Hi Betty,

Yes the Y = Latitude (N-S)

X = Long (E-W)

For us Longitudes will always be three digits and Lats just two.

Hope this helps, Ed

Thanks so much, Ed! Just to confirm, the Y coordinate is Latitude, correct?

Hi Betty, I put the source and Link into one field. It's hidden at the end of the table, but I put a copy of it at the first field in the table.

Hope this works.

Ed
