Hi Jens - I know you and Malin are super busy. It's not an urgent matter, but I find it interesting that there is not a clear answer on this in the published literature.

Best,
Betty

Hi Betty,

Sorry for our slow/lack of replies.

A little bit tight right now. But I will try to look at your question before I leave for holiday (which I hope will happen...).

Jens

Hi Jens - I sent the message below to Malin last month, but did not hear back.
Do you have a response to my inquiry about wolverine life expectancy?
Thank you,
Betty

Hello Malin - I have been looking for more recent references regarding the life expectancy of wolverines than the fairly old citations from Pasitschniak-Arts and Lariviere (1995). I expect it is variable, but do you have an estimated range or average value based on your studies in Scandinavia?
Thanks.
