Thanks Bob. I already have Malin's dissertation (I think Audrey sent it to me via email).

One other question for you - do you have month and maybe day for the den sites you sent me? We are trying to match specific MODIS images and "melt-out" dates for each of the den sites that we have in our database.

Thanks again,
Betty

Hello Betty,

We begin pulling cameras out of the field April 1. Should be done by the end of the month. Dataset should be assembled by mid-May. So earliest would be June. I hope we can give a presentation at the summer WAFWA meeting in July, so will be pushing for that.

I have a copy of Malin's dissertation for you and will put it in the mail.

Hope you are well.

Subject: Question re prelim results from occupancy study

Bob - When you have a moment to respond - do you know when preliminary results might be available for the multi-state occupancy/monitoring study (2016-2017)?

Thanks for your time.
