Hi Betty, Got your message, sorry didn't call back yet, got caught up. Still working on the Dens with Google earth and will send you a new excel soon. I'm noting what date imagery we show snow, if we even do. Also, noting what type of terrain.

More soon I hope.

The grids are just raster cells. We'll look at it. Nick Hardy had that stuff too, but it's too hard to determine what data of Nick's would be correct. Better that we are getting it from the source.

Thanks for doing that, Ed
