Subject: Status of fisher documents

Hi Angela-

Since IT couldn't resolve the problem in the time we needed, we separated the documents out into multiple master copies.

General Threats is being edited by me, Gina, Sue, and Elizabeth and the master copy is hosted on my OneDrive and network folders.

Entire SSN section is finished and was only edited by me and is stored on my personal computer.

Entire NCSO section is being edited by me, Gina, Sue, and Elizabeth and the master copy is hosted on Gina's OneDrive and my network folders.

I have a master copy of everything else in the document as well and everyone understands they are not making edits in the OneDrive folder and only using it to finalize their public comment responses.

I will be in at 9 am tomorrow and can work with you to figure out the plan for a master compilation file of all these sections.
