Ok – sounds good.

Let me know if you need anything else.

**Subject:** State Highway 32

Hi Stacey. Thank you for tracking down the details on SpaceX's use of TXDOT's planned highway. I really appreciate it.

We did not know that project was alive again, as it has gone dormant on and off for at least the past 15 years. We will be working closely with TXDOT and Robyn Gelston on this and it involves Department of Homeland Security, International Boundary and Water Commission, and South Texas Refuges to get levees and walls moved to build the road. Should be very interesting!

Dawn
