Date: Monday, February 13, 2017 3:35:51 PM

Your welcome.

I'll be here can help with running data or even showing maps and data on the screen if they need to see that.

If so, we'll just do a Google Hangout and share my computer with the group.

Have a safe and good/productive trip.

Ed

Thanks for all your hard work!! If there are questions, I expect those will come up on Wednesday, so I may call you that day.

Betty, I will send the dens to John.

Here is a table you will just need to expand the fields to read the text.

Hope this helps, and I found a tube you can use for the maps it's all on the table over by plotter.

Thanks, Ed
