Hi Spencer . Talked with Tiernan. She said that during our last conversation with FERC they indicated that they would be sending a stand alone BA, prior to the FEIS, to initiate formal consultation on the MVP in Virginia and West Virginia. We don't the exact date that they intend to send it but it might be before June 23rd. VAFO is the lead for MVP. Let us know if you have any further questions.

Hi Spencer,

i just got an email from Erika Vaughan in the Department asking about the Mountain Valley Pipeline Project. She was told that formal consultation on that project in WV would begin around June 23rd when we receive the FEIS for this project. Can you find out if we agree with that? The information I got from you in March indicated that we hadn't received a complete BA yet - do we anticipate the FEIS including a complete BA?

Thank you!
Frankie
