Hi Betty. I am still working on my review. Apologies. So far though it looks good.

The Peer review process is underway. New process so apparently we sent out to 3 consultant groups and they get back to us with bid. That is due to us October 16th I think. We can make selection fast so, yes I think we are on schedule (with a day or so). JB

That stinks! Let me know if there's anything I can do to help.

I'll finish up my review this morning and get it to you. Overall looks really good. Nice work.

Maybe Jodi knows more about the peer review.

Two of our servers (hard drives) failed Tuesday night, so I have lost about 2 days of meticulous work on my citations and record management for wolverine (the last backup was Monday morning). I have lost some pdf files that were moved on Tuesday, so I will need to locate those references again. I am now backing up everyday to a flash drive and working off my computer's hard drive until they get this sorted out.

I will do my best to stay on track to complete these revisions and the changes from the Core Team members by the end of next week, but starting over with checking citations is going to take at least 2 days. As of today, I have received only one review of the draft SSA Report.

As I mentioned earlier, I have a final exam and then a comprehensive exam coming up. So, I will be out of the office Oct 12-13, and also 18-20 (maybe 17th). Are we still on schedule for sending out to partners and peer reviewers (schedule says Saturday Oct 21)?
