Brady is a book. I ordered it last week but it hasn't arrived yet.

I'm working to update Service 2020 (the map of fisher locations).

Josh, working on the DPS boundary. Currently they are joined and I'm splitting them.

I think that's all I'm supposed to be working on...?

Subject: missing cited documents

Hey all,

Here's a couple of items needing fixed with respect to the references cited.

The following document is cited in the rule, but is not yet uploaded to the references folder. It is used in the General threat information section under toxicants. Gina, is that yours?

Brady, E. 2013. Humboldt: Life on America's Marijuana Frontier. Grand Central Publishing. New York, New York.

And here's a couple items for team SSN to rectify.

There is a Hanson 2015, p. 500, cited in the SSN wildfire section. Maybe this is a typo?

Also, the references cited document lists a Thompson 2019 personal communication, but the uploaded document in the references folder is Thompson 2020 pers comm. In the rule, the pers. comm. Is Thompson 2019. Please correct as needed

Heidi,

Once these are corrected, the references cited should all be in the references folder. However, I did not do this for the FR and other Government documents part. Leaving it to you to go back through the document and do the final cross check with what's cited and what's in the bibliography.
