Subject: MVP Conservation Measure
Date: Friday, November 17, 2017 4:16:29 PM

Paul and Jen,

As discussed, MVP is committed to the following conservation measure:

Mountain Valley, LCC will provide a site-specific plan to the Service for review and written approval prior to initiating any construction activities within 0.5 mile of portal PS-WV3-Y-1. The site-specific plan will ensure no alteration, physical or otherwise, of the portal's entrance or environment that will adversely affect its use by federally listed bats, including those hibernating within the portal. In the event that the Service determines the site-specific plan cannot ensure that construction activities are not likely to adversely affect federally listed bats, Mountain Valley, LCC will consider a realignment of the Project within the range of possible alternatives such that all activities are at least 0.5 mile away from portal PS-WV3-Y-1. In certain instances, conducting some activities within 0.5 mile of portal PS-WV3-Y-1 may not adversely affect federally listed bats; however, Mountain Valley, LCC will receive Service review and written approval of all activities within 0.5 mile of portal PS-WV3-Y-1 prior to initiating such activities.

Please let me know if you need anything else.

Thank you,
Megan
