**Subject:** MVP & ACP Projects--candy darter

**Liz, Sumalee, and Jennifer,**

- I am writing in response to the proposed listing of the candy darter. For the MVP and ACP projects, the candy darter is analyzed in the FS's Biological Evaluations (BE) because it is a Regional Forester Sensitive Species (RFSS). Although the FWS does not typically review the analyses of RFSS in the FS's BEs, the FS biologists (both at the forests and the regional offices) agree that the FWS would need to review and concur with analysis and determination of effects for any RFSS that is proposed for listing. Therefore, we will provide you with the privileged versions of the BEs for your review and concurrence. Please let us know if any other FWS personnel should receive the BEs.
- If a discussion is needed, please let us know so that we can arrange a call.
- I'm copying FERC project managers on this email for their awareness, and I'm also copying the BLM project manager for the MVP Project for her awareness.

**Galileo,**

Could you kindly provide to the FWS personnel on this email the BEs for the MVP and ACP projects?
