Date: Wednesday, February 1, 2017 12:37:08 PM

Betty,

We're waiting on John to see if it will be possible to set something up w/ NOAA. We should know by Friday if they can meet on the 16th, when our ARD is available. Is that right John?

Or, you and I can just book the travel now and hope it works out w/ NOAA. If not, we can have a fruitful meeting w/ the three of us, and maybe Marj. And conference into the NOAA presentation whenever that gets scheduled.

I will need to get travel arrangements made no later than Friday.

Do we have a final date(s) for meeting? I will need to start making travel plans, reschedule one meeting, etc.

15-16 should work for me. Let us know what NOAA thinks of either date.

I have a call today with NOAA/CU and will see if these dates work for them. Mike Thabault was just in my office and I asked him about his availability and he said he is in Fort Collins Feb 15, but will be in the RO on Feb 16.

Best, John

How about Feb 15-16? (with me planning to arrive evening of Feb 14 and leaving not too late on Feb 16 - but need to check flights). That would give us nearly two full days.

I would prefer to hold off on Conor's input until we talk more internally.

Thanks,

Betty

Betty and John,

Lets just pick two days the week of Feb 13 for the three of us to meet in Denver to discuss the wolverine assessment. John, if we can line this up w/ a presentation from NOAA, that would be great. Please let me know if that's possible.

This week doesn't work great for Marj or Jodi, but we can fill them in later. I will extend and invite to one rep from each of the coordinating regions once the three of us settle on dates.

And I'm not sure how to involve Conor, maybe we phone him in as needed when we meet. Unless you have some ideas for him Betty?
