Hi Betty,

They are recorded by the state (WDFW). Please let me know what you need.

Cheers,  
Jocelyn

Ms. Akins - Thank you for the two reports submitted/posted at [regulations.gov](http://regulations.gov) regarding our October 2016 notice for the wolverine.

I have been assigned to prepare the status review for this species and am writing to ask you whether the wolverine detections/observations described in your 2010 to 2012 report for the Cascades Carnivore Project have been provided to the US Forest Service (USFS). We are collecting observational data across the various States and, although we have been able to obtain most, if not all, USFS locations for this species, I would like to make sure that your study results are being recorded.

Please let me know if you have questions.  
Betty
