Yes, I can send you a smaller version from GIS as a jpeg.

Thanks John! I am trying to figure out how to reduce the size of the maps. Can you export the GIS project into a jpeg to see if size can be reduced? Or do you have another suggestion? Also, PDF file format is not the best for importing these maps into word (tend to lose resolution).

Thanks again,
Betty

Hi Betty,

Here is some text on canada trapping. Let me know if you want more. I also attached a map. I can edit both if needed, just let me know. I included Shevenell's email re the Alberta wolverine data so you have more of the detail.

Best, John
