your application that was received on June 22, 2018, is currently under review. Please be aware that we have a significant number of applications pending, and we process applications in the order they are received in the office. The staff member working on your application has been notified of your inquiry. If there is a need for additional information or clarification on information provided in your application, the staff member will contact you directly.

Sincerely,

Anna Barry
Senior Biologist
USFWS/Division of Management Authority

Dear U.S. Fish and Wildlife Service Prt 98137C

Brandon,

On **06/22/2018** an applicaon f or the importaon of an Afric an Elephant, sport hunted trophy was received by this office **Prt # 98137C**. At the me of the applic aon's submission the hunt was to be held at a future date.

Please confirm at this me if y ou successfully hunted the elephant. If **yes**, please state so, and provide the date and locaon the elephan t was taken.

If **no**, do wish to withdraw your applicaon a t this me?

Please confirm the current status.

****Please note the permit that was applied for was for a specific locaon, and dat e. Permit applicaons and f ees are not transferable to another hunt, and so if you have scheduled a different hunt, you must submit a new applicaon.*

Furthermore, this applicaon was c ompleted as a business did the hunt and is imporng the troph y. Only an individuals can hunt for a sport hunted trophy. Please clarify who hunted the elephant. Of course this could be mute if the hunt was unsuccessful.

Thank you,

Tim Mac Donald

Hello Tim,

The last contact I had regarding this permit was with Anna Barry on Nov. 7, 2018 (anna_barry@fws.gov). She replied on Nov. 13, 2018.

At that point we had decided not to hunt the trophy due to the application uncertainty in hopes to take the trophy at a later date once the application was decided on. I had let Anna know this at that time.

Thank you for reaching out. Look forward to your response.

- Brandon
