Subject: [EXTERNAL] Lynx sighting?

On January 25th probably about 8-9 pm as I was getting off the highway at the Snow Bowl exit near Houghton Lake, I had seen a large cat type animal in the snow approaching the highway. I wasn't sure what it was until this morning when I saw the article on the WILX site. I believe it was a Lynx that I saw as it was bigger like a medium dog but kind of fuzzy and was a lighter color.

I am not sure if you track these type of sightings but wanted to make sure I reported it. I was pretty excited to not see the normal animals I sight on the way up.

Thank you!
