Good Morning Laurie,

Yes, I am currently preparing a letter to FERC that addresses the USFWS concerns about the MVP pipeline. The Service is currently working with MVP to select an alternative that protects fish and wildlife resources and avoids adverse affects to any threatened/endangered species. Your concern is greatly appreciated, thank you!

Morning, Tiernan,  
I'm with Preserve Monroe in Monroe county, WV and I had a couple of questions for you.  
Are you all into the process of creating a document re: the MVP to submit to the FERC?  
We're nestled into an amazing area of biodiversity here in our county and the desire to protect it has us all working endlessly these days to protect it.  
Is there any way we can assist you with your efforts?  
A very brief response on your part would be more than sufficient; surely you're incredibly busy.

Thank you for your efforts.  
Sincerely,  
Laurie Ardison
