81	Land Use Authorizations	Land Use Authorizations			Action: No Similar Action
82	Land Use Authorizations	Land Use Authorizations			Action: No Similar Action
83	Land Use Authorizations	Land Use Authorizations			Action: No Similar Action
84	Land Use Authorizations				Action: No Similar Action
85	Land Use Authorizations				Action: No Similar Action
86	Land Use Authorizations				Action: No Similar Action
87	Land Use Authorizations				Action: No Similar Action
88	Land Use Authorizations				Action: No Similar Action
89	Land Use Authorizations				Action: No Similar Action
90	Land Use Authorizations				Action: No Similar Action

New GOA 1/28/2013	Program Area	Sub Topic	Threat	Indicator	Alternative F – All Occupied Habitats
91	Land Use Authorizations	Exclusion	Infrastructure	Acres excluded, acres below 3%, acres of avoidance	Action: New corridors/facilities New transmission corridors, ROWs for corridors (oil, gas, water/aquifer mining), and communication or other towers are prohibited in ACECs and occupied habitats. (WWP)” ““ “New corridors/facilities will be sited in non-habitat and bundled with existing corridors to the maximum extent possible. (WWP)” “
92	Land Use Authorizations	Underground	Infrastructure	miles of lines buried	Action: Same as Alternative A.
93	Land Use Authorizations	Reclamation	Infrastructure	miles of line reclaimed	Action: Same as Alternative A.
94	Land Use Authorizations	Relocation	Infrastructure	miles of line relocated, acres excluded	Action: Same as Alternative A.
95	Land Use Authorizations	Avoidance	Infrastructure	acres of avoidance	Action: Same as Alternative A.
96	Land Use Authorizations	Co-location	Infrastructure	miles of lines; footprint area	Action: Same as Alternative A.
97	Land Use Authorizations	Land Tenure	Urbanization/Conversion	acres retained; acres of habitat	All public lands in ACECs, occupied habitats, and identified restoration and rehab land areas will be retained in public ownership. (WWP)
98	Land Use Authorizations				Action: No Similar Action
99	Land Use Authorizations	Acquisition	Urbanization/Conversion	acres identified for acquisition	Action: BLM and FS will strive to acquire important private lands in BLM-designated ACECs and FS Sage-Grouse Special Areas. Acquisition will be prioritized over easements. (WWP)” ““ “
100	Land Use Authorizations	Withdrawal	Mining	acres withdrawn	Action: Same as Alternative A.
101	Land Use Authorizations	Withdrawal	Mining	Acres closed/withdrawn	Action: Same as Alternative A.
102	Land Use Authorizations	Corridors	Infrastructure	Acres/miles of corridors	Action: ROWs will be amended to require features that enhance sage-grouse habitat security. (WWP)” ““ “Existing designated corridors in BLM ACECs and FS Special Areas may be accessed for maintenance. (WWP)” “
103	Land Use Authorizations	BMPs	Predation	Acres	No action.
104	Land Use Authorizations	Wind Energy	Infrastructure	Acres available for renewable	Action: No Similar Action
105	Land Use Authorizations	unauthorized uses	infrastructure	acres	Action: No similar action.
106	Wind Energy Development	siting	Infrastructure	acres available for wind	Action: No similar action.
107	Wind Energy Development	siting	Infrastructure	Acres available for wind	No action.
108	Wind Energy Development	Siting	Infrastructure	acres of ROW avoidance	No action.
109	Wind Energy Development	siting	Infrastructure	acres of ROW avoidance/exclusion	Action: No Similar Action
110	Wind Energy Development				Action: Industrial solar projects will be prohibited in ACECs and occupied habitats. (WWP)
111	Industrial Solar				Action: No Similar Action
112	Industrial Solar				No action.
113	All Renewable Energy				Action: No Similar Action

New GOA 1/28/2013	Program Area	Sub Topic	Threat	Indicator	Alternative F – All Occupied Habitats
114	All Renewable Energy				Action: No Similar Action
115	Habitat Restoration and Vegetation Management				Action: Same as Alternative A.
116	Habitat Restoration and Vegetation Management				Action: Same as Alternative A.
117	Habitat Restoration and Vegetation Management				Action: Composition, function, and structure of native vegetation communities will <u>be consistent with the reference state of the appropriate ESD and will be maximized</u> to provide for healthy, resilient, and recovering sage-grouse habitat components. (WWP)
118	Habitat Restoration and Vegetation Management				Action: To be determined by team. Consider the yellow highlighted WWP text or make Same as Alternative A.
119	Habitat Restoration and Vegetation Management				Action: Same as Alternative A.
120	Habitat Restoration and Vegetation Management				Action: Same as Alternative A.
121	Habitat Restoration and Vegetation Management				Action: Exotic seedings will be rehabbed, interseeded, restored to recover sagebrush in areas to expand occupied habitats. (WWP)
122	Habitat Restoration and Vegetation Management				Action: Same as Alternative A.
123	Habitat Restoration and Vegetation Management				Action: Same as Alternative A.
124	Habitat Restoration and Vegetation Management				No action.” “
125	Habitat Restoration and Vegetation Management				- Active restoration practices:” “Removal of livestock water troughs, pipelines, and wells.” “Where possible, without further damage to springs/water sources, remove waterline piping and maximize water at spring/stream sources supporting diverse riparian and meadow vegetation. “ “Promote natural healing of headcuts to the maximum extent possible by limiting disturbance throughout the watershed. At times, a combination of methods may need to be used – but gabions and structural devises and boulder dumping should be limited, and restoration should strive for a functioning system. “ “Ripping/recontouring of roads and seeding with native local ecotypes of shrubs and grasses. (WWP)
126	Habitat Restoration and Vegetation Management				Active restoration of crested wheatgrass seedings. This can be accomplished, following targeted restoration planning to expand, reconnect or recover habitats required by sage-grouse by:” “Inter-seeding sagebrush seed or seedlings. “ “Removal of crested wheatgrass through plowing while minimizing use of herbicides. Subsequent re-seeding with local native ecotypes. “ “Active restoration of cheatgrass infestation areas.” “In all cases, local native plant ecotype seeds and seedlings must be used. (WWP)
127	Habitat Restoration and Vegetation Management				No action.

New GOA 1/28/2013	Program Area	Sub Topic	Threat	Indicator	Alternative F – All Occupied Habitats
128	Habitat Restoration and Vegetation Management				No action.
129	Habitat Restoration and Vegetation Management				Action: No similar action.
130	Habitat Restoration and Vegetation Management				No action.” “
131	Habitat Restoration and Vegetation Management				No action.
132	Habitat Restoration and Vegetation Management				Action: No Similar Action
133	Habitat Restoration and Vegetation Management				No action.
134	Habitat Restoration and Vegetation Management				No action.
135	Habitat Restoration and Vegetation Management				Action: No similar action.
136	Habitat Restoration and Vegetation Management				Action: No Similar Action
