Thank you Jen!

I will review the template you sent and will be in touch if any questions arise.

Megan

**Subject:** MVP BA appendix

Dear Megan,

We support you preparing an appendix to the BA that provides information required for formal consultation and developing the biological opinion (BO). This document should be attached to the BA when submitted to FERC. A BO is based on information provided in the biological assessment, the environmental assessment/environmental impact statement, the project proposal, telephone conversations, field investigations, and other sources of information. We have attached a template for you to ascertain what information is needed for the appendix. Upon receipt of such an appendix, we could use all, some or none of the information to complete our BO.

We look forward to receiving this document from FERC. If you have any questions, please contact me at (804) 824-2408 or via email at [jennifer\\_stanhope@fws.gov](mailto:jennifer_stanhope@fws.gov).

Best,  
Jen
