Many thanks Ed. I'm hoping to talk to NOAA today about time involved in bringing in Modis snow cover data for end of May for all of the den sites. I'll keep you and Betty in the loop on this.

Best, John

Hello John, Hope all's well. Here are the dens you and Betty discussed. We hope to get more, but this is what we have now.

I created these data from many sets, so the attributes were pulled and combined into fields that I thought would help Betty.

Note that the metadata is from one of the sets I used and I have yet to update it.

Hope this helps and please let me know if you have any questions.

Thanks, Ed
