We did. Weird. If you want to set up a call with Kit and include me to discuss her concerns, two of us might do a better job explaining. We could also show her the Google sheet that we made. Also important to differentiate between the pre-decision and the actual decision meeting.

We can use my phone line if you'd like:

FYI - Seems Kit has some concern w/ doing scoring for Fisher w/ managers. I'm sure we all discussed this at the ULT meeting.

Do you have an idea when this briefing will be? Rollie said his deputy, Cindy Barry, will substitute for him if scheduled while he is on leave. I can help with scheduling.

On another note, I wanted to talk with you about NRM fisher - heard you want to do some sort of modified delphi approach with managers??? I understand some utility in doing this with species experts but with the managers, not sure I get it.

Thanks, kit

Kit,

Do you have an idea who we should be inviting to the wolverine SSA update for leadership that we discussed on the last team call? Some idea of who needs to be on the call and who's optional might help w/ scheduling also.
