

## Mean Amount of Fertilizer and Toxicants per Cultivation Location

Soluble Fertilizer kgs (lbs)	575 kg (S.E. 69) 1,268 lb
------------------------------	---------------------------

Liquid Fertilizer L (oz)	40 L (S.E. 16) 1,353 oz
--------------------------	-------------------------

Carbamates	1.42 L (S.E. 0.2) 48 oz
------------	-------------------------

Organophosphates	2.43 L (S.E. 0.5) 82 oz
------------------	-------------------------

Pyrethroids	6.06 L (S.E. 1.4) 205 oz
-------------	--------------------------

Neonicotinoids	0.6 L (S.E. 0.1) 21 oz
----------------	------------------------

Avermectins	2.6 L (S.E. 1.7) 90 oz
-------------	------------------------

1 <sup>st</sup> Gen ARs kgs (lbs)	7.7 kg (S.E. 4) 17 lb
-----------------------------------	-----------------------

2 <sup>nd</sup> Gen ARs	4.1 kg (S.E. 2) 9 lb
-------------------------	----------------------

Neurotoxicant Rodenticides	3.9 kg (S.E. 2) 8.7 lb
----------------------------	------------------------

Phosphides	2.0 kg (S.E. 1.8) 4.4 lb
------------	--------------------------

Molluscicides	9.5 kg (S.E.10) 21 lb
---------------	-----------------------
