Subject: Re: avalanche info for wolverine
Date: Tuesday, April 11, 2017 12:49:33 PM

Hi Erich, Here is a webinar link so I can share a screen with you. I'll call you on the phone at 1pm.

Thanks John

You are invited to join a meeting hosted by ECOLOGICAL SERV FWS. Meeting details are listed below.

Meeting Date: 04/11/2017

Meeting Time: 12:48 PM MOUNTAIN TIME

Instant Net Conference Details:

Meeting Number: 741740188
Meeting Passcode: guinotte
Meeting Host: ECOLOGICAL SERV FWS

Join Instructions for Instant Net Conference:

1. Join the meeting now:

<http://www.mymeetings.com/nc/join.php?sigKey=mymeetings&i=741740188&p=guinotte&t=c>

2. Enter the required fields.

3. Indicate that you have read the Privacy Policy.

4. Click on Proceed.

Hi John,

Yeah, Monday isn't good, but let's shoot for Tuesday at 1:00 pm.

Cheers

Erich

Sorry for the emails Erich. Is it possible to reschedule our call tomorrow to sometime early next week? I've had something come up here that is going to take most of the morning tomorrow. If next week doesn't work, I could talk anytime 1-4pm tomorrow.
Thanks John

Dear Erich,

I spoke to Karl Birkeland yesterday and he gave me your name. I'm wondering if you have some time to chat with me on the phone this week or next? We are working on a species status assessment for the wolverine in the lower 48. NOAA and CU are doing some work for us on predicting future snowpack in Glacier and Rocky Mountain National Parks currently. I've found some interesting relationships re the location of wolverine den sites in Glacier and slope. Many of the den sites are located in potential avalanche run-outs. I can show you some slides to illustrate this. I have a few questions for you regarding this and identification of potential avalanche run-outs.

Thanks John
