Sorry about that. Here is the HRC HCP. The fisher sections of the HCP are very short.

Greg,

I think this is the GD HCP? I'm looking for the Humbolt Redwood Company HCP.

Thank you,

Gina

Greg,

Can I get a copy of the HCP? Please see below.

Thanks,

Gina

Humboldt Redwood Company (Pacific Lumber Company when signed in 1999) HCP

1. Period of permit: 50 years (from February 1999).
2. Acres within DPS: Initial Plan Area = 211,700 acres all within Humboldt County (current covered area may be slightly higher or lower than the initial plan area); 100% of Plan Area falls within the DPS area. Represents 0.587% of the 36,021,808-acre DPS area.
3. Conservation benefits for fishers (as stated in the HCP, not based on my professional evaluation of the Plan):
 - a. Retention of late seral habitat (10% retention standard) through the life of the permit is likely to provide denning and resting habitat for fishers.
 - b. CMZs (channel migration zones) and RMZs (riparian management zones) are expected to provide connectivity across the landscape.
 - c. Retention and recruitment of suitable habitat structural elements are expected to provide older forest legacies in younger stands when those stands reach mid-successional seral stage.

Bob, Sue, and Greg,

In order to address the Existing Regulatory Mechanisms topic, please send us the following information for Green Diamond HCP, Oregon CCAAs, SPI CCAA:

- 1) Period of permit, eg 10-year, 50 year
- 2) Acres of permit located within the DPS. And, for extra credit what percentage of the DPS is covered by the permit. Sue - how much of the CCAA land is currently enrolled. We'll assume the remainder is potential enrollment
- 3) Two or three bullets describing the conservation value/benefit to fishers
