---

Could you look at this fact sheet and see if you find any glaring errors? Particularly related to a part of the sage grouse story that we should be telling. Appreciate your help as Jeff is out this week.

It looks fine to me but I thought you might want to check it too. JB

Hi Jodi

Over the past month or so, we've put together state-specific fact sheets with some very simple data to describe GRSG and its range within state boundaries. The intended audience for this is Congressional members/staffers and secondarily, the general public.

Attached is the fact sheet for Montana.

What we're looking for is guidance on the emphasis or omission of key parts of the "GRSG story" within your state boundaries.

Please note that we've used a new, GIS-generated set of range/ownership values for each state to ensure consistency going forward. This may not be consistent with numbers the FO has used, but they are based on the most recent data sets and so I attach that document as well for your reference.

Recognizing that everyone is busy, we'd like to get the FO's comments quickly so we can get these into surname.

If you have any questions, please call.
