Date: Friday, February 3, 2017 9:47:19 AM

Hi Justin,

I will actually be in Denver during those dates for an LPC meeting! Maybe I can work out a way to come over for part of the time. The LPC meeting is at a hotel by the airport.

Thanks,
Caitlin

Caitlin,

We just scheduled a meeting w/ some of us in Denver on Feb 15-16. I know its short notice, but extending an invite if you can make it. It will be Betty, Bryon (R1), John from R6 decision support, myself, maybe Marj. I've invited R8 as well, but not sure they will send someone. Sorry for the late notice, but we just found out from NOAA yesterday that those dates work for them, so we should be getting a presentation on their snow modeling climate study sometime over the two days. We will be discussing what Betty has done so far, current condition, future condition, what needs to be done to finish our analysis. And how to build the NOAA info into our assessment.

Let me know if you can make it. If not, we'll work something out to fill you in or participate remotely.
