I think I sent these to Dan the other day, but they're some Dave Kenyon shots that can be used with credit to Michigan DNR.

We'd have to have permission from whoever took the photo(s) or video of the lynx in order to use and/or share their pictures/video.

As far as I could find, we do not have any lynx photos/videos in our DNR photo collections.

I found this photo of an adult lynx on the USFWS online photo database: <https://digitalmedia.fws.gov/digital/collection/natdiglib/id/10892/rec/14> (it is public domain, so folks can use it.)

Subject: Lynx photo or video?

A bunch of reporters are asking for pictures or video of the lynx or a lynx. Do we have any I could share?
