Hi John, Here is the new all location data with the North Dakota M-56 kill location provided by ND Fish and Game.

They provided mid point Township and Range lat/long and I created the data that way. I pulled the ND PLSS TR data and it's close, but the location falls on a large pasture on a ranch just east of cattle pens.

Hope this helps and if we get more Wyoming data I'll get that in too.

Thanks, Ed
