I got your message, thank you, and know we need to set up a call. Half of our staff retired or transferred and we are working on backfilling and juggling. We are overbooked for consultations and project reviews. Can we talk Friday December 6? We did see that SpaceX blew up a rocket test yesterday and the top of the rocket and nitrogen gas spread over the National Wildlife Refuge. I think refuge staff are assessing the situation and hope to know more when we speak.

Hi Dawn –

This is a follow up to my voicemail. Please give me a call at 202-267-9305 so we can set up a time to talk about the SpaceX BA/BO for Boca Chica.

Thank you!
