Sounds like the Radio collar was in his stomach

http://bismarcktribune.com/news/state-and-regional/wolverine-came-from-wyoming-by-way-of-colorado/article_19846d98-c354-5907-9e8a-df44362d61f5.html

Will did up more if we need it, but I hope we hear back from her as she should have enough for us to make a records.

I just left a message with,

Stephanie Tucker, Bismarck 701- 220-1871

Game Management Section Leader. It sounds like she was involved with the kill report and taking the animal for ND F&G.

Maybe she will have exact location and more information from her reporting that she can share or will know if they have other records as they say they have had them in the state 100-150 years ago.

So I think we could plot this location somewhere near the town of Alexander, as mentioned in the article. But it does make me wonder if ND Game and Fish have other records???
