Hello Sarah,

Thank you for getting that to me.

I'm sending a PDF that I electronically signed and a copy converted to a word file. If this does not work, I can print it, sign, scan, and email.

Just let me know.

I wanted to make sure that we will get the location of the road kill over by Bear Lake. We were hoping to view that on our GIS in relation to where we assumed it was and to look at the Inman modeled data in vicinity.

Thanks again for all your help,

Ed

Hi Ed,

In order to receive exact species localities, please sign and return the attached "Protected Records Acceptance and Use Agreement," which states the information is protected and may not be released to the public.

Please contact me if you have any questions.

Sincerely,
Sarah Lindsey

Sounds great Kim.

Please let me know if you need anything from this end.

If I get the coordinates of the road kill out by Bear Lake, I can include that location on our generic lower 48 distribution map for our staff to review. Simple map showing historically

where occurrences seem to have been to give us an extent view. Would be used like the M-56 record we found up in western ND that was a rancher kill.

Thanks again for all your help, Ed

For me to give the wolverine coordinates, I need you to put in a data request with Sarah Lindsey (cced) to ensure proper data sharing.

I'll then quickly send you the 3 locations from 2014-2016 and any hits we may get as we retrieve remote cameras from this winter.

Thanks,
Kim

**Utah Division of Wildlife Resources
Protected Records Acceptance and Use Agreement**

I, Junius (Ed) Turner, representing US Fish and Wildlife Service
(print name) (print governmental entity name)

understand that species locality data managed by the Utah Division of Wildlife Resources (UDWR) are classified as **protected** under the Government Records Access Management Act (Utah Code Annotated 63G-2-305 et seq.). By accepting protected records from the UDWR, we certify the following:

1. All records provided pursuant to this Agreement are necessary in the performance of our governmental duties and functions;
2. All records will be used for the benefit of Utah's wildlife resources; and
3. No records will be further distributed, released, disclosed, or otherwise made available to any outside individual or group, including contractors, without prior written authorization from UDWR.

In the event that records are released in violation of this Agreement, we agree to notify UDWR immediately, to provide all necessary assistance to UDWR, and to assume responsibility for damages and claims arising from that release.

Signed _____ Date March 27, 2017
