On Friday, I asked Ed to clip the shapefile to our current range. Haven't talked to him about his results yet. I would like to include that final clipped figure in the SSA Report as an Appendix.

Yes, it matches really well. I'm downloading the shapefile nowl.

Best, John

John - Just an FYI, see the link below for nice ecoregion map. I have asked Ed to take the **Level II** version and match it to our current range map. If it works out, I will just include this as an Appendix of SSA Report. Note how the Northwestern Forested area (code 6.2) matches really well with Bob Inman's primary habitat.
