Species	Adult Male	Adult Female[1]					Juvenile		Escape[2]	Total	%
		P	L	PL	NR	UNK	Male	Female			
Eptesicus fuscus	256	38	133	108	34		76	95	12	752	53.07
Lasionycteris noctivagans	34									34	2.3994
Lasiurus borealis	193	123	51	19	21	1	37	44	5	494	34.862
Lasiurus cinereus	2		2				4	1	1	10	0.7057
Myotis leibii	9	1	2	2			6	4		24	1.6937
Myotis lucifugus	2						1			3	0.2117
Myotis septentrionalis	29	2	6	11	5		11	10		74	5.2223
Nycticeius humeralis	6		3				1			10	0.7057
Perimyotis subflavus	5	2			3		5		1	16	1.1291
Total	536	166	197	140	63	1	141	154	19	1417	100

[1] P = pregnant; L = lactating; PL = Post lactating; NR = non-reproductive

[2] Escape = escaped from net or hand before processing was complete

Summary of the 2015 Listed Bat Survey Efforts Along the Proposed Mountain Valley Pipeline Project in West Virginia and Virginia.

- Proposed Route REV 4.0
- Proposed Access Road
- Previous Route REV3v2.5
- Alternative 110
- Alternative 110J
- Alternative 110R
- Alternative 192
- Alternative 87
- Alternative 93
- Ancillary Site

2015 Mist Net Kilometer Site

- Completed (297)
- Within Known Habitat (177)
- Needed (123)

- 2015 NLEB Roost Location
- 2015 NLEB Capture Location
- ESI Portal Entrance
- VSS Approximate Cave Entrance
- 2015 ESI Listed Bat Capture/Roost Buffer
- USFWS Terrestrial Buffer
