Caitlin and Bridget--Dan informed me that you are already aware that fisher is done/ready, and I have uploaded it (20200320\_Fisher final rule.docx) and Kerry O'Hara's surname onto the SAT drive to now accompany all the other package files. But I specifically wanted you to know two things:

(1) I did an extra read-through this evening to scan for little errors...extra spaces, misspellings (the "I" is in all of the publics (!) and Yosemite NP will not know how we kept misspelling the beloved Tuolumne River), hyphens vs. en dashes, etc....I made these minor corrections for consistency after RSOL surname (Kerry was aware and fine this was happening). Cleaned up, but nothing significant.

(2) In case you want to easily see everything that has changed since your review at the beginning of the month, I placed a track changes version into the "to HQ for review" folder called "Track Changes from Previous HQ review.docx." This shows everything changed following yours, PRB, and RSOL reviews.

ENJOY!!!!!!
