Hi Ed, Here is the shapefile the person in NT sent me. It doesn't include Alaska so I sent her an email about that and will let you know. I'm in Fort Collins all day today so won't be working on the range issue we discussed yesterday until Thurs.

Best, John

Hi John;

That is very odd. I don't remember a password being requested. I shall attach the file with this message. Unfortunately, we cannot send or receive zipped files.

Let me know if it is a success.

Bonnie

Hi Bonnie, Many thanks for your quick reply. I clicked the link and entered my email. It said it would send me a password to my email address so I can download the file, but the system never did send me the password? I emailed the help desk and will send you their reply.

Appreciate your help.

John

Hi John;

We can provide the shapefile for the Wolverine range and welcome any feedback on adjusting it in your region. I will send it to you through our Secure File Transfer site.

Note that the metadata is included with the shapefile.

Regards,

Bonnie

Dear Bonnie,

I just noticed your name was associated with the map in Figure 3 of this report described below. Would it be possible for you to provide me with the GIS shapefiles for current range and historic range for the wolverine? Feel free to contact me if you prefer and thanks for your help.

Best, John

To: COSEWIC/COSEPAC@ec.gc.ca

Hello, I would like to obtain the GIS shapefile for the current range of the wolverine

depicted in Figure 3, pg. 12 of this report. We need to assess percentage of current range in the US as part of our species status assessment for the wolverine. Please contact me with any questions.

COSEWIC. 2014. COSEWIC assessment and status report on the Wolverine *Gulo gulo* in Canada. Committee on the Status of Endangered Wildlife in Canada. Ottawa. xi + 76 pp. (www.registrelep-sararegistry.gc.ca/default_e.cfm).

Many thanks,

John Guinotte
