John/Tiernan,

I am writing to follow up on my phone calls to each of you this morning. I am hoping to find out whether you expect to issue approval this afternoon, or whether we should be prepared for additional comments. If you plan to issue comments I would like to be prepared to respond as quickly as possible.

Thank you,

Megan

Hi Megan -

I was on the road when you called and just spoke with John. He was also out in the field much of the day. Tiernan has begun looking at the document we received Wednesday afternoon. They are shooting to have a written response back to you by Monday afternoon. It is their top priority and they are working to get it reviewed as quickly as possible.

John and Tiernan will be in the office Monday morning if they can help in any way.

Paul
