Thanks Ed! Let me catch up with you sometime today to review this before we send this to John Guinotte.

Hi Betty, I went through my files and couldn't tell what dens excels I had given you so, I cleaned mine out, made new ones and figured it'd be best to send you a complete folder set.

This way we don't have files with dups in them and maybe it will be in better order.

I pulled the dups from each raw data file (if they had them) and now you can see all raw attribute fields.

Hope this helps, Ed
