I did this for the VASP table we will work on this afternoon. I will send you a draft later today for us to work from.

Subject: MVP effects table update - Action item

Hi all,

In reviewing the effects table for SWP with Cindy this morning, we realized that the O&M subactivity of “vegetation management – tree side trimming by bucket truck or helicopter” could be deleted because:

- 1) Nowhere in the FEIS and FERC Plan are bucket trucks and helicopters mentioned for tree side trimming
- 2) Tree side trimming could be included with vegetation management – chainsaw and tree clearing.

Therefore please do the following to your effects table:

- 1) Delete the row for O&M subactivity of “vegetation management – tree side trimming by bucket truck or helicopter”
- 2) Revise the row for O&M subactivity of “Vegetation Management - chainsaw and tree clearing” to “Vegetation Management - chainsaw, tree clearing, tree side trimming”

Any questions or comments, please let us know.

Jen
