Caitlin will be in Denver for another meeting and will pop in for some of ours.
I'll call tomorrow.

I need to put some thought into this so that we can best use our time there.
John, Ed, and I have been working on characterizing den sites using MODIS data, elevation, etc. So we can share that with others as well as the range maps that we should have finalized by then. I also think we should go over some of the key comments and new information (since the 2013 finding and 2014 withdrawal) that has been received.
I am in all day tomorrow if you want to talk more about this. Is Caitlin coming to Denver or just calling in?

Betty,

Looks like our schedule is filling up already w/ NOAA and SOL discussions. Do you have an idea what you would like to get accomplished in the remainder of the time we have together those days?

Maybe we can talk tomorrow?
