AGENCIES: Fish and Wildlife Service, Interior, and National Marine Fisheries Service, National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of policy statement.

SUMMARY: The Fish and Wildlife Service and National Marine Fisheries Service (hereafter referred to as Services) announce interagency cooperative policy to establish a procedure at the time a species is listed as threatened or endangered to identify to the maximum extent practicable those activities that would or would not constitute a violation of section 9 of the Endangered Species Act of 1973 (Act), as amended, and to increase public understanding and provide as much certainty as possible regarding the prohibitions that will apply under section 9. By identifying activities likely or not likely to result in violation of section 9 at the time a species is listed, the Services intend to increase public awareness of the effect of the listing on proposed and ongoing activities within a species' range.

SUPPLEMENTARY INFORMATION:**Background**

Section 9 of the Act prohibits certain activities that directly or indirectly affect endangered species. These prohibitions apply to all individuals, organizations, and agencies subject to United States jurisdiction. Section 4(d) of the Act allows the promulgation of regulations that apply any or all of the prohibitions of section 9 to threatened species. Under the Act and regulations, it is illegal for any person subject to the

jurisdiction of the United States to take (includes harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect; or to attempt any of these), import or export, ship in interstate or foreign commerce in the course of commercial activity, or sell or offer for sale in interstate or foreign commerce any endangered fish or wildlife species and most threatened fish and wildlife species. It is also illegal to possess, sell, deliver, carry, transport, or ship any such wildlife that has been taken illegally. With respect to endangered plants, analogous prohibitions make it illegal for any person subject to the jurisdiction of the United States to import or export, transport in interstate or foreign commerce in the course of a commercial activity, sell or offer for sale in interstate or foreign commerce, or to remove and reduce to possession any such plant species from areas under Federal jurisdiction. In addition, for endangered plants, the Act prohibits malicious damage or destruction of any such species on any area under Federal jurisdiction, and the removal, cutting, digging up, or damaging or destroying of any such species on any other area in knowing violation of any State law or regulation, or in the course of any violation of a State criminal trespass law.

Policy

It is the policy of the Services to identify, to the extent known at the time a species is listed, specific activities that will not be considered likely to result in violation of section 9. To the extent possible, activities that will be considered likely to result in violation also will be identified in as specific a manner as possible. For those activities whose likelihood of violation is uncertain, a contact will be identified in the final listing document to assist the public in determining whether a particular activity would constitute a prohibited act under section 9.

Scope of Policy

This policy applies for all species of fish and wildlife and plants, as defined under the Act, listed after October 1, 1994.

Authority

The authority for this policy is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531-1544).
