I'm still planning on going, unless the weather gets bad. I'm in agreement re face to face. Based on what I've seen so far I agree w Ben on GLAC, it probably is good enough. But ROMO is a different story. I would have expected the reverse given the number of snotel sites in ROMO vs GLAC.

I have calls this morning. I still want to go up, but you may not need to just be on the phone. Totally up to you about heading up.

I feel a face to face is important to force the meeting schedule and final delivery.

Thoughts?

Thanks Steve,

I liked the bore brush ingenuity to grab hair. Are you going to be around in the am to talk about Andrea's emails?

Best, John

Here is a short video on the wolverine project that our video unit put together. This video series goes out to all the news stations weekly, and is usually played on the local news around the state.
