Subject: Mountain Valley Pipeline: Myotis septentrionalis capture report
Date: Wednesday, June 17, 2015 1:01:39 PM
Attachments: [ESI_PN593_Bat_Capture_Reporting_Table_20150616.xlsx](#)

Good Afternoon –

As required, please find attached a spreadsheet outlining capture information for three (3) northern long-eared bats from survey efforts last night. Two pregnant NLEB were captured in Harrison County, West Virginia and one lactating NLEB was captured in Montgomery County, Virginia. A radio-transmitter was only attached to the lactating NLEB.

Please contact us if you have any questions or require additional information.

Thank you,

Daniel J. Judy
