

# HELP THE HERPS!

Learn how to protect wildlife from water pollution and make a frog or turtle out of "trash" to take home with 15 Minute Field Trips!

**Saturday, July 2nd, 2-3:30 p.m.**  
at the Kettle Pond Visitor Center

Register at <https://bit.ly/KettlePond> or call 401-364-9124 X 4413 anytime.

Did you know RI has TEN frog species? You can learn their calls, how to become a FrogWatcher, and to make habitat for toads.

Did you know RI has SIX freshwater turtle species? They are threatened by pollution, habitat loss, climate change, vehicle crossings, and people taking them home.
