I have not squared these with the current version of the rule. So some things would need to be tweaked (e.g., title, rationales if changed from last week).

And I never heard back from Caitlin on what if anything to include for "potential issues," so I put this simple statement: "Legal challenges by non-profit environmental organization(s) are likely as a result of our revised DPS analysis, and not listing the NCSO subpopulation area/DPS."

I've removed the OneDrive docs...don't trust it and formatting of the InfoMemo got whacked.
