Hello Mr. Golden - I am a biologist in the Carlsbad Office of the U.S. Fish and Wildlife Service and am currently working on the status review for the wolverine for our agency's listing determination. I have been reviewing many documents/publications to better understand this species and its behavior, physiology, habitat requirements, and its distribution and abundance in North America.

I am familiar with most of the publications and reports for the wolverine in the conterminous U.S. and the 2014 COSEWIC Assessment and Status Report for the wolverine in Canada.

I found (online) the December 2014 story from Alaska Fish and Wildlife News (http://www.adfg.alaska.gov/index.cfm?adfg=wildlifeneews.view_article&articles_id=692) that summarizes your studies of wolverines in south-central Alaska. Has your agency prepared additional reports or accounts of the wolverine's status in Alaska?

Thank you for your time. My office contact information is listed below if you need to reach me by phone.
Betty
