Thanks Betty, That map helps visualize the route between WY and CO. I went home sick today. I'm going to run the draft current range by Steve tomorrow and see what he has to say.

Best, John

John - So sorry to not provide this to you sooner, but am attaching the WY F&G Department comment letter we received in November. If you look at the last page, it provides a map (prepared by Bob Inman) that shows the track for M56 as it moved from WY into CO. It may or may be helpful for our range map.
