Thanks Caitlin. I have also reached out to contacts you sent at genetics lab in AK, but no response yet.

Hi Caitlin,

Drew mentioned that you're looking for wolverine data in Canada. I have a few contacts who might be able to help you (below). Jeff Copeland is not in Canada, but is the wolverine guru (used to work for the USFS Rocky Mountain Research Station and IDFG and may be able to point you to other sources.

If I can think of anyone else, I'll let you know.
