Hi Steve,
Do you think we can nail down these dates with the NOAA/CU folks?
Best, John

How about Feb 15-16? (with me planning to arrive evening of Feb 14 and leaving not too late on Feb 16 - but need to check flights). That would give us nearly two full days. I would prefer to hold off on Conor's input until we talk more internally.
Thanks,
Betty

Betty and John,

Lets just pick two days the week of Feb 13 for the three of us to meet in Denver to discuss the wolverine assessment. John, if we can line this up w/ a presentation from NOAA, that would be great. Please let me know if that's possible.

This week doesn't work great for Marj or Jodi, but we can fill them in later. I will extend and invite to one rep from each of the coordinating regions once the three of us settle on dates.

And I'm not sure how to involve Conor, maybe we phone him in as needed when we meet. Unless you have some ideas for him Betty?
