Thanks Ed! Let me take a more detailed look tomorrow, but we should decide about keeping the duplicates. Still waiting to receive the Jeff's zip file.

Hi Betty, This is what I could get for the imagery that was available at each den site from Google Earth.

Again, Some of the dens seem to be duplicate records in the ID F&G data and then in USFS data.

Hope this helps a bit, tried to note the terrain of the den area.
